

THI-SHOW TRANSCRIPT 2019-01-01

SEPTEMBER

It is with great sadness and heavy heart for those of you in THI and CV who knew LunaLisa Dougherty, to announce she passed away Monday at 3.42pm PT from a stroke at the tender age of just 56.

LunaLisa battled through a number of life's illnesses and also personal traumas over the last 3-4 years in particular, but always came back out fighting and soldiered on, fitting in some ways she died on Labor day, as Lunalisa labored on through many hardships and battles.

This time her battle was too much, and her time and battles on the 3D plane came to an end, I know she will battle hard on the other planes and will no doubt meet many of us again in our "dreamtime".

Condolences to Lunalisa's family, friends and associates, she will be missed by many here and at Cosmic Voice, spend a few minutes in remembrance of one of our more popular members and the memories she brought to you and us.

As the focal point of the group these events hit me harder than most, THI was created to be like a family for us all, so if one goes, I feel a part of us all goes with them, it's unique and fantastic that a group of people who most us have never met each other, have gained those type of feelings for each other, and an example for the rest to follow.

You should all be proud that you have contributed to that family spirit, I can only show the path, I cannot make you walk it.

Lunalisa is now out of pain and out of suffering and for that aspect we must be grateful for, she will be missed by many of that I'm sure, but lets make sure her passing, plus Rodney, Pat and the young Jones lad is not in vain and we step up our efforts further to fill in the gaps left.

RIP LunaLisa from all at THI

* A raft of ex agency guys are now in running for elections as Democrats in latest attempt to delay inevitable, Abigail Spanberger, Ellisa Slotkin, Patrick Ryan and Jeff Beals to name but 4.

*Portal people at division tactics again this time over Trump's response over Mc Cain funeral, ignoring that McCain said he didn't want him there, which is a classic divide and conquer tactic in and of itself, but Trump ignoring personal bric brats, knows full well the real truth about McCain, he said his respects to the family and stepped back, but portal people would have turned on him and called him fake if he turned up at the funeral, he honored the family wishes and stayed away.

* All major banks WILLINGLY allowed Hercules to siphon out funds on Tuesday with the promise they would get that and much more back by Friday. Hercules crashed there for Citi, Wellsfargo, BofA, JP Morgan are all at a negative liquidity, Not just a little negative...

but in excess of 30% negative

Once you take digital dollars out of the system you need an allocation number to bring "new money" into the system. These clowns are beyond stupid.

2

*At 5.04pm est today the clowns fired up a new system which they were trying to make out was a quantum system, it's not, was a rerun of old Hercules system, system 5.0 we watched we waited they failed and we boomed it at 5.12pm est

This was another attempt at Quantum system from wright patterson which is controlled by SSp, I don't think will like too much the damage that was left after that attempt, consequences of actions in it's full glory.

*Trump had to cancel schedule Monday due to significant threats. Urgent message to Trump that must be heeded, that General guy you are taking orders and advice from is leading you astray, he is SSp and another one of the head of the black dragon group. You will fail badly if you continue to listen to that clown, take appropriate measures quickly or pay the price.

Generals gathered in the Mattis song was played.

Lets do a review of the psychic attacks, these are sharp unannounced pains that form into a small mass about the size of a quarter above either eye around the temple area, no it is not some random migraine or headache, it is what it is and you ignore it at your

own peril, the split second it starts you have to go into action, don't sit around rubbing it and hoping it goes away, envision yourself putting a ring or box around the site and then envision you expelling that mass out of your body and with message return to sender x 10, no more than that is required, as controlling and expelling it takes away some of your life force energy, it must be used wisely, as it is not easily or always replenished, so no times 50, a 100 or more please, 10 is enough for sender to not repeat 95% of the time, if it returns repeat the same steps until it is gone.

Each will have their own shield and your own imagination and magic will decide what is best for, an oval shape around you that goes beneath your feet is a common one, a 1/2 moon dome over you will not cover what is below, so be careful many make the mistake of only going to the floor, dark spirits or entities with no physical form know no boundaries like floors, walls or ceilings.

My own favorite is a cone shape wider at the bottom and narrowing over the head, but seal the floor first, I see a blue and white spiral coming up from the floor up to the head, word of warning if you see it and it stops or stalls somewhere on your body or the person you are helping, it means you or the other person is blocked at that energy center with this method of shielding, so it is not just a shield it is a scanner as well, you don't want to shield in an attachment do ya? remove obstacle with blast of energy from the feet up and through the crown, and continue with spiral, the outside of the spiral I

use contains fire which consumes those who approach too close, like an early warning system, which is rather effective for the few who have witnessed it close at hand. What you choose to put as a warning or non invasive alert is your own choice, it is only limited by your own imagination or belief in it.

3

*Kim and the trust arranged a number of transfers into America last week and was approved by The Treasury, DOJ and Homeland Security on August 31st for clearance into recipients accounts, in came clowns first Rothschilds threatened the banks involved and then clowns came in with a new bank directive to state no one is allowed over a certain amount in their account as from September 14th, except the amount was already cleared on August 31st for deposit into the accounts, these people are beyond stupid. Funds are still sitting there for release as they are unable to touch them.

One bank was attended to by FBI and Treasury to enforce the deposits, they got the run around from that bank and left, but will return with heavy enforcement, paperwork, warrants and delve into that particular banks records, we know what is in there and so will they after it is finished, that bank and its top people will go down.

The transfers have now all cleared and the banks involved have not credited the accounts, those banks have chosen to not work with The Trust, fair enough, those banks and every other bank will need to listen closely to the next piece, you will not be warned

we will just act, your choice.

So a meeting was arranged between Kim, I and the team and we decided more stringent actions needed to be taken and the following was unveiled, As of today The Federal Reserve under several banking acts including the fact their charter ran out 2012-2013 time period, and the trust who holds all allocation numbers for every single US dollar has decided to totally revoke their license, and that means they can no longer process, hold or transact in US dollars any more, given 85% of the world's trade is in US dollars it means they can no longer operate as bank within America, all processing, printing, holding and trading has been handed over to The Treasury. Should any other bank block, delay or fail to credit the trust transfers you will also meet the same fate, no warning, just cancelled. Fed is confirmed down White House is aware, so is treasury.

*Bonds to liquidate banks from negative liquidity to 0% read out

*HSBC, JPM and Citibank lose right to hold certain currencies transferred into different currencies

*"Burning Down the House" due to embezzlement of public funds, abuse of power under the color of the law, disobeying executive orders of the CURRENT President of the United States Donald J Trump, All access to any mainframe by an office of the IRS, both official and unofficial is hereby suspended until a full audit can be performed. In order to expedite the auditing process, the entire content of these mainframe servers are

currently being uploaded to the CIA, Department of USA treasury, FBI, Secret Service, White House Treasury Terminal, Department of Homeland Security and Government Accountability office. IRS goes down.

IRS servers taken down in Puerto Rico, Costa Rica, Washington DC, St Pierre newfoundland, Canada, Alaska, Washington State, Belgium, France, Switzerland and Hong Kong

*NsA associated were take down also servers down in Costa Rica, Puerto Rico, Honduras, Panama, Utah and Calabasa CA

4

*Mr. Obama will have to explain his sordid antics that came up on the server and how he was using the IRS like a debit card services for some rather suspect behavior, parties, travel expenses all facilitated by Obama appointed people within the IRS - all the relevant authorities have been notified of those criminalities as all the files that were uploaded contain that evidence - oops

*massive sting done by FBI over \$220M of supernotes 7 were arrested they were caught with several different currencies, whole pallets of them.

*Did you know the trust handed over millions of dollars to the World Bank for development, infrastructure and humanitarian programs in the past? they spent none of it on those projects and used it to create wars, they like UN, IMF, WHO and need to be

dealt with accordingly and disbanded or fully repurposed, all are criminal organizations.

This week Kim sent \$500M for development and infrastructure to Sierra Leone, all approved, all verified and all credited to the bank, then in came 5 World Bank hired thugs that stormed the bank and blocked the transfers of the fund, threatened the bank and threatened to arrest people within the bank.

*Citibank control most of African banks and Wells the Fargo control banking in S.America these two will be dealt with severely and here is why, the trust funds placed in Citibank in Africa was all cleared as I have said, bank admitted the funds were there and decided to put it in a clearing account and so they delayed they payments.

Wednesday they told the customer pay out will be Thursday (reason why is Rothschilds/Chinese elders etc were due to pay out by 5pm ET Wednesday, so they told the 4 outlets were the trust had sent the funds to hold back - you know what happened next by now dont you? - yes no pay out) well customer went for the funds today and Citibank refused to release the funds. So, what happened next, well Kim took back the bonds given on Sunday to bring Citibank from -42% liquidity to zero, and called in the debt owed to the trust by Citibank to the tune of \$389T, Citibank now at -400+% liquidity, we also took away their rights to wire transfer in or out in N.America due to breaking all the banking rules and regulations here. Citibank about to go bye bye and message to all banks who follow that tactic of not releasing the funds to the customer,

you will face the same consequences. Citibank declared insolvent due to fraudulent activities.

*Rothschild's have given up on Asian Faction now and have engaged the Nazi group whose AAIA membership is 2.5 million, Rothschilds want them to unleash global biowarfare to reduce population by 90%. They have 3 different modes of delivery to accommodate the various human genetics involved, 25% reduction for each one and rest die from combination of the three. Bill Gates of Microsoft is tasked in this role of grim reaper. High time all so called authorities act, this is national security for every country. We have further intel in that they are digging up regions where black plague bodies were buried for their genocide program, it will be stopped. Since this

5

announcement Trump has now set up a biological warfare team.

*Explosions in various towns across NE America were down to the nazi faction causing disruption, investigations ongoing, larger events have been blocked

*Treasury meeting with around 10 insolvent banks including all the cabal named banks on Friday, banks were told you only have one option to restock and refloat your banks, and that is Manna World Holding Trust. They were also told to produce audit figures for a secondary meeting on Monday. Expect chaos to ensue, now they are backed into a corner.

*Banks did produce their figures and all of it was lies and distortion and cooked books, The treasury ran their own reports and found huge discrepancies, so now Treasury are aware of the lying ongoing.

Unblock MWHT or all your business and the countries globally goes bust. Sack all the top CEO's of every bank, individual or central, shut down officially the FEd and the IRS and restructure or delete accordingly, it Could well be nationalization of all banks may well take place.

*banks now have zero liquidity, banks are being threatened by Rothschilds led companies they will pull out all the big corporations out of the banks if they accept the Trust funds, Kim responded she will give the banks \$10 for every \$1 the funds pulled out if they go ahead.

They think they can create money out of thin air like in the past, but all money must have an allocation number and the Quantum system knows all the numbers of every US dollar and other currencies, and recognizes all the duplicates and instantly rejects them. This prevents assets being duplicated and leveraged against, with all assets mapped and logged inside the system, there is no confusion or cheating anymore as to what is real or not, but the clowns always think they can buck the system, not no more you can't, as several failed hacking attempts, adding supernotes or printing currencies with duplicate allocation numbers have all attested, all of them failed, and that will always remain the

case.

*Currently \$19B of project funds is being held in abeyance by banks at the request of Rothschilds and controlling elites, as Rothschilds make promise after promise to restock the banks with funds, except they or Chinese Elders dont have anything to give or offer, everything belongs to The Trust no matter who tells you different, the trust has made offers to all the banks and yet still we wait. Funds into the banks have all been declared valid and legal by Treasury, BIS, DHS and other institutions, FBI, OCC, DOJ, DHS have all been into the banks where the \$19B is housed and still we wait for real actions, the lack of actions coming from the government is a source of frustration at best at this point, and indicative on larger scale.

*Mr. munchkins and his crew at the treasury need to get moving and push things along,

6

but maybe he is not batting for us, time will tell.

*The treasury itself has been pushing the 4 banks currently holding \$19B on account for last 3 weeks, on releasing the funds I am pleased to say, the 4 banks have now asked the agencies for an intelligence report on Manna World Holding Trust of the validity of the funds, oh the irony the banks who laundered billions of drug, trafficking and slavery money asking for validity of the funds.

*Pressure is now being applied on getting Israel to sign the non proliferation treaty on

nuclear weapons, to date they have not signed it, in part due to the fact they have been selling American weapons nuclear and non nuclear and trade secrets globally and making a vast profit on it. What is also less known is all the furore over Iran having nuclear weapons is ironic, since it was the Israelis who actually sold them the nuclear weapons Iran has in 1984.

*A lot of chatter about bonds and redeeming them globally either for bank bail outs, cabal enrichment or agency related control systems, you may not know that bonds can only be created during war time, and as we were under martial law for last 16500 years is how they came into existence, since 2016 when peace was declared and the peace treaty enforcable, these bonds are only bank assets now, so forget all the alt media talk of cashing them in for collateral accounts etc.

*We have spoken to the Zimbabwe president this week and made him aware of the currency issue his country faces, with clowns and the goons on the internet promoting Zims, I promise you, when they change their currency they will not be using Zims, Zims will then have same value as monopoly currency.

*Something that came up in one of the chats recently, that gave me an idea, with all the concerns of wifi and G5 would it not be cool if all developed their latent abilities to tune into a frequency and create their own wifi or myfi, this is not as far fetched as it initially appears, we have many latent abilities wrapped up in the 95% junk DNA, which get

switched on as you become more responsible and balanced, and as you rise up the mental planes soul evolution.

*Thinking aloud and given how many people think about Trump, he splits and divides opinion too much, so much so, even if he did the right thing, many would reject it just because it is Trump, but what if Trump went down with all the other clowns for indiscretions, what happens next? Pence? err no, maybe we should consider a temporary appointment at the top for the transition only. You all remember the furore that piece created and ended my connections with Tank and his group through lack of support. All knew that was a pondering piece as it was made very clear, but some chose to use it for their own gain or advantage and following Kims statement on it, all went back to normal between Kim, The Trust and I.

7

*RV description, so what is the RV, a collection of currencies collected around the world, most of them stolen loot out of invaded countries or printed out by the Rothschilds owned printing company called De La Rue, that would essentially be revalued at X times the current valuation and other currencies would be devalued at X times the current rate.

For example if the RV had validity and went ahead, the talk was the \$ would devalued by between 50-80%, Zims, donges and dinars which were held in vast quantities by the

cabal after they looted those countries would increase by 3-10 times their current value. Most top military, mercenary groups, so called terrorist groups, politicians and media giants were paid in dinars not dollars on the promise each note would pay out 3 to 10 times its current value, and so making them all multi millionaires overnight, this is what is stopping the authorities moving as they all want their payouts, except nobody appears to have gotten through their single brain cell thinking and told them a. its not happening b. you have been duped and c. current banking system cant handle influx of that kind and would totally collapse all banks globally within 5 minutes of it being banked.

To pull off the RV requires a down payment that is larger than all the money spent by everyone in the last 500 years or more, and assets to back it that would require a number of Earths not just this one to support it, now ask yourselves is that scenario eminently possible? This is the stark reality of what people are promoting on the internet.

So what was the RV goals?

The Plan to eliminate America as the major role player started back in the 70's and goal was to financially cripple the country, weaken and then eliminate the dollar, or so it has a value of a peso, remove the guns from the people, declare many terrorists and load into FEMA camps and reduce 85% of other countries who are trading with the dollar

into oblivion, why do you think the US military sold all their equipment to the Asian faction and are now leasing it back? for those that are new, I mean every plane, ship, weapons or missile belonging to the USA inc military, (for those new our current military does not belong to America, does not operate for and by America either, Rothschilds and Jesuit puppets, with a heavy leaning to the Zionists thrown in) so how was it done, well with Rothschilds and minions emptying all the American and govt bank accounts ably supported by the Fed, there has been no money to run the country since November 2016 and they have been selling stuff off and getting DOD credit vouchers since, all of that military hardware was paid for by the people, was sold to the Asian faction, all of it, work is still underway to get it all back.

The RV was a bank, corporate and cabal bail out to kick start not humanitarian programs, but to start the 90% humanity genocide programs, pure and simple and anyone who thinks different at this stage with all the information that is available, is either beyond stupid bordering on retarded, a rothschilds agent or a cabal puppet, there is no other category, so take your pick, the RV was a harvesting program, pure and simple, but people fell for it for seducement purposes, a promise of free money, and we have all fell for that at some stage particularly in times of economic downturn, but it is short term gain and long term pain, what is required now for first time ever is short

8

term pain and long term gain, enough of the seducements, false promises, of RV's, PPP's, ET packages, Nesara/Gesara, OPPT birth certificate pay outs it was all illusion designed to string us all along whilst they raped and pillaged, due to the Trust their ability to do any of the above has been drastically reduced and edging towards being eliminated altogether.

song

*Un threats were being issued to many govt officials within the UN assembly, it was not unexpected by many of the attendees and that is a sign of progress, as they know who the real enemy is now, all in your face, makes all the vast quantity of time Kim and team have put in to teach these people of what is really going on on this planet, most couldn't believe it at first and now they do, some who rejected us last year are now returning as they have finally seen it all for themselves.

*one high level and prominent govt employee has been charged with possible high level treason and is currently walking around with an ankle bracelet, one suspects it will become very clear who, although there was reference in last weeks show, in the coming days, it will become obvious. no it is not RR that is an extra issue.

*Norfolk Virginia cabal crew ran by the SSp has been accessing all the treasury files and accounts and has been transferring data over to the Chinese elements. all security codes and policies are now being rewritten.

*Trump blaming china for interfering with up and coming elections should not be taken literally, it has nothing to do with China the country, it's people or the govt, and everything to do with Chinese Elders, Rothillians and Dragon groups employing an army of hackers out of Asia to hack into everything not just the trust and here is why

*Security certificates, govts, agencies, military and pentagon depts completely unaware at the depth of it, these are in phones, computers, laptops, ipads, cars, planes, boats, trains anything that has a motherboard or chip, some will be familiar with verisign for credit or debit card transactions you name it.

*crashing tesla or electric cars to keep the oil cars going

*The Government has approached the Trustee to address the income tax issue, changing our tax structure so that only Social Security and spending taxes will be in place soon. Current analysis is being done to see the best way to execute this. The IRS will be moved out of Puerto Rico and back into the United States

They have also asked Kim to address the Student Loan Debts and other debt issues.

*The Trustee believes the USA will be completely self sustaining with no other foreign bodies or corporations having any say or control within the next 3 to 5 years.

9

*what would sovereignty bring to america? fed/irs. 3/4/5 letter oversight, taxes reduced, constitution, bill of rights, ending of bar system return to natural or common

law, american govt, our own currency, keep our own resources, wars would ceased and we the people funding it, everything and everyone accountable, financial transparency, no more too big to fail, immunity, above the law, Crown rule end, real independence. end of deep state, end of SSsp, disclosures abound but not necessarily et or religion that will be a later date, too sensitive and too damaging.

Funding for projects and humanitarian issue would not be blocked. end of banking tyranny, end of sacrificing sons and daughters, beginning of the end of old technology like oil, nuclear, gas or coal and phasing in of new cleaner technology, advancements in medical fields, return to entrepreneurs with fresh ideas and driven hopefully in improving humanity and not just their bank balance, end of cor- pirate control, end of gmos, chemtrails, water poisoning, nutrient and vitamin deficient food, end of dumbing down in schools, end of vaccine issue, beginning of the end of psychopaths running the world, so when you ask what sovereignty means there is your answer, except I left out one key component - YOU - sovereignty means YOU have a personal responsibility for the first time in your lives, to not only participate in improving your world, but everyone elses as well, that is sovereignty, everyone chipping to improve all aspects of life, everyones workload will increase exponentially, as we have much to clean up, improve or delete, the improving of ourselves and clean up of ourselves is the most essential part.

*A 250 year old Rothschild trust based in Europe has come to light which laundered a lot of money for unscrupulous exercises, purpose was mainly used for blackmail and was a political based trust, make donations to certain politicians so they always had something on them (you have to remember it is supposed to be illegal to collect donations from outside America, largely overlooked but these people would always have that in hand) also used to make bribes, cover up crimes and also manufacture lies against certain politicians or leaders they no longer approved of, so the likes of clintons, bushes et al would use this particular trust fund to launch a negative campaign against those that didn't follow their orders, so it may be a case that some politicians and leaders have been wrongly accused of doing things, time will tell as always. As of Wednesday this trust was confiscated and so no longer available to certain clowns to play games.

*One of the most crucial events during the early days of the cold war took place 69 years ago this week, 1948, over a 15 month period 275k flights on military planes from US to west berlin to deliver supplies of food, medicine and coal to beleaguered people in Germany, anybody else feel something wrong in that? war the people pay, reparations and supply the people pay, you can guarantee few of those flights never came back empty, this was your Paperclip exercise under the guise of helping the germans deal with Russia, yeah right - here started the 4th reich, only now are some beginning to see it, and ya still think we won WW2?

*did you know NFL players only started to come on the field to the anthem in 2009 after
10

DOD paid them \$12.3M between 2011 and 2015 to boost recruitment in the military, so
whilst NFL players maybe being honorable, they took the seducements to insert
themselves into the political arena, ya see money comes at a heavy cost.

OCTOBER

*So word on the street is Obama, Admiral Jon Von Wright and 2 of the Chinese Factions,
The Manchurians/Kuomintang also known as the Black Dragon and the Gold Dragon
groups are all creating chaos in attempts to become Pindar. Apparently the final
decision is made by Rothschild. So here is where we are at in this giant game of "Who
will be the next Captain of the Titanic", the Head Slave, the Big Kahuna.. The Chinese
Groups are fighting within themselves whilst deeply indebting China.

*Eric Prince has joined the ranks of the Chinese Group known as the "Black Dragon" and
is also a member of the very secret OSS Society based out of Norfolk, Virginia. He has
won awards from the OSS for his outstanding work in leading the private military groups
in their fantastic acting jobs, as "Russian Seperatists" in Ukraine, and also posing as
"Islamic State" also known as ISIS. Congratulations goes to Mr. Prince for training so
many UK, USA and German Intelligence officers to become actors and actresses. Hey
Eric, just a reminder, when posing as Russian Military, remember Russian men wear

their wedding bands on the RIGHT hand. Oh well, who looks at details when Joe Biden's son is raking in the dough as a board member of Ukraine's largest Gas Company. Eric has formed a close relationship with Mr. Gao (head of the black dragon in China) and is back at trying his hand on how to be a terrorist. This time posing once again as ISIS and also the IMF Mercenary Group.

*Trump told Saudi King he wouldn't last '2 weeks' without US support, watch that closely. Links to look out for is Israel and Yemen.

drake piece

*Two things have repeated throughout my life that I still to this day struggle to understand as changing it would require me to change of who and what I am, many of you will have witnessed it even with late Cosmic Voice and THI and the two things are I see and say things ahead of time, people ask me for advice and then do the opposite, if I had \$1 for everytime throughout my life of Tommy said that last week, month, year or years, then I wouldn't need Patreon to keep me going I could have retired by now, so the question is do I not give advice? do I not give my opinions? an interesting dilemma indeed, to me the frustration is not about being proved right, but the damage it has caused people who never acted on it, it bugs me no end, I'm sure there is a lesson in there somewhere, but keeping quiet to me is not an option.

The 2nd thing that has gone right through my life is people who should have loved me

didn't and let me down badly, and people I put full trust in didn't return it also, if I go into any situation in life I put 100% trust and loyalty into the relationship, business, radio show or people in general I choose to engage, I give out lots in terms of loyalty and

11

trust, to the many people I have helped privately and publically, but way too often in my life, people oh so easily forget what you have done for them, and turn nasty on you on a dime, and subsequently sell you out.

So the question from this aspect and lesson to be learnt is no clearer than the first question, is the solution to not help people as they only shit on you at a later date? where is the lesson in that? This is why I have said you cannot do this role I am in and be anywhere near 50% service to self, there are way too many kicks in the teeth from people, who should know and do better, it is in essence a full on sacrifice of your own feelings of hurt, pain and frustration in aiding others, it shouldn't be that way. I have been told by quite a few I am too nice, my reply to a recent person who told me that was, so that justifies someone taking the piss or not treating me right, because I'm too nice? again I ask should life be that way? a world where nice people are shat on and service to self people prosper? is that the world we really want? because if it is, we are wasting our time doing any of this. I would sooner be too nice than too nasty, but maybe I have to find a better balance, between too nice and standing my ground and

looking after myself, as it appears too often others won't.

*Cabal along with rogue organizations like UN and IMF are targeting and threatening heavily a whole swathes of Africa countries currently, threatening central banks, government officials and presidents or prime ministers of those countries.

This is an attempt to stop to them in any way shape or form working with The Trust, some are offered huge bribes to block funding from The Trust coming in to help their countries. Message to all African countries, combine together and turf out rogue elements within your countries and block these criminals threatening and abusing your own sovereignty, throw the UN, IMF and Citibank out of all your countries, these people have never done anything good for you and your people, they have raped, pillaged, vaccinated and killed your people for centuries, tested and implemented viruses that were administered by the WHO, yes the WHO is where all the diseases in your country came from, time to put aside individual country, clan and villages wars aside, as whilst they deliberately provoke those situations to keep you all distracted, the plunder your country, the same people that provided the guns and or weapons, time to get smart and get rid of those people and rebuild a new Africa where all your people can flourish, not die by the thousands each day.

*just when you thought it was safe that dinars, zims, dongos and supernotes, I received a message from Europe, clowns are using a new mode of money currently on the black

market, and will replace the Euro with their own currency, step forward Germany and the deutschmark again. All being done with sleight of hand again, remember whose policy it was for 1 world government, 1 world currency and everything else one world with them at the helm - the nazis.

*There is a modern day crisis in America to do with the veterans, and it is not the obvious issue of PTSD, drugs and homelessness we have covered a lot in our shows, no, this has far more lasting issues that may only be resolved, by them all dying of old age or 12

some other issue. The issue is, at this point in time, and near or far future is all American troops will be left overseas, maybe permanently. This is nothing to do with war on terror or NWO global domination, this has to do with the deliberate drug use and mind control techniques done to all American soldiers, for various programs administered by those at the top.

It is currently deemed as a matter of full scale national security for soldiers to return home, as we currently cannot cope with the soldiers returning with all kinds of drug abuse and disease created by vaccine abuse done to them by their superiors, plus the fall out of the public as they find out what they have really been sending their sons and daughters to do, and what was done to them, and this is why they cant return home, at this point.

It appears that current thinking by the military is, they all get left in position and never return, and as they all die, and then problem will go away, this is typical thinking of Generals, ignore the problem and hope it goes away or eliminate them entirely in some friendly fire mishap. The people have to demand that funding is set aside, preferably out of the military budgets, less money to spend on killing people and more on saving people is the way forward, and safe environment provided for the support of returning soldiers, maybe initial help should be done on military bases or we build new centers for their rehabilitation and ultimate return to their families, depending on the severity of each case. The term soul dier makes much more sense now doesn't it, your children were used as sacrificial soul diers and MK ultra style guinea pigs, as the song says Generals gathered in their masses, just like witches at black masses.

*FEMA yet again found wanting, no planning, no training, no supplies, no distribution centers and no actions again. FEMA is not a disaster agency, but another slush fund sieving vast quantities of our money out of the govt coffers. A disaster happens and they have contracts with all the big suppliers, and just buy all kinds of stuff with zero oversight, who deliver it sometimes, most times not, vast quantities of generators, heavy equipment, chainsaws, timber, roofing supplies all get dumped in the zone, some of which goes missing, either by chancers or by design, then they call up and notify who they bought it off to come and collect it back, either when it is used but most of the

time it is not, and the supplier goes back and collects it, no refund for none use, zip, nada and then another disaster happens and FEMA buys all the same stuff again, most of it not used and then suppliers go and collect it all again and repeat cycle, this is a national disgrace like the Fed and the IRS, just a cartel license to print money for their cronies and rogue corporations, this shit has to stop and work is underway to stop it.

* The rescue team of warriors is gathering and amassing on many planes right now, many of you are now experiencing some of it for the first time, and some are more further along, don't be afraid of it, take time to process it all, it can be all consuming, with a plethora of questions, like am I going nuts? is this real? is my imagination running wild? these will all come to the fore.

Why is this happening now and so much in THI? because you have developed sufficiently to see, sense, experience and observe, most think is not possible. But a

13

warning must also be given that you exhibit maximum responsibility in that role also, do not think you are a god, special and or above anyone else, do not use abilities for revenge, envy, violence or service to the self, those will cause you to lose your status, trust me I have seen many fall away from that over the last 5 years. Once at this level you can only defend, not attack, so saying I'm going out with the purpose to kill this that and the other will cost you your abilities, and your back in the astral level of violence

and looshing.

*Did you know back in 2007 the Federal Reserve banking cartel was collecting \$37M per hour in interest from the American people, \$37M per hour and they still enforced the rogue so called tax agents known as the IRS to threaten, bully and take garnishments out of your salaries!! This is why this country is broke/bankrupt, and the American people have literally funded everything rogue throughout the world, well I say enough is enough, this is why Kim and the Trust has done what it has done to the Federal Reserve and their IRS counterparts, we have laid the foundation for a better way of life for the American people, the country and all other countries who use the USD, time for those in power to act on it. Enough of this people and country looting, that money can be put to much better uses for the people it was stolen off, time to act is now.

*CIA project, but it didn't end there, in came the blue theme and Blue Avians and another subtle reference to former and ongoing CIA projects, Project Blue bird (which later became artichoke), which involved the most heinous experiments on children, so now you know why I reacted to the Contact in the Desert billboard where Wilcock and Corey spoke of harvesting the children in a 3 year program, Project blue bird now became Blue Avian, Blue book, Blue Beam and the lesser known Blue Brethren club, you will see names in that group that will aghast and disappoint you in equal measure.

Cabal have a system of color coded agents, blue was not the only color, people will have

heard of Dr. Green and his links to Mengele experiments, maybe he was Mengele, as Dr. Green is a code name, Dr. Green is notorious up in Canada and their many nazi style experimentation programs, after some of the Paperclip crew moved to Canada, from all accounts Dr. Green has a daughter within our community, spouting all kinds of shite as well, with her Pine Gap agent sidekick.

You have intelligence agents or high profile people with names like Mr or Mrs White, white is not the real name it is the program they are attached to.

Mr. Black is another prominent program think Black diamond, Blackwater, Black Star Trust (any trust with Star in it like the notorious 5 star, Star is not a word it is an acronym, and stands for Special Trust Alternative Regime and was brought into law in 1997 via Cayman Islands) and others like the Black Trust for children out of Nebraska with the trustees being Wells the Fargo, even Black lives matter all funded by Soros, all are run as a dark rogue corporations or programs by the control system.

*The illiterate for this century will not be like the last century, for those who couldn't read or write, the illiterate for this century will be those who cannot unlearn the lies, they have devoured in this and all other centuries. This century will unravel and unveil

14

the lies, deceit and perpetrators of crimes against humanity, ignorance will be a choice, and not a statute or a regulation. Law like sense will return to common again, all done in

a nature-al or natural way.

In two generations our children will be walking libraries of real knowledge and truth, immersed in creativity, taught the ancient secrets of self healing, and set on a course of mental planes evolution and ultimately cosmic evolution and beyond, so they can become the beacon of progress for our species.

In two generations we can replace need not greed and put an end to the materialistic debt loop. of keeping up with the Jones's in a competitive mindset of people, who trample over everything and everyone under a cor-pirate structure.

In two generations we can work and learn from all the different cultures globally in a way that is conducive to all of us, not under the rule of law, but under the directives of understanding, openness, willing and striven to improve,

In two generations we can completely overhaul all the wrongs on this planet, be it people, non humans or control systems, and set a course for not for only the living beings on this planet, but also the planet herself.

In two generations we can speak to, work with, learn together and set a blueprint for this Universe with all the ET's and NT's that are here, before those who wish to return to the homeworlds, all species working in harmony, not destroying each other, so they can go home and teach their species a better way also.

In two generations we can all learn to be harmony with the self, cure the sickness within

us, of mired in self doubt, little me, envy, greed, insecurity, weakness into strengths, the lack of love, caring and sharing, the lack of consideration for others, where people are not defined by labels or chattel numbers or by one individual color of the spectrum, but we all become the full spectrum of color, radiating out for all the Universe to see, where all are inclusive, not exclusive, on planet where we create not destroy, a planet we treasure not disrespect, a planet of real hope, love, empathy and compassion, with us all exhibiting personal responsibility.

A planet we can then truly call home, set in our image not their image.

*The Saudi Arabia story and the killing of the journalist Mr. Khashoggi. Some people with the US Military with full knowledge of the details of what took place with Mr. Khashoggi, arranged a deal whereby the the US would receive a \$2T pay out to cover up the murder of Mr. Khashoggi by the Saudi Crown Prince. Mr. Mnuchin head of the Treasury flew out to Saudi last week to collect on the payment, except Saudi Arabia don't have \$2T, their reserves show around \$400B so quite how they were going to pay rogue elements \$2T is beyond me. Mr. Mnuchin who had flown out there despite being instructed he couldn't go by Mr. Trump, and thought he could bring funds back to America and use it as a Rothschilds style bail out, like a fake RV payment. But Mnuchin and his band of Rothtillians felt they had no options left, after another

mass hacking attempt on the Quantum System failed (more details on that later) once over there Saudis told him they had no money, and to go and ask Chinese Elders,

Mnuchin then went to Israel to collect funds (more on reason for that later piece) and

15

they told him they have none and go to Saudis (who are the real main funders of the Zionist elements in Israel) or to Rothschilds aka Chinese Elders. Mnuchin approached so called elders and was presented with \$40T worth of gold certificates, which he returned back to America with and arranged a meeting with Mr. Trump.

At that meeting which Trump had been prepped for, Mnuchin started to show Trump each certificate and he checked it for validity and origin via the terminal, first certificate stated holder and signature was Manna World Holding Trust and Kim Goguen, 2nd certificate ditto, 3rd certificate ditto, once it got to the 4th or more certificate Mr.

Mnuchin asked Mr. trump to stop, he had been rumbled, he and they thought Mr.

Trump would not check certificates, but he did and they all belong to Manna World Holding Trust, all \$40T of them. oops.

*Recently I have been mentioning ankle bracelet man, that was mr. Mnuchin, and yet despite ankle bracelet and two trackers and instructed not to leave or go to Saudi

Arabia, some elements within the official structure of America, still got him out to do business on behalf of not Mr. Trump and America, but on behalf of The United States

and the Rothschild band of goons, following Mnuchin's inability to follow orders and trying to dupe Mr. trump with the gold certificates, Mr. Mnuchin who has been responsible for blocking The Trust delivering funds into this country, was fired. Mr. Mnuchin whose security clearance, codes, passwords and ability to operate any financial system was all removed previously, Mnuchin will be on gardening leave until an official announcement of his firing, which may get announced as he resigned, he never, it is expected by the end of this month. One less high profile official within the government who works and operates for and on behalf of the deep state clowns, who will no longer hold this country to ransom. Mr. Mnuchin is the latest to be known as the chosen one, so for the many of you around the world who have been given that title, you are not the only one, I guess being the chosen one doesn't carry as much clout as Mnuchin thought, so from chosen one it is back to being just a munchkin, enjoy your return to Oz.

*So why did Mr. Mnuchin go to Israel for funding? because of all the main military aircraft being removed from the Air Force base in Florida Tyndall, F-22's and others were shipped to Israel before the storm in response to Russia's threat within the Middle East, yet again a double money making exercise to get money out of Israel, prolong the war in the middle east and so more funding, and also claim American government funds to replace airbase and all the jets. This is what these people have been doing for many

many years, with zero government oversight in the matter. This type of practise needs to be stopped now.

*hsbc and others spent all of Saturday trying to hack the Quantum System and once Kim had enough of their nonsense, completely fried their servers, rumor has it it will take a good few months to completely replace all their servers. Well they cant say we never warned them, we have several times.

16

The impact of the feminism movement led by Germaine Greer and others was supposed to give women equal rights, pay and value, or so we were all led to believe, a bit like ending slavery for blacks really, they just enslaved us all and blacks stayed the same, but because they were the same as the others colors, they or we never noticed it, until it was all too late.

There were several reasons this movement was set up and forced onto a gullible public, elites thought it would be a novel idea to collect taxes from women as well as men, by pushing them into the job market, but they knew females would largely accept lower wages, as back then it was only classed by and large, as a supplemental wage, due to the husband in general being the main breadwinner, as it was called then.

So now they had 2 plans in place, collect taxes off females who represented 51% of the population, in a largely male dominated work environment, and lower the wages to

boot, but the cabal rarely do things with 1 or 2 purposes, it is more often 3 or 4 purposes, sometimes more, all carefully strategized out and compartmentalized so people wouldn't get the hidden purposes and expose it.

So, what were the hidden agendas that eventually revealed themselves years down the line and led Germaine Greer to state she deeply regretted she ever put her name and face to this movement.

Put pure and simple, the family breakdown, the transgender program is a full on repeat of the feminist movement, except they like the women 40 years ago, will only realize they have been played for fools in the exact same way, further down the line.

Mothers and Fathers both working and people thought great, with extra income we can buy a new car, go on more vacations, give the kids more, and have a better lifestyle for all the family, it never turned out that way did it, despite 2 parents working, you now find you have less, than when just the man worked for all of his family.

How does that all work out? and why do we keep falling for their stupid programs? This is what we have to correct going forward, by using critical thinking skills in mass numbers again.

Reality is, the system have never been in support of any group of people in history, never mind women, blacks, hispanics, natives or Gay, Lesbian or Transgendered, they use the so called minorities to drive THEIR policies, not ours, except the impact of the

Feminism movement has been the most far reaching and damaging ever, in my opinion. So, women went to work and in kicked two major problems, comparative mindset where women compare their husbands, lifestyles, sex life and various other comparisons, which leads to envy and demanding more from their partners, which largely they were more than happy with before mixing in the work place, then the increase in females having extra marital affairs, went on a massive up curve that has never subsided since.

Divorce rates have soared since that movement came in, as women comparing lifestyles felt some how they were missing out on life, reality is they weren't, as most women were lying under their mask of illusion, that somehow they had more than everybody else, they didn't, their masks covered up their illusionary lifestyles, but once in comparative mindset, what is fake and what is real becomes a murky fog or more apt a smoky mirror.

17

As time went by and this hideous program escalated beyond all control including for women, the effect on men became devastating, no longer the protector and the provider which was the traditional role, but they become rendered as instantly replaceable by a pack like mentality, devoid of nurturing, care, love and compassion, and replaced by women more interested in how much the man earns, that decides on

whether they sleep or live with them, with falling male wages, a direct consequence of the female lower wage, something had to give.

What did give, was males rendered mute, weaker, subserviant, nervous, terrified and a loss of warrior status, which is exactly how they want it now, when the final battle of dark and light is underway, throw in genetic engineering via the original chemtrails which lowered men's testosterone and increased women's, and you have a recipe for disaster.

What gave for women, was they lost their own identity in their drive for girl power and became bullish, dismissive, insensitive, ever more demanding and service to self, remember this is an overview and does not apply to all individuals.

Take one look on Match.com or some other dating site, the point is why are some many people single? and are reduced to having to go on a computer to meet people these days, is lost on many, it's almost glorified prostitution is it not? selling yourself to the highest bidder, what happened to meeting up at venues, bars, clubs and the traditional meeting up, all face to face?

What happened was girls went out in packs, and if any males approached, they were treated to a pack mentality of abuse and ridicule, and all the girls go along with it to fit in, all passing instant judgement without getting to know the guy, but I know for a fact that some girls would have liked to chat to some guys who approach, but they all join in

with the abuse and ridicule as they feel they have to fit in, that is sad behavior and damaging to all who participate.

The reason why, is men nowadays in general are terrified of women, as they see women are more money oriented than love, and if you go out with a woman, they will take everything they have earned off them, this is the way men think now, is that the way it should be? it has happened to too many to argue otherwise.

Women know the courts protect them and the kids is the reason why, and you want to know why the bulk of the money goes to the woman in a court settlement? because they know women will spend it faster is why, this is why 81% of all expenditures in shops is done by the females. You see it is all a marketing game, so check out the profiles and see for yourself the demands of females, they dismiss roughly 90%+ of men with their profile requests, must earn \$100K plus per year, must have been to college or university, no tattoos, no divorcees, no children at home, non drinking, smoking or drugs, must be between the age of this or that, I want a sugar daddy, and these people are largely not appealing on the eye to most men, these are mainly women who got left dancing on their own at the end of the prom or nightclub, I'm sorry they just aren't that appealing, and yet they make so many demands, and they wonder why they are still on their own?

Newsflash, quit with your demands and conditions, love is not based on how much

someone earns, that is the definition of shallow, you ask for shallow, you get it, but then

18

it becomes so shallow it runs dry, for many of you, your thinking and morals have run dry.

So, a man who buys a ring for \$100 because he is living to his means, is not as good as the fool who pays \$3000 and goes into debt? he is just a cheapskate some cry, no, you have lost your own sense of identity and what is real value, to 99% a \$100 ring looks no different to a \$10K one, it is a piece of metal and something that resembles a piece of glass, but is called a diamond, and they all must have the biggest one, to show off to their friends, that is not showing off, that is rubbing peoples noses in it, i'm sorry but the overview sees more than the ones immersed in it, always does.

Women complain now where is the chivalry of men, the answer is it was lost in a tidal wave of self service of what can I get out of him, and has left men terrified of committing, always on edge, as too easily they get dumped or replaced in the blink of an eye, and the worst thing for men is, they cant admit their real feelings to other men as it is perceived as being weak, and yet this program has left many men broken externally and more importantly internally, operating like a shadow version of themselves.

You think that is bad enough, and yet I have left out the biggest impact of this program and the most important, the impact divorce has on children, parents away in work all

the time, loss of love and nurturing, the sight of overstretched parents lifestyles leading to verbal and violent squabbles in the home, and people wonder why so many children appear to be almost feral like? the loss of at least one parent always being there for them, was stripped away by this program.

It is to the children where the most damage has occurred, ask why so many now are riddled with drugs, alcohol, addictions, getting into trouble with the law, why so many are psychologically unbalanced, why so many attend a psychologist, why so many flunk or fail school, why so many avoid their parents and hide in their room, why so many wont attend family parties or if they have a birthday or other event parents are not wanted there, and why so many are dependent on the state, it all goes back to that one movement in the late sixties, early seventies and we all fell for it.

Look I am not saying men are perfect by any means and some have done some awful things to women over the years, like the mother who wrongly tolerated the abuse to save the children and the family, saving the children and preserving the family was a key role for women of the past, but for too many now it is about getting what they want in life, and stuff the man, and in ever increasing numbers stuff the children as well, this is not the way we should be or act.

So the big questions remains to all women, is this really how you all wanted it to turn out? Do you realize how much of the essence of being a woman has been stripped

away? Do you really like that hollow feeling inside your heart that yearns for real love?

Do you want real love or is love based on how much he earns? Do you really care as much for your children as your ancestors did?

The truthful answers to those 5 questions determines our future path, please ponder deeply on them in your own time, it will stimulate a reaction in some I do get that, it was written to stimulate reaction, as for too long this problem has been ignored, and whilst it is ignored, it remains a problem, and the females demanding \$100K+ a year earnings on match.com will stay single the rest of their lives.

19

This was not an attack piece on females because I am more than aware of the poor behavior of men in relationships, but this was a deliberate program of divide and conquer, not only between male and female, but the family and the children's lives also, recognizing the program, is the first start to correcting it, so we can all learn to love and care better in the future.

KIM'S LETTER TO DEEP STATE, MILITARY, AGENCIES, GOVERNMENT ET AL

This is for THEM, those who are not AWAKE those who are not AWARE. This has to be said. The "SYSTEM" (no not a computer system), the SYSTEM. The system I speak of is one of slavery, one of abuse, one of total control over humanity. This is for YOU, the slave masters, the slaves the ones who are fighting to protect THE SYSTEM.

Do you know what you are trying to protect? Do you know who is running this flawed system? The system IS BROKEN. It has been slowly breaking down for the last two years. It is breaking not because of US (The awake and aware), it is breaking because it is severely flawed. You are MISSING IT. It never was a sustainable system, it was always meant to break. Non-Compete Plan, The Harvest, The Order does NOT have a plan. They are dependent on YOU, the people fighting to protect the system to "Create". Create what may you ask? To create a plan to preserve the system of slavery they covet so dear.

Why do they need YOU?

Because they are NOT the creators of the Universe, they are not the THINKERS on this planet. They have always been "people herders", "Slave Masters" if you will. The Thinkers have left them and now all they have is YOU. So YOU fight every day to preserve the broken down system without a second thought. Diligently killing people, raping children, stealing money and resources for the masters you believe in. Why do you believe in them? Is it a cycle of abuse? Stockholm Syndrome? Come on people that work for THEM, haven't you noticed you are running around spending your own time your own money carrying out plans that YOU created? Have you not noticed it is not working?

You are plugging Hoover dam with bubblegum and the dam is bursting.

There are no SIDES in this war. There is only what is REAL and what is NOT. YOU are fighting to protect that which is a FANTASY while WE ARE FIGHTING FOR WHAT IS REAL.

Let me explain;

THE DEEP STATE- We all know who these people are, the ones who are making a very futile attempt to control governments, to control financial systems. They are in EVERY country, your central bank governors, your various officials who will fight to protect the slave masters control over the people. Why do they need you? By you I mean the central bank governors who take the calls and promises of billions of dollars to keep your country broke and on it's knees. Some of YOU work for agencies, the IMF, the World Bank, mercenary groups, Parliament, Congress.

20

DO YOU KNOW WHAT YOU ARE FIGHTING FOR? You know you are trying to destroy people going against the system, going against "their way of life". YOU ARE MISTAKEN. THIS IS NOT CORRECT. THE SYSTEM was designed to break down by 2017, set to self destruct. As for me? I am logical, I know when something goes down something else will always take it's place. Are we fighting you? No, we have disregarded your failed attempts to preserve something which is already GONE.

We are implementing a NEW system which is based on the CREATIVE THINKING OF

HUMANITY. THE SOVEREIGNTY OF NATIONS. A WAY OF LIFE BASED ON THE THEORY

PEOPLE ARE CREATORS, GIVEN THE OPPORTUNITY THEY WILL AND CAN CREATE A

HARMONIOUS NATION AND HARMONY BETWEEN NATIONS.

99% of all wars were fabricated they made you believe they are real. False Intel, False Flags, Fake Media, False Financial Hardships just to keep you enslaved in their fatality flawed system.

They brand products on our Television to keep us hopelessly dependent on their debt based system of created currencies that have no real value other than the one they place on it, send us messages on FAKE NEWS to make us believe these are the bad people those are the bad people. WAKE UP, the SYSTEM IS BROKEN! It will not continue even if WE humanity do nothing! WE humanity need to put something else in its place before it's too late.

THE ORDER - These people run around giving orders to YOU, the enslaved ones. You follow blindly. YOU do not realize these people were never the order makers, they did not create the plan, and most certainly they DID NOT CREATE THE SYSTEM. Please stop calling them "benevolent" or "gods" or "kings" or "masters". Well, the term Master may have been correct, they WERE the slave masters of humanity. Promising you week in and week out billions of dollars (or whatever currency) to save humanity.

They claim to be humanitarians, but hold on, then they say "It is not time yet, just wait" to which YOU respond "ok Master" JUST SO YOU THE CREATIVE BEINGS OF THIS UNIVERSE DO NOTHING! Do you know what you are saying? You are blindly following people which you are calling Master and for what? What did they do when they did have control over the money and resources of the world (all on behalf of their masters as well)??

Did they feed the poor? Feed the Nations? Stop War? Stop Crime?

NO. They fed us poison. They salted the earth so we could only eat their poison. They created wars to make them money. They stole from us and raped our children. They created terrorist organizations to keep us in fear. They created diseases and treatments that slowly killed our loved ones, so we would take more of their poison believing their disease was medicine.

21

I AM TALKING ABOUT YOUR DRAGON FAMILIES. ROTHSCHILD, THE NAZIS, THE CHINESE

ELDERS. YES YOU READING THIS THE SLAVES THAT FOLLOW THEM ALL SO BLINDLY. WHY

OH WHY DO YOU FOLLOW?? WHY DO YOU CALL THESE PEOPLE MASTER AND FOLLOW

SO BLINDLY?? THE SYSTEM IS FLAWED. THE SYSTEM IS BROKEN. THERE MUST BE A NEW

SYSTEM TO TAKE IT'S PLACE. THEY ALL HAVE NO CLUE.

HUMANITY WILL NOT TOLERATE A SYSTEM OF CONTROL ANY MORE. THEY CREATED

THE INTERNET. THEY CREATED SMART PHONES. PEOPLE ALL OVER THE WORLD

UNDERSTAND THE SYSTEM IS BROKEN. IT IS TOO LATE. THE ENTIRE WORLD WILL NEVER

FOLLOW A FLAWED SYSTEM. THE MAJORITY WILL NOT FOLLOW. SO THEY SAY THEY

WILL KILL US ALL LEAVING ONLY THEIR FOLLOWERS??

FLAWED!

YOU HAVE BEEN FEEDING US POISON AND DISEASE SO LONG WE ARE IMMUNE. THAT IS

RIGHT, YOU UNKNOWINGLY CREATED OUR SOLUTION WHILE FEEDING YOUR INSANITY.

THE CORPORATES- The Non-Compete plan (70 years of planning you say?) explained the control structure of every industry in the world. The Majestic 12 and the SSP were fed technology to disburse to the masses. The very creations they sell to us have created their downfall. Yes, they still feed us poison, they still feed us their flawed hopelessly antiquated tech but what happened?

Like a virus that mutates itself to become immune to antibiotics which are designed to treat it HUMANITY has mutated to overcome these fatally flawed corporate controls.

We use your smart phones, your internet, your social networks to communicate with

each other. This has created portals to realize the branding coming from your Corporates, your drug companies, your Council on Foreign Relations, your United Nations, IS NOT REAL. We talk to people in the countries you call the "bad guys", the "boogyman", we have computer systems that provide us with proper intelligence information, and now know you are full of "it". We fly in your planes, we travel in your cars, we shake hands with each other in nations all over the world now.

Didn't YOU realize what you were doing?

YOU HAVE HIT THE PRECIPICE, THE PEAK AND NOW WE ARE ON THE OTHER SIDE. YOUR

METHODS OF CONTROL ARE BROKEN BY THE VERY TECHNOLOGY YOU FED US. IT IS

OVER!

DID YOU ACTUALLY THINK THEY PROVIDED YOU WITH MILITARY TECHNOLOGY THAT

HAD ANY HOPE OF DEFENDING YOURSELVES IN A REAL WAR?

ABSOLUTELY NOT. THEY GAVE YOU THIS TECH AND ALL YOU COULD THINK ABOUT WAS

MONEY, MONEY, MONEY. THEY FED YOU YOUR DEMISE. THEY GAVE US THE TOOLS TO

OUR FREEDOM. NOW IT IS TOO LATE. THE SYSTEM IS BROKEN. THE SYSTEM IS DEAD.

YOU ARE FIGHTING TO REVIVE A DEAD HORSE. IT IS OVER. YOUR GREED AND EGO HAVE

BEEN YOUR DOWNFALL.

22

PRESIDENT TRUMP IS AWARE. PRESIDENT PUTIN IS AWARE. MANY AFRICAN HEADS OF

STATE ARE AWARE. MANY SOUTH AMERICAN HEADS OF STATE ARE AWARE. MANY

AGENCY PEOPLE AROUND THE WORLD ARE AWARE. Even the History Channel reports it!!!

When will YOU wake up??

FINAL NOTE:

THE S Y S T E M I S B R O K E N ,

•IT WILL NOT COME BACK. A NEW SYSTEM IS FORMING, IT IS BEING CREATED WHETHER

OR NOT WE PARTICIPATE. WHEN SOMETHING GOES DOWN SOMETHING ELSE WILL

COME UP, THAT IS NATURE. WHAT WILL YOU CHOOSE? YOU CAN SIT AND "JUST WAIT"

FOR YOUR SLAVE MASTERS OR YOU CAN BECOME YOUR OWN MASTER AND

PARTICIPATE. YOU CAN CONTINUE TO TRY TO KILL ALL THAT REFUSE TO FOLLOW THE

CRUMBLING REMNANTS OF A FLAWED SYSTEM, OR REALIZE THEIR IS NO SYSTEM, AND

FOLLOW REALITY. IT IS NOT COMING, IT IS HERE. CHOOSE WISELY.

*One point out of that I am aware of as it is what was relayed to us, we the trust are ruining their way of life, really? you have ruined billions of lives over many centuries and have no intention of stopping doing that, you have ruined this planet and all living beings humans or otherwise, and in essence ruined your own way of life as you lost touch with reality, but please don't play the violin act with us we our ruining your way of life, I am sure I speak on behalf of all of humanity when I say this, go and fuck yourselves, ruining your way of life indeed.

The timeline has changed and the tide has turned, that is why everything they do will fail. They are in charge of, or in control of their own illusion now. They still haven't worked out 1. that they themselves are slaves 2. the timeline altered and looking glass tech no longer works for them 3. no matter how many ways they try to kill us en masse, they all fail, had to be completed before 2012 - it failed 4. your egos, badges and titles keep you occupied in their own levels of self importance, whilst they take the piss out of you and us 5. they are tasked with chasing gold at the end of the rainbow, only to find there is no end, as like the RV its always coming, except it never arrives 6. your role is a pointless exercise of spectacular levels of stupidity, I don't believe you are all stupid people for one minute, but come on when does the hello McFly moment kick in? You

have been chasing and waiting for fake Chinese elders now for over a decade, what's worse you take orders from the same fake entities.

All of the vast resources you have at your disposal and you cant locate a single Chinese Elder? Cant do a cross check of where their funds are? validate whether their funds are real? why have you not worked out yet, why in the past 11 years none one of their codes to the system has ever worked? or assess whether the 500 years or more global GDP required for an RV payout actually exists, or whether that volume of funds added into a debt based system would last longer than the first 60 seconds and the whole banking system would collapse, including your pay outs, well have you? If not why?

*benjamin Netanyahu in big trouble I hear, I told you all recently watch Saudi, Israel and Yemen actions ongoing.

*Numbers of arrests have taken place in Atlanta of rogue elements, Atlanta for reasons as yet undetermined is a hotbed, possible SSp related, remember the plane incident, shut down of the airports etc? all linked, will have more details when made available.

*Big crackdown started 2 days ago on "Fake Indians" as in the Cherokee Tribes who are not cherokee and fake indian supposed sovereign banks. It is my understanding that top

people in that tribe are Nazis, the 2 leaders one lives in Scotland the other in London.

Those of you familiar with internet people Matt Schuller and Magan who have appeared on Tolec's and other shows are part of that tribe, diverting funds away from the tribal people.

This is part of an ongoing global investigation, as most tribes have been taken over by rogue so called chiefs, to claim land, sovereignty and steal vast funds away from the people.

*Another sign of the failing Rothschild's empire following the sell off of their stocks earlier in the year and also some homes, now they are selling off further properties and also artwork, I hope everyone hardballs the sales to that parasite family.

*mirrors treasury Whilst negotiations and agreements were being made between The Treasury and MWHT some tweaking of the system was made to due interference in the transactions and also Kim tidying up more backdoors being ran out of the NSA and others into the Treasury. When suddenly the whole treasury screen changed and went live, as in real live, seems The Treasury has being operating on mirror screens like all the other depts. Predictably there was much less in several accounts, shell companies, shell people and shell organizations were within the system syphoning money. Embezzling funds is one thing that has gone on forever and needs to be dealt with accordingly, but this is a total national security issue and needs the severest actions to be taken out on

those perpetrating it.

*Fema and Mnuchin along with others have blocked and delayed an attempt by Manna World holding Trust to repair or replace every home in the damaged storm areas, replace electric grid, fix all the roads, bridges and traffic signals. Done in a manner that is totally transparent and 100% accountable. Everything was budgeted for and trucks, equipment, materials, temp power generators all sourced and ready for delivery which would have created many new jobs, but the clowns intervened, this package was a \$20B program, not including a possible full replacement of the air base Tyndall. A separate package was all sourced for the Carolinas storm as well, but FEMA was instructed to wait for Rothschilds pay out to fund the projects, predictably that never arrived. Meanwhile a month and 3 weeks have gone by and people are receiving no help. How much longer are American authority people going to allow this nonsense to

continue?

Mr. Mnuchin outed as being fired or resigned depending on how it is portrayed to the media, he was fired to be clear, will now be outed after midterms.

*As predicted many times previously on this show despite others saying trust him, Jeff Sessions like Mnuchin before him and McCabe, McCain and others past and the future, has now departed.

Others mentioned in previous shows will follow. Some made a Rod for their own back. I wonder what happens if some of the democrats extra house members are on the indictment list?

*Following further attempts to block funding related to MWHT out of the Treasury by various sources, so actions against those who continue to deny due process and also use a flagrant abuse of their power. The Federal Reserve servers were shut down last night, that is likely to be permanent, other servers who dabble in the affairs of the Treasury have also been shut down including The Pentagon, State Dept, Dept of Justice, NATO, UN, SSp and UBS.

The Pentagon contacted the CIA and also FBI requesting help to put them back on, CIA and FBI told them we can't, and you know what happens if you mess with their server, it gets fried.

HSBC and SSp in Virginia Naval base are still not back up and running following their earlier attempts at messing with the Quantum System.

And we are guessing you do not care your servers are down as you are not serving the USA and president and American citizens, but serving China deep state. So, perhaps China can give you their intelligence systems to use, or better yet relocate the Pentagon to Hong Kong and we can build a new military which serves the USA.

Message to the clowns who deny due process and continue to abuse your power, the

servers will remain off until you back off blocking the funds, of payments due in and out of The Trust, we don't care how long it takes we can play the long game, so if you want your servers back on, back off blocking the funds release, it's that simple.

*watch out for more firings they are in the works, including those just voted in.

* watch out for more resignations, including those just voted in

*UN are that desperate for funds they went to a rather poor country in Eastern Europe and asked them to lend them \$300M, the irony the so called UN tore this country apart 20 years back with their so called peace keeping force, yeah right same pronunciation but different spelling, real spelling is piece, as in piece of this and piece of that country

* We took out all the Denver airport underground black sites due to blocking our transfers 2189 in total all over the world

25

*On monday another set of hired assassin reached the edge of the place Kim, I and team reside waiting for orders to attack, this was supposedly in place in case something of note happened on Tuesday.

*A week last Thursday the MWHT ambassador was waiting in the Treasury building for cards for various projects, but was denied access by FPS who sent goons to chase him out of the building, they then installed a computer virus within The Treasury to block him getting in and collecting the cards, at the request of Hillary and Citadel.

*On Tuesday despite a Presidential approved Executive Order, an ambassador of ours went to The Treasury to collect the card, which then would be loaded to the tune of \$105B in order to start the clearing up and full restoration projects in Florida, Georgia, N & S Carolinas and Alabama due to the recent storms. FEMA have done nothing as told to wait for Rothschild's funding, which as we all know, will never arrive.

Our ambassador who was in the Treasury building waiting for the cards was then greeted by a company called Citadel from New York, and told our guy to get out of the building now, Treasury says he has our and President Trumps full approval to be in the building and collect the cards, Citadel who operate security under the so called "govt services contract" forced our ambassador out of the building with no cards and subsequently no funding for the disaster areas, all at the behest of Hillary Clinton.

Citadel is a private what is known as a govt contractor, but clearly doesn't work for and by the govt, infact Citadels contract ran out and a 3rd party company (Weiss or Weisser) was set up and the staff of Citadel went and joined them, it is that 3rd party issue that is causing most of the issues, Citadel you will all be intrigued to know and will go hmm when I say this, but they have full control over the NYPD. Like all other govt contractors, private hire groups who collect the govt money and spend it on whatever they like and also call the shots, over and above the American President, this is what is going on folks, the country is being hijacked by private mercenary groups in this country, that is not

only stealing all our money, but believes they are above and beyond reproach from The President, and can act as they see fit. It is time people learned this as the real truth and accepted reality, then do something about it. Citadel is in essence a foreign enemy invading of our country and should be treated as such.

*You want to know the reason for CA fires, Mexican border issue, Americans being shot and killed returning to their damaged homes after Michael, the same that happened to the people of the 9th ward in New Orleans after Katrina, the same groups who participate in terrorist training cells within our borders, the same group who conduct hideous experiments on our people, participate in false flags and collect funds from the government with zero oversight - the groups known as govt contractors aka mercenaries.

The real culprits of who started the fires in California, are the same goons with a base on the island off the coast of Oregon Whidley Bay, the SSp supported by new Pindar Jon Von Wright and the electrical company PG & E owned by a Rothschild.

26

*Jon Von Wright won the battle to be the head penis of the dragon, known as The Pindar.

Into the seat he went and began to unroll his plans, keys and codes, only to find like all previous in last 11 years, none of them have the keys or the codes to the system, didn't

stop them trying to hack into the system again though, with the devastating consequences of doing that, boy are they desperate, wrecking their servers in a vain attempt to steal funds to keep themselves going.

Annabelle was the latest money system machine rolled out, like all others - it failed.

song

*Today The Pentagon following their failed mid morning hacking attempts, into Kim BIS account, The White House emergency funds without permission of the Commander in Chief Mr. Trump I might add, they called The Treasury and demanding funding for their payroll, Treasury told them they don't have any funds for payroll either, reality is no one has any funds except MWHT, but these people and their love of the Rothillians and Chinese Elders are blocking all attempts at us delivering them to the people. This afternoon Kim and the trust gave funds to the Treasury for their payroll at the request of Mr. Trump, Pentagon can go and swing until they get on board with this country America, not US or USA and it's people.

*IMF is now demanding 134 countries to now ditch their currencies and switch to? wait for it - crypto currencies, you cant make this shit up, they had meetings with all central banks and instructed them we are going crypto. I am pleased to say because of the work done by Kim and the team, all countries are rejecting the idea completely. Furthermore all said countries have now found out their contracts for currency printing with The

Federal Reserve and the Rothschilds owned printing company De La Rue has now expired, and so don't have to purchase their currencies from them anymore or deal or trade with them, an alternative is currently being worked out between the countries, the leaders and our team.

*In 2012 onwards I highlighted what I call are or were the 4 main problems in America and did a post as such in Universal Voice as it was back then. Known as the 4 M's Military, Media, Masons and Marduk, well the latter has now gone courtesy of the efforts of our team, along with 168 of his minions, but the other 3 still remain, much to my and our chagrin. The Military as it stands, well those at the top show little signs of change, but continue to follow orders of the psychopaths they blindly follow, despite enormous failures to deliver anything concrete in over a decade now.

*I mentioned in show last week of a cooperative business model, so thought I would lay it out here for people to absorb and hopefully take on board, of a different way of running a business, because lets be honest, without cheating, stealing and lying all the other business models failed, they were designed to do that as it was part of the harvesting program.

So, we start of with The Peoples club as the central hub, and we fund various projects

27

and some businesses to expand, or create new start up businesses, and all will think that

is great, but with current mindset and conditions surrounding them, all will slide down the slippery slope and fail, like before.

There are a number of reasons the current cor-pirate business model doesn't work, 1. CEO's, shareholders and upper management cream too much out of the business, buying fancy cars, expensive all paid 1st class flights and meals 2. middle men or brokers taking another cut out of the sales product by arranging deals whereby they are making money, in my opinion under false pretences 3. the staff feel they have no value based on wages earned 4. staff have no desire to help or support the company outside of completing their hours they are allocated to work, most just do enough within the 9-5 and just passing time by to clock off. 5. Profit margins are set too high which is to fund the groups in example 1 and 2.

So, you have an uninterested, un motivated staff who are poorly paid, with a few selective people who put very little into the company and take out vast privileges and salaries, and then cream off further by getting shareholders dividends, and people wonder why it all fails in predictable time period cycles? it was designed that way.

So, how do we come up with a model that not only makes the business thrive, but the people within the business motivated and happy, the key is we don't repeat their methods.

The key is at the top and at the bottom, CEO's, shareholders and various layers of

management needs not only scaling down in terms of size but also salaries, the margin between the top and the bottom is vast and that gap has to be closed, considerably. The question is does anybody really need to earn more than \$100K a year including perks not on top of, to live a comfortable lifestyle? if you do, you have lost touch with reality, and your mindset is based on greed not need. Some will say well I have bought a \$1.5M home and won't afford it on that salary, 1. you never bought it, the people who worked for you bought it, not always the case, but you get my drift, your staff and their labor bought you that home, or someone else's staff and labor. A lot of people will not see that concept laid out as it stands, as too few follow the to and from transactions, of where everything goes or came from, but it is the staff labor who created or distributed the products, that generate the income, the top end people cream off.

We in essence have to create a system of you get out more of what you put in, unlike robber baron families like Rockefeller or Rothschilds, did any Rockefeller dig for coal, or lay railway lines, or drill for oil when creating their wealth? no, so why should they have vast amounts of wealth, when the people who did, have nothing? that thinking and way has to change.

The days of CEO's earning millions a year whilst staff are on less than \$15 an hour has to stop, or even smaller companies CEO's or owners earning \$3-500K a year whilst staff are expected to get by on \$9-10 an hour has to stop.

If you analyse it people with money waste vast quantities of money on materialistic items, 90% of which is not for their own need, but to impress, show off or take the piss against their friends, family and neighbors, be honest now, when analysed that is exactly the gist of it all, and while you are wasting money on \$100 per head on steak meals, which are no better than the \$30 ones, there are people who can't afford to buy

28

a whole range of items that are essential to living, called basic food, whilst you gorge yourself on over the top meals, is that the way we should be? is that civilized? is that an advanced human species? Then these same people spend \$1000-2500 a night in expensive hotels, \$2500 a night for something to sleep in, are the sheets and pillow scattered with gold and diamonds or something? it is just a place to lay your head down and rest fss.

People have less for a family of four to house, clothe, feed and keep warm or cool for a month, than these people are using to sleep somewhere for 1 night, it absolutely obscene, and so far out of touch with reality, it is just not funny.

So all that thinking of the old model and ways of being has to be changed, it wont change by asking the government, it only changes by the actions of the people, so here is how I would like The Peoples club to operate.

The Peoples club sets up a new business, lets just say a clean water project and invests

in that company, what we would want is for it to create a load of new jobs with salaries that are shared amongst the company, so the top people are not earning 10 or more times the staff are, nearer 2 or times is best. The company would have no shareholders in the old sense, but all staff would be the shareholders of the company, this then motivates the staff into better productivity, as the more they put in, the more they get out, staff would be encouraged to attend most if not all the meetings, as they are as important as the owners, these meetings would take place within the building and not expensive 3 or more day conferences in some lavish hotel, that eats away at profits and makes the products more expensive to the consumer to cover those unnecessary expenditures. Company profits could be set at a nominal agreeable figure, lets use the example of 10%, this then can lower the cost of the product and so it become more saleable to the general public, excess profit can also be put back into The Peoples club for further investment of other companies, who operate The Peoples club way.

That company then becomes the future role model for the rest, so say we have 5-6 companies now operating in the new way and we are doing business with companies who are not operating that way, we have a few options, 1. we teach that company a better way and reduce their prices to fit inside of our budget and ways or 2. we create a new company to compete direct against them and they will either jump on board, or lose their share of the market.

For example a review of the costs of the say 5/6 TPC companies is spending an excess amount on stationary, which then we would approach that stationary company to operate under TPC guidelines and so reduce their prices to TPC companies, or we will set up our own stationary company and sell the cheaper products to the vetted TPC companies and outside.

Essentially then we are creating a TPC brand of how to operate in business a better way, with need not greed.

Outside companies can all join and become part of TPC model, providing they take the same measures the TPC brand has, it is vetted and then approved or not depending on their progress.

This then lowers the cost of products or purchases not only within the TPC circle, but also to the consumer, a consumer with more wages, can afford to purchase more items

29

and subsequently create or establish more jobs, in far better working conditions than is currently employed.

As each TPC model company expands into different fields of the markets, so does the people power, so does peoples personal responsibility, so does peoples way of life and lifestyle.

We would also by people power put an end to the non compete business model

currently operated globally by various rogue trade agreements.

TPC vetted companies would also be encouraged to trade within the circle as much as possible, that is then guaranteeing the combined success of each company, and only trade outside where necessary, or when reviewing between the various companies where improvements can be made, suggestions can be made then to either add a certain company into the circle or we create another one what is required.

It would create enormous benefits by trimming the greedy fat bastards at the top, and snake oil brokers or middle men, and giving it back to the real earners who are the staff, like I said earlier most people do not need to earn over \$100K a year, most of that is wasted on excess lifestyles to impress and in most cases rub in the faces of those close to us, it creates envy, bitterness and divisiveness, we would like to introduce a community again were there isn't that vast gulf in peoples lives and lifestyles, no haves and have nots.

There will be no back door deals done in or out of not only MWHT, but also TPC companies, again that is the failed old model, so please don't ask me or Kim, for a cut of this deal or that deal to bring this that or the other to the table, we will not engage you in any way shape or form, a new way not old way.

So, if you want to create a business out of funds from the TPC to make you a millionaire,

famous or support an over the top lavish lifestyle, you are stuck in the old cabal corporate frequency, of dog eat dog, for every millionaire there are millions without the

basics in life, remember that, it will be the key going forward. Think and act different.

What has the trust done country on the planet, assisted in the ending of marshall law and delivering the peace treaty, negotiating for the return of all of US military hardware that was sold off in its entirety to a chinese group and is being loaned back for a fee currently, garnered real intelligence all over the world, which has a: highlighted issue b. prevented wars c. stopped false flags and d: provided an enormous amount of knowledge to the relevant authorities.

Sent out 100k's of real documents of crimes committed by thousands of people globally, fixed hundreds of backdoors in banks, central banks, white house, treasury, DOJ, all agencies in this country, removed some security certificates off each of your phones, emptied bank clearance accounts and transferred the funds held there directly to who they belong.

Liaised with and set up various humanitarian projects globally to get them ready, liaised with various think tanks to set up other projects for humanities benefit.

Scooped up all the 6500 trusts that were used by the cabal for various rogue means against us and amalgamated it into one trust that will be 50% for the countries and 50% for the people, this cut off their energy flow. Removed the top controllers including the

30

one known as Marduk, returning souls to their rightful owners, liaised with the galactic council for a permanent seat for some humans on that council for the first time in history, so we the people can have our say, working with the 39 different other beings here to ensure total peace on this planet, working with some other beings to prevent major catastrophe's, working with some other beings to ensure the peace treaty is enforced, planning with some other beings of how we can all work together in harmony and peace for the future, not just here but the whole Universe and the multiverse beyond that, we issued America it's sovereignty for the 1st time in its history, spoken to various military top brass, the pentagon, the agencies, the rothschilds and many other clowns to teach them how they have all been lied to, and in return for all that.

We have been shot at several times, had abduction attempts several times, they have tried to kill us by interfering with our cars, had various djinn style attacks, had fridges thrown off speeding trucks at us, had contract for hire issued against us on the dark web for our assassination, had our ability to earn money via jobs by stopping contracts, employment or our pay, spend our lives confined to one small region for safety, cant meet people due to fear of who that person maybe, lost partners, cant go out on personal trips, cant have vacations as it is outside of the safety zone, cant travel, in other words cant have a normal life, work 15-18 hours per day and all for no pay, both Kim and I rely on kind donations and we are grateful for that, but those donations are

only for us to exist not live a life, We do it all for the benefit of you all, we are not complaining about it we just get on with it, to all the listeners of this show I would like you to ponder on one question, would you like to live our lives? Would you work 15-18 hours a day with no pay for people the majority of which you have never even met, would you sacrifice your life for the cause in the same manner? well would you?

*A version of the US military landed in Haiti at the weekend not to protect Haitians, restore order or give back the billions stolen by Clinton Foundation, no they were sent there at request of Hillary to protect American interests. Hillary has no interest in Americans unless skinning their children or taking money off them, did you know Hillary is a dragon member, not the black American dragon member oh no, the blue dragon which is the UK.

If Hillary was that interested in Americans, why didn't she order troops to go and help the California people, which after all is a so called Blue state, whatever that bollocks means.

Portal people describing riots in Haiti, it is not riots at all, the people who are fully aware of what's going on, and they are fighting back to protect their country and the resources of which these mercenaries are trying to steal, all of it out there is all being orchestrated by another family member of Hillary, her brother Tony Rodham.

*Chinese "elders" and also connected to some alleged Chinese Royals spoke to us this

weekend and wanted Kim to fly to China for a meeting, to make a deal. This is a common theme for Kim people asking her to travel to other places, whereby they can kidnap her, there has been several attempts to do this both direct and indirect, she and we are not that stupid. Kim told them right now I do not believe they want to do good

31

things, and requested them to release the Pentagon from their contract by 5pm EST Sunday (the contract Kim is referring to for the benefit of the new members is, The Pentagon did a deal to sell all of Americas military equipment and hardware to a Chinese group, on behalf of The Black Dragons who are stationed in both countries, and the US Military are currently leasing it back from them, yes all our planes, ships, tanks, missiles and weaponry belong to this Chinese group, I must stress it is not the Chinese govt) Kim stated she will release intel on everything they are doing to every intelligence agency world wide, plus all Central banks, and including a complete copy of the contract to the Dept of Treasury and also Mr. Trump directly, should they not release the military hardware contract.

* Following their failure to meet the deadline which we both suspected they wouldn't. Kim then prepared and sent out a 2779 page intel report with a 2 page summary being sent to all countries intelligence agencies and the military world wide, with special edition sent directly to President Donald Trump, and in case you people with badges

forget, he is The Commander in Chief. The Central banks were sent the copies so they can all see how things really work with these Chinese Elders and how their transactions always lead to no pay on the contracts they negotiate, or fail to provide proof of funds to pay out in the future.

*The Federal Reserve rocked up to The Treasury and the Government this trying to get them both to declare America bankrupt, this is the 3rd or 4th time they have tried to do this in the past century, all other attempts and threats worked, this one won't, reasons why will be later in the show.

*Pope Francis, Benjamin Netanyahu and also the bank JP Morgan have all this week requested to call Kim and work with us, like I said many months back, all of them will have to come to us one day, all of them, we'll see whether this is a genuine attempt to correct things or another one of their lets play games and delay tactics again, like the so called Chinese Elder/Royals at the weekend.

* because their other programs to eliminate people failed it is clear now they have a new way of disrupting things - weather wars. they are able to create high and low ridges of pressure and this steers it, CA had a low stationed just north of SF off the coast, that moved out and another one went into exactly the same position, but it is all a coincidence right? the outcome? it created by complete accident according to portal

people, But again lets look at some of their evidence not mine, "Ordinary bricks begin to

decompose at 1,200 degrees Fahrenheit." Temperatures for making and firing bricks in a kiln is 900-1200F, so if you fire bricks in a kiln at 1200F how can they decompose at same temperature? so those two figures don't make sense for a start, but lets ignore those silly little discrepancies shall we? Next figures, grass burns at 518F and trees at 572F both were bone dry because of prevailing conditions, so if they didn't go on fire, whichever neither did for most of it, it means the temperatures in the fire didn't reach 518F would it not? their next figures given to us is the wildfires were burning at 1472F

32

which would account for brick issue temperature disintegration, but please explain how 1472F does not burn grass at 518F or trees at 572F burning point? Given we have seen evidence of melted car windscreens which requires temperatures of around 2400F, how does a 1472F fire melt glass? Then we see the awful sight of people being cremated in their cars, cremation temperatures range between 1400 and 1800F, and yet not hot enough to burn grass and trees, which require the least temperatures to burn. I mean does this really make any sense whatsoever?

*branding people via birth certificates Kim mentioned about how they assess each person lifes tax earnings and base their value on you from thereonin. So they assess you to pay \$2M in all taxes over your working life, they believe you will only be at a base lower level of earning over your entire working life, compared to someone they assess

to pay say \$10m in taxes over a working lifetime. Questions arise from this is, are they then if you are assessed in lower taxes, confining you to jobs in minimum or low wage pay sectors only? Have you ever wondered why only certain people get the higher paid jobs? and even when you are qualified get overlooked for certain positions? Could it be your stock value they assess and attribute it to your tax earnings via the birth certificate and the cattle number known as social security or national insurance, determines which jobs you can have and which jobs you cant?

*Did you know the IRS was not approved by an act of Congress, this means that income taxes are not enforceable, but before everyone rushes off and stops paying tax, please hold fire on that action whilst current system in place, is worked out and corrected, we don't need people going to jail. The only act of Congress approved was the Tax and Revenue service which is still in place in some states, not the Internal Revenue Service, and it is the Tax and Revenue service which has the real authority, but that has remained a dormant government department since the 1930's as I understand, (due to much messing with articles on the internet mentioned earlier, cross checking that information has now become needle in a haystack time)

So what we are working on now is a dismantling of the IRS which does not require Congressional oversight or approval, and a transition over to the official government name and department called the Tax and Revenue Services, once that transition is

completed the IRS has no authority or legitimacy to collect taxes, I repeat once that transition is completed, that will end the IRS as we know it. The new department TRS will be staffed with new people and will not include any high profile or positions people within the current IRS structure. Following that transition three now separate departments will be merged into one, which will cut costs and also resolve cross issues, the three are the Criminal Investigation Unit, The Treasury Investigation Unit and also the IRS Investigation unit, maybe the latter unit will be one who gets more investigated than anyone outside lol, anyway this will streamline depts which is the main effect of it. Once the Tax & Revenue Service is up and running, the transition will not require much, in the way that it will have impact for the average person, but we are working on a deal with the new department to eliminate income tax completely for all Americans, and introduce a spending tax of 10%.

33

We are also working a Social Security pension fund structure, all of what you pay into that fund currently was going to the IRS and was then being transferred to a Swiss Rothschilds Bank until Kim stepped in, when the IRS sent the Roths \$780B this past year and she confiscated it all and put it all back into the Trust.

As an idea which will be put forward by The Trust should it be approved, maybe a portion of your income tax not paid, which would be a volunteer only program, could be

paid to The Trust or a Govt Dept depending on which is selected, into an extra pension fund that you know will be protected and not run the risk of it being stolen or misused by some so called broker (which to me equals snake oil salesman) or some Wall Street jackass. Just an idea.

*The Trust contacted the Chinese Treasury this week to negotiate a deal with them directly with regards to the debt America owes China the country, not the elders or the dragon groups. As of Tuesday morning the \$1.476T debt owed by America to China was settled in full by The Trust to The Peoples Bank of China, in return the Chinese Treasury returned all of the Treasury debt bond notes to signify debt paid in full, So America is now free of Chinese debt.

Following that deal and fittingly not a surprise like a kid running for the ice cream van, the Federal Reserve turned up at the Treasury Department asking for their payouts on their debt notes totalling \$196T, so Kim collected all the debt notes for \$196T and paid it back all the debt to the Fed, but wait just a minute, Kim and The Trust owns all of The Federal Reserve, so Kim chatted with herself for a bit as a representative of both the trust and the fed, and paid back the \$196T to herself and then returned it all back to The Trust haha and zeroed out all the Fed debt on behalf of America.

So America now has no debt to China or The Federal Reserve all wiped out in one quick swoop. Following this move by Kim and the team, the Federal reserve people who spent

all day debating in The Treasury and delaying some of our other work with The Treasury, The Treasury turned round and booted The Federal Reserve people out of The Treasury and they were told they have no authority to come back there anymore. Oh happy days indeed. The Trump administration now has the wherewithall to remove The Federal Reserve from our shores once and for all.

*Following our attack on underground black budget base servers last week due to them blocking transfers, it appears it achieved more than we hoped for, as those servers it appears was the eyes and ears to spy and listen to everyone, and suddenly they went totally blind and couldn't see or track anyone or anything. Deep state tried to rectify this by sending rogue contractors inside The Pentagon to install a new system or try and restore parts of the original, so much for the Pentagon being safe and secure then.

*There is a massive shift inside The vatican ongoing currently this month and is expected to continue a more forward path, infighting within the church has reached epic proportions with many of the top people there under a lockdown due to safety issues. The reason for the infighting is the vast majority of people inside The Vatican have now decided to step away from the factions and cabal and work towards a world

34

peace with Manna Trust in tow. Top people are tired of waiting for their pay outs there via the RV from The Rothschilds and have taken step to remove all connections to them.

Vatican like many other top organizations are now struggling to pay their staff and also utilities and want to move to a better position with regards to the people. The Pope for his part wants to prosecute all of the pedophiles and is fully aware now of the issues surrounding the previous Pope and is working to address those issues. The Pope is also working with all other religious heads on declaring a peace treaty between all the religions, that can and will be enforced, and no this is not one world religion. As for the entities and demons below The Vatican they are no longer permitted to interfere in this process.

*Discussions are now taking place at the highest levels of the Roman and other churches, on the potential of an eventual winding down of the experiment called religion. Massive changes are expected over the coming over next years, certain disclosures mainly to the masses will tip many over the edge, and often in times of pain or trauma, many seek out the church for comfort.

The risk at this point in time, for people to completely lose it, was considered too great a burden to bear for the general populace to out it in one go.

*US Govt and The Treasury have been shown a video of a vault that houses a portion of the physical assets held by The Manna World Holding Trust, it does not just include gold, but many other minerals and also elements, and once both departments have satisfied The Trust that they are capable of safe guarding the physical assets, they will

be transferred to the relevant destinations for use as an asset base.

Solution? we have many military bases dotted all over America, some of which can be decommissioned and repurposed into a hospital center for the returning troops. Staff versed in all aspects of drug and chemical abuse, mind control abuse and PTSD issues all done in a safe enclosed environment, until the soldiers are ready to return to the public. Some will say how can this implemented or who pays for it, it can be implemented by the people demanding the return of their sons and daughters, they are not fighting for freedoms, America or the worlds people, once we demand in sufficient numbers enough is enough, it ends. As for paying for it, there is an expensive thing called a Military budget, well over half of it is wasted as it stands at \$716B today, 10% or more of that each year can go towards saving our own sons and daughters from the program called military service, and it is a program of abuse and mind control, where all the benefits of it goes to the psychopaths implementing the program.

We create jobs like engineering, computer learning and other professions that get rolled into military training, whereby they were the only viable group to offer that training, so we need to start to create training sections outside of the military.

They deliberately cut off the training programs to general public, so people were forced into the only option of joining the military and then subsequently pushed into military service in some falsely created battlefield.

DECEMBER

December 3rd brought us the Demons and magic show, were we heard about Solomon and the bound demons being released back to Source.

3000 years ago when King Solomon walked the Earth he initially I hear was working direct for source, another teacher, but he did something that went badly wrong, and will show another example of all magic comes with a price.

The temple he was building was not the first temple which everyone refers to, but the 2nd one, the first being in Hyperborea and suspected to be the lost continent of Da Arya which sank off the northern coast of Russia 110K years ago, when the 2nd of the 3 moons we had here back then, crashed into Midgard (the real name of this planet, earth just means an inhabited planet) and that whole continent sank, lost to history and erased from our knowledge base until recently, this is why I get annoyed with changing names of places like Netherlands from Holland, it is how they delete and rewrite history going forward, and erase the parts of history for future generations.

Russia was Rus, and is missing the region known as Tartaria, which was on all maps from 500 years ago, and yet too few have even heard of it now.

During the building of the 2nd temple, he decided to use what we now call The Demons

to build it, he was given a ring that worked magic, but he didn't believe it and used a child to cast the spell that summonsed forth each demon spirit one by one, for further details of the event and the roles and the specific types of interference each demon exhibited and carried out, read the full text of The Testament of Solomon.

As each one was summoned forward the ring was thrown at the chest of each demon and that bound them to here, and Solomon put them to work on building the temple, this was a catastrophic mistake, and why I warn of the dangers of magic (light or dark, they both come with a price or consequences that are not conducive).

Warning for those that use magic a message, you are not performing the magic yourself, you are calling in the dark spirits to do so for you, once here they wreak havoc, on you and everyone else.

Many of you have heard of the Ring of Solomon, that still exists and is worn by the Rothschilds at this time, no surprise there is there, quite frankly I'm getting sick of speaking or hearing that name, time it was banished in my opinion, but whilst Rothschilds and their extended family network achieved wealth, assets and power, it all came at a very heavy price for them and their family members, a darkened soul incapable of love or compassion, essentially Rothschilds are Rumpelstiltskin.

Look we all need the dark, as they provide the lessons to those not following that path, but the heavy swing of darkness here and other places throughout this universe, tilted

way beyond balance.

It is rumored that this universe was created by a source being who wanted only light, if that is correct, that experiment has failed badly, the dark came in with what is known as the fractal virus, and began to corrupt everything, other entities then took advantage both humanoid and none human looking, and the whole Universe tilted badly to the dark in the region of 83%, this is why I speak of the 45-55 balance, a 5% correction either way can easily be fixed, 33% in this case has taken many thousands if not millions

36

of years to correct.

Those of the light, need the dark to provide an opposite to enable you to recognize which path you are on, it's the dance of life, as we contain both the ability to be an angel and a demon, it is about which path you choose, and is only yours to make, but with this type of imbalance, it was more a case of the path open to you, that looked all lovely and light, but was actually a seducement into the darkness.

When in darkness, we all stumble around bumping into things, looking for the light switch or a slither of light to find our way round, if you go into the bathroom in the dark, in the mirror you see the shadow of you only, but when you switch on the light, the shadow is integrated within you.

Integrating the shadow aspect of you of determining your own path, is key work for us

all, along with the inner work, ignore one or both, and you stand in the dark, stumbling around, bumping into things and stepping on all kinds, banging your body into some cabinet, they are the externalization damage shown, of what you are doing to yourself. Internally, the damage manifests itself in anger, insecurity, frustration, repeated events happening to you, envy, narcissism and projection towards others, in which you think, you are highlighting their issues, but essentially you are highlighting your own, these traits all show a lack of integrated shadow work and lack of inner trauma work on the self, the projection onto others is the mirror image of you in the dark bathroom.

The significance of this event 3000 years ago, is it created a covenant, and unlike some property covenant that lasts 10 years, this one carried a 3000 year covenant, which is set to expire next week.

So what were the conditions and modes of operations for these walk ins to arrive in such vast numbers?

Here are some of the examples

1. alcohol, they call it spirits for a reason, genie is a modern term for djinn, and who comes out of the bottle when it is rubbed? the genie or the djinn, which grants you 3 wishes, it is not wishes it is magic, which they perform, only you pay the price, of soul possession in most cases.

2. drugs, pot or other psychedelics, the Greek original meaning of that is breathe, life

and soul, soul being the operative word. Psyche being of the mind, delics comes from the term delos, which means manifestation, so you have manifested something in your mind, the origin? from the spirit realm aka the astral, I can hear many going no no no, but I'm sorry this is exactly what those drugs do, and people wonder why, people who take them change? think about it, they have changed because in many cases, it's not them anymore. They say it expands your consciousness, but have you considered it is not your consciousness that has expanded? it is you and the entity that has expanded. I can still hear many saying no or bs, I'm sorry but they are the facts.

3. mushrooms, they call it magic mushrooms for a reason, and all magic comes with a price

4. Ayahuasca and other derivatives described as hallucinogenic or is it hallucino - genie, again it calls in the spirits, all done by so called shamans, which really means shar man, shar means time or era, so they are time men, just not our time but theirs. The South Americans and many other tribal people were tricked into these ceremonies by the

37

rogue ET groups here to engage a covenant or contract, they had with the demons or djinns here.

Whereby they do their magic and dirty deeds, which comes with no karma as they have no physical form, djinns get to inhabit vessels and also consume life force energy, both

in here and also the astral realm. Most of the ancient tribes were taught the Kali-ma (the dark mother) worship which spread right through most, if not all early tribal groups here on this planet, they were also taught sacrifice ceremonies as well, all under the auspices of worshipping the gods and in particular the Kali-ma.

5. Tribal based ceremonies involving circles, rhythmic beats to bring in their ancestors, except it wasn't their ancestors they are bringing in.

6. Witchcraft, Druidism and Paganism all involved in bringing in the demons, djinns or dark spirits. Female witches congregated in a circle, often with a pentagram, which is on Solomon's ring, and called in the spirits, the circle they create is the portal, or the gateway to call them in, whilst the witches stand on the edge of the circle all connected to each other by hand, to bind the circle and open the portal. People may tell you they are light witches and fully believe it, but in reality, you have been fooled and seduced by the dark.

7. Then they got people praying to The Lord who is Anu (Draco reptile king, which is an energy harvester, which again feeds these very entities, all part of the pact they made with the demons. All external praying is harvesting your energy.

8. Mediums and channellers also call in the spirits but they have no idea who or what they are calling in either.

9. We had alchemists who created potions that again depending on what was mixed

called on the spirits to manifest, but they only manifest into another body. Magic potions or is it Magi potions, like earlier genic when removing the C became geni, as in djinn, Magic without the c is magi, now the most famous Magi is Sinbad who was the owner of 7 djinns, the genie in the bottle, like alcohol is, Arabic term Al -kuhl was the origin of the alcohol, Al means god, Khul means ghoul, which means spirit, so it means the spirit god.

10. The native Americans use a term wetiko for a different type of walk in, Wetiko meaning means solely for the self, but can only host on people who exhibit similar traits for greed, selfishness and service to self and excess.

11. Then people began at a later date to sell their soul out for fame, wealth and titles, oblivious to the real value of what they were giving away, selling your soul is not metaphorical, it is a literal selling of your soul and life force, which is why so many famous people look blank, vacant, act strange, appear aloof, never seem happy, life filled with drama to keep them and the walk ins occupied, all theater and fakery.

So, having perhaps not believed it was possible to replace that many people with walk ins at the beginning of this piece, perhaps you might have reconsidered that possibility, having absorbed that list, and also hopefully consider correcting some of your own lifestyle habits?

That was written for the last show and things have developed since then,

the 3000 year covenant ended at midnight last night and the request was made to return, not only those demons bound here by Solomon, but also those in the lower 38

astral as well, by yesterday realms 3, 4, 5 and 6 were emptied and reports of 12 more needed emptying, all to be returned back to source. Two of the realms left by their own choice, I suspect that was 1 and 2.

The 7 layers of hell is being emptied out, for their benefit and ours, all will return to source.

All souls that have been harvested have been returned to source, many were too damaged to be brought back in as I understand it, returning to source will allow that soul to be healed and rebirthed.

This is of enormous benefit to not only humanity, but those that were trapped and denied access of a return to source, for many lifetimes and many years, I appreciate this is not an instant provable item from the external aspect, but over time the difference will be marked.

We often seek the external aspect of things like funding or mass arrests, but like painting a house, the preparation is the key to a good job, the paint covers all the real work, and we appreciate the external job finished, but it is the hidden internal aspect that makes the external gain approval.

*Monday's show was another ground breaker in many ways, as it connected so many of the dots on so many levels, every person on the planet will have been triggered in one way or another by that show, as it spoke to us all in so many different ways. Some felt stupid, but how can you feel stupid if you don't have the knowledge? what is stupid is, you have the knowledge and don't use it.

Many were crying during and after the show for a variety of reasons, because it triggered so many emotions within each of us, it was always going to be that way.

As you all know much of our history is false, and there have been and are many hidden aspects and this was the latest.

I don't think the real impact of certain events has been fully absorbed by people yet, and only over time will the stark reality of what has already taken place here already, be deemed extraordinary.

*Clowns in the past week have tried to leverage resources against 19 African countries which is bad enough, but they went one step further to try and leverage Alaska following SSp induced earthquake and also Paradise in California which was also induced by same SSp clowns. Military in Paradise CA is not our military, it's theirs.

*All negotiations with clowns, Deep State, Dragon Families, The Order, Bloodline Families, Militaries etc have now been cancelled due to their inability to face reality, we

are not wasting anymore time, whilst you piddle about waiting for some divine intervention, your gods to return, Rothschild's RV or some fake elderly Chinese people to bail you out, we told you many years ago - it's not happening, did you listen?

*What the Bush death announcement brings is another shockwave through society and will have a ripple effect throughout the slave minions operating for the cabal. Bush snr

39

carried an aura around with him that induced fear and made people follow orders or pay the price, that family has carried that aura for over 100 years, but with the announcement of his passing, that aura of fear is now gone. George W and Jeb just do not carry the same power and fear factor he had, their stock will weaken quickly and enable more to come forward and expose, with the kingpin gone. It symbolizes another crack in the old system, that can't or wont be replaced, and as they topple one by one, our opportunity to replace them with something better will also increase. The sands of time are running low on Cheney, Rumsfeld, Kissinger, Jacob Rothschild and Clintons. tick tock.

*The outpouring of pure vomit of a man, and I say that loosely, this week, for a man who I predicted when his death would be revealed in past shows, and finally confirmed publically anyway, of the 4 year loop theory I first considered in 2013, confirmed privately in 2015 and announced Bush death date week back then. This 4 year loop is all

about creating a timeline back so they can win, it won't work no matter how much they try to convince people it is 2014.

*how can you trust others, when many dont trust themselves?

reality is defined by the person in essence on what you experience, what is unique in this "time" period is, we are finding it is a common theme amongst the group, shared experiences

what is real to you is not always real to others, but you should never define your own experiences by others, that is externalizing when your truth is internal

some things can be investigated and proof garnered, but most of this "war" is largely providing no external proof, it takes an inner knowing and trust to make sense of the limitations of our 5 senses in here, some have more senses and those are the ones who "see" for real.

we are the sin eaters, we swallowed the poison and are now providing the antidote, and it is up to us all to do that to the best of our abilities.

*Trump deliberately brought in Schumer and Pelosi in with the media to tear them a new asshole, wall is a side issue, he knows the wall is funded and where it is coming from, all a strategy game, pity Pence sat there like a showroom dummy

*Clowns from the Pentagon and Langley at the behest of Chinese Elders and rothschilds spent all day Monday in The Treasury office trying to force them into accepting Treasury

Reserve Notes and or United States notes backed by an SKR which was fake and had no backing. The Trust had forewarned them in an extensive brief the day before following Rothschilds secret meeting(not that secret we never found out -oops) planning all this at the weekend, they tried again Tuesday and got rebuffed again, essentially this was confirmed as a fake currency by both The Trust and The Treasury. This was to fund the budget and all those depts and banks who are running in negative equity now and have been for past month, The Trust gave \$250M to The Treasury to pay peoples wages only.

To those who keep doubting that they are still in control and have loads of funds to

40

keep going, this incident, plus the IMF telling 134 countries to ditch their currencies and go crypto, tells you a very different picture, like I said we can play the long game, they can't.

*It all comes down to you and what you allow or accept, low or high vibration, you will not reach mental planes and higher consciousness in the lower vibrational state, it is not possible. Low vibration traits are Anger, hate, fear, sadness, worry, confusion, chaos, apathy, pain, suffering, blame, shame, guilt, and the two key ones to overcome, closed mind and the far more damaging, closed heart. Anger and hate are projections, Fear leads to sadness and worry for the future, fear is a future word as it hasn't happened, but can happen as you have not addressed your own ability to change that future,

confusion, chaos and apathy are something they created but you bought into, blame, shame and guilt are your own failure to address your shadow and inner work, closed minds are the cancer of society, closed hearts are the blockages at the solar plexus, and why so many go with gut instincts and not heart.

Higher vibrations are joy, happiness and kindness, compassion, clarity, wonder, reverence, calm, curiosity, with 2 key vibrations of open mind and open heart. joy and happiness are of your own making, never let anyone else decide your mood for you, kindness and compassion remember costs nothing materialistic only your loving energy, clarity comes with understanding, wonder is your manifest abilities, reverence is respect, like saying treat others how you would like to be treated in return, calm ah the calm 45-55 anyone, I have said it often enough now, calm brings balance, which is centering, curiosity is what brought you here and has added benefits for me anyway, as the saying goes curiosity killed the cat haha, curiosity can lead to the opening of the mind and the final stage of really opening your heart, which has all the 5 senses and some extra when switched on fully.

* Adrenochrome, a chemical known since at least the 1930s, is a chemical compound with the molecular formula $C_9H_9NO_3$ produced by the oxidation of adrenaline (epinephrine) in mammals. The chemical especially concentrates in the body during times of high "fight or flight" response conditions, such as during extreme trauma and

suffering. Elite instead kidnap children, rape, and torture them in order to concentrate the adrenaline/epinephrine in their glands, then harvest the adrenochrome from the glands while the subject is living (adrenochrome does not last long in a corpse) and finally murder the victim after the drug is extracted. Alternately, the subject may be kept alive for repeated extractions; in this case, a needle is plunged into the eye to extract the adrenochrome from the brain stem without cutting into the skull. They also run massive child trafficking rings all over the world, which buy and sell children (adrenochrome more readily concentrates in a child's glands, since the glands do not grow much with age, and since children experience massively heightened "fight or flight" reactions and increased adrenaline surges as a result of trauma). Now you know why 900K children go missing in America alone each year.

The name of Google's GPU (Graphics processing unit) is named adreno. Google released Chrome in September 2008, and obtained their GPU in 2009 and immediately renamed

41

it to adreno. Adrenochrome is a legendary drug for the elite involved in occult rituals.

Allegedly, children are horribly tortured and traumatized so their bodies produce a lot of adrenaline in their blood. The torturers then murder the children and drink this spiked blood of the children. google is really go ogle as in lets spy on you. Those sick bastards need to be closed down in the future along with Gates and Microsoft, am hoping many

come forward with their plans for a new internet and platforms minus those two satanic empires, we will fund them from The Trust when the blocks are removed.

song

What is happening is two fold like a wave, some on downward wave and some on the up wave, many of you started out before THI on the up wave, you realized something is not right with this world, so you had a head start, and yet despite the head start you still underwent a new learning curve that has taken some time to adjust to, and then launch yourself on your path of discovery about you and all around you, but what about the people who were on the down wave? do they not have to take some time to navigate the down wave first, before plateauing and then joining the up wave, if it has taken you 2.5 years, how long do you expect them to get to your level? hmm you may be saying or thinking now.

THI is like a dimmer switch we increased the light as people processed and grasped each stage of it, a gradual turning up of the switch, but the others and particular those in the worlds top positions had their light on full, except it wasn't light at all, but dark, mirror magic illusion and why they called themselves the Illuminated ones, sorry for them but it was the false light you absorbed, an illusion of the real light and it's message, for those people, they have to dim the light in phases until it goes dark, and then start the real light journey back up again, how long do you think those people will take to reach your

level and understanding? your thinking now, holy shit that may take forever, for some of them yes, but not all.

This is why we need to push forward in and on our path, we can't wait for them, we have to be the change and drag them along for the ride, immigration going forward will not be country to country, but from their world into ours.

*Clowns spent all weekend coming up with various lets continue the old failed program schemes, by Monday they all crashed and burned - oops

*On Monday the Federal Reserve rocked up to The Treasury along with people from The White House, Pentagon, agencies and the Appropriations Committee which is essential Congress operated, The Federal Reserve then proceeded to produce before all of the peoples, every bank financial statement, every government department financial status, every agency, pentagon and military financial status of all of them having zero liquidity and all of them operating in negative funds, essentially all of them are broke and The Federal Reserve admitted they were broke also.

Their solution was we have no options left now as we are all broke and we have to issue TRN's or USN's or we are all doomed, according to them there is no other options now, the whole country will collapse unless we issue TRN's or USN's. The Treasury and White

42

house people disagreed and the Congress operated (which is important) Office of

Compliance stepped in and said, I'm sorry but we do have other options and that is the Manna World Holding Trust, and they have been paying us all and keeping us in jobs and wages since March. Oh boy we now have support of many inside the Congress now as well. A case was made to them of get aboard the Trump and Trust train or you all sink your own boats.

*Feds still pushing TRN debt notes because they dont have the asset to support a real currency, does that in and of itself not state they can't do an RV? there I go again talking common sense oh well, notes like bonds are IOU's, we have the assets to create not IOU's but asset back currency that's not fiat based either.

*So because the Fed failed in their crash the American economy mainly due to The Trust, crashing the markets also, their plan was to crash everything, leave all banks, govt, agency and military depts crashed and burned, so The Treasury and The White House had no option but to accept TRN's or USN's as the new currency, it was rejected and so they raised interest rates yesterday, when they have no authority to do so, they are a bankrupt and defunct organization and it is time that official action and actions are taken to get them off our soil, once and for all. For those who ask how they can implement it outside of Govt, for one the Govt controls nothing and I mean nothing, as it stands and 2. Fed controls all banks and they implement interest rates and Fed policy. This is what this show and Kim has been telling all the top brass here for last 2 years

they are financially assassinating this country on behalf of the Rothschilds and lets transfer all the wealth over to the East. To use a popular Kim term I promise you, that's not happening, it hasn't and it won't.

*All investigating committees are now focus on looking into The Federal Reserve and all their banks for facilitating and using supernotes as a major fraud and corruption event.

Over \$100B of was circulated and they all knew what they were doing and taking part in, floating liquidity whilst they worked out their TRN or USN bs'ery, for people who doubt they have nothing left of what is called the real currency, there is your hint.

*Message to Trump and team, you have been given the tools and platform to correct all this nonsense, time to deliver on it.

*For those of you not on FB or Mewe and this news article in Liberia this week, may put to rest those who have doubts over validity, having assets or just another OPPT style bs, listen to this. James Larmin Korboi, a Sierra Leonean national who was said to have held a series of confidential discussions with authorities of both the ministries of Finance and Development Planning (MFDP) and State for Presidential Affairs (MSFA) that led to his alleged attempt to withdraw US\$32,835,654.14 from the account of the Manna World Holding Trust Funds to Liberia was remanded in custody at the Monrovia Central Prison on Monday, December 17, 2018. The Manna World Holding Trust to Liberia is a company that holds Liberia's development and road construction fund. A document

43

obtained from the Monrovia City Court about the Trust Fund claimed that it had in its possession over US\$5,914 billion for road construction and development initiatives in the country. It was out of that money that Korboi allegedly conspired with several other defendants to dupe the government of US\$32,835,654.14. The document failed to give further details and ownership of Manna World Holding Trust. Instead, it alleged that Korboi, shortly after he failed to convince the ministries to withdraw US\$32, 835,654.14, with wicked and criminal intent organized several discussions, this time with the Ministry of Finance and Development Planning, to withdraw US\$5,914 billion from Manna World Holding Trust, following which police arrested him. Court records claimed that the Liberia National Police arrested Korboi on December 5, 2018, at the offices of Minister Samuel Tweah where he had gone to hold a meeting with the minister.

*We spoke to GCHQ who are blue dragon along with Ann, they were complaining they had not been paid the \$300M Ann promised them to bomb Syria, and plant fake chemicals which they did, one day later Trump withdraws troops from Syria, coincidence? we know not

*For the record, all those vaults in Asia that carried lots more than just gold, where all emptied to a safe non recoverable place 4-5 years ago and is housed inside The Trust, to which it all belonged to, courtesy of Marcos, Soekarno et al.

*For the record all people not of the right frequency attempting to enter or go near

vaults, will end in their death, as some in Indonesia and The Phillipines found out recently and this week. Final warning, we have warned you all, but you didn't listen, but if you wish to kill yourself, then we won't stop you from your own stupidity.

*Maybe we will have another high profile fun-eral in the near future once the movie ends.

*Another 2012-14 program popped up again this week, Leo Wanta, Wanta was part of a Langley Bush and dragon program to steal all the funds out of the disbanding of the USSR, they collected \$27T out of it, he was in part a facilitator, and knew full well what he was involved in, except he got stung from higher up the chain and they not only cut him out, but threw him in jail also. A case of play with fire Mr. Wanta and you sometimes get burnt. Wanta like other fake humanitarian programs like Jared Rand, Chinese Elders, Proctor and Gamble, Von Reitz and the Hapsburgs had no intentions of giving anything to the public, all of them are self serving and always have, only now they no longer can steal the assets that belong to us all, do they suddenly portray themselves as the savior, well I for one am not buying it and neither is Kim and The Trust. All these people got played for fools, big time, heads of industries like oil man Rockerfeller, Rothschilds and banks, all played a game of collect all the assets, they thought they had or were in control of, except they didn't, but these clowns all trying to claim ownership of assets, all got paid for those assets, and why all of those types are or were rich, but

Marduk cared not for pieces of paper, handed out like confetti to people only to willing

44

to trade all of Earth's resources away, including people.

*next 4 pieces I will use the term that was used by one of our members today to describe these pieces - prescient. Thanks David for recognizing it.

*As forecasted raids on pedos in the vatican church now underway and made public news. Pope Francis made a private promise to undertake and carry out this effort.

*from a high of \$73 a few months ago oil now down to \$45 and falling, as we forecasted, if 100% correct it will fall down to \$25-29 a barrel.

*As detailed in our show of issues of all troops sent out by US Military, and how and why there is an issue and they are struggling with the idea of bringing back thousands of troops damaged by Military policy, so I am rather pleased today to see a report that the Pentagon ready to 'admit problem' of rampant Special Forces crimes

*BBC also ran a piece on the folly of Trump removing troops from Syria, all too predictable from the blue dragon and MI5/6 groups plus Rothillians that run that country, govt and the media. Incidentally that decision was taken without General Dunford, he was not in attendance as previously mentioned about his position in the show, Mattis and Pompeo didnt agree with it, hmm Generals gathered in the Mattis??

*Stock market crash is designed to take out all but 10%, they are using it to eliminate all

smaller companies entirely, so now not only are they trying to financially assassinate America, now they are trying to make sure only they have businesses. The dip up was indicative.

*markets will go up and markets will go down, you will waste energy making sense of them currently and also waste more energy making sense of tweets, comments on social media and MSM, it will all begin to make sense eventually, but I am not giving a timescale.

*Must give credits to Dane Calloway for some of this piece, you can find him on YT. Did you know or have you heard of The American Holocaust, nope, thought not, much like the Russian holocaust two years earlier, in 1919, the American military and federal government bombed the Greenwood District of Tulsa, Oklahoma in 1921, and killed many thousands of people of color, who had at that time developed efficient, numerous and prosperous businesses within that region, that most popular being mass agriculture, they were accused of being capitalists in an industrial society and bombed into oblivion by the US army planes at the behest of the federal government, under an Executive Order called Martial Law, created by Congress and President Woodrow Wilson Democrat.

The indigenous people had created their own banks in 1865 called The Freedman Savings and Trust Bank, which upon opening had over 72k accounts and had deposits of

45

\$52M which is the equivalent to over \$100B today and makes it the largest grossing bank in American history at that time, within a month of agreeing with that deal, President Lincoln was assassinated, and things began to go North not South. In came Andrew Johnson (a native of Newcastle England) another democrat, took over the Presidency by default, and was another who was involved in and links to the fledgling KKK, which was formed as an official group December 1865, no coincidence, and the more lesser known group known as The Night Riders one week later on New Years day 1866, both groups were born out of the Democrat Party, their symbols on their subsequent flags like Antifa are exactly the same, as the early named National Socialist party, but were actually social Democratic party later known as The Nazi Party in Germany.

Another massacre his-story has not revealed too readily, was committed by the Democrat Mayor, The Klan who also joined up with the New Orleans police at a Republican convention, whereby they attacked and killed 40 blacks, 20 whites and wounded 150 others, in 1868 the Klan then released push cards like baseball cards with a list of 63 Republicans designated to be killed, 50 were black and 13 were white, this was in S. Carolina.

They then passed laws against the indigenous negroes, where bearing arms was banned,

limited the abilities for the native groups to continue to be prosperous economically, banned group gatherings, barred blacks from renting or buying land, barred them from serving on juries, voting was prohibited, decided black orphans could be put into forced labor, and the classic, negroes learning how to read and write became a criminal offence, known as The Black Codes of 1865. Harassment and forced incarcerations based on largely trumped up charges, then forced them into labor camps and the slavery racket abolished by Lincoln and others, was washed away into his-story.

But these negro businesses as they were called back then (the term negro was first used by the Portugese it meant dark skinned) were not African negroes at all, but Indian negroes, there was an influx of Africans when word got out in Africa that there was prosperity to be made working in America, not Africa, infact much of the African labor was traded to Middle East countries by the East African slave trade group, long before Europeans arrived.

The myth supported by documentation of an African slave migration to The Americas is just that, a myth, there was a very successful hard working business like population here, of indigenous Native Americans with an influx of Caribbean peoples, the majority of peoples here, were not descendants of black African slaves, but Indigenous Natives.

The abolishing of the slavery act was essentially a ruse, they were adopting a new free enterprise system because neither the north or the south were operating as well as the

indigenous peoples, they couldn't farm the land, had less businesses that were profitable and less banks also, and were also concerned the indigenous were becoming capitalists and self sustaining, when they wanted an industrial style output which they controlled, in other words teach us what we can't do, and then we can steal it all from you, so you can forget the slavery nonsense told in all schools, colleges and academia's, they talk pre written scripts given to them by the same group of scumbags today, we call the cabal.

46

But there is another hidden element to this so called white supremacy movement implemented by Founding Fathers, successive American Presidents, the police, the judges and the KKK, all where affiliated by one group, The Freemasons and in particular The Scottish Rite group, it is they who have subverted American history, they who raped and pillaged the indigenous black Indians, they who destroyed the prosperous businesses shared by many and corralled into the few, they who built the Egyptian style obelisks, they who built Washington DC into a pentagram shape, they who brought into New York harbor the so called Lady Liberty, which was built and sent by French Freemasons, and another trick played on the American people, it barely looks like a lady at all, and was nothing to do with liberty, for anyone of Turtle Island as the Americas was once known.

The Out of Africa theory was formulated in 1920's by a Jewish person aligned with Carnegie, Ford Institute and others in the anthropological society by the name of Melville Herskovits, all evidence points to the fact this was a deliberately created theory designed to deny the people of color their inherent right to the land in America.

I wonder how many people listening to this knew Malcolm X was not representing people of color, but he was representing the group known as the Nation of Islam, imagine him lasting in America nowadays with so many anti Muslims based on people fear programs? Question is, was Malcolm X a stooge for a future program of the Muslim Brotherhood? For those that don't know, the Muslim Brotherhood is nothing to do with Muslims and everything to do with Langley 3, Obama and their divide and conquer tactics.

George Washington initiated the 1790 Census Act to document all peoples in America, people of color came under one bracket based on official guidelines set by the government, all records that would substantiate most people of color were indigenous and not African between 1790 and 1890 was all erased in January 1921, just 5 months before the American Holocaust we mentioned at the top of this piece, in a fire, funny that isn't it, how so many fires globally burnt so much history. Ya see false flags have gone on a long time.

All this was perpetrated by a guy named Francis Gauten and his sidekick Charles Darwin

both took part in the initial program called eugenics, natural selection, one group better than the other, and essentially the beginning of labeling, boxing people up and what's now known by the term racial profiling, the classic divide and conquer tactic of the criminal elites.

In 1924 Virginia's ruling elite enacted the Racial Integrity Act of 1924 stating the following that all state officials backed by Walter Plecker, who has documented as writing to Walter Gross, the director of Germany's Bureau of Human Betterment and Eugenics group, directed all state and local courthouse records to be destroyed and reclassify all people who were non white to be labelled colored, this was to hide who those people really are, or were they where from, people calling themselves Native American from that date risked facing a one year jail sentence, all Indians were then classified as colored, you see it was all about the pseudoscience called eugenics, and you all thought that racial purity started with Hitler and the Nazis, think again, this started before he was born.

It wasn't until the US Supreme court in 1968 that forced Virginia to repeal the law, and the Virginia Racial Integrity Act of 1924 was overturned, in the subsequent time span the identity of these people, were changed 5 times on their birth certificates and licenses from colored to negro to mulatto to creole and then black.

The reality is in this country despite what the fake genealogy tests tell you, yes you Ancestry.com and 23 and me, all fake, 98% of people known as African Americans in this country, are actually indigenous aboriginal Indians. His- story now becomes their story. whose got my back now

After the generals gathered in the Mattis, there was much pompeo derived from that, much hilarity as the no name and burning bush stories were told, afterwards some needed some R&R, some were hungry and required munchkins, some were poor, never had a pence to their name, ann needed an rv to escort, to aids her bill, bill was singing Elvis Costello song in his head singing I don't want to go to Chelsea, whilst some are waiting for the next fun-eral that will come after the movie ends, come ye they cried whilst ella moo'ed in reverse, hello my name is huma no they said, and cloud descended and everything went very Brown, say hi to inga they cried, but inga had to leave, and they said lets all kiss inga goodbye, they all arranged a toast and drank ale and rums, felt giddy afterwards. Great Scott they said as they were almost all beamed out.

The meeting began, BS they all cried, yes I'm here he said, say hello to Ken ya all. I ran for cover as the oily plot got slippery.

We have to solve one members problem as their Korea is heading North and not South so intervention is underway.

One of our operations ran by Poppy Field may return from abroad sometime this year,

we must prevent that return, we may have to speak to No Action Talk Only, but they have been busy russian around, they need to stop russian around and create a collusion. They are still doing, quite a bit of crime here and there, whilst the UK raine falls red. We must complete these tasks or all will go Black, water and all, and it will cost a Princely sum to correct it and we dont have the mueller anymore, it will take a system of quantum proportions to get it all back, we need to Strok a deal they said.

There was a collected sigh, ria proclaimed dont throw the bibi out with the bath water. Mr. Stein stood and pronounced he was taking over another media giant, but not all that glitters is gold, it could be silver as well, oh cool they said and that will be fine stein we will call it Clinton News Network, or CNN for short.

The speaker stood up and announced it may not speak for much longer as the party is almost over, we have no pizza left and we have a comet pinging and ponging our asses, Branston is in a pickle as he got his necker stuck in an island, alas there will be no return of the Mack.

Whilst everyone were Biden their time, they all reflected on the bush prophecy of loreta being lynched, so they passed time by eating bowls of Rice.

After all was consumed they all decided to play a game of cards, except someone trumped them to that, oh this is impossible they cried, then an increasing booming voice was heard saying trust me, we have to do things in the right manna, I think it is ok im
