

## THI-SHOW TRANSCRIPT 2020-04-09

We are getting heavy volume of new members and listeners to our group, the reason I put them in two categories is we actually have more listeners than group members, we welcome all new members to our group and ask them and our members to be patient, many are way behind you all in terms of real knowledge that you have all grown accustomed to and we have delivered proof to our members in bucketloads, so be patient with them. New members you will hear and read many things in our shows and group, that may go against most of which you have heard before, I am asking you to be open first and also patient, you will find our information difficult to grasp and accept, but we run on a premise here, I will not tell you what you want to hear, but what you need to hear. There are several aspects to our shows, we give some news from around the world, the sub intel is hints to come, pieces become proof of things said previously in our shows, we have the up to date intel that has been proven over and over again to be more accurate than any other show, then we have op-ed pieces that covers a range of topics. Occasionally we have other special shows that goes deeper into a certain narrative or topic, we call it the must listen to shows, you want to know about ET's, life, the real control system not deep state clowns, who are the factions of the elites, history of the world going back 110K years ago, what is religion, about the moon, word magic and it's deceptions and several other topics in that section, on our website [thinkdifferent.thepeoplesclub.org](http://thinkdifferent.thepeoplesclub.org) which is also the donation site for TPC. Transcripts of all my shows are on my patreon at [patreon.com/TommyW](https://patreon.com/TommyW) We also have The Peoples club which is a philanthropic organization solely for and by the people and you can find details of that at [thepeoplesclub.org](http://thepeoplesclub.org) and we are creating a new program of how to be, care and work with each other, via the many THI state or country groups. We are also directly connected to Kim and The Trust, due to my working directly with Kim on a range of things, not just The Trust funds, Kim does not have a website or blog, but information comes direct from her and me through this show, Kim also passes information on occasions to Tank and his show with Dan. Enjoy your time with us and be patient with others and yourself the information contained here is voluminous and also testing and dare I say it, triggering, we all need triggering to generate the right response, which is to help overcome your programming, false narratives and history and build a new world in our image, not theirs.

New members will notice they are being messaged by certain agency based criminals to not join our group, how desperate is that, and who does that and goes to those lengths to discredit someone they say just talks shit each week. These people operate in a group with a known pedophile and child trafficking operation aligned with the DNC clientel, linked by servers all connected to the Rothschilds based company called KPMG, we sent all details of it to the FBI and certain Democrat senators who are clients of this pedo based group stopped the investigation, now being handled by Russian authorities. KPMG

were also the auditors of the Federal Reserve did you know, all in house for them. You will notice they all have fake names, because they are too cowardly to give their real names, and so for those new I asked these false named people who are making claims with no proof to come on our show and air all their claims and allegations over 12 months ago, and let all the listeners decide and they refused and still do. I will ask them again to all come on along with Randy Maugans, Shane Bales as well, all come on our show with real names and identities and we will let the public decide who is telling the truth, I am expecting no reply from any of them, as none have any substance or reality to what they state. They label the TPC as a scam and even when presented with the evidence to the contrary, then state I am taking all the glory for the members contributions, well if true at least I get something for running a company 99% by myself for four years and for no pay, it's pathetic their responses and wreaks of pure envy, don't envy go and do something of use yourselves.

An update of the TPC "scam" as Randy and others called it, but the TPC will be paying for one of our members to finally get out of a bed he has been stuck in for the best part of two years and out into his own wheelchair this week. Last month we kept someone in their home, we also funded emergency medical treatment for another member, and we also paid for someone who needed cable for their work and was cut off due to money shortage, and a few other people were helped as well. So thanks to you all who donate to the TPC, we deliver on our promises to help fellow members of THI, and eventually widen it out to help the all. For those who haven't, couldn't or unsure of it all, there is a small example of what we have done this year alone, so please donate as it goes to our members and help those in need, and all of it much to the chagrin of detractors is transparent.

Roll on April 13th when Drake, Wilcock, Fulford, Harramein, Cobra, Goode, Indian Gurus, Stillness in the storm, Kaulipele, Drunvalo Melchizedek, Alfred Webre, James Gilliland, Sisterhood of the Rose (Sirian witches and bitches) and Mayan "elders" are all proven as false prophets, or in some cases profits. No martial law, no ascension bs via mass meditation, no 144k hebrew based saviors, no 3 or 10 days of darkness, no fake alignment with your anus, no Pleiadians saved us and all of them as fake as a glass eye.

As Thomas has stated...there are about only 15% humans here and the rest are bots or Walk-in (possessed). I am now realizing that even if there are 15% if us...not all 15% are awake so to speak...if you just look at my work place...I would say there are about 3 to 5% if us that think differently from the rest. So what happens next, what to do 3-5% do, carry on complying with their bizarre, increasingly frantic and utter non thinking world, or do we build a new one? Some people have said why THI is the forerunner for rebuilding the people, their regions and their planet, my reply would be, who else is going

to do it, please name me one group or enterprise even thinking of it, no lets all wait for Q to tell us what they haven't done yet.

Body bags in Italy out of a movie scene, mannequins and lies, people want to know who cost them their business, job or pay check turn on the portal people. and we gave Trump a solution to that as well, 1934 Telecommunications Act riddled with loop holes, if ever there was a profession none essential - portal people are it. Now backtracking on official figures and certainly the projected figures. Hospitals are empty in many places including the greed based epicenter of it New York.

The most disappointing aspect of this whole charade is the behavior and antics of the alt media. Said to be awake and posting their mind control program of the virus, posting what they want you to focus on and not what is real, not what was building before this engineered crisis. We are supposed to be rebels, sovereign beings and against the system and tyranny, but then the weak government tells you stay in your homes and all comply and drop faster than Stormy Daniels underwear, it's a refocus time and focus on what we do, not what they do. Only one show said to not comply, all the rest was a mismatch and varying degrees of flip flopping. This is point blank Fascism, Patriotism is a fancy word for Fascism, love of your country over your fellow man is essentially what it is, it's a program ran on the people. All Americans said we will never be like the Germans and fall for that crap, newsflash, you already have decades ago, you never saw the signs, ignored their criminality, because America is the greatest country on Earth and can do no wrong. It is not the greatest country, wake up and look around you, it is a disaster zone on every level of society. 1. hospital staff fired for speaking the truth 2. fines for not wearing masks 3. curfews now being mentioned 4. chased down by police for walking in the park and 5. Stopped by police and military and asked for your ID for walking around, can anybody say ze papers please. Germans were sleep walking into disaster by the National Zionists that ransacked and slaughtered tens of millions 20 years previously in Russia, Americans are following the exact same pattern of being taken over by the National Zionists operating out of Gotham City NY, Head of the New World Order by the likes of Kushner and other born in and born to actors. I told you all the alt media was finished in December 2018, events of the past month should show all that, that statement was 100% correct. Add in wheeling out the old alt media personalities of the past at this very time, spouting their fear porn, bs, money programs proven not to exist, alien rescue missions and general bullshittery and not one of them have provided a single solution to fix things, not one, RIP the alt media and I rest my case.

Opened up mewe one day and here is the list of articles posted 1. Black Rock Jewish group out of NY leveraging global finances for takeover, pushing whites out the money pit FRWL shows? 2. Corona virus is a scam Professor says when finished millionaires will be billionaires Clowns in Panic show? 3. Cartoon of President signing said to be a

special \$2T bill, why is it special, because we don't have \$2T - any THI show 4. CIA running sex brothels as a sting via Hugh Hefner and Epstein - FRWL 7 and several other THI shows 5. Kennedy center gets overhaul, gets \$25M from non existent \$2T relief bill, stops paying staff, donates \$5M to DNC - any THI show 6. 3.2M Americans filed for unemployment and Democrats want \$300M for illegals - any THI show. 7. Remington Arms of NY said they would make ventilators for the virus, Governor Cuomo ordered them from China and are now delayed, again proving these people would rather engage, promote and trade with other countries - any THI show. 8. Kushner takes charge at FEMA as his portfolio explodes due to virus and positioning - many THI and CV shows.

With the jobless claims going through the roof and businesses going tits up, what happens next? is it 1929 again Americans? Where is the money required to create new jobs again with few businesses surviving? do you think old money in the system will be able to provide that stimulus? if yes how? banks are all in negative liquidity including the Federal Reserve banks. Where will banks get their funding from if they have none? That is the harsh reality we face of dwindling money, supplies, jobs, businesses and more importantly food. The stark truth is there is only one way to get this country back on it's feet is new money and The Trust. This country needs to remind Trump of that fact, and not sit about waiting for soundbites of it's coming, here comes the pain, FISA docs, JFK docs, the RV, sit back and wait for Q to do anything, or Black Sun takeovers of the defunct Federal Reserve Bank and it's subsidiary the IRS. Both of which have looted this country blind since 1912, one of which is not even on American soil.

If ever there was a time to see the illusion of how government doesn't work is now, it's like watching a kindergarten set up a quantum physics lab, it is so awful and mismanaged it is not even funny anymore, it is and should be an abject lesson in embarrassment of your country. To be clear that applies equally to both parties, it is an illusion they are different, and people of every country fall for the same illusion every single election, this one will be different, this candidate will be different, they are not they are all controlled puppet of a system largely unseen. Yes you can blame the politicians and rightly so, but you voted them in and so we are responsible. We don't make them accountable enough, we don't push them on policies and bills they put forward and sign off on in your name. If you still think governments operate for the people, if you still think the government will fix and save your life, you are totally delusional, they do nothing, because we don't make them do the job they were employed to do, look after the people first, then the country. Look at the latest stimulus it is not for the people is it? it is for the same clowns who created stimulus read bail out in 2008 and 2001, \$500B for the Fed, \$500B for a company that is defunct, owned by The Trust due to multi Quadrillion dollar liens and has no license to operate, they wont tell you that on the MSM will they? This is what THI and the TPC is all about, making you all participate and personally responsible, because

sitting back and doing neither has not served us well, in fact it hasn't served us at all. You want change? then be it.

There is a growing rumor in back chatter of the stronger being unleashed of this virus known and Covid - 66, but will affect around 25% of the Covid 19 cases, most of which are misdiagnosed or deliberately engineered to make the public in fear go into panic mode.

WH is unsure because I pulled money back...the Fed extended banks leveraging abilities. Treasury is pulling all money out of social security and pension funds

One thing I forgot to mention with the funding of NASA with the \$1B notes and linked the JFK and Black Sun scam, is it was NASA who procured advanced technology from the other species, who then blew an underground hole and opened the gates of hell, that location is Mount Shasta. Something else this show warned about years ago about that place, yet all new age and fake alt media were sending you all there for supposed enlightenment.

Plan is leverage everything, loot everything, sell country to "chinese" for \$2T and viola you have your stimulus checks, but you all sold your country away for \$1200 each.

Banks starting with Wells the Fargo are now canceling the small business loans, why? because they have no money. The Fed window didn't open again so now fake RV, Nesara or Gesara money arrived, why? because it doesn't exist. Anyone on the internet telling you it's real is delusional or an agent of the clowns or both.

Banks people have to be the dumbest people on the planet right now, although there is stiff opposition to that title currently. They are waiting on the Fed window to open to issue them money, but the Fed have no money. So how can we prove that as a fact, simple, the stimulus package included \$500B to refloat the Fed.

Q wrote this on Wednesday Welcome to the [D][People's Republic of China] party. The Silent War continues.. which followed last weeks bombshell of them supporting The Black Sun taking over the Fed, with that in mind listen closely to this piece and ask is there any difference?

Jared Kushner who is running counter financial operation against the country, is now running Fema via his manufacturing and supplies businesses. The Trump White House has set up an official coronavirus response team, Jared Kushner has decided to set up a second coronavirus response team of his own, is making a complete mess of things and leading to even more confusion when it comes to the Trump regime's failed effort.

On Monday having last week blocked the company 3M from supplying to this country privately and also told them to not supply to Canada either, suddenly struck up a deal orchestrated by Kushner to supply health related items like masks, gowns and other medical supplies which all sounds so nice until you realize only the government and their departments could sell or receive them. Government decided that only their approved government departments could receive said supplies and public and private were not allowed to buy them from any store, Lowes, Home Depot and several other stores and clinics confirmed this. This blocked all non government hospitals or private charities from being able to attain crucial medical supplies and essentially Kushner and Trump or whoever else signed off on it, that the American public would be denied access to essential medical supplies to prevent the spread of said virus, no masks and no gloves. Where is Kushner getting all these supplies from, American companies? no they were blocked from selling them, they are buying them from India and China, proving national security is one steaming pile of horse manure. Kushner and the government mandated the supplies to only state and county government facilities only, but there is a problem with that also, no state or county government department has any money to buy them, none of them. That then leaves over 300M Americans left to defend themselves with no way of protecting themselves, your government just sold the people down the river Americans, aligned with Israeli Mossad and Rothschild's agent Jared Kushner. Work is underway for The Trust to purchase supplies and deliver them to the American public as needed, like I have said all along the only group fighting for and by the people is Kim, I and The Trust, some people object to that statement, and my answer would be, please name the alternative group working solely for and by the people at the top level, as we would welcome any assistance in our cause.

Essentially Trump, Kushner are boosting the economies of China and India at the American peoples expense, is that making America great again? and this is a play out of what the elitists wanted all along, the financial destruction of America and all wealth transferred to the East and Asia.

The world's ultra rich are probably not the first financial victims your thoughts go out to as the coronavirus wreaks havoc on the global economy. People have lost jobs, or had wages docked, and gig-economy workers have realized just how vulnerable their digital-era income streams are. But over the past two months, more than \$400 billion has vanished from the pocketbooks of the world's richest 100 billionaires. That means all their gains over the last 2½ years have evaporated during this crisis, according to a new report by wealth-list compiler Hurun Research. Nearly all of the 100 tycoons lost money during this period, from Jan. 31 to March 31 — lots of money. Only nine didn't — and, most striking, all nine are Chinese. This is what Kim and Trust team have tried to prevent a full on transfer of all the wealth from west to east, and their plan is turn to western

world into 3rd world countries, and we have been successful in preventing that by and large. But this is a systematic attack on our country, and we have treasonous weasels in this country, many of whom are born in and born to hellbent on harvesting the country and the people, and Trump needs to decide which side he is on, you cannot dance with all 3 groups Mr. Trump, and ultimately for his and the country's advancement he only has one choice.

As it stands there will be no stimulus or stimulus checks being paid out, they have no funds to pay it out, although we have heard of some will be paid out as it is in a tier based structure to be delivered, all sounds like the RV that to me, the funds for this in part is what was looted out of the system by Black Rock and associates, so rest assured none or little of these funds will be going to the average American. You will get a string along date now of 2 weeks and 2 weeks, which already started Monday that the IRS can't deliver it due to outdated technology, seriously and they expect people to believe that shit? Are they telling us they didn't know the IRS couldn't deliver the checks even before the funds arrived? At best it's gross incompetence which the American people should frown upon and act accordingly or worst point blank lied to the American people, after the last item I think you have your answer.

Tuesday and Wednesday brought a change of mind again as reality bites and another full moon alignment came and went and no funds delivered by the Rothschild's or The Black Sun, despite promises to the contrary and things are now starting to look grim for many countries. Heard Trump fired many in his vicinity during the 48 hours, when the public will be informed is anyone's guess at this point

Having already blocked the company 3M from supplying medical items and equipment for business purposes related to what appears insider trading, via Kushner et al, but also FEMA. Supplies of medical stuff were ordered from different countries and FEMA were blocking and or confiscating them at airports and ports. FEMA were then collecting the masks in particular and selling them to the Government only based facilities for \$7 each, this is being replicated globally and companies globally are being threatened to not sell their supplies to the public. One company unnamed who The Trust spoke to to do deals, requested armed security as safety to do so. Then another report came in and was borne out, it is not only medical supplies but food supplies as well. There are so called American clowns in this country blocking medical supplies and equipment, food and general supplies and also limiting access to cash, via reduced hours of banks, said to be due to the virus, but is really a contingency incase there is a bank run. Trump I am told is aware, beyond angry and acting upon it, and is cleaning house we are informed but time always tells, we are now in full on crunch time and time matters for the people, those at top end of the game is time is on our side, not theirs, they are desperate to hold onto

power and failing badly as they are being exposed for more to see now, we are desperate to help the people, big difference.

So, having stated in previous shows The Trust and team are for and by the people, what did we do during this charade. The Trust made deals globally for masks, gowns and all required for the rest of the people, given Kushner and his born in and born to cronies decided to only look after around 3-5M Americans only and the rest of the country can do without, this is like the eugenics program we covered in early parts of FRWL. Deals were made in several countries and they will be brought in and dispersed to the public by a full on security team. Millions of emergency packages containing masks, gowns, sanitizer and will be dispersed to the American public and non government hospitals free of charge, we will be asking for THI state and country groups to organize this and disperse voluntarily into your communities should the need arise. We are also doing deals for food packages to be delivered to this country for the many who need it and don't have funds due to the fascist style shut down, that bears little to do with the virus, and everything to do with rogue people coining all of the markets, positioning themselves for more control of nothing, and using an exercise to see how far they can push and control the public. The food packages organized and paid for by The Trust will also be free of charge to the public, should the need arise. This is what we do behind the scenes and at least trying to implement something, but we need support from the American people and they need to stop sleep walking into tyranny and slavery.

Military personnel, agency people, militia and mercenary groups or anyone who actually gives a shit about this country need to act now and arrest Kushner and his partners, shut down FEMA immediately and arrest those clowns holding the American people to ransom and in some cases death sentences. You all ignored FEMA who blocked food, water and supplies and then went on a killing spree during and after Hurricane Katrina, well it doesn't matter because it was ok as i'm not black or don't live there seems to be the attitude, wrong thinking, it was only a matter of time before they come for you and your neighborhood. Arrest Bill Gates who is a genocidal maniac and is advising to keep the country closed down until late May and or until all of us are mandatory vaccinated, do something and as for Q show the country you are really providing solutions not proving that blah blah is criminal, we already know that, lets see evidence of you arresting these criminals on our shore before it gets any worse than currently. People will lose homes, businesses and jobs unless the people act and tell the President this is how WE want our country run, I am sure he will appreciate the support, providing he is fully acting in the right manner as well, reports following Monday suggest he is, but we have had too many false dawns and promises to date for me personally get on board. This is a man who has gone from fraud based computers to worlds leading medical expert according to the media, he and his foundation backed by the UN has killed or maimed millions of children in Africa and India alone, rounding up kids at gun point to inject their known poisons,

how long are you going to sit back and wait before actions are taken? Rest assured Kim and the team will continue to fight on your behalf and it is time the followers of these alt media clowns discrediting us or denying us information streams are laid to rest, and so we can all go forward to drive a better world for humanity, not clowns.

Solutions:

❖ Remove all rogue elements from our soil first, this can be achieved by staged withdrawal of all troops in all wars zones currently ongoing, and also a staged removal of all troops and bases off foreign soil permanently. Once rogue elements are removed the 3 branches of military can start a clean-up of the damaged areas created by troops in our name, land clean up by army, sea clean up by navy, air clean up by air force and space command group

A cease and desist of all genetic, psychotronics, biowarfare, mind control, cloning, hybridization, abductions, chemtrails, transhumanist agendas and all other exotic forms of weaponry harmful to us and the planet.

❖ Set up, a full on multi-disciplined assessment team including some members of the public to analyze all technology available as to whether it is beneficial to humanity or not, if not it should be destroyed. Set up, a full on multi-disciplined assessment team including some members of the public to analyze all underground bases for full disclosure on their intent and purposes, and whether from a financial or ethical point of view these are cost effective for the public or the planets benefit, and dealt with accordingly.

❖ A multi-disciplined team to liaise with all other countries threatened by these rogue elements, provide support and logistics for them to complete their process quickly.

❖ A steady release of the new technology that has been denied to the people, providing that technology is deemed of benefit by the assessment team.

❖ Ensure swift release of the funds so we can get the many different projects designed to improve this country and rebuild it's infrastructure.

❖ A cease and desist of funneling taxpayer's money into black budget accounts, find all the accounts and return the money back to the American government and subsequently the people via tax breaks or direct refunds.

❖ A cease and desist to all drug and other trafficking implemented by Langley and others, locate the accounts, confiscate and return to the American government to go towards health care.

❖ A full withdrawal of any connection to United Nations, NATO, WHO or any other organizations who are sieving money out of this country at the behest of the cabal.

❖ Shut down DHS and NSA they are Nazi creations to spy on us and you funny enough. We only need two agencies not 17, public have paid enough

❖ Shut down Federal Reserve and its IRS counterpart as they are foreign imposters and implement the new tax of sales tax only, income tax is illegal under the real Constitution.

❖ Restore the Organic Constitution and make necessary amendments for this time.

❖ Restore the American government not USA Inc, we don't want or need any form of labelled government be it Republic, Democracy or any other ism ideology, we want a government that solely operates on the premise of acting at all times for and on behalf of we the people, nothing more and nothing less, the people are owed that much at least. I came to this country 18 years ago, from England the country that has done so much harm to this one, not the people but the same ruling elites. I have spent most of my spare time for over a decade now trying to teach and help the American public free themselves from the tyranny of UK Crown based and others control, even though it isn't my duty to do so. But you do have a duty, to aid and support the American people, and to date have failed to do so, it is to your shame that, as an American born and bred here, that you need a Brit to guide or cajole you onto a better path for your people and it's country, the irony of which is not lost on me or many others. You all have an opportunity and an obligation now to correct the wrongs you have taken part in, a chance to do the right thing by your family, friends, colleagues, country and humanity, a chance to set a brighter future for us all, free of tyranny and control systems, free of war, poverty, starvation, poisoning, these are the real badges of honor, helping people not using or killing them. So, are you going to be the Rothschild's or Black Sun slaves or the people's heroes? Your choice, please make the right one!
