

THI-SHOW TRANSCRIPT 2020-03-09

Obviously these are testing times, of which our show did warn about. Words of anger, hate, envy and contradiction are flying about everywhere now in alt media, all to try and distract you and throw you off your path. This is a highly organized plot by the Dark Forces backed and supported by a high end pedophile ring in league with the DNC and US Senators terrified their criminality is about to be exposed. Also in play is the Rothschild's clan who are losing control of everything and losing their own war with The Black Sun groups. Kim and I, as well as this group are the main targets, ask yourselves why? Ask yourselves is it because we have done more to expose those criminals than most? What is playing out now is the factions are disbanding or being broken up from 5+1, the one being us, down to 2+1, the other two are the Rothschild's clan with their Draconian offspring and The Order of the Black Sun. But also remember that the Rothschild's clan was in every faction as well, so they win, well not this time, and pretty desperate of them to send out one of their lower family minions to try and discredit us, that failed as well. Some have been swayed and abandoned ship, and we wish them well on their different path, a path paved with pot and loop based holes, and shows exactly who they really are and more importantly where they are at. Some have sold us out people will say, and I get that, but have they really not just sold themselves out? They were clearly not ready for the future and we cannot carry straddlers, fence sitters and disloyal people with us anymore. As for me I am doing ok and I thank the many of you who have been supportive of me as a person and our shows. I will have my day not for revenge, but for them to realize their own shortcomings and failures. Time always tells, it has and it did.

A lot of what you are seeing now is faction based wars, faction based disclosures as they all are now throwing each other under the bus. The benefit for the Alt media is you are getting some very high levels of disclosure, but that does not mean they are working for the benefit of we the people, take note of who they leave out of their disclosure, and it reveals who they operate for. The only real group at that top level working for and by the people only is Kim, The Trust and myself, I wish I was 100% wrong on that statement, but many of you are now seeing it for yourselves. So to repeat most of which that passes off as news now is faction based fighting and infighting, it will and has to play out, and we will be ready to make anew again, we will bring order out of their chaos.

The ides of March may well turn out very painful for them as that date looms closer, it is their dues not ours. You best listen closely to what she has to say to you, or face the consequences.

Is it a coincidence that virus started in China dealing with the Asian faction, then next major center was Italy and perhaps Jesuit faction, then America gets in on the act and two

major centers were highlighted are they indicative as well? the two states California and New York.

what is happening is, their free oil is running out, now they have to pay - great people will say, but what if they have little or nothing left to pay?

Markets slashed, bitcoin slashed and oil slashed, now where did we hear that previously? Oil in particular at time of writing this was just below \$31 a barrel, only \$6 a barrel off the black market price, ran by Bush's, Obamas, Netanyahu and Ayatollah Khomeini of Iran. yes rogue American groups, Israel and Iran are all working together on stolen oil deals, mainstream media and corrupt faction based Alt Media will not tell you that, will they? Maybe the free or cheap oil has now dried up? Take note the Saudis oil which is ran by Bush Cartel is now ramping up war with Russia over the oil, threatening to ramp up production and slash the oil prices to push Russia out of the market. This is like Russian roulette, world already has a glut of oil as much less of it is now being used, putting strain on holding facilities to store it, over glut of oil, leads to lower prices and with futures tied to a much higher rate, pain begins for oil giants. Monday saw oil conglomerates lose around 8% each of their stock prices.

A small sample of food and beverage imports amongst 3 categories animal based, plant based and beverage based, and apart from a small downturn in 2008 and 2009, every year there has been a substantial increase with imports of these products based from 1999 to 2017. Animal based imports was \$14.25B in 1999, by 2017 that was just over \$34B. Plant based imports was just over \$22B in 1999, by 2017, it was \$81.5B by 2017 Beverage based imports in 1999 was \$6.75B, by 2017 it was \$21.75B A drastic increase in imports of animals, meats, fish, vegetables, dairy, fruit, nuts, coffee, tea, grains, veg oils, sweets and cocoa all across the board, in a deliberate policy to make this country reliant on other countries for all main products and not become self sufficient. Look at the farming industry? absolutely shredded almost out of existence in this country, with less or no ability to produce enough food, this makes this country vulnerable to a systematic takeover, unless people wake up.

Whilst we don't like to create or deliver fear on this show, forget the ridiculously overblown corona virus bs, that is the sleight of hand tactic they always use, to cover up what is really going on, a systematic takedown and exposure of the high level criminals. Suddenly people have forgotten Epstein, forgotten Prince Andrew, forgotten Brexit, forgotten the increasing series of cabal laden companies CEO's being fired, including 2 or 3 more today from Wells the Fargo bank, forgotten that most of them were fired due to pedophilia, forgotten the nazi vaccine program being implemented on the people of NY, forgotten the real Russian collusion, by Clintons, Obama and Mnuchin and the Uranium 1 deal and Ukraine criminality done by lead Democrats and the children, like Pelosi, Kerry, Biden plus

Romney, forgotten that DNC cannot count their votes, forgotten Pelosi stated she would resign if impeachment didn't happen, and a whole heap of other things like KPMG servers, Rothschild's, Clintons and an alt media clown group are involved in high level abuse and trafficking of children. That is how they distract you and the treasonous media and their bot like script readers need to be held accountable by the people, shame them in their communities, pillory them on their websites and let them know we the people will not tolerate their lies and treachery, it is both our duty and moral obligation to do so. There is an ongoing national crisis within our borders currently, that has been quietly ongoing whilst people argued over collusions, impeachments and personality contests. Our food stores shelves have been emptying, Walmart the most obvious one, personally I started noticing it 3 years ago, others now seeing it for themselves. Other things noticed now is increases in bank glitches that renders banking cards inoperable, restrictions now placed on how much you can withdraw, atm's not working, why? little to no supply left is why, even less so after the idiots managed to delete \$1.87T out of the stock market 7-10 days ago, which cannot be put back into the supply. Reasons behind the food shelves being empty or reduced is, the money supply to pay for shipments are now dwindling rapidly, recent videos posted aligned with on the ground confirms stating our ports on the East and West coast are practically empty of arriving containers. Past videos showed cargo ships in large numbers parking way off shore and awaiting payments, which never arrived and some turned back. The real danger now is this country comes to a grinding halt as most of our goods are imports, with little or no funds to pay for said imports, supplies are and will grow low. Shops now are emptying quicker now due to media created panic, but what happens if supplies run out and cannot be replenished? This country is now under full systematic attack on a financial level, that has now become obvious of what this show and Kim has been telling you and those who would listen for the last 3 years at least, it is not a future event, it has happened and is increasing now. There is a real danger now of them starving us out, due to ridiculous trade deals and a deliberate weakening of this country, that relies heavily on imports, an imports imbalance means we are dependent on others, others are told to restrict or stop us and now our days of reckoning are upon us. It requires cool heads, it requires clever planning, it requires radical thinking to solve the issue once and for all, proposals, ideas and plans are already in place, if the right people do the right things. Should they not do that, we are potentially facing a Russian 1919 style hostile takeover of this country, stated as the Bolsheviks, when actually it was the Zionists backed by the Black Sun and Kali Ma worshippers. Don't believe me? then fine, carry on with normal activities and solutions because they all worked in the past didn't they? well actually no they didn't and our time is upon us. Radical thinking and radical solutions are now required, tip toeing softly only works for a while, eventually you have to exhibit real force and real actions like now, before we become the next Argentina, Venezuela, Greece or Cyprus. We can carry on trying to integrate and dance about in their world, their world is built entirely upon illusion, or cut the damn cord on their world altogether and build and rebuild our world, a world in our image, not theirs. Our particular progress is continuing at a pace now, and

why the frequency of attacks against us have risen, our actions taken have put all clowns in a bad place now which has led to their desperate attempts and measures. The details of our progress if the public chaos is not enough, will be forthcoming in future shows when safe to do so. Hold on tight to your own progress, do not let the external based peoples throw you off course or balance, all is playing out nicely in real terms. They stop the Trust not because it is fake like some jackasses make out, but because they can't control it, eventually we will not need their input or infrastructure we will build and deliver our own. If you lead life in love and care you will prevail, if you lead life in fear and anger you will fail. Feel free for you to be the person you wish to be, not the person who conforms to what others want them to be. You are a multi dimensional being operating simultaneously on many levels, you are not here to conform, you are not here to be stifled, you are not here to be enslaved, you are not here to be abused, or to compete with your friends, family or neighbors. You are here to be the best you can be and do so as a crown of creation, now go out with the confidence of who and what you are, and excel in yourself, and in doing so inspire others. we were born to follow
