

## THI-SHOW TRANSCRIPT 2021-04-15

Thanks to all the people who have joined the TPC site, apologies I have not been able to engage as yet, and iron out a few glitches here and there. Hoping towards the end of next week to get that up and running and ensure we start it all off on the right foot. After that I will attend an occasional communal gathering call for each group. I will likely have another zoom call with you all a week on Friday, and we can formulate some ideas between us for each group to move forward. The chances of Trust funds appearing anytime soon don't appear to be too high currently, but we can develop it on our own with a few hours a week from each member. We can come up with innovative ways for fundraising, apply for our own grants and even pool our own resources together to develop the group. That will lead to people being employed by the TPC, be direct positions on an initial commission basis or with business projects we can get funding for.

A few times recently some people have tried to label our group as a cult. In the English-speaking world, the term cult often carries derogatory connotations. In this sense, it has been considered a subjective term, used as an ad hominem attack against groups with differing doctrines or practices. But the old issue is have people defined or understood that word? Reading the description of it suggests, nobody has defined that word, and it is used like a meme to discredit people or groups like the term conspiracy theory. Some of the terminology around suggests people being different, having differing beliefs, so both of those meanings suggest unless you follow the "normal" guideline given to us, you are labeled a cult. But our "cult" has no central figure, does not sleep with all the females, does not collect all your money personally, and gives more back than is received. It does not ask you to follow the leader, it asks you to be personally responsible and a better version of yourself. It asks you to think, omg he's asking me to think, that surely is a cult lol, asks you to look after one another and share the load. It asks you to care more, cooperate more and operate under common sense. I mean what type of cult is that? People can call us whatever they like out of their own poor judgment and basic lack of understanding, but we will go on doing the right things, in the right manner and the right way, and leave the non thinking people to stew in their own world of failure. What often goes unnoticed within this group, is the amount of work with helping members behind the scenes of the radio show. This week was fairly heavy in that field, people wanting info on community gathering, details of homes and land, plus location and ideas. But I was asked to do two other calls this week that involved heavy personal help to two people who were struggling with similar issues. One had lost his abilities due a slippage of his ego, and dabbling in things a light being must avoid, drugs and to a lesser degree alcohol. The second was more related to one of our members, and required differing types of help and support, and I am pleased that he is progressing in his recovery. This is the essence of THI, we are a support structure to many people, unless some choose to not listen or act in

the right way, I do not have the time for those people anymore, they have been given all the tools and need to act on them. This song goes out to Rob.

As the UK mourns the loss of Prince Phillip and all the sugar coated rhetoric that will spew forth from the media. Whilst one must pay their respects to the family of anyone who has died, forgive me if I don't shed any tears for the Greek. The world has yet to here the real story of Phillip, of how he and Charles plotted to kill Elizabeth because she wouldn't sign off on Sovereignty papers. The alleged links to Jimmy Saville that was denied to the public knowledge by the gutless Scotland Yard group, who were investigating Jimmy Saville and others in the 1990's, but closed it, as the links to it ended at Buckingham Palace. People will remember him as an out and out racist, particularly against Asians. The fact of the matter is, as pointed out on SOTT.net, Phillip was an immigrant, who spent his whole life on welfare and scrounged off the people to live a lavish lifestyle, in a role that he was not suitable to or for the people of the UK.

Russia has upped its saber rattling in Eastern Europe and the Arctic, a move that has put the Biden administration on alert. In the past two weeks, Moscow has moved to test Washington and its allies on land, in the air and at sea with a buildup of military equipment in eastern Ukraine, military flights near Alaskan airspace and submarine activity in the Arctic. "I think we've been very clear about the threats that we see from Russia across domains. We're taking them very, very seriously," Pentagon press secretary John Kirby said Wednesday. The Defense Department is overly observant of Russian activity after fighting resumed between Moscow-backed separatists and Ukrainian soldiers in eastern Ukraine, ending a cease-fire the two groups made last summer. Twenty Ukrainian soldiers have been killed in the skirmishes since the start of 2021. The two sides have been fighting since 2014 when Moscow seized and annexed Crimea from Ukraine, a conflict that Kyiv asserts has killed 14,000 people since its start. Russian jets and bombers have also frequently flown near allied airspace, forcing NATO jets to scramble to respond 10 times on Monday alone. In addition, in late March, three Russian nuclear ballistic missile submarines simultaneously broke through several feet of ice in the Arctic in a military drill, a maneuver that comes as the Kremlin has moved to raise its defenses in the Arctic. Russia's aggressive actions have prompted U.S. European Command to raise its alert status to its highest level, and the activity in Ukraine, in particular, has prompted Biden's top national security leaders to call their Ukrainian counterparts and other leaders in the region. Joint Chiefs of Staff Chairman Gen. Mark Milley on Wednesday spoke by phone with Ukraine Chief of General Staff Lt. Gen. Ruslan Khomchak as well as Russia's top officer, Chief of the General Staff Gen. Valery Gerasimov. A day later, Defense Secretary Lloyd Austin called his Ukrainian counterpart, Minister of Defense Andriy Taran, to "discuss the regional security situation" and condemn "recent escalations of Russian aggressive and provocative actions in eastern Ukraine," according to Kirby. National security adviser Jake Sullivan last week

also spoke with his Ukrainian counterpart, as did Secretary of State Antony Blinken, who said he discussed "ways of strengthening security cooperation" with Ukrainian Foreign Minister Dmytro Kuleba. All leaders have pledged that Washington would stand by Kyiv. Yet more child like grandstanding by the toy soldiers in offices. Airspace should be available to everyone, who gave anyone the right to claim our airspace? It belongs to everyone. Why is it always the Militaries blocking air space, land access and rights, given we the people pay for all their hardware, software, equipment, lands and bases? The point is, that Ukraine was part of Russia until certain banking groups and clowns decided otherwise. That issue is between Russia and Ukraine and no other country should be involved in it. Can you imagine the outcry if a differing but similar situation happened in America, whereby the Mexican built up troops around California, Arizona, New Mexico and Texas, to reclaim part of their former lands. What would the reaction be to that? If the Americans go up in arms over that, then they should understand the Russians with Ukraine. But then if Ukraine wasn't strategic and didn't have mineral and gas resources, would it be of any interest?

Lloyd Austin the US Defense chief due to meet with Netanyahu and Gantz in Israel about the engineered nuclear crisis surrounding Iran. I looked into Lloyd Austin's background to find the dot connector, that always leads back to Israeli connections and I found this. Austin joined the board of Raytheon Technologies, a military contractor, in April 2016. As of October 2020, his Raytheon stock holdings were worth roughly \$500,000 and his compensation, including stock, totaled \$1.4 million. This item should disturb Americans most, on top of his lavish salary these Military groups pay, within 4 years he has gained \$1/2M in stock and compensation of \$900K, for four years working for the death cult. On September 18, 2017, he was appointed to Nucor's board of directors. On May 29, 2018, Austin was appointed as an independent director on the board of Tenet Healthcare. He also operates a consulting firm and has been a partner at Pine Island Capital, an investment company with which Antony Blinken and Michèle Flournoy are affiliated. Anthony Blinken like Austin is a new leader as Secretary of State, Antony is born in and born to. Michele Flournoy is a CFR member, works with another military contractor Booz Allen Hamilton, and not to be left out of the equation, as where there is skulldugery this group like a steaming turd is always in the center of the toilet bowl, Flournoy is on the CIA's External Advisory Board.

In a week Bernie Madoff the major player in another ponzi scheme died, it emerged that a Los Angeles actor was the mastermind of a \$690 million Ponzi scheme. That bilked investors who thought their money, would finance distribution rights for movies that would run on HBO and Netflix. Zachary Joseph Horwitz, who went by Zach Avery as an actor, was arrested Monday and charged with wire fraud, according to the Los Angeles U.S. attorney's office. I guess with a name like that I don't have to reveal he is born to. The Securities and Exchange Commission also sued Mr. Horwitz and his firm, 1inMM

Capital LLC, in civil court over the alleged scam, which it says involved an elaborate plan to portray efforts to sell film-licensing rights, primarily in Latin American markets.

Commerce Secretary Gina Raimondo on Wednesday defended a controversial privacy technique being used by the U.S. Census Bureau in the 2020 census, a method the agency promised would only make small changes to actual numbers in counts of racial and ethnic groups. The technique called “differential privacy” adds mathematical “noise,” or errors, to the data to obscure any given individual’s identity while still providing statistically valid information. Bureau officials say the change is needed to prevent data miners from matching individuals to confidential details that have been rendered anonymous in the massive data release expected as early as August. It will be applied to race, age and other demographic information in geographic areas within each state. What is the point of doing a census, if dodgy bureaucrats are going to fudge the figures to fulfill an agenda?

Increasing taxes on the wealthy and corporations could help the global economy rebound. That’s according to officials at the International Monetary Fund, who say it could level playing fields. This further cements the IMF’s shift toward progressive economics, as wealth taxes grow in popularity. Lifting taxes on wealthy individuals and corporations could improve the global rebound from the corona virus recession, the IMF said Wednesday. New stimulus and an improved rate of vaccination led the IMF to raise its global growth forecast earlier in the week, but the organization is already looking beyond the initial rebound. Governments will eventually need to retract their fiscal support to avoid possible debt risks. Balancing stimulus with austerity will be a key challenge in the coming years, and reforming both domestic and international taxes can help bring about a more equitable and environmentally friendly economy, the IMF said. Or the IMF could just stop raping countries with their fake loans, designed to not be repaid and to steal the resources of the countries they have forced into taking loans.

Roberta S. Jacobson, the former ambassador to Mexico whom President Biden chose as his “border czar” on the National Security Council, will step down at the end of the month, she said on Friday, even as the administration struggles to confront a surge of migrants at the nation’s southwestern border. Ms. Jacobson, who is born in and born to, who had been described as one of the Biden administration’s key players in dealing with the governments in the Northern Triangle area of Central America, praised Mr. Biden’s efforts to repair and recast the nation’s immigration system after four years under President Donald J. Trump. Newsflash: they will never fix it, it is an agenda, America is not interested in humanitarian support for these people, it is a cartel racketeering system designed for gangsters and fraudsters. The majority of people brought into this country are for rogue programs, and no Government has made any attempt to fix that. They never even charged Eric Holder for gun running, which was part of that racketeering. Ms. Jacobson said that her appointment as a special assistant to the president and as the

border coordinator in the White House was always intended to last for only about 100 days, a period that will expire at the end of April, when she intends to leave government. The timing of her departure is nonetheless striking, coming in the middle of the administration's efforts to reduce the flow of immigration from Honduras, Guatemala and El Salvador. Ms. Jacobson had been charged with leading that effort when her appointment was announced this year. Done her job, flooded the country with gangsters, stolen children and the harvesting child slave labor, the sex cult and body parts industry continues it seems.

Israel says it will not co-operate with an investigation by the International Criminal Court (ICC) into possible war crimes in the occupied territories. In a letter to the court, Israel says the ICC is "acting without authority" in carrying out the probe. The ICC gave both Israel and the Palestinians, who instigated the action, until Friday to respond. The issue threatens to further damage already strained relations between the two sides. Last month, Israeli authorities cancelled the VIP travel pass of the Palestinian foreign minister on his return to the Israeli-occupied West Bank from talks with ICC Chief Prosecutor Fatou Bensouda, Palestinian officials said. How childish is that? The ICC has a duty to explore whether there are sufficient grounds to open a probe when a new member joins, as the Palestinians did in January 2015. Last month, Ms Bensouda announced that the court would proceed and investigate possible crimes committed by both Israelis and Palestinians in the West Bank, Gaza and East Jerusalem since 13 June 2014. Good luck with that, Israelis think they are the law, the Talmud is the law, their religion is the law, and it is high time the rest of the world created our own law and told these Hebrew Annunaki this is our law, and if you don't like it, leave the planet.

Pfizer is threatening to delay further shipments of vaccines to Israel over a delay in payments, reportedly warning that the Jewish state could go the back of the line if it does not pay up. Pfizer said Monday it had completed all vaccine deliveries to Israel under its initial agreement, and was working on a new deal to supply more doses to the Jewish state. "The company is currently working with the Israeli government to update the agreement, to supply additional vaccines to the country. While this work continues, shipments may be adjusted,". But a payment delay reportedly sparked a harsh warning from the vaccine maker. Channel 12 said the company warned Israel this week that if the payments do not come in, the doses would be shipped elsewhere. So not only do they not observe law, they refuse to pay when they choose also, all about the shekels ain't that right Rabbi Finkelstein?

That story was ran on April 9th, there was a swift Israeli response to that story just one day later. The South African variant of the corona virus is notably more adept at "breaking through" the Pfizer-BioNTech vaccine than other variants are, Israeli scientists have found, in a first-of-its-kind real-world study. Israel has used the Pfizer vaccine

almost exclusively to vaccinate millions of citizens, with a version by Moderna, based on similar innovative mRNA technology, used minimally. A team from Tel Aviv University and the Clalit healthcare organization sequenced the swabs of 150 Israelis who tested positive for COVID-19 despite having been vaccinated. That is to force Pfizer to back down or they will use the media machine to discredit them, all very faction based isn't it?

We warned of a ramp up of an event that would be required by the old system, now their Covid bs is falling apart. Ukraine is one, Syria another and Iran the third, all involving one group, the Israelis. The Israeli el-ites who own most of the world with their greed and harvesting culture, are under big pressure now to push their agendas and wish to achieve it by starting WW3. I will have a detailed op-ed pieces of how, why and their plans in next weeks show. An explosion has damaged an Iranian cargo ship anchored off Yemen's Red Sea coast, that is allegedly used by the Revolutionary Guards for spying, according to 5 eyes agencies. Iran's foreign ministry has confirmed the blast, that targeted the Saviz on Tuesday caused no casualties and was under investigation. "The vessel was a civilian ship stationed there to secure the region against pirates," he added. The New York Times reported that Israel had told the US it attacked the Saviz. Israeli officials did not comment, but it is the latest in a series of attacks on Israeli and Iranian owned ships, for which the arch-foes blame each other.

Iran announced on Saturday that it has started up advanced IR-6 and IR-5 centrifuges that enrich uranium more quickly, in a new breach of its undertakings under the troubled 2015 nuclear agreement. It also said it has begun mechanical tests on an even faster nuclear centrifuge: The output of Iran's IR-9 centrifuge, when operational, would be 50 times quicker than the first Iranian centrifuge, the IR-1. Iran's nuclear program is also developing IR-8 centrifuges. President Hassan Rouhani officially inaugurated the cascades of 164 IR-6 centrifuges and 30 IR-5 devices at Iran's Natanz uranium enrichment plant, in a ceremony for National Nuclear Technology Day on Saturday broadcast by state television. The broadcast aired no images of the cascades, but broadcast a link with engineers at the plant who said they had introduced uranium hexafluoride gas to the cascades after receiving the order from Rouhani. " The broadcast aired no images of the cascades" because the story was written and indeed attributed to Agencies, oops. Agencies makes statements and never provide facts is why.

A nuclear facility in Iran was hit by a "terrorist act" a day after it unveiled new advanced uranium centrifuges, a top nuclear official says. He did not say who was to blame but urged the international community to deal with nuclear terrorism. Israeli media suggest the incident was a result of an Israeli cyber attack. Last year, a fire broke out at the Natanz underground facility, which the authorities alleged was the result of cyber sabotage. It was Mossad, and their insane attempts to launch WW3 for their One World agenda.

OTHER NEWS The New York Times ran a hit piece on Russia, questioning their statistics on Covid. Quoting anonymous and non-descript sources, both of which are the CIA, for Russia's low figures during the pandemic. 'You Can't Trust Anyone': Russia's hidden Covid toll is an open secret railed the New York Times. You can't trust anyone, least of all the NY Times to say or get a single news item correct. NY Times saying you can't trust anyone, haha too funny, I wonder do they get irony over there?

The District of Columbia medical examiner on Wednesday released the cause of death for four of the five people who died at the Jan. 6 riot at the U.S. Capitol, but results are still pending for Capitol Police Officer Brian Sicknick. Because yet again the media lied about the officer's death is why, said he was killed by blunt force, which never took place.

A CNN staffer can be seen in a newly released undercover video calling out his own network for "propaganda", and boasting that the cable news giant successfully removed former President Donald Trump from office. Look at what we did, we got Trump out," Charles Chester, a network technical director at CNN, said to an undercover journalist from the political action group Project Veritas in a tape released Tuesday. "I am 100% going to say it, and I 100% believe it that if it wasn't for CNN, I don't know that Trump would have got voted out." Chester spoke to the undercover reporter in several clips in which he bragged that he was "one step down" from a director, and admitted that the network pushed a story it "didn't know anything about" relating to Trump's physical health in order to damage him. Yet again media caught lying or using false evidence to steer the narrative. When will the American public turn off their fake news channels? When will action be taken against CNN for interference in an election?

Former Council of Economic Advisers chairman Kevin Hassett discusses President Biden's economic policy with FOX Business' "Mornings with Maria," arguing that the large corporate tax hikes will cause companies to "flee" abroad. Yes, they are pushing for the end of America and the West, so the Hebrew Annunaki can return where they landed.

Did you know one of the Swiss Banks has fees for storing virtual gold. No end to stupidity in their world.

Hunter Biden portrays his work on the board of Ukrainian natural gas company Burisma Holdings, as an asset in U.S. efforts to pressure Russia. Biden writes that Burisma served as a "bulwark" against Russian efforts to control Ukrainian natural gas reserves, adding that his family name would serve the U.S. in this regard. "To put it more bluntly: having a Biden on Burisma's board was a loud and unmistakable f\*\*\*-you to Putin," Biden writes. More child level talking, America has no right to interfere in that country, and please spare me the bs of we are saving peoples lives and freedoms. It is about

stealing resources again, the resources that belongs to every man, woman and child on this planet, and needs to be shared equally.

Some lead jackass said this, this week, more child level rhetoric that defies belief the levels of stupid people talking about foreign policy, and what's worse is, too few see it as a problem. Even if China were to change and adapted our constitution and our laws wholesale. We should still try to limit their growth merely because we shouldn't have a peer competitor. We must stop them even if it means pushing them back towards poverty" Americans, you wonder why America has always had a disastrous foreign policy, that is why. Americans, you wonder why the rest of the world views us as a threat and with disdain, that is why.

In some recognized forum discussions involving Intelligence Agencies, some so called intelligent people came up with this gem of child like behavior. In a new report released Tuesday, the U.S. intelligence community warned of a "diverse array" of global threats that could further destabilize a world shaken by the effects of the COVID-19 pandemic, technological change and international competition. The 2021 Annual Threat Assessment, a 27-page unclassified document outlining the collective view of the country's 18 intelligence agencies, said "the potential for cascading events in an increasingly interconnected and mobile world" would create new and unique challenges, as known adversaries continue to jockey for influence and climate change heightens instability. The report said China, Russia, Iran and North Korea would seek to challenge U.S. interests in different arenas and on multiple levels, and that transnational crime, cyber attacks and terrorist plots posed continued threats. Oh how predictable our Intelligence Agencies are, same four threats, they are as predictable as Life Force intel show, and is based in the same levels of truth or proof, zero. N. Korea and Iran are both because they have the audacity to wish to protect themselves, due to American paid nuclear weapons installed in Israel and S. Korea. Russia and China is because whilst America's Military and foreign policy has been to destroy every weak country Militarily, those two countries built things for the future, and now America is miles behind, and wants to only play with their ball. It is staggering childish, but if you are going to waste \$1T a year to destroy things, and other countries are spending their funds on development, that is what happens, you fall behind. You don't then play child level games and call the clearly more brighter intelligence policies in other countries names, or threaten war or sanctions, it is utter childish. Realize the mistake and lets come up with solutions to correct it, by first getting rid of all the neohawks, Israeli lobbyists and the non compete war based companies. Make war a non profitable business, impose heavy penalties on Military budgets for every soldier lost in the theater, every soldier maimed and every soldier suffering mental issues due to mind control and drugging them. Make the Military budget responsible for health care and battle care also, and no, there is no

need to increase the budget, over 1/2 of it goes in bogus contracts, black budgets and blind staff.

As Marin county California does their utmost best to prove our show correct again this week. Blatant racism check, divide and conquer check, anti white check, because it appears that white is no longer classed as or considered as a color. Marin County are running Universal Basic Income program, which as enticing as that is, it will be a disaster for the people. \$400K is set aside for 125 low income mothers, receiving \$1000 each month for two years. More John Hopkins math, because 125 people receiving \$1000 pm for 2 years equals \$3M, \$400K divided by 125 is \$3200 each, which is \$133 a month. The statement says only mothers of color are eligible, and as white is no longer classed as a color, they are barred from participating. This is designed to generate anger, so white people turn on the people of color out of injustice, and then it becomes a free for all in abuse and violence. Don't buy into it, ALL people should tell Marin County we do not approve of your racist approach to public matters, inciting people to turn against each other. Attack the program not the people. This particular issue would be something the activist communal gathering could address.

A new woke prayer book being sold in Target and Amazon encouraging blatant racism has emerged. The prayer called "Prayer of a Weary Black Woman," by Dr. Chanequa Walker-Barnes, a theology professor at Mercer University, starts: "Dear God, Please help me to hate White people, or at least to want to hate them. I want to stop caring about their misguided, racist souls, to stop believing that they can be better, that they can stop being racist." The "prayer" then describes the type of White person they want to hate, not the actual blatantly racist ones, but the "wolves in sheep's clothing" who "don't see color", are friendly and accepting on the surface. "Lord, if it be your will, harden my heart, stop me from striving to see the best in people, stop me from being hopeful that White people can do and be better. Let me imagine them instead as white-hooded robes standing in front of burning crosses. Let me see them as hopelessly unrepentant, reprobate bigots who have blasphemed the Holy Spirit and who need to be handed over to the evil one." "Grant me a get out of judgment free card if I make White people, the exception to your commandment to love our neighbors as we love ourselves." Just staggering amounts of ignorance, hatred and racism, perhaps some of the black people should listen to last Tuesdays show, and understand who the real problem is.

As one group of people wish to make this world sterile, blocking out the sun or is it blacking out the sun? Another group wish to populate us with live viruses, all to line the pockets of the greedy el-ites and vulture capitalists groups. Pentagon scientists reveal a microchip that senses COVID-19 in your body, before you show symptoms and a filter that extracts the virus from blood. DARPA's teams saw COVID-19 infected 1,271 onboard USS Theodore Roosevelt as the virus spread unchecked. In response they have

developed a microchip to detect asymptomatic COVID in a bid to prevent an outbreak. The chip is inserted below skin and triggers a sensor if COVID infects the body. DARPA have also created a filter which can remove COVID virus from the blood when attached to dialysis. They are working on a vaccine that would work against all corona viruses, even ones not yet identified. The team also successfully manufactured antibodies against Spanish Flu. Yes because the US military was the start of the "Spanish flu" in 1919, seems clear they are involved in the micro chip flu from 2019 onwards. Interestingly this story was ran by the UK, so MI5/6 wrote it, the question is why? more faction games?

COVID BS Derek Thompson, a staff writer for The Atlantic, responded to hesitancy from some to receive the corona virus vaccines developed using mRNA technology, calling it "an extraordinary scientific success story" that has been in development for decades. In an interview Thompson outlined the specifics of mRNA, which was used in the development of the corona virus vaccines by Pfizer-BioNTech and Moderna. "mRNA is essentially a recipe book for proteins and proteins basically tell our cells to do everything that there is for cells to do," Thompson explained. Suggesting people are not capable of doing that, suggesting they wish to control how our bodies react, suggesting they wish to have full control over our bodies. "In this case, there's a very specific protein that's on the surface of the corona virus called the 'spike protein.'" Common sense Q: But, what if you don't have corona virus? Thompson said the mRNAs "order spike proteins for our cells to make, our immune system recognizes those spike proteins, learns how to fight them, so when they do confront the actual corona virus with its spike proteins, then the immune system knows exactly how to combat this disease." Common sense Q: doesn't our immune systems do that naturally, given the 99.97% immune system cure rate, unlike these vaccines that are 63-90% effective. While some people may be hesitant to trust this technology, which was not used in the development of Johnson & Johnson's inoculation, Thompson said the research surrounding mRNA "has been gestating for about 40 years." "The first investigations into synthetic mRNA technology were in the 1970s," he explained. Trust this technology he said, I thought it was a vaccine? Why would you wish to put technology in the most advanced being ever created? What amazes me is, all the religious people are not up in arms about messing with Gods creation.

The elites of the World Economic Forum (WEF) are promoting a new "smart mask" that connects to the user's smart phone and sends "alerts" if they "forget to put it on." Deary me, what happens if you still don't put it on, does it dial the Stazi 1 800 IAM NAZI. Lets not forget that not one of these el-ites telling us to wear a mask, are wearing one themselves.

It's time to unplug the sanitizing robots and put away the bottles of Clorox that seem to line the entrances to every school, restaurant and supermarket wanting to advertise its safety protocols. While such protocols may be reassuring to an anxious populace, they

are not necessary, says a revised guidance issued on Monday by the Centers for Disease Control and Prevention. "It is possible for people to be infected through contact with contaminated surfaces or objects, but the risk is generally considered to be low," the new CDC guidance says, estimating that the chance of contracting the corona virus through surface transmission is lower than 1 in 10,000. Only took them 12 months to ascertain that, another flip flop, but the stupid people will still carry on with their fear based lifestyles.

Johnson & Johnson's corona virus vaccine is facing a double dose of problems. Georgia is the third state to temporarily shut down a vaccine site after eight people suffered adverse reactions to the shot. All three major U.S. vaccines produced adverse reactions in more than 60,000 people nationwide. For each manufacturer — Pfizer, Moderna and Johnson & Johnson — just one-tenth of 1% of all people have reported side effects. More John Hopkins math, the side effects figure was well over a 100K in the middle of the last month.

Florida has filed a lawsuit against the Biden administration and the Centers for Disease Control and Prevention to force the reopening of the state's cruise industry. The lawsuit, filed Thursday in U.S. District Court in Tampa, names as defendants the CDC and the Department of Health and Human Services, as well as the agencies' appointed leaders. It claims the CDC's COVID-19 prevention guidelines for cruise ships are "arbitrary and capricious," unconstitutional, and violations of the federal laws governing administrative procedures. The lawsuit deepens a battle between Florida Gov. Ron DeSantis and the Biden administration over the wisest course out of the pandemic. DeSantis has lifted most restrictions on businesses in Florida and has repeatedly criticized Biden's cautious steps. DeSantis last week issued an executive order barring businesses from requiring that customers be vaccinated. I expect to see more of this type of lawsuits.

Ministry of Health of Russia. Russia has postmortem dissected Covid-19 patient, great discovery has been made. Russia is the first country in the world to dissect Covid-19 corpses, and after a thorough investigation, it was determined that Covid-does not exist as a virus. It is a global scam, people die of "extended electromagnetic radiation (poison)". Doctors in Russia are violating the World Health Organization (WHO) law that does not allow autopsies of people with Covid-19 died. After a period of scientific discovery, it cannot be assumed that it is a virus, but rather bacteria that cause death and lead to the formation of blood clots in the veins and nerves, from which the patient dies because of these bacteria. Russia defeated the virus and said " there is nothing else but a coagulation of the blood vessels (thrombosis) and the treatment method is intact ". Antibiotic tablets Anti-inflammatory and taking anticoagulants (aspirin). It means that the disease can be cured, this sensational message for the world was prepared by Russian doctors through the autopsy (carcass) of the Covid-19 virus. According to other Russian scientists,

ventilators and intensive care units (UCI) were never used. Protocols for this have already been published in Russia. CHINA already knew this but never published its report. Share this information with your family, neighbors, friends, friends, co-workers so that they can get out of the fear of Covid-19 and understand that it is not a virus but simply bacteria exposed to 5 G rays are. The cause is to hurt people with very low immunity. This radiation also causes inflammation and hypoxia. Those who are victims should take Aspirin-100 mg and Apronicot or Paracetamol 650 mg. Because Covid-19 has been shown to cause blood clotting, lead to thrombosis in people and why blood clots in the veins and therefore the brain, heart and lungs cannot oxygenate, which makes it difficult for people to breathe and people die quickly with lack of lack of breathing energy. Doctors in Russia did not listen to the WHO protocol and dissected the corpses on Covid-19 corpses. Doctors opened arms, legs, and other parts of the body, and after being properly tested, noticed that blood vessels and veins filled with clots that normally prevented blood flow, as well as reducing the flow of oxygen in the body, causing the patient to die After the news of this study, the Ministry of Health of Russia changed the Covid-19 treatment protocol and gave aspirin-100 mg to its positive patients and started giving the Empromak. As a result, the patients began to recover and their health began to improve. Russia's Ministry of Health discharged and sent home more than 14,000 patients in one day. oops.

An increasing focus among lawyers filing lawsuits against perpetrators of the COVID19 mass vaccination debacle are prosecutions of doctors violating the international Nuremberg Code. Here, we examine what the Code requires of all medical doctors. Among the evidence presented shows possible criminality of medical practitioners of falsifying death certificates. Below, we present a copy of a 1996 document from the British Medical Journal(BMJ) setting out the details of what constitutes ethical practice among medical doctors. The judgment by the war crimes tribunal at Nuremberg laid down 10 standards to which physicians must conform when carrying out experiments on human subjects in a new code that is now accepted worldwide. This judgment established a new standard of ethical medical behaviour for the post World War II human rights era. Amongst other requirements, this document enunciates the requirement of voluntary informed consent of the human subject. The principle of voluntary informed consent protects the right of the individual to control his own body. This code also recognizes that the risk must be weighed against the expected benefit, and that unnecessary pain and suffering must be avoided. This code recognizes that doctors should avoid actions that injure human patients. The principles established by this code for medical practice now have been extended into general codes of medical ethics. The Nuremberg Code (1947) Permissible Medical Experiments The great weight of the evidence before us to effect that certain types of medical experiments on human beings, when kept within reasonably well-defined bounds, conform to the ethics of the medical profession generally. The protagonists of the practice of human experimentation justify their views on the basis that

such experiments yield results for the good of society that are unprocurable by other methods or means of study. All agree, however, that certain basic principles must be observed in order to satisfy moral, ethical and legal concepts: 1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity. 2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature. 3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results justify the performance of the experiment. 4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury. 5. No experiment should be conducted where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects. 6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment. 7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability or death. 8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment. 9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible. 10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

Freedom of information act submitted to the UK NHS Trust provided further interesting statistics and analysis of Covid 19. Question 1 How many people died in the UK Hospitals of Covid 19 alone, as in they died due to only Covid 19. Answer was 0. Question 2 The percentage of those with underlying conditions as part of the total, Answer 0%. Question 3 The percentage of those without underlying conditions as part of the total, Answer 0%.

In another report from the UK it states: The resurgence in both hospitalizations and deaths in recent weeks, is dominated by those who have received the two doses of the vaccine, this compromises of 60-70% of the recent wave.

The vast majority of people offered the Oxford/AstraZeneca anti-Covid vaccine Vaxzevria on the southern Italian island of Sicily are refusing to take it, according to the region's president, Nello Musumeci. "In Sicily, there is an 80% refusal rate of the AstraZeneca vaccine. Every 100 people, 80 say no," Musumeci said late Saturday night, according to media reports. He added that it is "natural" for people to be hesitant about the vaccine – recently rebranded as Vaxzevria – but they must believe scientists when they tell them that "it is more dangerous not to get vaccinated than to get vaccinated." Erm no it is not jackass, 99.97% immune system, one vaccine 90% other 63% do the math non John Hopkins please, so it is more dangerous to get vaccinated than not to.

WEF are proposing along with China for the world to have permanent masks, fine take everyone who wants to do that and put them in China, build the great Rus wall higher and block them all in, throw Gates, Fauci, Royals, elites and portal people in there as well, Problem solved.

As a volcanic eruption cast a pall of ash over the Caribbean island of St. Vincent, tens of thousands fled – but eyebrows were raised after the island nation's PM said they weren't going anywhere without a Covid shot. The La Soufriere volcano on the eastern Caribbean island of St. Vincent erupted on Friday, sending a column of ash 10km into the sky. With some 16,000 people living in the 'red zone' near the volcano, the authorities had been scrambling to put together evacuation plans in the hours leading up to the blast. For viewers following the evacuation effort through television news reports, one detail of the plan may have stood out. "Cruise ships are evacuating people from the island," CBS News' Norah O'Donnell announced on Friday, adding that "only those vaccinated against Covid" would be allowed to leave. Solution to this air life the islands Prime Minister Ralph Gonsalves off of the island and drop him into the volcano, Problem solved, no room for stupidity on this planet anymore.

There are many members in the alt media I don't particularly approve of, but if they do or say things beneficial for and by the people I will report it. Like Anna Von Reitz, I don't

like who she works for, but she often has good insights in her posts, that have made it to our show, that is learning to combine ideas together, regardless whether those two people see eye to eye. Her latest is useful where she said the simple solution to not getting the techno jab is to say, I am allergic to the vaccine serum, they can't force you into taking it with that statement.

EXPOSE 1: In 1920, Scientific American reported that the atmosphere was deficient in CO<sub>2</sub>, and that crop productivity could be greatly enhanced by introducing CO<sub>2</sub> emissions from smokestacks, and that earth was covered with luxuriant forests when CO<sub>2</sub> levels were much higher. One of the principal constituents making up the body of a plant is carbon, representing about one-half of its organic substance. The opinion that this carbon is derived from the soil has long been abandoned, modern investigation having shown atmospheric carbonic acid to be absorbed by means of the chlorophyll or green matter of the leaves and decomposed into its elements, the carbon, in conjunction with the root sap and atmospheric moisture, being worked into organic compounds. Whereas atmospheric air at present is relatively poor in carbonic acid, of which it contains only about .03 per cent, at an early period in the development of our planet, when this was covered with the luxuriant forests our coal deposits are derived from, it comprised incomparably greater quantities of this gas. This fact suggested the idea of heightening the fertility of the soil by increasing its carbonic acid content and thus producing conditions resembling those of antediluvian ages. Now they say - Climate change's negative effects on plants will likely outweigh any gains from elevated atmospheric carbon dioxide levels. I told you there are no experts, only scientific lobbyists on behalf of the system. This was sent in by a member and highlights the real issue of CO<sub>2</sub> we face. Optimum CO<sub>2</sub> = 2000 ppm ( parts per million ) for a green and healthy planet. We have now = 400 ppm Plants start to die = 150 ppm We had earlier = 800 ppm not to long ago CO<sub>2</sub> = the gas of life Bill Gates have big plans on how to bind this so called killing gas CO<sub>2</sub>, when it is needed for life to thrive here. So then the levels will be safe due to Bill - 100 ppm? Just like the covid scam the very people who tell us what to do are the ones not doing it themselves. The burble on about climate change and yet, 1500 Private planes flew into Davos this year loaded with people all meeting to try and help solve climate change. I guess irony is lost on these jackasses, or to reveal the truth there is no climate change and there is no covid as described and they are running Earth re-engineering programs to suit their own agendas. Think of all the programs running now with, Geo-engineering, climate engineering, "climate change", chem trails and weather manipulations, are giving the planet too light of sunlight, which is the energy source of life. Is this engineering new, no in the UK in 1952, was presented with engineered floods, killing more than 30 people. What other engineering is ongoing? there is a reason Bill Gates is the biggest owner of farming in the USA. In the USA they now are paying the farmers not to produce, now why would they do that? Remember Gates talking about us not having meat, and we would end up with fake meat? That meat comes from fungus, known as mycoprotein, it is

marketed under the trade name Quorn (pronounced kworn) and made into a variety of products, including chicken-like nuggets, lasagna and fettuccine Alfredo - even an alternative to ground beef, called "grounds." This is not new, it was introduced in 2002, here is part of the report from 2002 Scientists found the fungus growing on farms west of London in the 1960s and discovered that its long strands could be made into a product that mimicked the fibrous tissue of meat. The fungus is now grown through fermentation, mixed with egg and flavorings and fashioned into imitation chicken or beef. It is now eaten in one in 20 British households, the company says, and is sold in six other European countries. It arrived in U.S. stores in January after getting approval from the Food and Drug Administration. We just have to make sure fungus is not going to appear on the label anywhere," said Bonci, director of sports nutrition at the University of Pittsburgh Medical Center. It didn't, labels on Quorn products say that mycoprotein "comes from a small, unassuming member of the mushroom family, which we ferment like yogurt." Except it is not mushroom at all. Here is a big dot connector for you all to tie it all in together, which company developed this fungus products for us to eat? The product was developed by a subsidiary of the Anglo-Swedish pharmaceutical giant AstraZeneca and introduced in Britain in 1985. The same company that the so called man of the people Trumpster sent \$10b of our money to last year. It is suspected now that all vaccines of the future will be these crispr DNA altering jabs, go and watch Designated Survivor series Season 3 episode 2 in particular, and you will see this was planned all along. In the USA children got 31 shots, now it is 72, expect that to increase, not due to extra illness, but to fill vulture capitalists greedy pockets. To tie this in a bit more and connected another dot, we have spoken about vaccines and farming, did you know that Cows are vaccinated through their noses? exactly like what happens with the Covid tests. Corona viruses has been around for ever, they are in the saliva, not the back of the nose. Back in 2013-14 time on Cosmic Voice I said something that made people think, it was probably the first time people more familiar with Drake than I, stood and took notice of what I said. There was a lot of back chatter about chemtrails at the time and were all going to die. That concept made no sense to me, as the clowns would be breathing the same air and absorbing the same air particles as we where. So, I asked people does chemtrails from that point of view make any sense? and what does make sense is, if the chemtrails are being done by someone or something else, and I asked, our we being terraformed for the benefit of another race of beings? Is this a slow take-over by first dulling down our perceptions, limiting or erasing our freedoms, altering our food, water, air and now our bodies. Are we infiltrated by a group with 100 % total contempt for the "Human Race"? After Tuesday's show, I think you may have your answer to who is doing this to us, their capacity for evil, greed and sheer contempt for humans was there for all to see.

EXPOSE 2: Some people don't like these kind of exposes, and I get that, I don't either, but these people are affecting peoples lives in bad ways and steering them off their path.

That is why I do it and I am pleased many more in our community now are doing the same thing. Enough of the BS, lets all get real and stand in the truth. Steven Kelley of Truthcat radio did an expose on Charlie Ward recently, some of his research I have included and added my own elements of it. Kelley also has his own dodgy connections via CIA and NSA, which puts him in a faction based narrative, but I have always said if people put out truth or say something useful, I will relay it, which is why from time I have pieces from the Vatican and bloodline family serving member Anna Von Reitz. What is interesting now is, that Jordan Sather who I warned him of his connections to agency lackey Wilcock, the fake story writer Corey Goode, yes all the Blue Avian script was made up, and also his connections to Robert David Steele. But, now it seems he has jumped ship from all of those and is exposing stuff that this show host has done since 2013, welcome aboard Jordan, if you are acting for the people, or has he become another faction statistic, time will tell. Behind Sather for a while hid who I dubbed the alternative media interceptor man, Robert David Steele, who appears to get involved in all major alt media clowns, but generally hovers in the background of them all, is he the grandmaster of them all? Steele famously went over and worked with Neil Keenan, just after I exposed Neil Keenan as part of Langley 2, along with Drake, Von Reitz, Fulford and others. Steele was Keenan's ghost writer, then stories emerged that Keenan was killed in September 2016 and was replaced with a double, it seems wherever Steele is involved bad things happen, Steele is also connected with Charlie Ward. Charlie Ward claims he is a doctor, he's no more of a doctor than Greg Hallet is a King, Anna Von Reitz is a judge, David Wynn Miller and Gould are Postmaster General and several other titles. He was brought up in a religious group called the Plymouth Brethren, was a timeshare salesman, ran UK prisons, and was moving large volumes of currencies and assets for elites, in real world that is called laundering. Ward fled UK and went to a major center of criminality in Marbella, Spain. Which is notorious of drugs, prostitution and trafficking. He is what is known as a Cockney wide boy, all smiles and persuasion who would literally sell their own grandmother to make money. His insertion into timeshare is the equivalent of a used car salesman, based on lies and distortion of the truth in order to make a sale, and thousands of Europeans were tricked out of their money, by people like Ward and the time share business, frankly it is a racket. Ward was also given a contract of work for all the UK Prisons, which means he is part of the private contractor groups, (maybe Serco) which is connected to rogue agencies, and many of these private contractors end up on the internet talking the distraction based rhetoric. I suspect he is another like Neil Keenan, who was caught committing high level crimes, in his case drug running. Neil was given a 5 year jail sentence for that and had his passport confiscated, yet Neil turned up in Bulgaria without a passport and arrives in the Eastern European Division of the CIA, what this reveals is, Neil took a plea bargain of no jail but he was tasked to work for the CIA. Ward appears to be in the same boat as Neil, I get they didn't want to go to jail, but Neil would have been out within 3 years, a deal with the CIA or other agencies becomes a life sentence, and in Neil's case, probably his death sentence. Ward says he is

connected to the CIA, but there is evidence he is with NSA, which is a subsidiary of GCHQ and so the British connection comes obvious. Ward's connections lead him to UK socialites called the Kidd family, who are connected to the Rothschild's via Nathan De Rothschild, who is a shared shareholder of a Jemma Kidd shell make up company, alleged to be trafficking children to certain islands off the SE coast of Florida, but another shareholder of that company just happens to be Ghislaine Maxwell. Ghislaine Maxwell is a Mossad agent, like Monica Lewinsky, remember the quote from Netanyahu My Mossad uses children to trap your leaders into extortion so we can control you, but your perverts only see the child sex. Which brings in Epstein. But, then Ward which is typical of a Cockney wide boy begins bragging and begins name dropping and his involvement with Jimmy Saville the UK pedophile. Ward admitted he procured children for Saville, for the purpose of sexual slavery and abuse of underage girls. Some time back in my early days of being a radio show host, I was given a transcript from one of the Queens butlers who worked in Buckingham Palace. It contained startling evidence of the abuse and use of underage children allegedly done by members of the Royal family. Now, I was aware of this back in the 1990's and became aware of an investigation by Scotland Yard into the BBC. Saville and others were sexually abusing underage children, but I was informed the investigation was dropped into Saville, due to the end of the chain of the child sex abuse case, led all the way to Buckingham Palace and the Royal Family. Further evidence came to light of numerous skeletons of children and adults found around many of the royal houses, and subsequently covered up. I was asked at the time to do a show on those documents but declined, as I preferred my head attached to my shoulders. Some of Ward's guests leave much to be desired like Sacha Stone, but also David Icke, I like Icke but he has all the hallmarks of faction based narrative and is consistently connected with other rogue alt media entities, to raise sufficient suspicions to his real intentions. Ward also promoted the Greg Hallet I am the King of England guy, who was exposed on the internet in the early 2000's. The real king based on proper bloodlines and not the insertion of a German bloodline family into the British Royals, the real king was an Australian guy, who died recently and he had no desire to take up his alleged position. Ward is an inserted stooge designed to provide distraction within the alt media. Ward only appeared in late April of last year, just before a future guest of his departed from THI, whether that is coincidental remains to be seen. Other coincidences is both Ward and Lifeforce at similar times started making their alleged intel be private, and you had to pay around \$15 to listen to their, what is now obvious bs, as not one prediction from Ward or Lifeforce has come to fruition, not one. Kim Goguen went on his show once or twice, and it was clear some of Wards more outlandish claims that followed on his shows, had come from her or they were both being fed the same bs. Children's tunnels cleared out, DUMBS and underground cities, none of which proof has been provided, and the latter two events claimed DUMBS was not destroyed, which the Trustee backtracked on, then it switched to underground cities, but there is no evidence to support that either, in fact I was given assurances that they are all still operational. Kim recently said she does a background

check on all people she engages with, so with the Quantum System and the full range of access to all agency background files on everyone, plus having data mapped every person on the planet, that Kim couldn't find these details on Charlie Ward before going on his show? The Trustee on a show with a child pedophile procurer, money launderer, shell corporations that is connected to trafficking in some cases children it seems, connected to dinars and the RV just like Tank, connected to Q, connected to the Rothschild's and Epstein and Maxwell. Ward is also served up with a dish of cold Rice, who is another of the currency scam scheme of cryptos. Since the split Kim has got involved with Tank RV, Ward RV and other currency laundering, Dan Lutz part of past or present Swissindo known for trafficking children and crypto, now Rice crypto currency and a bigger picture emerges here. Why is the Trustee connected to all these lead scam artists, remember she was a high level banker and should be able to spot these shysters a lot easier than us normal guys. When you have access to all the world files on all people, plus a multitude of titles and we are to believe she didn't know about these people? At which point does it look like Kim is a part of these scam artists? at which point does the boundaries of naivety on her part fall apart? How with all those titles and access to an endless stream of people databases do you end up mixing with these types of people? All in the space of twelve months, to some it seems I escaped a bullet. But then Kim knows all too well I would never have mixed with those people in a million years, she was told I would never compromise myself or the people for money or titles, that is not and never will be happening. Maybe that is why she fired me for no reason whatsoever, some will still not believe that, but time will always tell. But I find it amusing the very people who doubt that will not engage me in an adult based conversation, which renders them at the same level as Team Bubba and their band of pedos and agency based stooges. Remember I offered several times for them to come on our show and air their allegations, they refused every time, just like Kim refused 5 olive branches, they refuse because they know I stand in the truth and their narrative will fall apart in a public forum. What has been evidenced now is, there are a range of UK operatives playing lead roles in duping the alt media public. Some of whom are connected to the British establishment, Ward, Steele and his sidekick Sacha Stone, Parkes, Icke to name but a few, all of which smacks of agency based stooges, who may well have been forced into those roles for past misdemeanors. The only losers are the alt media followers in all of this, and that is the great sadness to me, that so many tasked with providing the alternative narrative are just a bunch of sell outs and self serving criminals, sending people off the path. I named the show that way for a reason, I don't do fakery, and I challenged myself to operate under those three traits, Truth, Honor and Integrity, I believe I have proven that, and if you doubt that I will say, just give it some time, and time will always tell.

This incident has been going on for months, in fact practically since the start. Certain people taking advantage of the generous people making donations, to fulfill not a humanitarian program or restoration plan, but to line certain peoples pockets. First we

had the UN channel and it was all happening in a few weeks, months went by and another channel emerged UNC, Tank asked for \$9K and they would have the channel operating. Then another channel emerged UNN, more people got fired this time a more higher profile Ava Cowan, which is the second time Kim brought her in and the second time she was cast aside. During the gaps between the 3 named channels, the channels were being registered to people under ownership, that at no point in time I believe was connected to Kim Goguen. That is a staggering oversight on her part again, remember according to Kim, Source told her to create an internet TV channel, that was not Source, that was the AI god, but Kim has a major listening problem, possibly due to the voice to head technology she was wearing then, not an excuse now. So, Source tells her to make and run her own portal people channel, but someone else would have 100% ownership rights to it? Does that make any sense? no? it is a program then. Two people who Kim treats like her pet puppets Alan and moreso Liam are facilitating it. Why wouldn't they help Kim in several matters that puts her reputation and standing in bad light? They both took the opportunity with glee to jump into my shoes and work closely with Kim, regardless of the friendship we had built up. Yet like Tank also, they all forget the protection and support afforded to Kim that I provided. Do you really think Kim would be in this inescapable mess if I was still in place? no, then the ones who replaced me Tank, Alan and Liam are to blame for the current mess, and now rendering the Trustee a laughing stock. Will Alan and Liam be man enough to admit they made a mistake, and come and help rebuild The Peoples Club? time will tell on them. Not that Kim is innocent in all of this either, ego does terrible things to people and some seem oblivious to their actions, and subsequent consequences. GIA Internal Investigation 4-6-21 DCI GIA, [06.04.21 21:03] This is George the "Viking" who I have spoken to a couple of times in the past, the last being around May of last year. He was asked to do something by Kim and this is what unfolded. To give further background of the shenanigans of Life Force perhaps a reminder of just a few of the serious allegations made by their own members of actions within that group. 1. The assemblies are infiltrated by unknown GIA agents 2. One assembly is running a criminal child operation 3. GIA who's head is Kim, sent FBI agents to threaten one of their members to shut up 4. Members closely involved where asked to sign non disclosure statements 5. members being forced to sign contracts to work with them 6. Alleged money was taken by Tank out of the LawfulAmerica account 7. Alleged money was used for Tanks Reno trip out of the Life Force Account and 8, like all the previous both Kim and Tank ignored it all, she was told 3 times her assemblies were unlawful. To date my input into Kim Goguen was never personal, only about her business decisions and poor treatment of her followers, as just referenced with the 8 reminders, plus throw in the funding of the takeover of the Fed by the Black Sun group, subsequent funding was used to lockdown all Americans, she gave large funds to the Pentagon who are heavily involved with the Covid scam via DARPA, then gave more funds to Trump and the same day he launched the vaccines. That is her legacy of the past 12 months. This is George's input. No, the issue was with Tank, which I was not aware of until last

night, that he owns UNN 100%. Kim only gets what he decides, to keep her in room & board only conditions. This is a far cry from what I was told before. The UNC was setup as Source wanted, with 51% always going to help the people globally, and 49% for Kim & Steven Rosen for them and admin costs & support. (T: Kim only gets what he decides? is this the Kim we all remember? the room and board part is correct as Kim has no source of funding. The other line intrigued me, 49% going to two people? 51% to 7.5B, how does "Source" reckon on that? Was Source trained at John Hopkins maths center?) The problem came with the change of name to the UNN, and I was told it was a simple name change and that was all, until last night discovering that "Tank" had virtually stolen the whole damn thing from the previous people, including Kim. It get's even better, as Kim approved me to make changes in their crumbling internal structure, which I did and most everyone was extremely happy about, and relieved that finally someone was able to provide them all badly needed assistance. Most all of that was due to the few called, "Tanks Core Team," who were abusing the hell out of everyone to the point of some almost walking out the door from UNN. Then when everything blows-up, I'm told that UNN is not part of the GIA or the Restoration Plan. It was a separate business of Tank, and Tank alone. Therefore, I was interfering with something that was none of my business, and I guess rightly so, since I wasn't informed Kim had nothing to do with the UNN business, other than always being a special guest for Tank. (T: So, The Trustee, Eve and the dozen other titles person is now a lackey for the failed RV man? The Trustee bowing down to a man who acts like a used car salesman? really? oh how the mighty has fallen. The same failed RV man who told Kim in February 2020, you are a woman and no one will listen to you, because you are a woman, and she should hand over the role as Trustee to him, haha too funny Tank. The chances of you ever reaching the parameters required to do that role are, zero, or to use a Kim quote less than zero. Some people thought Tank wanted my job, and to a degree he did, but I knew 3 years ago it was her job he wanted, but guess what, Kim's non listening program kicked in again, not once but several times.) I reminded them that had I been informed and known that, I never would have began corrective measures, which Kim gave me approval for, and now denies. (T: A common theme for Kim, when things go wrong she vehemently denies it and only points fingers away from her.) Then, of course, she's on a hot spot with Tank, so I guess she had to claim that I was lying and that's when everything went to hell in a hand-basket. (T: Further confirmation that Kim is unable to do or say anything without Tank's approval, this is exactly how I portrayed the split up last May, someone or something put her up to this, someone had her over a barrel. That person is Tank, but he is the front puppet for a larger group connected to rogue Military and Agencies, he is incapable of pulling this off himself) Now all of this transpired via a conference call between the three of us, which ended up with the two of them screaming at me until my phone battery died and put immediately off-line. (T: yes, Kim and her screaming a common theme, wrath is her deadly sin and she has failed to address it, maybe Source should have told her to address that, before becoming a portal people person) By the time the phone was recharged

enough to reboot, and I could get the hotspot plugged back into the computer to get online, that's when I found her laying all this stuff out in our business work threads for all to see, making their claims of me supposedly lying etc., of which you have a copy of the transcripts, from that point to the end when she ran out of steam. (T: Similar to what she did in the Mewe chat, a volley of accusations, none of which were true, and when questioned, she ran off. Kim like many other people can call me what they like, I know different, but the sheer contempt and disdain she had for our members that day, is what bothers me most, it was shameful. And yet some of our members went over to join her after that, seduced by the savior, money and fame program again. For 4 years our members loved her, supported, encouraged her and in part financed her, and she dismissed all that in one of her classic wrath episodes, and for what? all to be a pet poodle for Tank, oh dear) Now with the evidence presented of their accusations of me lying, it's near impossible not to see & understand, that it was they who were perpetrating this facade, doing all the lying and poorly at that, for anyone to come to any other conclusion. However, they rule by absolute fear, hate & animosity towards all below the "Core Team" of Tank, Kim, Lisa, Lane & Vera, of which Vera played the most minimal part ,and out of sheer fear of Tank has been relinquished to a more quiet position. (T: I have heard several reports to support the fear, hate and animosity to their members, to support that claim) Does this sound like people working with "Source Protocols" to you? (T: Well George, you got hung out to dry like I did, perhaps that is something called Karma, you made your choice and you backed the wrong horse.) These are the protocols of the Deep State, Black Sun Occult hierarchy. Why do I say this evil thing you may ask? Because prior to my phone battery dying they were both screaming at me, that they had an important appointment coming up by mid-month with the "MK Looking Glass," which is an "MK-Ultra Occult Mind Control Program.". They even had to add just how important it was, that it has always been a standing appointment for them "every year," which they cannot miss under any circumstances. Which also means they've been under this influence all along, as enablers of the Occult Black Sun activities. There are numerous problems with this of course, but two quite serious ones: "MK Looking Glass" was the most evolved mind control program, then they integrated that with occult sciences, and now trying an 'en masse' initiation with all who will follow them. Eventually you would end up under the Jesuit Protocols, the dangers come when a few occult groups may unite to break through into the minds of our 3D world, and, that's what "MK Looking Glass" was all about. (T: That is deeply concerning and why she is in big trouble I warned of recently, she has become another fallen angel statistic, with the common slide of the unbalanced ego, has taken it's toll again. But, then after Kim found out after near 5 years of me telling her Trump was not an ally, Kim wraths on Trump and then states Trump is Black Sun, which she was told dozens of times previously, these Black Sun associates around her seems to mount up and the obvious questions being asked now is, is she one of them? Throughout my time with Kim, we had very few disagreements, I had number of frustrations after I told her several things and she didn't

listen, but eventually she did in her own way. Except one incident, Kim told me she was designated to build a lab in a town not far from here and work with her now known handler boyfriend who was a chemist, he was picked out in the Looking Glass technology to be the guy who invented time travel. Kim and him were going to invent time travel and I vehemently disagreed, in fact I told her that lab would be destroyed with him and her in it if need be. The only people who would benefit from time travel are the dark forces, to loop us back in time and the loops, I told her quite clearly, that would not be happening.) Alt media is riddled with scam artists, agency miscreants and bs merchants, that I find very sad, not necessarily a surprise given the old systems control of all media, but it is the damage done to the people that concerns me. This is why I expose it, some will see it as a continued tiff between Kim and I, but I can assure you the tiff was only one sided and appeared then as manufactured, now that theory looks more correct by the day. There was no tiff, Kim went on an unprovoked wrath based rant and denigrated all men including me, in fact she threw me in the same category as her former boyfriend, who was employed to be her handler, and his handler, both of whom where CIA and Black Sun operators. Which again she was warned of much earlier, but the listening problem she has blocked it, until it became obvious to even her. She talks much about her love of her daughter, yet is selfishly seems oblivious of the dangers she is putting her child in, inviting Blackwater mercenaries and other strange people to her home and putting her child in great danger, and for what? A TV channel and recognition? Look at how important I am, she forgets before May we did important things, not act important, big difference. I reached out to help her via back channels again last week, because of my concern for her and her daughters safety, and yet again it was dismissed. At this point it appears Ms. Goguen is only interested in herself, oblivious to the damage she has done, oblivious to the dangers to her child, oblivious that her reputation with Heads of State and other Departments is now shot, oblivious to the friendships she has destroyed, oblivious to the good people who helped her and she dismissed it like an arrogant goddess of the past. Her ability to engage the QS now is mute, she revealed that in several comments herself, if you can read between the lines, the mere mention of the Omega system she is working with tells you that, but there were other hints. I said in October the savior bandwagon of Trump, Q and the Trustee are a month away from irrelevance, despite my hopes it would work, but do people still believe that October statement was wrong? This is another example of why we need to build the TPC, and get away from these shysters harvesting funds and ideas off of good people under false pretences. Good people being led astray by the savior and dangling carrots technique, a wait club of promises none of which were fulfilled. A move away from the seedy self serving harvesting alt media, and a focus of what we are doing, to build a new future. This is our task, all of us to encourage all alt media to join the TPC platform, it is your group for survival, prosperity, a voice, a safety net, you can wait for the Trust or pool our resources and build our own. I would love nothing more than to see the alt media en masse join the Peoples Club and become a force together. Not because I designed or created The Peoples Club, or for

people to follow THI, because the TPC doesn't belong to me, it is your platform, your movement and your responsibility to make it thrive for us all. THI gave you all the background of how to improve yourself, and also a whole gamut of dot connecting most thought was not possible to make or connect, that we have already done. So, now you all know who, what, when and why was the problem, your task now is to provide the solutions. The TPC is not a social group, it is a working group and all of us have to engage and work towards a better future. A line from Tuesday's show says it all, "we own the Republicans and we own the Democrats" and that is correct. But they don't own we the people or The Peoples club unless we allow it, that is our ticket out of this mess. The ending song is to us all, but perhaps the person dominant in this last piece needs to listen and act on it.
