

## THI-SHOW TRANSCRIPT 2018-12-27

This is a reminder of what took place in 2018 within the THI shows, with portions of the intel, some of the op-ed pondering pieces, mixed with a smattering of humor and music, lets take a trip down memory lane.

Weeeelllllll as we wind down 2018 and head into 2019 with anticipation of what next, perhaps a recap on what I predicted at the end of 2017, a few misses here and there, but a lot did take place as you will see.

2018 will be the year of the Unveiling, doors will be opened on all levels, for you to walk through. There will be new plans, new hopes, and new dreams, doors will open to hidden realms and dimensions, more intel, new agreements, arrests and removals will be unveiled. The Foundation will be built with lasting implications for many of us. The cabal will be ceremoniously beaten with a stick, pen and truth. Greater clarity will unveil itself on many levels as the year progresses. Justice will be served on many. I expect a rapid surge in technology some of it good, much of it not depending how deep justice bites into the cabal structure. I see a surge of awakening happening early next year, as some jump on board the truth train as it departs for it's around the world journey. I expect many to lose it next year as more of the truth is unveiled. I expect more exposure of pedogate and child trafficking, plus a greater unveiling on and of organ harvesting. I expect a handful of the big players in alternative media will come to deeply regret their folly next year.

Mewe has increased by 300%

Facebook increased by 50%

Spreaker shows increased by 50%

Spreaker followers increased by 700%

Shows increased by 500% plus

Youtube followers doubled

Thinkdifferent website increased enormously

So, what of THI, well we are at the last shows of this year, seems like we have been going longer than 31 months as we have covered so much. The flowing story book style, context and content of our show, has delivered many chapters, and so listeners now can see the connections and where it is all leading to.

Our show was built on it's name Truth, Honor & Integrity and we have tried at all times to deliver shows with content that observes the name of the group. Do we get everything right, no, but many of you have seen our narrative unfold and explode across the internet this year, largely without endorsement or recognition of where the material came from apart from a few notable exceptions, but that's ok as at least the knowledge is getting out, and more and more people seeing through the illusions and sleight of hand tactics displayed across much of our community.

We came in with this show with the intent of getting people to think and act different, we cant expect change following the old worn out model, and it pleases me to see so many in our group thinking and acting different.

## JANUARY

\*Brought in the now common op-ed pieces starting with the Wizard of Oz piece, (no it doesn't mean all people in Australia do witchcraft lol)

Straw man accounts, yellow brick road (gold) Tin man tin being Tax Identification Number, "What about the trip through the field of poppies? Did you notice how this had no narcotic effect on the Straw Man (no brain) or the Tin Man (no heart or soul)? They weren't real people—drugs couldn't influence them.

A cowardly lion who had big roar but as silent as a mouse, but who saved the day? a dog, not a bloody cat, but the dog Toto, toto means

in total or altogether.

\*media or Medea aka goddess medea, medea was a sorceress who enchanted people, just like the current media

\*you know I keep mentioning of 500K children go missing permanently each year in America, I finally got hold of the global figure 8M, thats 21917 per day, when you add in the 27k children who die each day from malnutrition and disease 49K children gone each day

\*sadly our warning over more weather manipulations in Ca did not prevent more deaths and destruction

\*America has been sold out to psychopaths whose only goal is looking after the cabal and their gods, yes you in the military, yes you in the house, senate, congress or the white house as in all of you, yes you in the inappropriately named intelligence agencies, and you in the other 3 and 4 letter groups who have nothing better to do than destroy, to all those in the afore mentioned groups who have stood up and rejected their collective retardedness, we thank you, pity there isnt more who exhibit your courage, too few exhibit truth, honor or integrity, more a case of toothless, horror and ineptitude.

\*America is currently operating on credits from the DOD having gone through the banks credits, the country has no funds except that.

\*During the Haitian crisis the Clinton foundation did human experimentation on the natives before they were moved here. They were attempting full DNA manipulation using live cholera vaccines as the vehicle to then introduce into the USA.

\*did you know the foodstamp program comes not out of our taxes, but our birth certificates

\*This week a test was done by the Trust people to prove we had the means and the live banking codes to support a new system and way of operating, for those unaware to get into the main banking system you need access via codes, now all their codes are broken, shut down or not valid anymore and haven't been for last five or more years. So our team gave the US military live codes and a nominal amount to prove we had the codes, they checked it out and then left it there, did nothing and went on their way saying the RV will be happening next Tuesday, We also sent codes to Hong Kong as a tester, but with a short closing window so the funds were not removed. The message is now clear to our govt and USA treasury that we have the working codes that no one has seen for last 5 years, all proven beyond any doubt.

\*I did a ponder piece on the planetary mother and covered many of the ET species here and ended with this, This is the world we have today an uncaring, greedy, comparative mindset mired in consumerism, that is destroying us all, but deeper questions remain as to why so many species and races suffer the same negative or dark consequences, can it mean most of the species are all bad? can it be a psychotic AI influence? can it be a fractal virus thing? Was this planet placed in a frequency zone not conducive to organic or harmonious life patterns? Or can it be there is something wrong with this planet and ultimately the planetary mother? Those questions are not for me to answer as we all have our own ideas and theories, but the overview look at it from a neutral background does beg the question, was it the planet all along that sends all beings into a downward spiral and predominantly predatory? That is the great question that remains unanswered, but something to ponder on.

\*North Korea issue is not solely about Kim Yung yet again the Roths spin their web of evil, it was the Roths who convinced North Korea to build weapons, because they dont have any, so putting 2 and 2 together you now understand some of the rhetoric regarding North Korea.

\*Something to ponder, we have often heard about Muslim camps on our soil, Russian and Chinese camps also, funny they have never mentioned the Nazi base on our soil dont ya think? I will let you ponder that and reply later

\* In a lengthy piece about various alt media people, we end January with this funny. Lets not forget the \$6K Corey asked for his wife's teeth how is that helping disclosure? and the \$12k he received to move house when his Blue Avians can allegedly move him instantaneously to Mars and The Kuiper Belt but cant move him and his belongings to a new house in the same state, you cant make this stuff you would think, well they did and many fell for it and too many still do. \$6K for his wifes teeth indeed, perhaps I will do a gofundme to have my ass hairs manicured.

## FEBRUARY

February started with 2 shows in first two days and with quite a bang, in more ways than one.

\*appears the train hit on 200 republicans yesterday was a false flag event, rumors of a helicopter take down in response to that attack, may get more clarity and details on those events, also possible military plane going down from Nellis base drill may also be related to ongoing war.

\*I did a fairly scathing piece based on Mr. Trump bumbling State of the Union address, to the person who said I am all Trump, that piece said it all, do right and I support, do wrong and I will call it out.

\*word of warning for attendees of the superbowl, it is not super bowl, it superb owl this weekend, all hail and worship Moloch and give it masses of loosh energy, like the election farce and the bizarrely called day called Thanksgiving, which celebrates a British mainly massacre of the native population, maybe this is another American cultural event we should bypass?

\*Then came this piece that rocked many around the world in the higher circles, but significantly ignored by our corrupted alt media, when I read out this letter. The Declaration of American sovereignty.

#### READ OUT TRUMP LETTER.

I followed it up explaining how original Independence was a scam, how we have had no American government or constitution since 1861, US Military is not for American interests, and is ran for and by Globalists. How income tax is not a tax but a tribute to The Crown, how our whole financial system was taken over by the Federal Reserve which is not an American bank, but a Crown subsidiary, as well as the IRS. How our whole legal system is also based on The Crown Bar, BAR means British Accreditation Registry, and how both the American anthem and flag are British designed also, quite a lot for Americans to take in.

\*February brought out the first public rumblings of MWHT and KOM which had split 4 months previously due to Jesper working with and for the Rothschilds, and a raft of website and blogs being related to Kim, none of which are, and so we played this song Manna, Manna and Manna

\*Trump announced a military parade scheduled for 11/11/18 and that made us all go hmm, following the sovereignty letter.

\*February 14th we did our first show if the year with Kim, were she explained in her own detailed special way, all things about the sovereignty letter and it's implications, a background into the live banking codes, the quantum system, what is global marshall law and many other subjects in great detail.

\*The following day I did a full expose of who and what Anna Von Reitz is and works for, this was necessary following several attacks privately and publically by Anna and her Langley 2 paymasters, The Vatican and her Hapsburg bloodline connections, sadly she chose to continue the feud through much of this year, as her paymasters got more and more desperate.

\*Delay in moving forward due to military hardware lease deal to asian chinese elders but now we have the full backing, support and assistance from Chinese pm XI a solution to that is a lot nearer to conclusion, The Jesuits are trying to enact a law from 1488 where they think they totally own our military, they think they own the Chinese military as well, America was only refound again by vatican agent Columbus and so how can they lay claim from that date, maybe this is why the vatican attorney Anna von reitz is fleeing the country, to lay hold on blocking the American sovereignty plans. Jesuits need to grasp they are no longer the powerhouse of anything and we will remind them they are a sub sovereign to the trust, not the other way round, going forward it may be the case the holy see, rc church, vatican will not be declared a sovereign at all, I hope they like that. Trust has the power to declare sovereignty as proven with Kingdom of Manna and also America, so by same token has the ability to deny it as well, one of the conditions of a sovereign is a sovereign nation entity cannot attack another sovereign.

\*Another week goes by riddled with staggering hypocrisy and public waste as \$100M of public money spent to come to the conclusion that Russian trolls interfered or decided the outcome of the last USA inc election, sadly that bs'ery continued on throughout the year.

\*Late February brought us a very detailed piece about the veil or matrix, mental planes and soul evolution, the earth rods for stabilizing the planet, the frequencies, New Earth, changes of vibrational frequency and this classic funny came up to lighten the mood, your all going to die piece.

In February we did a song request of Stick the NWO up your ass for a special girl of one of our members Beth Dalton, and we played the song for Peyton, the video was posted of her reaction, that was priceless, we gave the same excitement to Rhodes boys as they like the ass song as well.

In a world of madness, greed and chaos we can all provide one moment that changes one persons life on any given day, that small touch can make so much difference, and I am glad I was able to make Peyton and Rhodes boys day with a simple mention, a simple mention for me but great joy for them, check out the video on FB it was recently bumped up.

## MARCH

\*The Jesuits tried to open a gate to bring others, others being their gods the serpent people in here after the previous attempts failed following chinese elders human chompfest in December, well they never came again and they will not be coming again anytime soon, their days here are over. 8 of the jesuits were taken out permanently and others dealt with in other ways, for violating the peace treaty.

\* Because they were trying to do the RV again, the saturday failed attempt, got some of the RV people themselves very pissy and 10 of the people who failed to deliver the payout were shot and killed, The RV failed again, and like a faulty robot they repeated failure again and tried "operation stupidity" again early Monday morning and the outcome of that? it failed again, so the government and other top brass asked The Trust to provide funds for everything that was needed including the foundation on Monday afternoon, transfers were made and then because system is transparent, we all sat back and watched where the funds were going to. All was going well until the Cheney, Bush, Obama and Clinton group stepped in and blocked 72 banks from accepting the funds, not only that they also tried to steal some of the funds via The Comex group, which is linked to Bush and Chicago crew.

\*Monday night military guys showed up in an attempt to snatch and grab Kim to prevent her and team going forward, that failed as well, but it highlights the dangers people face doing this stuff.

\*Tuesday evening brought more attacks on the team and more goons lost their lives.

\*Wednesday came a release of the funds again and all were in attendance US treasury, government, military, agencies, pentagon, many heads of states in various countries, all now know who is the real trustee and its not Roths or Chinese elders, its Kim as we have said all along, you name it, all were watching the funds being delivered to the various banks, and then whilst live the clowns stepped in again and cancelled all American bank transactions until further notice, to much horror of all officials who were watching, all have been shown again, who did, where they operate from and where their machines are, no illusions anymore.

\*SSp I can now report have had all avenues to assistance, support and access points portals on this planet closed off to them, no one will allow them access anymore, including their former entity allies.

\*We did a piece on what really happened with the Rodney King incident on the 27th anniversary, after finding out cops in the Florida shooting were told to stand down.

\*next I want to make an apology for putting out info that turned out to be wrong, Dickhead Cheney is not dead yet as previously stated, that info came directly from the military, and appears maybe a double was removed and not original, original is in hiding, why? because he has to.

\*Cheney and Rothschilds were given a final ultimatum on Monday to get on board and go straight, yet again they made the wrong choice and basically told us to go f ourselves, and so actions were unveiled, following their blocking attempts for releasing the funds again on Monday, Tuesday the team capped off the black market oil fields out of Iraq and cut off their funding from it.

Another attempt at transferring the funds was made and They then blocked another transfer, so actions taken for that misdemeanor as well, the team arranged and burned some of the poppy fields in Afghanistan, cutting off another source of their funding, maybe now we can no longer justify our military being there for the sole purpose of collecting drug money for black budgets and operations.

\*The Oscars Awards ceremony attracted its smallest recorded US television audience.

\*I did an extensive op-ed on fear and in particular the American fear based program, that has left many in this country frightened of their own shadows.

\*I also did a piece on the concern of synth's theory, So the main issue of people struggling with the concept of synths is not the practicality of it, but your connections to those who exhibit the behavior modes of those called synths, that is all that is holding some people back from accepting it, it is an emotional attachment issue, and yet many who listen to this show will know in the last 2 years in particular those emotional attachments have been disconnecting at an alarming rate, long term relationships falling apart, be it marital, family or friends. I suspect over this year a further increase in the separation of people, as more and more seek like minded individuals, I cant imagine being with a partner and not being able to discuss, possibly the most important time in human history, it is limiting and stunting your development, dragging people along who feel life is all just wonderful, in a one person closed off bubble life is always great, until the time their bubble of life is popped.

\*On March 11th, Chinese People's Congress voted to allow its President have no term limited, President Xi is staying in office to carry on offensive against rogue elements, clowns are trying to install one of their own to alter the path, so Xi is staying on to complete task.

\*Political musical chairs in America will increase not decrease, think along the lines of appointment > appointee highlighted > appointee exposed > and appointee fired and you may see a pattern.

\*Well Q and Drake both promised mass arrests again and again gave out dates, this time March 11th to cries it's all happening, all hopes risen and all hopes crushed again it seems.

\*here is a theory of mine that i cant guarantee is correct but i have tried to put various pieces of a puzzle together and see if it makes sense.

One of the things that puzzled me is how all over the internet there are chakra diagram systems and most have them aligned with planets and the sun, and my observations were how and why are the planets all different on each diagram or culture, something is not right, and in particular with placing the sun into one of the chakra/energy center positions, i felt that the Sun doesn't belong in that alignment and so off i went with my knowledge, pondering and an unexpected input from a piece remembered from dreamtime.

So the 7 energy centers/chakra system had the sun in most place at the heart center and the 3 planets stationed in the 3 energy points above and 3 points below were different planets, so I replaced the sun at the heart center with the planet that is an anagram of heart, that being earth. It makes sense I thought, so then we were left with 3 planets above the heart and 3 below, then i had a flash of inspiration that these 6 planets 3 above and 3 below all had to be rocky/solid bodies to appear in the physical plane, the 3 below I had no problem fitting in as it was Mars, tiamat and selene, the latter two destroyed in wars of the past, and remnants of such are contained within the asteroid belt, it has been suggested that some of the organic souls here on earth were refugees from Tiamat and Selene.

But then I ran into a problem as there was only 2 planets Mercury and Venus above the earth, and that is were another flash of inspiration came up, i woke up one morning a month ago with the letters PV and E and like the GNA I mentioned in Humanity Unplugged show, I couldnt make sense of it, so whilst pondering on a possible missing planet, those 3 letters came into my head P V E, then something triggered in me V and E are Venus and Earth, but what is the P, cant be Pluto, so I looked up ancient stuff and found that planet name going by Phaeton and checked to see whether that would then fit into this theory, well to my surprise it did.

In mythology Phaeton was hit by a brown dwarf known as Nemesis which kind of fits in with other aspects of whether the moon is actually the outcome of that impact, moon is far too large for natural moon, so could moon be nibiru, could it be remnants of Phaeton or mixture of both, either way the moon was partially hollowed out by some groups and parked in our orbit or should I say trajectory.

So with 3 planets either side of heart center earth, I now moved onto the next conundrum, if sun is not the center of the solar system or even if it is, how can you have a geocentric orbit for all planets? you would need 2 magnetic fields to create that spin and currently we have one sun, so I drew the diagram and placed sun above the top 3 planets, but to create the spin you need a magnet below the bottom 3 planets, and then viola, the planet below the bottom 3 planets of Mars, Tiamat and Selene is Jupiter, A so called planet that even mainstream science admits doesn't orbit the sun, yes because in distant past it was the sun, again this is mentioned in mythology, but also mainstream science believe it is a failed star, and from all accounts with certain technology it could potentially be fired back up again.

So now I had the complete system earth heart center, 3 planets equalling the 3 energy centers above the heart and 3 planets below representing below the heart energy center, 1 sun above and 1 sun below, a portal in and portal out, one light and one dark aka black hole sun, but this was the balance and dance of the cosmos, planet above earth is Venus known as the light and planet below Mars representing war and the dark, all balanced out.

But with Jupiter now not firing and creating the harmonic dance of balance with the sun, the magnetic field has then been broken, so the planets are not going in a geocentric orbit, but they are being pulled by the remaining magnetic field left - the sun into a heliocentric motion, which is now being considered by mainstream science after Nassim harramein and others mentioned it a while back. The heliocentric motion is created by one magnet which is the Sun and so the sun is pulling all the planets behind it in a spiral snake rolling type motion.

This then explains when we have a planetary alignment and you can see 3 or 4 stars not in a row as the geocentric model would have it, but they are seen in an arc, which then supports the heliocentric model further.

Question remains, if this is all true was the failed 2nd sun done on purpose? if so why? And if it is given the sun is pulling us to a new area, are we moving out of a certain space and time that is more conducive to full organic life? Who will we meet along the way?

And does this model then explain if you put a fixed camera in position with time exposure lense we only view one spot and the night sky spirals?

Something to get your thinking caps into.

\*Chinese elders who are feeding everyone the tomorrow game on the RV are now in hiding due to non payment again this week.

\*I've also gotten calls from all colors of dragons this week looking to make deals. So far only one looks viable.

\*I warned dragons today either they cooperate or we will sell jp Morgan, wells Fargo and bank of America off to us government for one dollar each.

\*On Friday 15000 pages of documents went out to each bank with names, type and level of fraud committed and all the crimes - fulcrum file time, also sent out was full proof trust holds all the accounts and assets contained, like the banks capital and all their stocks, this was done for a look what comes next event, I wonder what that is - oops

\*progress due to EO posted by Trump recently is being made on military hardware deal, once done this will change the landscape a bit.

\*On Monday thru Tuesday the trust bought a load of gold to be sent direct to the US Treasury which will be converted into cash and allow liquidity into the smaller banks, as of Tuesday bigger banks not playing ball, but clock is ticking very quickly, cash will be 1/2 private projects for the people and 1/2 for the treasury and the government

\*Wednesday brought more threats and assassination attempts from the Ann group and Obama's Chicago gangster crew, that failed

Work continued on the banks and HSBC and Citibank is expected to be the first two sold off, Citi group in particular hold vast funds stolen from the former USSR, this will be returned to them.

\*Sergey Brin is co founder of Google, he married Anna Wojcicki co founder of 23 and me, her sister Susan Wojcicki is the CEO of youtube

\*This month saw the breakout into the public of the expose THI had done 7 months prior on NXium

\*March also saw the rise of the slapper, known as Stormy Daniels

\*March of our lives about gun laws, except it is not about gun laws at all, it is about people control and decimating all of our remaining rights, that is bad enough but women and children mainly are being used like wind up puppets to force public opinions, all too reminiscent of Nazi Germany.

\* education (n.) 1530s, "childrearing," also "the training of animals," from Middle French education (14c.) and directly from Latin, so we have sent our animals to a school and the etymology of school which means to educate, to reprimand and discipline, sounds like a prison to me, of course school also applies to a group of fish, so you have the maritime law rules again, like berth, canal, water, as the female gives birth from the vagina, which in my book is a sacred

place, it is where the first breathe of life originates, and yet that word also derives from latin and means sheath and a scabbard, a scabbard is a knife, sword, dagger or a weapon, you can't make this stuff up, the more you look into word magic the worse it gets, most negative terms all derive from Latin and it is my understanding that it is Draco in origin, fitting me thinks.

\* all of us have had more proof on virtually every level of life and topic over the last 5-10 years in particular, and it's still classed as not proof, so like the question what is normal, perhaps the new question is what constitutes to proof to you?

Most of it is mired in your own self doubt, unable to trust yourself, renders you unable to trust others, this will be a key aspect many will have to overcome going forward.

Thursday night was started the THI shows journey through 2018 and we covered a selection of the intel and op-ed pieces from January through to March, sprinkled with a bit of fun, some music and one of our members singing a witty ditty. Thursday's show set the stage we will now will see how quickly things began to escalate as each month (not 2 weeks) passed us by, some kept asking for the events and yet perhaps many couldn't feel they were living them, that piece will be covered again tonight. Our first song reflects a piece in April and has perhaps increased over the year, I hope you enjoy the show.

## APRIL

\*There is an ongoing issue currently to do with time slips and time jumps that have been occurring with increasing frequency recently, this is the clowns messing to try and go back in time and reclaim the covenant again, it hasn't and will not work, but it has created distortions in what we perceive as time. Warning to the clowns this is against natural law and punishments now are fairly steep, these times are not like the past, where you did whatever you wished and with zero consequences, those days are over, period. We will not warn again we will just act.

\*SSp are still trying to gain access the onworld portals via selective mountains, in their desire to fix or obtain more tech, underground beings are still holding firm and blocking them gaining access, it is expected they will hold that stance as they are excited by the fact they are close to freedom as well.

\*Why the wall is being built, So what is the purpose and reasons for the wall, well the purpose is to prevent of, mercenaries, acronym led groups created by our own agencies, drug gangs, gangs intent on and that live for violence which are later used to do the dirty work of others in a plea bargain, the sex trade and trafficking, child trafficking, child porn industry, human slavery selling, or the worse aspects of this is people are being used for snuff movies, dissecting them live or otherwise for organ harvesting which are then sold to the hospitals for between \$90-225K depending on which organ, extracting children's adrenal glands for the kool aid juice the elites drink that helps life longevity, and you think that lot is bad enough, the worst thing depending on your perspective is some humans are used for food.

\*masks of illusion reveals truth, but is that truth comfortable or not for the host or for those around. So, what is the mask of illusion that I first brought up around 18 months or so ago, with warnings it would eventually lead to something resembling all out chaos. All people wear masks of sorts to cover up short falls they dont like others to see, observers will still see it regardless of the mask, and this is a key to psychology. But over last 5-10 years many have demanded the truth about themselves, this world and how it all operates. The biggest question is how deep, wide and long have the lies gone?

well that depends on how far and how many rabbit holes you have gone down, we have been down more than most with this show, as I am able to cover many topics all in the one show.

But I did warn the masks would start to come down and we would see a lot more being exposed on all levels, but also warned you would see it within yourself and also those around you, masks not just coming down for the cabal, but all of us, some will ask why?

The reason being is, how can you demand truth of others and not be truthful within yourself? it's not how it works, selective truth is what they have done and used on us, time for revealing the full truth is now upon us and underway.

\*4 marine accidents in like a week, Trumps helicopters 1 crash 1 failed engine. 2 fires at Trump Tower. White powder mailed to Ivanka, battleship bumper boats. none are a coincidence, this is all out war

\*Update on the wall piece "According to a stunning Fusion investigation, 80 percent of women and girls crossing into the U.S. by way of Mexico are raped during their journey.

\*Latest Rothschilds plan that failed again was to dump Treasury notes and bonds and collapse Central bank, plus enhance their own missions. They tried to gain treasuries for free from Russia and China - that failed, then they called the treasuries that is in one of the fed accounts, but that was stopped as they couldn't prove they own them - reality is they own nothing of note anymore, they lost that when they lost the Trust, and the Trust is not going to allow them blights on humanity back into the game.

\*Rothschilds also tried to claim the money the Trust sent to the Treasury as well, that failed also.

\*IMF in a total panic this week of which we will find out why in next intel piece, IMF has been threatening all central banks, Presidents and Prime Ministers this week, as a full on investigation being undertaken now to find any Central Bankers or ordinary bankers who have taken bribes from the UN, The IMF or World Bank

\*yesterday and finer details are being done today The Trust sold the UN and all of its subsidiaries back to all the nations.

The properties of the UN is in foreclosure for non payment of lessor fees by Rothschilds, rockerfeller and Asian Families.

The sale comes with a complete file to all nations of the orders done and the misuse of the organization.

A total of 108K files of intel against the operations of the UN was handed over to all nations as part of the selling and an equal share to each nation.

\*Please bring my hammer and toy I like to use to Comet tonight, swing by the office and grab my inhaler, nothing gets my heart going like a sacrifice night. Ann email to Huma Abedin her real love partner.

\* here is a little known fact of the clintons time in the white house, Ann stole \$200k of furniture, china and artwork from there and was made to return it

\*All the furore about Iran is nothing to do with nuclear weapons and everything to do with black market oil. That deal pays the head imam in iran, bibi, bush and Saudi aramco. Has been going on for years and they split profits on 25 dollar a Barrel oil, For last 20 years. 90% of world's oil is sold black market at 25 a barrel or less, The fictional price we see on commodities market, is so they can drive up the price of food and gas etc for the consumer, The whole market is rigged.

Even though they get it so cheap at \$25 per barrel and selling at \$50 and above, now they only want to steal the oil for free. Appears that just over 100% profit margin isn't enough for these people and also appears that bibi got cut out of the last Iranian oil deal. oops

\*UK proposed to many African countries to become part of the Commonwealth, The ones who are not currently. The ones who are are being asked to Renew. This is because their agreements all expired end of last year and this of course is not being told to the African leaders who went to meeting in uk.

They are trying to make their currency the British pound, Zimbabwe being one of them.

Like switching one for other, this has a number of issues for different people, 1. The African countries would be rolled into The Crown and Rothschilds 2. Their assets also would come under the Commonwealth and shared wealth, yeah right you all know how that works by now, we share our wealth with them, they collect it and use it against us, and also fail to disseminate it back to the people. and 3. This will leave numbers of people stuck with Zim notes, like we have told the RV people you can forget your pay outs from Chinese elders/Rothschilds

\*Echelon aka 5 eyes which is being ran out of Australia, is still spying on Americans and also trying to siphon funds, this is being addressed currently. For those unaware of 5 eyes which is actually 9, unlike a cat that has 9 lives this type of spy has 9 eyes, they all spy on each others country and disseminate the intel to each other, as this gets around laws of spying in your own country.

\*So Rudy Guilliani joins Trump legal team, will it whitewash Guillianis role in coordinating the removal of steel to sell to Chinese, human parts included during the first day of 9/11? Mayor Giuliani oversaw the illegal destruction of the 9/11 crime scene and is criminally liable for the deaths of hundreds of emergency workers for not passing on prior warnings about the collapses of the Twin Towers. It is no wonder, then, that the Fire Department of New York so passionately detest Giuliani for his actions in disgracing their fallen brothers and covering up the 9/11 crime.

\*Some of you will remember me referencing a group known as The White Helmets (helmets being the operative word, those in UK will get that meaning more) many where saying these are the group formerly known as white hats, and my comment was yes pointy white hats. Well a report has come out of how much this group has generated via certain funding from 2016 to tune of upwards of \$123M having received funds via US state dept, 3 branches of UK govt, german,

dutch,danish, qatar, japan, crowd funding, website donations for services in Syria, but 2 key aspects of this report that jumped out all the money was being funneled via a Dutch NGO company called Mayday Rescue, also The White Helmets received \$2.4M from a fund known as Jo Cox, Jo Cox was the MP in the UK who was shot and stabbed multiple times to death 2 years ago.

\*Solutions section or proposals that go out into the essence to be absorbed, first up as it is important to us all who listen to this show and many others, I would like to propose to Mr. Trump a dedicated Truth Channel prime time tv not using celebrities and so called stars or coven promoted goons within our community, but average people in the alternative community to be recognized for their role in exposing this truth push, and subsequent exposure of rogue elements, without all of us deciding something is clearly not right with this world, and then finding it was correct, and took steps to learn and expose it all, controllers would have wiped us all out by now.

\* Here is a possible solution to western world housing crisis, we are all now getting tired of the deliberate boom and bust, and yes some may have gained from the booms, but far too many lost from the controlled bust. What if we ended house boom and bust and made all homes affordable to the many but preferably the all.

So my suggestion is make all house prices based on the cost to build it plus 10% builders cost, reviews for improvements to homes like additions, pool, garages can be adjudicated but rigid in price range.

So lets say your home cost \$100k to build plus 10% builders fee, so home is \$110K in value and yet you have bought it for \$250K but if the new mortgage is dropped to \$110K that makes it not only more affordable but the extra money in your pocket then goes into extra spending money in your own community which helps others.

MAY

May saw us eventually fully expose the role of Jesper and the Kingdom of Manna crew. Jesper Ellerman changed his name first to King Julius, all very Roman Empire that, but then went one step further and changed his name to 2 angels archon or otherwise, Michael and Uriel.

We then found out about what happened with Manus island Papua New Guinea, and the need to find out what the Papua New Guinea government and officials think of Jesper and his plans for Manus Island, lets just say it wont be complimentary or provide any validity to what he has planned, no contracts, no signatures - nothing. Don't believe me? fine, then go and check for yourself.

Jesper is now the head of the RV program after promising his team, the rothschilds and rv crew he had the codes to the trust, except as proven over the weekend and into Monday, he didnt, ya see the issue with the codes is anyone can say they have the codes, I actually have the codes for the trust, but can I use them, no, so they resorted to hacking again, which subsequently failed again, only this time the system fired back and fried all their servers.

It also transpired that there was 2 Jespers, the real Jesper and a guy called Peter.

\*Last night from between 12.01 and 12.46am EST the whole financial system was shut down, this then allowed Kim and team full access to what had been going on and then find the evidence of criminality within the system and who perpetrated it. Various names familiar and not had their accounts frozen and criminal funds seized and removed to other accounts in ready for returning to the rightful owners of the funds.

Whilst that was ongoing the system was completely overhauled and cleared of any backdoors, rogue software, all flags in the system on persons or groups (this plays into the targeted individuals theme, anyway all were removed from the system, rogue data storage also removed from the system as well.

The Trust account which was off ledger due to being blocked, was then transferred and installed into the system as on ledger and subsequently live.

Whilst ongoing the 5 eyes system known as Echelon was completely frozen.

\*the next part of the operation involved no flagging of any person or group connected with the accounts that will be deposited from the trust into the project funds accounts, this will prevent fake FBI turning up at banks with fake badges issued by rogue agencies to attempt to block or cause issues with people connected to the accounts. An official warrant will be required with 2 types of ID of the individual acquiring the warrant, which then logs them as accountable if the warrant is based on rogue evidence or nefarious reasons, there will be no fake FBI calling in favors from DHS anymore to issue fake warrants.

\*Attempts were made by the clowns and their legion of hackers to break in and steal a few test accounts set up and delivered by the trust this week, they tried to rename the accounts and steal them, they then tried to leverage the accounts to Hong Kong, this previously had no effects or consequences of actions, that has now changed as the system recognizes the person attempting to raid the accounts and what happens next will please everyone bar them, the system accesses their own personal accounts and shuts it down - oops

\* NATO head has been sending 75 to 78% of what is being collected from Allied Nations is being sent to Rothschild, all funds that were able to be recovered have been returned to the respective nations, criminal files have been sent to all nations involved.

\*Also Rothschilds were found to be funnelling funds out of the UN also, the UN has a new temporary President and she doesnt take lightly or kindly to those actions and has returned the \$50B membership fees to each country involved in the UN, under the original charter of the UN there was no membership fees for being a participant in the UN, so basically these fees were just another slush fund for Rothschilds et al, also refunded to the countries some of the recovered funds of their contributions made to the UN also

\*So Ann, the aids patient Bill and their hideous offspring Chelsea, want people to attend a \$100K gathering to promote all things Clinton Foundation, \$100K to sit and fawn over them and their depravity, are people that stupid? or just maybe the Clintons are short of money again, and no Bush family funds to bail them out this time. oops.

\*So Trump cancelled another deal, this time Iran. The Iran deal was less about nuclear capabilities and more about slush funds being channelled through Iran by Obama and Ann. \$1.6B in cash was involved in that deal with no apparent oversight or questioning until now, full disclosure on Iran will lead to high level arrests eventually

\*ecuador, was sent funds to kick start their economy along with Argentina, what happened next is IMF sent pretty much storm troopers to the Central Banks and threatened them to not receive the funds, this also applied in African countries as well. Some are backing down and some are not, it is time they all stood up to these people and their organizations.

\*We have found an underground network of thieves, So what happens is they are putting their notification number on accounts in banks. Then when the client goes to make a transfer of funds they notify their stooge in the bank to transfer it to their account. So far we have found several accounts which have received funds all linked to Rothschild or known dragon family members.

This is going on all over the world, They do this through a phone network. This is the same way they are now stealing from governments as well using network of people working in central banks. This is what they started doing only days after we closed the back doors, but was detected within hours, This mode will be blocked also.

\* For the cabal (and it is the cabal) to pull off the RV they would require \$4.25Q in assets to do so, except their ain't that much to begin with, outside of ridiculous leveraging or dodgy derivatives betting, which is just creating the illusion.

Now they have to put up 10% as an asset base to go forward, due to new Quantum system that is designed to not cheat into oblivion and make all the public pay for their stupidity.

\$4.25Q equates to roughly 40 years global gdp, 40 years of what everyone spends in one year, do people seriously still think that will go ahead? truth they say is stranger than fiction, in their world of illusion it is yes.

\*Following another attempt to snatch or eliminate Kim of which there have been many, perpetrated by either Ann, Obama, Cheney or Bush. I thought I would share a funny outcome to one of those events. Cheney sent armed goons to try and track her and me down and descended on a particular place they think she was located, well those goons like the ones that went before them paid a heavy price for their stupidity, but the funny aspect of it all was, Cheney has a vacation home in a region somewhere in America, someone borrowed a bulldozer and completely flattened Cheney's home to the ground - utter classic, Cheney then fled to his 8 level bunker in home in Montana and has not been seen since.

song

\*SSp have been attempting to build new time portals in the mountains of the SW, all other access to go out of here and also gain access to inner world is now cut off to them, but they are trying to create a new element to get around the closed portals, building labs in the hills boys, will not end well, trust me. Ununpentium indeed, that will be blocked here until you step down and act in the right manner or face being wiped out altogether.

\*SSp who it will be no surprise to most are aligned with rogue elements within Langley. Following meetings with certain beings last week and previous months are under a shoot to kill policy for interfering in regions they shouldn't and trying to access places they are not allowed.

The varying greys at least 3 versions of them, tall whites, some djinns, aquatics and raptors are no longer allowing them access to their world underground anymore, and should they do so, the nt groups down there can deliver shoot to kill, as the SSp entry into their domain is considered an act of war and against the peace treaty now imposed.

SSp need to quit their games and the naval group supporting it.

\*Djinns, greys all appeared to me on my trip recently, I went to deliver a message and they came out in good numbers, the sight of the dark djinns coming out in not in black form but grey is a sign to me once I had time to ponder on it, that things are really changing on and in this planet and beyond, where there was division, there is now a common goal shared amongst many groups to working and join together, and not continue the eons of years wars, peace on many fronts is now breaking out, and from this persons perspective, it is a joy to behold. Races brought up on destroying each other over land, resources and trade are now seeing and feeling the benefits of the discourse that has gone on over the last decade especially, a realization we all want the same things in life, and we can go forward better and quicker with a sharing and caring attitude and demeanor, the truth that has been relayed to many races has hit them heavy as well, the lies ran deep throughout all of them, the usual rhetoric of finger pointing and apportioning blame, has now given way to productive discourse.

\*Lastly on the Faction Front, The Chinese Factions have hired Erik Prince to work on their behalf for what they have SOLD to him as "getting their money back". Unfortunately Mr. Prince is having no luck and was given an ultimatum last weekend that he had until the 24th to complete his task. he failed.

\*As for Ann/Hilary she has realized she probably will never get access to the systems nor be able to steal from the banks anymore so yesterday she decided to try to take hard assets and thought she would start with the BLM. She claimed "ownership" over the BLM and tried to execute on contracts she signed before the election. ie, "Signing over all the inground assets to the Chinese Faction"

Ann has found out that she has no authority over the BLM neither does the UN because Trump pulled out of the Paris Treaty/Agreement.

\* It has been found that the NSA via Stingray tech had arms everywhere into every bank legally, quite how they managed that is down to politicians, the team also found all the Illegal tentacles in

the system too, all been dealt with so they at least at this point can't go back in legally, any further attempts would be illegal and actionable.

\*The spying via data cables, be it phones, tv and wifi is being addressed currently also, also an NSA issue and no surprise they own Comcast and CNN. Apple has their own spyware riddled with malware and trojans, known as I-spy, that is being addressed also.

\*Out of the \$700B+ the trust handed over to keep America going part of which was funds for the wall, \$400b went missing on april 17th they used a backdoor syphon due to their old system - funds were funnelled via nato - what they left was bare minimum for govt to operate on - this type of interference has now been stopped and measures taken for the future it wont be allowed to do so again. Part of this problem is we gave Trump team a solution for non interference and they never listened, perhaps they are listening now. Kim recovered the \$400B and put it back in the Trust.

\*Banks are all trying to reset systems, Trying to install back doors back, Reports also show treasury and NSA resetting. But them trying to reset actually helps, because the new firewalls immediately do a scan and detect for interference.

Resetting won't help them bank or computer wise, but what is required is a full resetting of their mindset. Fly straight and we all prosper, continue illusion of control stupidity - you fail.

\*CNN ratings plummeting now down to 835K compared to msnbc of 1.4M and Fox 2.35M, CNN was down 25% this past month

\*so, ya all had a massive info overload with last 2 shows From Russia with love, yes was staggering in many ways. History revision in particular - how technology not new - enlightened beings and humans working together to help other races - teachers of light and dark -pleased

about no one sighting the piece as being potentially racist, we must go beyond the labelled boxes and call poor behavior out regardless of which particular box - the term Aryan put into it's proper light -was both Jesus and Mary Aryan? - India's history rewritten as all copied - communism a political theory derived from Karl Marx, advocating class war and leading to a society in which all property is publicly owned and each person works and is paid according to their abilities and needs, Karl Marx was not Russian, 70-90M of a nation wiped out in 1 generation, essentially all the cream of the people it took to run a country, this type of political operations has been replayed over and over and has become a cancer on this planet, and one we must stop.

song

JUNE

\*memo circulating through HSBC and other institutions to not transfer any money at all to America, Rothschilds and other goons think they can starve us out, well you know what, we don't need you and your ilk either, so go and f yourselves with your threats. The world is waking up to your illusions of you own 80% of the world, you own Jack and many people, groups and countries are now seeing it. tick tock Roths, NATO and Chinese Elders.

\*Latest word from the Rothillians is they have built a Quantum system out of Wright Patterson air force base and they are saying they own and run financial system haha, and you can all access it by giving the Rothillians \$30M each to access it, haha pull the other one Roths, or perhaps not just like the RV - fail

Anna Von Reitz is promoting this platform and tells you all you need to know about her and her hidden agendas, even if they are not hidden.

\*Let's have a world exclusive live on air Roths, whereby you and Kim can present your systems and then we all find out which one is true and which one is not, which works and which doesn't. Now wouldn't that be fantastic tv.

\*Banks and Credit card systems going down after trying to reinstall their backdoors into the systems.

They have tried it with many banks globally some in NZ was mentioned, but list is extensive, none of their attempts to return it back to old system of cheat and steal have worked and is not expected to.

\*Banks also have lost all of their clearance accounts, these are the side accounts that they use to make vast quantities of funds via our money, when you transfer money through a banking system, the flow of cash is not direct A to B as in buyer and seller, it goes into a vast side chamber in essence, generating vast quantities of funds and then they filter through it and release it or as shown with the Trust transfers hold it back or keep it.

But it wasn't just the Trust who was being brushed off with transfers, it started to escalate with regular accounts also, excuses of wires not ready, wire not processed, wire never arrived, more like wired money was transferred into an Wall Street fast track hedge fund bets, where they use our collective money, manipulate markets and use our funds to generate more funds. This is a further sign of their desperation to cream funds from everywhere, why? because has we have told you many times, they are failing and flailing.

Object of the new system is a direct A-B live banking, so receiver has their money for goods and services instantly and not wait until banks have collected and used their money to garner interest and or decide to not send it, this is why you have to wait to clear checks, checks are cleared upon signing, they keep it for and use it for their own ends. Same applies to wire transfers, it all adds up to billions of \$ outside of the banking system.

So the team took advantage of them playing games and trying to reset the system, as with them doing a reset, it flags up the anomalies within the system for you, and eliminates it, so thanks to all the banks trying to reset their systems, the reset of systems to implement new viruses or backdoors does not work anymore, and a reboot sends the system into seek and destroy mode - oops.

Following all that, the system flagged up the side accounts and we managed to locate all the clearance accounts.

So, what happened next we swept up all the clearance accounts, emptied all of their clearance accounts, transferred the wires to the people and where they were suppose to go to, and ones left over because none of them were tagged for delivery, this amounted to \$150B worldwide, all \$150B was re-inserted back into the new system, they the bankers were then locked out of clearance accounts altogether, and any attempt to reload or access those types of accounts requires identity codes, which would directly identify who is committing the crimes, no ID = no access, give ID = exposed as a fraud.

New system is only accessible by Kim whilst this clean up operation is ongoing, only she has the codes, so anyone trying to access, flags themselves up as frauds haha, banks were desperately trying to contact black dragon groups for the codes and others, none of them have it - oops.

\*They also are unable to syphon a wire anymore, as of Friday no wires ACH, EFT's going in and out of any banks, because everything is read only now and this why they started on the visa system, that is now read only and they are unable to touch anything in transit, all credit card transactions go through City of London, I hear their machines dont work too well anymore, so back to playing online Solitaire for you guys, or is it tic tac toe haha, you played your poker hand and lost to a Queen of Hearts.

Rest assured no one of the public will lose any of their funds, I wish to make that quite clear, it is now safe in the new system and protected.

\*Rothschilds financial system of sorts did go online Tuesday morning trying to implement syphons in the system and by mid afternoon it was gone, couldn't breakthrough the firewalls - oops, Kim and team just watched it for a while and then took it down.

\*When all else fails lets roll out plan 56, HSBC talking about rolling out digital currency, why? because they have nothing left, I hope people dont fall for this bs'ery

\*It has now come to light that Ann and huma arranged for \$40M of our money to be sent to Pakistan army for contract killings in 2011

\*This has been known for a while but was kept quiet for reasons of safety and the consequences could be delivered without intervention.

Back in September 2017 the Rothschilds who hold six seats on the UN Council which is owned and controlled by Manna World Holding Trust, those goons think they own UN and the world and threatened all nations last September if they are not in charge by September 2018 they are going to unleash global biowarfare, except if they do, we have back engineered the viruses with their OWN DNA, so it will take them out only, so go ahead and make our day.

song

\*Erik Prince founder of Blackwater who was running for top job of the head of the Black Dragon group for N.America, this is currently vacant due to Dick Cheney being fired for non performance, anyway Prince has been discounted for that job, and rogue Black Dragon group are having major issues filling that role at this time.

\*However, they have solved that problem now by developing a "vaccination" against radiation. In order to do the medical experiments necessary to develop this drug, thousands of US Citizens were "sacrificed" (killed). The Government now admits to 100,000 but will never admit why (to develop the secret radiation vaccine).

\*I hear and see a lot about people saying they are taking or have taken the red pill aka The Matrix movie, people need to quit saying that it is another trap, you don't think they would give you a full on clue of how to escape do you? no, it is all wrapped up in riddles, cryptic and puzzles. Red Pill is LSD and another spirit world trap, the key is to escape the lower astral spirit world not get trapped in it.

\*The World is NOT overpopulated - in fact it is quite under-populated. If you took everyone in the whole world and put them in the State of Texas, each person would have about one thousand square feet of space and the rest of the world would be EMPTY.

\*Prince Charles wielding his alleged authority again this week, tried to send mercenaries over to take Kim and team out, that never turned out too well, they were blocked from entering the country.

\*Appears some in Naval intelligence may not have wanted NK meeting to take place, as a missile was fired from region of the Naval Air Station Whidbey Island on Sunday June 10th, naval deny it but all evidence points to rogue elements trying to disrupt things, not 100% confirmed as yet, but suspect it is close to reality. SSp????

On Sunday a missile launched out the Naval base of Whidbey Island in Washington State in an attempt according to all sources to knock Air Force One and Trump out of the sky, due to change of narrative between Trump and Kim Jong Un, basically a peace deal was worked out long before Trump left and Kim went against Asian families instead, and peace broke out between the countries. Trump was being flanked or guarded by rogue black dragon groups so they knew exactly where he was at all times, this is why we asked him not to go, so to recap some rogue elements within our own country and military fired a missile at The President, just let that sink in a minute.

\*For the past 5-6 weeks an increase of source energy has been added to this planet and is spread globally, this explains some of the changes you are seeing, feeling within yourself and those around you. It is designed to be an awakening tool for the masses including the cabal, a reconnection back to source that has been blocked in various manners over a prolonged period of time. For most in the awake community and those not still mired in religious dogma this will have a good effect once it is absorbed, as for the others, it will leave them confused and irritated but will also bring long term beneficial effects as well. I wouldn't totally describe it as wheat and chaffe separation but it will have that effect, but providing those do their inner work and integrate their shadow aspects, it can be adapted to fairly quickly. Those resonating with a higher frequency will obviously feel greater benefits in the now, the rest it will be filtering through as

time goes by, these energies will increase incrementally over time to provided maximum benefit going forward.

So, go outside and absorb it all in, collect it and store it within you and transmute it for the benefit of all. How do you do that and how will I know you will say, well, go out on a sunny day and look at the sky, squint your eyes a bit and just stare at the sky, eventually you will see thousands of very small golden pieces floating down from the sky, darting here and there, that is source energy, learn to collect it and pull it into you, pull it down into the solar plexus and then push it up and through your heart to the crown, with a thought of then transmuting it for maximum effect.

\*imf has said they would rather see whole world economy crash then let the trust hand back the funds to who it belongs.

\* So in a Latin American country yesterday.. 4 people with fake imf badges showed up wearing wigs and glasses etc... Orders came from imf building...but why fake badges? now you know why I call them clowns. Anyway the Country affected threw them out of their central bank.

The Trust has now frozen all market back doors and has installed a mapping system which will track REAL Production of commodities and commodities futures and the markets shall bear numbers based on actual production, supply and demand. NOT affected in any way by what CNN/BBC nor any other news station reports. Further, no one cares about OPEC "increase decrease" in output because the price of oil has no bearing any longer on these decisions,

Oil will eventually go down to high to mid 20's per barrel and remain stable. Market Corrections started today and will continue over the next several weeks in a stable, controlled manner as to cause no disruption except to the Elite that profit off of market manipulation.

The set of books in the Trust's new systems will NOT allow for currencies to be over printed, fake super notes to be deposited, nor any stealing of funds to a "black server" such as what happened with the Pentagon.

Once funds are out of the system they will be seen as "fraud" if they just appear. Same will happen if it "disappears". This also applies to consumers and banks.

Further, Banks will no longer be able to report fictitious numbers to Central Banks any longer claiming they are "liquid" with fake bank books. If they are not solvent, this is reported immediately to the authorities in their area.

Lastly 22,876 accounts world wide were found to have received deposits in excess of 10 million USD (or it's equivalent) in hard cash, Meaning someone rolled up to the bank with pallets, truckloads or suitcases full of fake super notes. Due to this error in judgement (Wells Fargo and JP Morgan, The deposits were cleared out for fraudulent activities, All 22,876 accounts were emptied. Big kudos to WTF and JPM for counting so many pallets of fake super notes in such a short period of time. They must have worked very very hard to make that happen, so sorry it all disappeared

Barry Soetero or Barack Obama or Long legged Mcdaddy had 42 staff members with no FBI clearance, this was a deliberate move to install the factions led ideology of Muslim Brotherhood to create division

\*Why is the IRS sending money to a Rothschild Bank in Switzerland? to the tune of \$780 billion last year

\*Rothschild confirmed they lost control of siphon off financial systems, but they are still telling everyone they control SWIFT

\*They are getting real pissy that they can't have everything their own way anymore, like the financial system they've tried and launched various systems from Prometheus to Hercules and now they are launching another ancient system called the Alpha Omega. These are all replete with backdoors, hacking and syphoning funds systems, all designed to try and hack the real Quantum System. Good luck with that.

\*june also brought out my solution on the drug issue and theory on Greenland.

\*well the backlash which was expected this week following last weeks hammer events, unfolded in a blaze of threats verbally and a group of goons turning up in a city in America thinking Kim was there, their car was laden with explosives, designated to blow Kim and her daughter up.

\* Kim: To my dearest ALL, Many speak of a quantum system for the people. I agree, it is. By definition in the parts of the world most consider it an "unknown", but a Quantum System (true Quantum) this quantum system can span dimensions, draws from past time and the future yet to come, it is based on it's ability to "map" through time. It reads brainwaves, knows intention, and is locked by DNA (Living DNA) sequencing of the individual. Not one individual, but all.

Your "wealth" within it is coded to DNA of the individual. In the case of Nations it is the RNA of the original source, of the said asset. It can not go anywhere else. This is for the security and the safety of our human family. The way it is programmed it is not possible for "the elite" to steal wealth from another person, nor another nation any longer. The system DOES NOT recognize any "royal line", only the line of "source" which is present in all of us. We are ALL sons and daughters of the only TRUE King, that is the Creator/God/Source itself.

Even myself, as I programmed the system, to perpetuate with or without me. Trust me, it knows my intent too, it knows if I am under duress or unwillingly making a transaction. EVEN IF I

"change my mind" and try to allocate funds improperly it will reject it. So much for the 9000 or so snatch and grab attempts by the cabal, it won't help a bit. It reads into all organic life forms, understands growth patterns and lastly holds massive amounts of data, in a compilation of materials the size of a grain of sand. Technology not even the "Secret Space Program nor the Majestic 12" has or had access to, let alone the current antiquated financial systems you are calling "quantum". Gone are the days of data server centers the size of football fields.

It calculates true trade values based on REAL production, not what the "elite" wants the world to see, but real production. As of Monday, the Market revaluation shall begin to occur. The true production of commodities and their respective values will begin to unfold. This program was launched on Friday after business hours.

It's power source is not electricity, it is not dependent on any grid, not even crystals anymore. It is powered by the very source of life itself. Yes, the very source of energy that powers YOU powers it. It can only operate in the light, rejects darkness and evil intent.

Each particle of source courses through it's fiber, some of you may know it as, "The God Particle", "The Fifth Element", or Higgs Boson. Each particle is part of a whole, it connects to source itself, it connects to you, it connects to every living thing in this Universe and all the other Universes. Each "particle" is a small part of a "whole". Like a tiny network computer on a mainframe, it easily passes through the time/space continuum.

Think of the possibilities if you could access the secrets of the Universe through one small particle. CERN has made attempts to isolate and access this type of technology. Where they failed, we succeeded.

The system has been running on full source energy for 6 weeks. At the point of convergence of the Two Torus currently flowing through this planet, is an incredible amount of source energy. Limitless and constantly regenerating. The SAME technology will power the Global Train. This works, a prototype has already been built and tested.

It knows no space, it knows no time, It only knows intention, It is NOT source, and was not built to replace source in any way. It is currently harnessing and sharing this source energy with all of you, until the original "flower of life" torus pattern can be restored, which is essential for our survival.

We will also have a far better way to travel, no need for ununpentium or other elements harmful to humans. This IS the beginning of FREE ENERGY, it works, Tesla knew and we know too.

Millions of people die every year over Oil and Gas, this genocide must and will stop. Has anyone noticed the price of food going up over the last month? It has, by 20 to 30%. Why? Because the Cabal Controlled CNN Fake Media reports "Oil Shortages" and "The Middle East will run out of Oil" and so gas prices goes up, then transportation costs go up and so does the cost of food.

This will no longer be the case, it is not possible to have a shortage of Oil, because it is a regenerating resource, and we have not even begun to tap the resources of Russia, America and many other nations.

Sometimes it is better to beg for forgiveness then ask for permission, no one needs the "cabal oil" anymore, the truth is we didn't need it over a 100 years ago, but oil will become worthless within the next couple of years.

To summarize, a "quantum system" that has the capacity to map information sources throughout the multi-verse, it is powered by a limitless energy source, holds a football field worth of data sourcing servers, (hello five eyes, you can google this one) in a substance the size of a grain of sand, it accounts for intent via a hyper-permeable "brain wave" component, and identifies the individual via DNA/Living DNA, and the origin of assets from RNA/GNA.

Money is just a bunch of numbers, in a consistently running algorithm tied to the RNA or origin of it's asset base, placing all proceeds into that "bucket" tied to it's origin (RNA), and it's people (living DNA) of that original location. This is what it is programmed to do, can not be stopped or changed until the task is complete.

This is why the FED/Families/Cabal/Chinese Elders can not register said assets of the America/Russia/Africa to a server in say Shanghai (yes I saw you attempting that last night- yet again it failed). See, your RNA is not a match, pure and simple, this system also saves me a lot of time in constantly identifying access.

I hope this explains the "new system" which HAS been launched, not "going to be" soom, imminent or two weeks but is done and launched.

One of the tasks of the system was mapping everyone, and now that it has mapped all living beings on this big rock, distribution shall begin.

It is IMPOSSIBLE to steal funds anymore, even though the "corrupt bankers" may chose to try and steal, from you the people (like they have for many years), well, now they can't.

The new system will look for the living DNA of person "x", consent through the hyper-permeable component, If it is not there, nothing will move.

So there you have it, a message to all the Cabal Stooges reading this (I am not addressing any of you in IDC for the record)? You can take your Oil, siphons, satellite diversions and stick them where the SOURCE does not shine.

Peace Out Kim "Possible"

## JULY

\*yet again clowns sent to eliminate team, Kim and her daughter on Monday, following last weeks car bomb attempts, at which point do patriots step in and act? enough of this nonsense.

\*SSp is now heavily controlling military, time for those in the military to stand up and be counted, SSp will eliminate you when you have served your purpose as well, The Order told you all that two years ago in the memo, which was a repeat of what Kissinger told you years back, so you can either be pawns or hero's, choose wisely.

\*The IMF is running around the planet advising countries they owe debt so they are forcing countries through plans THEY concocted to collect their money. Two examples are, one country was forced to raise their gas prices by .25 cents (equivalent in USD) across the board. This is a very very poor country, the entire .25 goes to the IMF, There are currently protests over this situation in this country, It also just happens to be a country with resources also.

Next is another poor country, where they forced the government to increase the bus fare by 1 USD equivalent, double the original fare. This countries people can't afford to pay this.

Both countries leaders were called to Washington DC IMF HQ (not for long) offices and were TOLD to extort money from their citizens.

\*July brought another of my solution pieces this time on prostitution

\*Fake names everywhere, how and why is that allowed? why do people do that and why is it so prevalent? Zuckerberg with a silent F at the front, real name is Greenberg, look up the Greenberg family they were all involved in the false flag events, and yes the girl in many scenes at those events is a greenberg member, also check out the sexton family they are actors in those events also.

It appears hardly anyone in public life has a real name anymore, even going as far up as the former President, why didn't he use Barry Soetero name? Why were nearly all the stars of movies 40-60's predominantly of Jewish origin and yet for a religious group who are so proud of their own culture, and yet they all changed their names? Ben Kingsley, michael Caine, Larry King, Rock Hudson, Joan Crawford, Kirk Douglas, Audrey Hepburn, Judy Garland, The Sheen family, Fred Astaire, Helen Mirren, Cary Grant, Marilyn Monroe, Tom Cruise, Angelina Jolie, David Bowie, Elton John, Nicholas cage, Sophia Loren, Woody Allen, Kevin Spacey, Bob Dylan, Rita Heyworth, Paul McCartney, John Wayne, Doris Day, Ringo Starr are just a few, all these people are idolized for their stage names, only a few know their real names, why would people seeking to make a name for themselves and wanting to be important and famous, then proceed to change their names? so the person seeking importance or fame loses their identity? strange concept and thought pattern for me that.

How far does this go back? well the being known as Jesus cannot have been original name either, as the letter J didn't come into existence until the 14C, so that means Job, John the Baptist, Jehovah, Judas are all fake as well, again people of said high importance, all doing a name change.

Alt media is also heavily distorted by changed names Cassidy, Wilcock though not 100% on him, Corey Goode, Tsarion, Maxwell, Henry Deacon infact most who appeared on Project Camelot in early days all had stage names, Sacha Stone of ITNJ is another with fake name, his real name is Simon Jean Paul Sacha Adams, Sean Stone son of Oliver is Sean Silverstein, it is

absolutely rampant, one wonders how they set up bank accounts or SS cards, are they allowed to put their stage names on them, if so how? What system allows for it, what is the precedent? Why do so many of the stage named people, have mainly Jewish or German backgrounds? Like George Soros whose real name is Schwartz, Winston Shroust is english version of Schroder or Schroter, his family from Germany, even the royals are in on it, Meghan Markles birth name is Rachel, her husband also, real name Henry.

There are always circumstances of changing your name for safety and security when involved in whistleblowing I do get that and I think it is a valid reason, but why are many of the public faces all running around with fake names? Cover up? oh yes, question is why and what is the purpose of it all? perhaps the simple answer is correct again, these people are fake who don't live in the real world, to them all the world's a stage and they are the actors and actresses in it all, like the world of politics, all theater, all staged and all illusion.

\*July also brought the Blue Chicken Cult crashing down finally with David Wilcock's resignation letter before he was pushed, predictably Wilcock denied all knowledge of the occult nature of Gaia TV who is ran by a coven member, Wilcock was told that before he signed up, so he did know, predictably Wilcock threw Corey under the bus as well, like Randy and I predicted in a show in October 2017 where we offered him an olive branch to step down, he ignored it and will pay a price for that next year.

song

\*Trump and Melania are on high alert as you can see from the pictures of them getting off one of the air force one's, hearing they used both of them as distraction, Trump turned up an hour late due to these issues. Threats were stated to be an air attack when Trump meets the Queen.

•As reported the updates to the SWIFT, ACH, and FED-WIRE transfer systems have been updated and secured. As of the past week they were running at 100% capacity

Last Friday some VAX Port Transfers were attempted after banking hours. The Cabal literally had to cut off the power to the ports to stop them from coming in.

As planned this launched an all out investigation to document fraudulent bank activity because the misdirection, or block of transfers without cause is considered an act of treason. Homeland Security and the FBI continue to investigate these matters, but apparently aren't authorized to get the transfers released.

Our team tested the legitimacy of the new wire transfer system making transfers to various countries around the world as is the regular practice of international business. ALL transfers cleared within 24 hours and most cleared the same day. This would normally never happen as transfers are regularly held for five days and sometimes as much as a month.

The US Government still doesn't appear to want to actually DO anything to support human liberation as no action has been taken to release our transfers. At very least it's nice to see Homeland Security and the FBI working to do their job-protect the people.

- The last component that needs to be adjusted is the VISA system to ensure that our cards cannot be cloned, or our identities copied and our money stolen. It's a people problem. Here in lies the beauty of utilizing the source energy, brain wave measurements, and DNA identification technology. These combined factors make it impossible to steal from us once the VISA system is completed requiring the ADMIN Security override to block or misdirect these transactions by anyone else.

The Trustee has made herself a bank employee at every bank and is the only one in possession of the ADMIN override.

The Rothschilds continue to repeat the same failed attempts to kill Kim. They believe they have discovered and have control of the next person in line who can control the assets of the Trust. In the past they have tried this same thing, only to have the next in line unable to access the funds.

\* IMF threatened the country of Malawi, Said they would take away their sovereignty if they didn't pay the IMF, woo - haha too funny a non sovereign threatening to take a countries sovereignty away, dumbasses.

\* Clintons are now totally broke, last time they were broke they sold themselves out to the Bush cartel, I don't think anyone can or will bail them out this time, still they wont need money in prison will they.

Rothschild aka Crown Corp has resorted to massive insurance fraud, Rothschild took out massive life insurance policies against it's "employees" and is killing them "in accidents" and taking the money. All policies pay out to Rothschild bank in Switzerland. So far there are around 2000 people dead, AIB.. American Insurance Bureau, the regulator is in on it, you do not need the authorization of any person to take out key man insurance, these people don't even know why they are targeted.

It is stated they are insured for \$20M per person, I heard about the \$1M per person a few years back, seems as desperation ramps up so does death inflation.

\* Major breakthrough in regards to the Rothschilds, many are now starting to question their real motives and are finally calling it out as bs, we have been telling them this all along, but I guess some people want proof on top of proof on top of proof to infinity. Roths mask of illusion now falling apart.

Cabal were caught activating Siphons again, they were found on some of the ATM systems, such as Star Network plus etc. Those are just about all shut down now.

Dickhead Cheney is back on the scene again, this time trying to leverage gold mines in Utah, get back in ya bunker Darth before we scoop you up in the bulldozer, perhaps he is trying to do leverages to buy up all the bulldozers.

Chinese Elders update So on Saturday night they tried to launch the new and improved (not really but whatever) Black screen, They tried to register account numbers of the trust with crazy numbers and put names on some of the fictitious accounts to minions owed money They tried to attach that system to banks, but the firewall blocked them. So then they tried to issue visa cards.. It was as if they bought prepaid cards with 100 dollars on them, and increase the limit by hacking into the VISA system, unfortunately for them VISA system was all locked down last week, so system blocked them again.

So they were not able to, but they still gave the cards to known gold buyers, and they proceeded to put gold on hold and attempted to buy with the cards all day on monday, except the payments for the gold never came through, as the black screen system used for the cards went down on saturday and so the cards couldn't be connected, but so much fake trading, meant gold dipped like crazy on friday through monday.

I want to mention about off world trade again as it is prevalent now in what is ongoing, as I understand 70% of world trade was for off world trade, involving resources, labor and food sources, but the minerals was the key aspect of it in many ways, and still is.

SSp, cabal elements and some off world elements all want to escape out of here, so they can regroup and come back with greater forces or depart and turn this planet into uninhabitable zone, which they have done to many other worlds, using the fash destroyer weapon that creates deserts everywhere.

Next message is ALL gates will remain closed to you until we all learn to work together, elements that worked previously, will NOT work now until we work together in harmony, it's the new directive, whether you like it or not. Escape plans will not work either no matter what you try, you are all stuck here until you see sense or die.

Next message to the clowns is you can call off your "accident" assassins, all 100 of them you trained to take us out, that wont bring you the change you desire either, you may think you can cheat by bumping off certain people of our group by making it look like an accident, but everyone knows what you are up to, so quit with your stupidity of taking us out, as that will not

work either on any level, so quit with your toxins, quit with your tipping loads off trucks and quit other methods you tried this week, and just BEE nice, ya got that, BEE nice now.

A word on Heather Jarraff and her 57 months jail sentence, I wonder if she recalls being warned back in 2013 and how her, Neil Wolfe and in particular Dani McKenney along with Lisa Harrison told me to GFY, a costly mistake for her, and why I warn against challenging IRS, driver license issue, strawman accounts and using common law in current courts, all of them are valid, but not in THEIR system.

One day their system will change and all will be free, just not now.

\*Lots of stuff about trade wars and tariffs particularly between America and China, all of it is media illusion again, what the tariff issue is really about is cutting out dragon group trading control, not China the country

\*Had full confirm that over 2000 cabal are dead and escalating, this is them consuming themselves not our work, but our work has had an effect to cause them to be in widespread panic.

\*UNITED NATIONS - United Nations Secretary-General Antonio Guterres says the U.N. is running out of money and is urging members to pay up amid a looming financial crisis for the international body. In a letter to staff this week, Guterres says he has warned member states of a "troubling financial situation facing the United Nations," which he says is caused by late payments to the U.N. by member states. "Our cash flow has never been this low so early in the calendar year, and the broader trend is also concerning; we are running out of cash sooner and staying in the red longer," he says.

Yeah right time to tell the public the real truth, the UN was disbanded by the trust and funds looted from each country return to them, the late payments are not going to arrive as those payments are illegal and not a part of original charter.

\*Clowns looted \$1.8B out of the fed last week which may sound a lot to us but in their terms at pittance, as it was stalled enough to prevent further intrusion and see who was doing it, that avenue has now also been closed off.

This is essentially what is happening with QS, they are trying to run old tech along side it, but cant get direct access to it no matter how much they try, whilst it is frustrating for Kim as she is a perfectionist, I see it as another avenue they had to expose to keep in the game and another avenue subsequently closed off, eventually they will run out of avenues.

\* Confirmed Trump has finally realized the letter that was written in January (sovereignty) and what it was, and is on a mission to take over the Fed from Rothschild et al.

## AUGUST

\*Fed meeting with Rothillians recently brought out more desperate measures by the fast fading global elites. They were talking about using TRN's as a new note and taxing heavily all the big companies who previously paid little or no taxes, this was to take place with immediate effect to raise funds for tomorrows RV - oh dear

\*So Trump took on the remaining Koch brother Charles after David quit 1-2 months back about a week or so after speaking to Kim (funny that) they were another hidden group with rich family background dictating politics, finance and policies, all of which have failed in the control system ideology

\* Further hacking attempts were made last night to get into the system out of Singapore and also New Zealand, they were trying to implement a new black screen system, which is another backdoor version of the old system, anyway that failed also.

\*Fraudulent notes are filtering into the US now with 2013 printed on them, all of these are fraud as no new notes with the correct and verified allocation numbers have been printed since 2009. Work under way to deal with that issue.

\*Philliphines have had warehouses full of Pesos that have been there since M was in charge, now they are rolling them out and attempting to buy gold with them from the locals, but turns out the locals have been duped also as the gold bars they think they have are only gold plated, expect some fun and games there in near future.

\*Getting frequent reports now around the world of issues with banks and unable to get access to accounts, we have warned you all you must have spare cash now at all times, these incidents will increase as all their funding or better term looting avenues are being closed down.

\*there are indications recently that the Deep State has sent a message to Obama through an interview on CNN that he is no longer protected

\*the plastic straw ban is important for gun control. It stops peashooting and spitballing which are gateway guns Nancy Pelosi

\*roths put out another contract on Kim and no one came forward to take that task on, big big step that for us, now it is really game on roths, less and less are listening to your lying and conniving ways anymore. your power, control and wealth is all just eroding away, ya should have took offer Kim gave you 18-24 months back. Those you used and trampled over may now come back to bite you - have a nice day Roths.

\*news that came in after the last piece is heavy chatter that supports previous story of mass mutiny within Rothtillian minions ranks. I suspect the fun and games will now really kick into gear.

\*Venezuela issue is all to do with the Farque Guerrillas who are another aspect of the Rothschilds army, who are being funded via oil deals and also other minerals, some of those guerrillas were sent to attack Kim previously. The issue is the UN (rothschilds portion of it) have been training Hugo Chavez's daughter for a stooge role in Venezuela using the popularity her father had, but she is not of that ilk, I hope the people of Venezuela see through that illusion. Venezuela is also where they are sending Muslim Brotherhood jihadists via Oman and Saudi Arabia, and the port is also used to process the stolen ISIS oil there, which is not working out too well, and so clowns now looking to use Mexico to process the ISIS oil.

\*HR 5181 was stuffed into the 2016 NDAA on 12/02/16 Basically \$160M was set aside to pay alt media journalists among others to spread disinformation to counter what they claim is fake news.

\*Jones meltdown psy op, look i'm being attacked so I must be valid is classic Wilcock and classic agency tactic, resembles all the fuss a few years back when Alfred Webre got banned, that was another sideshow as he is a govt agent, he worked under the carter administration. Jones is cointelpro pure and simple, works with Stratfor group known for Israeli intelligence, shouts about cabal and corporate control and yet makes \$3M plus a year in advertising the very companies that are damaging us with their corporate tactics. Do you really think those companies would promote a genuine whistleblower that is exposing their own companies role in the control system, well, do you? think about it.

\*IMF ISSUE, many countries are now starting to see through the illusion and making enquiries with varying degrees of success. I have said before you would be astonished at how little governments and state officials really know, well now they are learning some real truth for the first time. Of course there is a backlash to that in differing countries, as IMF march in demanding

payments that each country allegedly owes, now they know each country is owed massive dividends from the trust and not debt instruments of the cabal. So IMF first started to go around threatening countries, now they are reduced to asking countries to lend them money, as they like the UN, now don't have a pot to piss in.

Key now is for those countries threatened is all combine together and force the pirates and bandits out of your region, funds are there for each country once the blocking and threats die down, hold your nerve, inspite of the threats to your country, leaders or their children in some cases.

\*Clowns are messing with all different types were communications are required, be it mobile phones, landlines, internet, banking, atm's, it won't always be this way

\*more hacking attempts and more blocking attempts on the Quantum system, once again the hacking failed, once again QS recognized it and recorded who did it, eventually they will be unable to hack or block, only a matter of time

\* 3 attempts on Trumps life these past 6 weeks

\*govt is blamed for a lot of things that they have no control over, like et disclosure, it is 26 levels above the President.

3, 4 & 5 letter groups have no congressional oversight. Government were blocked out of any involvement or direct knowledge of ET issue after the humanity traitor Eisenhower, this is why Kennedy tried to get ET papers lowered to govt level and signed off on an agreement with Russian counterpart Brezhnev in November 1963, where America and USSR would exchange all ET related papers to each country, this in effect was an attack on the secrecy levels, which today is called the Deep State, peoples in secrecy levels above The President up to 49 (although I hear that number goes higher) whilst President level is 23, 11-12 days after signing that, Kennedy was

dead. Don't think for one moment Kennedy was doing that for the people, he wasn't that was a faction war again, like now.

Govt has no control over the military (this is part of inner war described) either they are owned by SSp which we can confirm, but Rothschilds think they own it and also Jesuits claim they have owned it since 1500's.

Govt has no control over income tax, or receives any of it, for those new to the show the IRS is not an American company on American soil, it is a trust of the Crown stationed in puerto rico.

Govt has no control over the Fed or IRS they are operatives for and by The Crown

Govt has no control over the media, as proven moreso this past 18 months than any other time, there is a reason why Trump is calling it fake news. All started with CBS back in 1920's I wonder how many realize what the C stands for? it's Columbia, like District of Columbia, they were working with OSS now known as CIA now to produce propaganda for American audiences.

govt has no control over SSp, the real secret space program ongoing since 1940's minimum, part of which was Majestic 12 until recently when they were all taken out by The Order.

govt has no control over policy that is dictated way up higher

govt has no control and neither do the people until possibly the last election (time will tell on that issue) of who is voted in or out.

So, maybe it's time to stop blaming the govt for everything and target who are the real issue.

song

\*military tribunals for top names has now come up again, and I want to re-iterate to top brass covering those trials, it was the alt media who drove this truth narrative that has led to the exposure of these criminal elites, and I am requesting again some members of the alt community to be in attendance of those military tribunals. We have to be transparent going forward and members of our community selected should be able to observe real justice served, so it is not sideshow tribunal none of us can see or hear, which is then wrapped up in the bs called national security for numbers of decades, no, we required transparent instant justice.

\*My second request is should Ann (Hillary) be convicted in a military tribunal, one of the conditions to remaining alive for the rest of this lifetime, is she should be made an example of, and should be made to read out on all tv stations the crimes she has been found guilty of. This has multiple implications, 1. the general public gets it from the horse mouth, no more hearsay 2. it will start the healing process of the soul if she has one, that is no guarantee many in here are soulless, and can work off some of her karma before next lifetime, people will say why should we care about healing her? valid point but carrying the karma over into multiple lifetimes, could lead to continuous cycle of negativity in that soul and what if they all meet up again in next lifetimes? One could argue that karma should be erased after this lifetime, given the interference done here and we all have a fresh start, it is something many should ponder on this piece, I know many want an eye for an eye, but keep doing that and we all go blind, time to get ready for all to see in 2020 vision.

\*We all learn something new every day, and here is a new one for you all. All religions were a human experiment to see how they reacted to it, it was a disconnect for you from source and an eventual worship program to the false gods, aka Ra, Isis, Horus etc this then took on other forms as the experiment obviously worked in some aspects as the memory of our connection to source over time faded. Around 2000 years ago it took a bad turn for the worst, in came the christian religion and catholicism, and Constantine added all new layers when in Jerusalem not in modern day Israel, but Jerusalem was in Constantinople back then, previously was in Russia under the guise of the Rus. Around 1100AD a splinter group of christians was formed known as the muslim sect, in 1500 protesting catholics then morphed into a protestant religion, but you see it is all part of the same thing, all are superceded in the experiment by the Torah book for hebrews and Talmud book for non hebrews, it is my understanding that the original Hebrews are Annunaki in DNA or ran by them, both are known as the chosen ones, under source there are no special ones, we were all created equal, heirarchy is the reign of the ego for those who thought they were above creation - they will meet their maker soon I find out their own folly and karma.

\*The desperation levels are now ramping up in many countries across the globe, more particularly in Africa and S & Central America. UN threatening, IMF and World Bank threatening them, but more and more countries are not buying their bs'ery anymore, this is a significant change and a further erosion of their old system ways. This includes threatening the

children and families of the leaders but a significant number are not buying into their threats anymore and that is a major progress point.

Who funds IMF if it runs out of cash? The US is the biggest political player in the Fund; Congress has been asked to stump up \$18bn more for the coffers.

\*The 3 stages of truth and how it applies to Kim and MWHT on all the top levels in each country. First, it is ridiculed. Second, it is violently opposed. Third, it is accepted as being self-evident. so where are we at? well we have gone through stage 1 and it being ridiculed, the second stage of it being violently opposed has also largely been passed through. For stage 3 as being accepted as self evident, we need to split that into two categories by adding another stage, called ooh my what do we see there, it is real and it was the truth all along, we are in some aspects the first stages of that, an escalation of that and an event now will trigger stage 3 in full and will be accepted as self evident. Then the funding will begin.

\*there are 1.3 billion people alive today without electricity. A staggering statistic in today's modern world, when billions are spent laying pipelines for oil and trillions spent fighting over oil, the fact so many roughly 20% of the people don't have electric now is a humanitarian crime.

\*Did you know that the people who filmed Rodney King event were on their first visit to America but linked to Australian intelligence who are linked with CIA aka five eyes. The two people who were in the car with him that night died in that car, why has nothing been mentioned about that. Question remains is why King who was serving 8 year jail sentence was let out after 3 weeks later and then soon after that happened? They also gave him a lot of money to buy a house with a pool, funny that as Rodney couldnt swim, how did he die? he drowned.

\*Life when viewed from outside the box throws up all kinds of things to ponder on, some of which we have covered on the shows, but a repeated one crops up maybe every day for some,

maybe a few times a week for others, and it all plays into perspective. Children get much chastized and then often psychologically referred to so called specialists if they keep mentioning imaginary friends.

A few things about that is, a child has more senses ages 0-6 and then has them dulled by society and under taught parents, I don't care how many levels of degrees you have, we have all been under taught, only recently have we delved into what is classed as para normal, interesting terms para means beyond, altered or against when merged with normal, it really tells you the term normal is a control system, beyond normal, altered normal or against normal, who decided what was normal to begin with? why haven't we really questioned what is normal?

Normal defines boundary's and limits and is another way of reductionism I mentioned in a previous show, you could say normal is what is in the box, the box is the system that has limited everything, a bit like the term the sky is the limit, really? it might be your limit, but it is not mine.

Everywhere you look in society it is all about reductionism and limitation and for too long too many have just consumed both far too easily.

So, back to the imaginary friends, society tells us one thing but always covers up another, and it is all about perspective, perspective should be your view of the world, not somebody else's, or largely one that has been created for you to follow.

The question is, is why are children who have imaginary friends treated with derision, ridicule or worse sent to book read psychologists, and yet 3B people or more can parade around the planet declaring a love for someone they have never met in person, entrusting and dedicating their whole lives to this one person called jesus, who in essence is an imaginary friend, funny that, but you see it is all about perspectives isn't it.

\*psychotic AI/magnetic field overlay frequency/veil/ simulation is gone or faded to a point of non interference, we are only experiencing the memory of it, those who hold onto the memory are holding onto the control system, a case of give it energy and it comes to you, don't and its not there.

It is a bit like making a curry based meal, the meal, the dishes, the pans are all gone and clean, but the smell lingers for days or weeks.

\*here is an example of hello McFly, I will spare mentioning the country but this is indicative of levels of utter synth like behavior of follow a path that has always failed. Kim spoke to this particular country and was offering them substantial funds to kick start projects all free from the trust and they did their due diligence and all stacked up, but in came the IMF stormtroopers and suddenly the country decided it didnt want free money from the trust and would borrow with interest from the IMF!! I kid you not, this is the levels of stupidity, corruption and skullduggery of those operating at the top levels of many of the countries. Like I said earlier I hope all countries demand their loans off IMF now with a 3 day payout stipulation, then come back to us when that fails as well.

\*Clowns tried a double pronged attack to enter the Quantum system from Hong Kong and also Naval base in Virginia, which is likely ran by SSP, both failed individually and collectively, both received a humorous message and both had their systems crashed and burned, it will take 2 weeks to a month to get their systems back up and running.

Cabal and the minions are literally spending their last resources now in attempt to pull off their RV program and stop Quantum system and the Trust, we are really seeing now the end times of how it used to be and was, to an opportunity to go a new way and new path.

\*Barack Obama gave a \$150k bribe to silence a hate preacher, Jeremiah Wright. Bill Clinton paid Paula Jones \$850k to go away. I dont seem to recall the portal people focusing on that too much.

\*Can now give details of what took place with Rothschilds and their so called quantum system under Wright Patterson airbase.

Their clearance only allows them to go down 6 levels of the 13 levels below Wright Patterson airbase, bottom 7 levels belongs to the NT's and they are protected under the peace treaty, well the minions decided they needed more power for their system and drilled a hole from level 6 to

level 8 to hook up to another system, well despite that, that failed also. Lucky for them they did no real damage or Wright Patterson airbase in it's entirety would no longer exist.

\*A new input of source energy was added the weekend before last this has increased the changes unfolding on all levels

People speak of event or events and ask when is it happening, my answer is which event? and isn't it the case that many events have already happened? if you think not, you just haven't connected the dots yet, which is understandable given the amount of bs'ery everywhere.

Events that have already taken place. 1. we are not dead should have all been gone by 2012 2. Kim took over the trust and designated it all for the benefit of the countries and it's people and not clowns 3. The peace treaty ending 16500 years of martial law, it also ended the shipping war and law more commonly known as Admiralty Law or Maritime law in 2016 4. The Draco left 2015 except a few minions 5. The Parents went from 21 down to 2, both are insane, neither are here anymore and only have a VI projection of themselves in here, one is known as the red queen 6. The covens collapsed from 13 down to 2 and we are unsure whether that 2 is now 0. 7. Illuminati no longer exists and is now broken into 5 factions, Jesuit, Asian, Zionist, Nazi and Secret society, all are fighting each other and also infighting 8. Rothschilds who support all 5 factions have had to fire sale a number of properties this year, sold most of their stocks this year, lost control of The Crown, lost control of Washington DC and many other regions, lost control of the mercenaries as they are refusing to take on Rothschilds hit squad tasks now, their alleged quantum system they rolled out crashed and burned on first attempt, a top Rothschild is in big health trouble i'm hearing unconfirmed yet 9. soul traps/memory wipes and forced re-incarnation ended 10. Saturn Moon matrix and Saturn entity rendered obsolete 11. CERN also rendered obsolete 12. psychotic AI rendered obsolete 13. matrix, veil or simulation all rendered obsolete although only remnants in our memory loss keep it real, in reality its not 14. Marduk was taken out permanently following a request by us to remove him was sent to the Council, which was agreed to, and we removed him permanently late 2016, that was a big loss to them, as only he knew the full system and how it all worked 15. Kim and the trust took over the whole banking system and has blocked them all from accessing it, despite numerous attempts at hacking, usually one day before the mythical RV, all of them failed. Kim has proven to all and sundry only she has the codes that work, only she can release the trust funds, only she has the assets to support it. She has released some funds to some countries but clowns are blocking all

attempts of funds reaching America currently, as this country is under a financial assassination order by Rothschilds, Dragon groups, SSp and others 16. Project Bluebeam failed 17. Global Biological extinction weapons failed 18. WW3 failed 19. Collection of all countries inground resources failed 20. Kim took over the UN stripped the assets they had stolen and gave them all back to the countries to whom it belonged 21. Alt media came out of the dark shadow cast as conspiracy theorists and nutters, most so called conspiracies are now in the public eye and are based in fact, this despite alt media being a fraction of it once was, the few left carried the can, the co-opted and agency paid shills laid bare by this show and also Randy Maugans 22. Portal people aka mainstream trashed into almost oblivion, now considering by many as fake news 23. Churches laid bare for what they really are a total sham, that was an initial experiment played on the people, all religions are a part of that experiment to take you away from who and what you are, and make you forget source, pedos exposed, financial skullduggery exposed, heinous slayings of the peoples teachers and their offspring, slaying of seers, visionaries and psychics all burnt at the stake, created wars for their sacrifices to their so called gods, killing multi millions and satanic behaviors and horrific rituals 24. Politicians and stars exposed for fraud, sexual misconduct, cult practice, satanic behaviors and ritual abuse and sacrifice 25. GMO kings Monsatano crashed and burned 26. Chinese elders proven fake, despite various detailed attempts to seek them out, no one on this planet knows who they are, for good reason - they don't exist 27. Nibiru, fake asteriods hitting us, RV's, GCR's, Nesara and Gesara, OPPT, zims, dongs, dinars and crypto currencies all rendered fake or obsolete. 28. IMF and World bank exposed as financial terrorists, other organizations will follow that description 29. Charities and fake foundations exposed for money laundering, trafficking for sexual and labor purposes, child trafficking for labor, sexual abuse, adrenalchrome and ritual sacrifice 30. We made peace with many of the non terrestrials here and work continues on that front.

The last event for tonight is ongoing, but never forget how far you have come as a person or a group, You all have learned the truth to varying degrees of learning, unravelled many of the lies, unveiled many of the masks and carried on despite threats, ridicule and anger directed at you, from so called friends, family and loved ones.

Many have learned how to be more compassionate, caring, sharing, you speak of we and us and less in me and I, learned how to defend yourselves via shielding, learned how live and love life again, learned personal responsibility and perspective, people have quit drugs, quit alcohol, quit pharmaceuticals, stopped suicides. All these are events bigger than you thought, now it is all laid out bare tonight, perhaps it will give you all, the time to reconsider when is the event happening? the answer is most of it already has.

We have much to look forward to as we strip bare the service to self clowns, the special ones, the families and their minions who have consumed our energy and souls in vast quantities, the psychopaths intent on war and destruction, we have an opportunity to create a world in our image, not the lord and his band of reptillians, but in our image, our way and our path, one that doesn't require harvesting us or killing anyone, one that doesn't require overthrowing governments as they knew nothing, a world that doesn't require spying on everyone, a world that doesn't require starving 40% of the people, a world that doesn't have 1.1 billion people that lack access to safe drinking water or 2.6 billion people that lack adequate sanitation, a world that doesn't require killing 47K children per day, a world that doesn't require millions living in poverty, where 3B people live on less than \$2.50 per day, or 1.3B live on \$1.25 per day, or 1 billion children living in poverty, while death and destruction psychopaths spend \$1.7T per year globally on military and weaponry, a world that doesn't require 1.2B living without electricity, a world that doesn't require fighting over resources, land or control, it requires none of that, that was their system not ours.

Everyone has a moral and an outright duty to fight, strive and worked hard to create that better world for us all, an obligation to protect and serve humanity, protect and serve the children, and lay the foundations for our journey from a child like, backward species, requiring others to look after us, to a peaceful space faring race, of which we can be deemed, a proud and worthy adult species.

Peace, prosperity and freedom are not something you wish for, you have forgotten you have the ability to create it, up to each and everyone of you to create that reality. You wanted events you have already had them, now go out and be a part of creating our new world. United we stand, divided we fall.
