

## THI-SHOW TRANSCRIPT 2021-05-27

Some people have had issues with Spreaker recently after another change to their site, that brought more confusion than improvements it seems. Some have complained they have to listen to whole show and not in pieces like previously, well you can still do that and skip the music by clicking on the show date and it will bring up a yellow circle with white arrow, don't click on that, click on the words to the right of it, and it brings up the sliding time based show bar, where you can start listening at any time and go back and forth with the show. Some people have asked where is our YT channel, it is still there, but we no longer post shows there now due to YT fascism. All links to the shows and the archives of every show is now on our website THI-show.com.

Communal gatherings now beginning to take shape, that is your opportunity to be a part of the change, to join that go to [thinkdifferent.thepeoplesclub.org](http://thinkdifferent.thepeoplesclub.org), it is a one off payment of \$2 to join that. There has been several of the "legalese" claims, the latest is the Universal Trust Law, and dates came and went, and not one bore any fruit for we the people. People being arrested, the blah blah funds is coming out, birth cert. GCR, RV, Collateral Accts, Magna Carta, Vatican rendered obsolete, UN obsolete, and even the Trust funds has yet to pay out as stated. It may well apply and be real, but until the people all come together under one roof, (which is what TPC is designed for) all will be pissing in the wind. This is why more people need to come together and join the law communal gathering, and create or revert back to the original non commerce law, and target actionable events and incidences.

Had another busy meet and greet meetings with THI members this weekend, Holly, Todd and Paula arrived in town or close to me. I took Holly out to see the village community on Friday and again on Saturday with Todd and Paula. They all loved it, Holly in particular and she and husband are making moves to move there now as well. I am still in process of acquiring the first house there that will house at least 2 maybe 3 THI members and so a THI congregation is beginning to unfold. There is 6 lots available on the one road currently, but there are maybe 6 others within a mile of the main batch. Contacting with builders about availability of another 12-15 lots that are empty for further buying options on the land. If you go with a new home as described on the zoom they are around \$98K with tax, the repo ones which are not available are rebuilt new but there is no tax of \$7K on them. These homes are built to higher spec than most single family homes as they are built with 2x6 not 2x4, and the installation and foundation of pillars is included in the price. It was great to see Holly and Jeff again, it is like we have always known each other, but meeting Todd and Paula for the first time, like all the Texas people last week, was just as smooth, loving, endearing and engaging as well. I spent more time with Todd and Paula and I think I did about 5 shows worth of answering questions and explaining things more over the weekend, but it was great fun and just as comfortable in their

company as well. With more arriving from California and Texas in the next few days as well, busy times ahead. As more and more of us meet and greet, not just me, but each other, we will all find a commonality amongst us all and it is something we should treasure and protect. But, I learned something from the members this week, so learning is not a one way street, the art of receiving is as important as the art of giving. Extraordinary interactions this week with several members has opened that door for me, that life can't always be one way. It is the dance, and we have many dominant in giving in this group which is pleasing to see, but like the takers, we must also have balance as well.

Why are we buying property connected to the state, which involves mortgages? I'm aware allodial title requires full payment upon purchasing...probably in gold or silver, is this the reason for submitting to mortgages? Until the people come together and fund their own homes and projects, we have to work around and with their system until we develop our own. If just 10% of Americans put in \$1 a month, we would have \$33M each month to work with, to date only around 130-160 generous people put funds into the TPC.

NEWS: KABUL, Afghanistan — United States troops and their NATO allies intend to be out of Afghanistan by early to mid-July, well ahead of President Biden's Sept. 11 withdrawal deadline, military officials said, in what has turned into an accelerated ending to America's longest war. Nice ritual sacrifice date selected there I see, it was a sacrifice day before 2001 also. The Pentagon still has not determined how it will combat terrorist threats like Al Qaeda from afar after American troops leave. Nor have top Defense Department officials secured agreement from allies about repositioning American troops in other nearby countries. Administration officials are still grappling with the thorny question of whether American warplanes — most likely armed Reaper drones, will provide air support to Afghan forces to help prevent the country's cities from falling to the Taliban. To stop the Taliban reclaiming cities begins at home, reign in the CIA and the Taliban issue goes away.

U.S. Secretary of State Antony Blinken, has authorized U.S. embassies around the world to fly Black Lives Matter (BLM) flags and banners, according to an internal cable reviewed by Foreign Policy, as part of the administration's response to the one-year anniversary of the police murder of George Floyd that sparked international outrage and a nationwide reckoning on systemic racism. Why is this happening? because Blinken is born to, and Israel Cohen said we would use the blacks to bring down the whites, in favour of the Jewish El-ites.

The former Pentagon official who went public about reports of UFOs has filed a complaint with the agency's inspector general claiming a coordinated campaign to discredit him for speaking out — including accusing a top official of threatening to tell

people he was "crazy," according to documents reviewed by POLITICO. Lue Elizondo, a career counterintelligence specialist who was assigned in 2008 to work for a Pentagon program that investigated reports of "unmanned aerial phenomena," filed the 64-page complaint to the independent watchdog on May 3 and has met several times with investigators, according to his legal team. The claim that the government is trying to discredit him comes weeks before the director of national intelligence and the Pentagon are expected to deliver an unclassified report to Congress about UFOs and the government's strategy for investigating such encounters. If you think the Pentagon is persuing ET disclosure, you are not as awake as you think you are. Common sense question: why would you believe the Pentagon for disclosure above anyone else? if you do, the next questions is: are you a Milgram experiment? It is all pure distraction.

The FBI is investigating what it describes as a massive scheme to illegally finance Sen. Susan Collins' 2020 re-election bid, Axios has learned. A recently unsealed search warrant application shows the FBI believes a Hawaii defense contractor illegally funneled \$150,000 to a pro-Collins super PAC and reimbursed donations to Collins' campaign. There's no indication that Collins or her team were aware of any of it. Collins helped the contractor at issue, then called Navatek and since renamed the Martin Defense Group, secure an \$8 million Navy contract before most of the donations took place. Former Navatek CEO Martin Kao was indicted last year for allegedly bilking the federal government of millions in corona virus relief loans. What they're saying: "The Collins for Senator Campaign had absolutely no knowledge of anything alleged in the warrant," Collins spokesperson Annie Clark said in an emailed statement. The big picture: Federal prosecutors say Kao used a shell company to funnel \$150,000 in Navatek funds to a pro-Collins super PAC called 1820 PAC. According to the FBI, Kao and his wife set up a sham LLC called the Society for Young Women Scientists and Engineers. Navatek then wrote the LLC a \$150,000 check, investigators say, which was passed on to the super PAC. Government contractors are barred from donating to federal political committees, and investigators suspect the donations were attempts to evade that prohibition. Investigators say bank records also show that Kao illegally reimbursed family members who donated to Collins' campaign and that Navatek reimbursed some of Kao's colleagues for their contributions. That's known as a "straw" donation, and it's prohibited by law. The Collins campaign's fundraising solicitations also require donors to certify that they are in fact donating their own funds. The allegedly reimbursed donations came in clusters, according to federal contribution records, between June and September 2019, and amounted to less than 0.2% of the Collins campaign's total fundraising. The warrant application quotes an email exchange between Kao, who had just maxed out to Collins' campaign, and the senator's Maine finance director: "If you have friends or family members that would be willing to donate please don't hesitate to send them my way," the Collins staffer wrote. More evidence every single politician is bought and paid for many times over. What this short piece didn't reveal was, the involvement of the bigger defense

contractors in this scam also. Imagine if we collected all the kickbacks associated with politics in this country, we could likely run and fund several of the smaller countries budgets on those payments alone.

Here is another example of it: The Biden administration has awarded an \$86 million contract for hotel rooms near the border, to hold around 1,200 migrant family members who cross the U.S.-Mexico border, DHS officials confirmed to Axios. Why it matters: It's a sign of growing numbers of migrant families trying to come to the U.S. — in addition to already overwhelming numbers of kids crossing the border without their parents or legal guardians. Both trends appear to be straining government resources. The contract through Endeavors, a Texas-based nonprofit, is for six months but could be extended and expanded. The hotels will be near border areas, including in Arizona and Texas. ICE oversees the custody of migrant adults and families who cross the border illegally after they are apprehended by border patrol agents. The agency is already transforming its family detention facilities into rapid-processing centers, with the goal of releasing families within 72 hours. Regardless, the contracts with hotels point to the agency not being able to keep up with, the growing numbers of families in its custody. The big picture: Immigration agencies have used hotels in the past — as recently as last year for unaccompanied minors who the Trump administration was quickly expelling under an emergency public health order. Hotel rooms are likely a safer option than border patrol stations, but do not have to follow the same safety protocols that official government detention spaces do. By the numbers: The number of migrant family members caught crossing the southwest border more than doubled between January and February — rising from 7,000 to nearly 19,000, according to the most recently released agency data. So, as soon as Biden got in, the increase in migrants developed as well, and not a coincidence either. Border officials continue to use a Trump-era order to quickly return many families to Mexico. But Mexico has limited capacity to take in migrant families and won't accept some with young children, according to administration officials. 42% of families were expelled to Mexico last month — down from 64% in January and 91% in October, according to the data. More than 13,000 family members who crossed the U.S. border illegally have been allowed into the country since the start of January, many released into border communities. The Biden administration does not use the order to expel unaccompanied children, as the previous administration did. What to watch: The Biden administration has been pressuring the Mexican government to increase its own immigration enforcement, to help slow the number of Central Americans making their way through the country to the U.S.-Mexico border, the New York Times and Washington Post have reported. I hate to say this but it is borne in facts, these arrivals are little to do with people wishing to move to America, but more of a front for illegal practices, of which many lead Democrats are involved in. These migrants are gang related, child trafficking, sex slavery children and adrenochrome for your fake celebrities out of Hollywood and surrounding areas. No one is saying we don't wish to help

migrants, but here is the kicker. If \$86M can be found to fund people who are not from America, why can't that amount and more be found to fix the mass homeless situation, happening to this countries own people?

\$150 billion that's how much of Iraq's oil money has been stolen and smuggled out of the country in corrupt deals (CIA, Obama, Bush, Netanyahu, Khomeini are responsible for that) since the US-led invasion of Iraq in 2003, Iraqi President Barham Salih estimated. The statement came as the Iraqi President submitted a draft Corrupt Funds Recovery Act to the Iraqi Parliament. "The draft law seeks to strengthen the powers of Iraqi nation in order to recover money stolen in corrupt deals, to hold corrupt people accountable and bring them to justice," according to Salih. He urged Iraqi lawmakers to discuss and approve the proposed legislation "to help curb this dangerous scourge that has deprived our people of enjoying the wealth of their country for many years." Salih said the stolen money would be enough to significantly improve Iraq's finances. According to Salih, the legislation would seek to recover the misappropriated funds, through the cooperation of other governments and in partnership with international bodies. Good luck with that, they will wheel out the cover up act, called National Security. "Here I reiterate Iraq's call, which we have previously issued at the United Nations General Assembly, for the formation of an international coalition to fight corruption along the lines of the international coalition against ISIS," Salih said. Salih said the challenge of corruption is no less dangerous than terrorism, because the corruption and terrorists are one and the same group is why.

Here is a piece on a country we have not yet covered in any great details, another country created by the Bolsheviks with the split up of Russia, this is Belarus. Plagued by political turmoil over "Europe's last dictatorship" and with a president in denial of covid-19, how has Belarus ended up with one of the lowest death rates on the continent, according to the report. Belarus's beleaguered government remains unfazed by covid-19: President Aleksander Lukashenko, who has been in power since 1994, has flatly denied the seriousness of the pandemic, refusing to impose a lockdown, close schools, or cancel mass events like the Belarusian football league or the Victory Day parade. Which apparently makes him a despot or psychopath according to the clowns. Yet the country's death rate is among the lowest in Europe—just over 700 in a population of 9.5 million with over 73 000 confirmed cases. oops, I guess he was right and the so called experts were wrong. Pandemic mindset: The relatively low death rate is thought to be thanks to Belarus's large hospital capacity which allowed the country to isolate people early on, says Andrei Vitushka, a healthcare policy expert at the Belarusian Institute for Strategic Studies in Vilnius, Lithuania. With 11 hospital beds per 1000 people, Belarus outnumbers nations like Germany (8) or the UK (2.5). "It's usually a problem because it takes a lot of money to maintain them, but it turned into our advantage in this situation," says Vitushka, who is also an intensive care physician in Belarus. So, the hospital beds saved

them according to clowns, ah the magic of covid strikes again, once it finds a bed in an awakened country, it magically cures itself. “Belarus, like most of the post-Soviet states, has a focus on “sanitary epidemiological problems” meaning large scale health scares like a pandemic,” says Rasmus Nilsson, a teaching fellow at University College London’s school of Slavonic and east European studies. This may be one reason Belarus also outperformed most of Europe, in terms of mass testing during the first four months of the pandemic. While many countries were reluctant to carry out extensive testing, according to the state owned news agency BelTA, testing in Belarus started as early as 23 January. Most kits were donated or purchased from China and Russia using government funds and donations from companies and ordinary citizens. The country stepped up testing in early April, developing its own rapid testing kits and switching to the use of domestically produced reagents for polymerase chain reaction testing in May. According to government information, there are now 32 laboratories processing samples across the country and testing is widespread in hospitals as well as from GPs. By the end of June, Belarus had conducted around one million tests, covering more than 10% of its population. Citizens doing it for themselves: With low expectations of the authorities, Belarusians were bracing themselves for the worst. With the last of a handful of press briefings on the pandemic held on 24 April, information on safety protocols and the country’s situation has been scarce, inconsistent, and often contradictory. “It’s a personal decision for every citizen. If you want, you wear a mask. If you don’t want to, you don’t wear a mask—and this is a problem,” says Vitushka. No it is not, people practice personal responsibility is often proven better than authoritarian rule. Citizens began practising self-isolation early on. On 26 March a crowd funding campaign “ByCovid19” was launched in order, to buy safety equipment for hospitals across the country. The movement collected around \$360 000 (£277 000; €304 000) in three months and, with the help of nearly 1500 volunteers, they purchased and distributed around 450 000 pieces of personal protective equipment, oxygen tanks, and other medical equipment. Although initially slow to react, the health ministry has worked alongside ByCovid19 and taken measures to reorganise hospitals and encourage social distancing, says Vitushka. Another factor is that Belarus has very few care homes (203 beds per 100 000 of the population compared with 854 in the UK), with most elderly citizens living separately. This has helped shield its most vulnerable. “In many cases in Belarus, you have already had some isolation of elderly people, particularly in the countryside or in single flats” says Nilsson. Nilsson says Belarus also benefited from being a relatively isolated country, where the government can easily shut down borders and monitor those passing through. “People tend to go in the other direction,” he says, “Very few people will go to Belarus for holidays or work.” Not out of the woods: With anti-government demonstrations ongoing in Minsk and other big cities following a controversial 9 August election that awarded Lukashenko another term, Belarus will likely see a sudden spike in infections. Nilsson believes this will serve as another pretext to crack down on government critics. Lukashenko has allegedly overcome corona virus infection, Nilsson says, framing it as

yet another chapter in Belarus's historical sufferings that the country managed to overcome. "This is Lukashenko 101, and he is probably not going to change." Although the low death numbers are encouraging, some experts fear that many corona virus related deaths are registered as cases of pneumonia—UN data show a difference of 5605 between April-June 2019 compared with the same period in 2020, and the deaths per capita ratio remains one of the highest in Europe. Nilson is cautious, "Until we have the figures for excess deaths, I don't want to praise Belarus too much." Well we will, because clearly their policy of not buying into the Covid scam has worked. With less deaths, infections and issues to deal with, Belarus have kept going whilst taking the modicum of precautions that was required, unlike the so called larger countries. The big EU countries have been raped and lost many jobs and businesses, thankfully Belarus continued a more normal living and hopefully can kick on in the former Rus country.

As MSNBC host Rachel Maddow reacted to the CDC's announcement on face coverings by saying, she would have to "rewire" her brain in order to not perceive those who don't wear masks as a "threat." Well the non gendered Maddow or however you wish to be addressed, your banal lying to the public is the greatest threat to humanity, you are a treasonous slimeball of the highest order.

Following on from China blocking the BBC, that has now spread to India now too. India has told the UK Govt and BBC to quit their lies over the Indian Covid Variant, take down their lies as the Indian variant does not exist.

A victim of online scammers, who was conned into giving away her savings, has warned others not to make the same mistake. Julie Bushnell said she felt ashamed and embarrassed after falling for a Bitcoin fraud that cost her £9,000. It used the name of entrepreneur Elon Musk and a story on a fake BBC website suggesting she could double her money in a giveaway of the crypto-currency. The Brighton teacher said: "I think about it every minute of every day." Ms Bushnell, an investor in crypto-currency, spotted an item on a website that appeared to use BBC News branding, claiming Mr Musk, the billionaire boss of the Tesla car firm, would pay back double the sum of any Bitcoin deposit. She paid £9,000, which she had saved for a deposit on a new home. When no reciprocal payment arrived it dawned on her that she had become the victim of a scam. She said: "It has affected me massively. I wish I could have that time back - go in a time machine and not make those couple of clicks." Very sad but some people will just not learn, there are always more losers than winners in that game, like the lottery, the stock markets, the casinos and yet some people are all too willing to fritter away their money, in the pursuit of the promise of more.

The UK government has admitted it used phone data to analyze people's movement patterns without their knowledge as part of a vaccination study, a new report claims.

Officials are said to have preserved the subjects' anonymity. The Telegraph cited a report by the Independent Scientific Pandemic Insights Group on Behaviours (SPI-B) which said researchers from the University of Oxford discretely used data from mobile phones, as part of their study into how vaccination affects people's lifestyles. If you believe that you will believe anything, I warned of this last year, those apps are trackers. That has got shite all to do with Covid and everything to do with the perverted voyeuristic elements of the Government, in essence they are pure perverts, monitoring your every move. SPI-B advises the Scientific Advisory Group for Emergencies (SAGE), which in turn advises the government. The University of Oxford, which developed the Covid-19 vaccine along with the British-Swedish pharmaceutical firm AstraZeneca, conducted the study on SPI-B's behalf. The University of Oxford is a spy center for the GCHQ, like all Universities here are ran by Langley clowns. The scientists were said to have dug through the "cell phone mobility data for 10 per cent of the British population" in February and singled out 4,254 people that were vaccinated. They then monitored the group's movement patterns for the week before and the week after vaccination. The researchers did "various robustness checks," sorted by age, and measured "distance from home to vaccination point," among other things, according to the Telegraph. By comparing the movement of the vaccinated people to a different group, the scientists found that their "average pre-vaccination mobility increased by 218 meters. Woo, what astounding groundbreaking information that is, get vaccinated and you can move an extra 70 yards, does that mean if I take 650 vaccines I will be able to run a marathon? FSS. But if you believe that is the only data their voyeuristic spying came up with, please go and listen to CNN or the BBC for your news and stay deluded. Privacy group Big Brother Watch says the findings are, "deeply chilling and extremely damaging to public trust in medical confidentiality. Between looming Covid passports and vaccine phone surveillance, this Government is turning Britain into a Big Brother state under the cover of Covid." Turning? oh dear where were you before Covid? Seriously did you think life before Covid was "normal" oh dear what delusions.

Ilana Rachel Daniel came with an emotional outcry for help from Jerusalem, the capital of Israel. At record speed, the government is trying to vaccinate the entire population - including pregnant women and small children - against the corona virus. "Civil rights are put aside and people can only participate in society again after vaccination," told Ilana to Flavio Pasquino in the BLCKBX studio via a live stream connection, who tracked down Ilana after viewing an emotional audio clip on Telegram. Ilana talks about the Green Pass, the Freedom Bracelet, the mRNA vaccine and human rights violations. "Currently reminiscent of the Holocaust," said the Jewess who emigrated from the US to Jerusalem 30 years ago. Well, Ilana if you listen to our FRWL series you will find out more truth than you would wish to hear. But, it is reminiscent of the Holocaust because, it was done by the same people, and no they were not all German, try Jewish elites and their psychotic scientists people.

What an interesting dialogue is, where the teacher asked the questions and the brainwashed provided their lemming like answers. The answers to these questions were shown on an Israeli tape in which the following dialogue took place: Teacher: Where is Solomon's temple located? Students: in Al-Aqsa Mosque, and there we will build it in years to come. Teacher: What will happen to Al-Aqsa Mosque? Students: It will collapse, it will explode, it will disappear. Teacher: If you met an Arab boy, what would you feel? Students: A desire to kill him. Teacher: What do you think will happen in Jerusalem ten years from today? Students: the entire population will become of the Jewish religion. The teacher: And what will become the fate of the Arabs there? Students: will become our slaves, or there will be a battle in which all Arabs will be killed. This is what is taught in the elementary classes in Israel. It is an education for murder, hatred, the enslavement of Arabs and destruction of the holy Al-Aqsa Mosque, currently the eye of the storm. All very eerily similar to my caliphate theory or perhaps it is not a theory or prophecy, but a plan is it not? Excavations under Al-Aqsa began after the 1967 war, when Harat Al-Maghariba (the 770-year-old Moroccan Quarter) adjacent to the Al-Buraq Wall was demolished from the western side of the mosque. to be an entrance for the Zionist soldiers and settlers to its squares. Does anyone ask why there is a quarter Moroccan, which is a country located 2500 miles away? Since then, Israel has not stopped searching for a "Solomon Temple", an excuse to seize one of the most important religious sites for Muslims. Why would you search or want a temple built by demons? or have they not told the Jewish people that fact? or despite being the only culture that denies the djinns, do their elites work with them, hence the perpetual troubles? Israel has succeeded in undermining the foundations of the Al-Aqsa Mosque. Significant cracks have occurred in the southern wall of Al-Aqsa due to the continuous excavations under the Al-Buraq Wall. Israel is accused of injecting chemical substances into the walls of the mosque to cause its corrosion. The damage to al-Aqsa started, following the opening in 2006 of a new hall for Jewish worshippers in Al-Buraq Square under the Islamic Courts building, to link the Herodian road extending from the bottom of the Al-Buraq Wall to the suburb of Silwan, south of Al-Aqsa Mosque. Solomon and Herod in the one piece, neither were Jewish, and both were child sacrificing psychopaths, and some people wish to worship that fact? Based on alleged connected religions? which is false, they were not even our version of human, never mind the same religion, and the sooner the Jewish people grasp that, the dark pervading cloud of extermination of them, not just Palestinians will loom larger and larger. But, the opening line the first 3 lines of this song lights the way, as the Day of Svarog still dawns and your evil and darkness is now being displayed and more can see it, the el-ite Jews will get their judgement day it won't be pretty, for ordinary Jews caught up in this conspiracy, you will get your savior, but it won't come from the skies, your god or church, it will come from what you call, the goyim.

COVID BS: As Alabama bans vaccine passports but over in Holland we got this report. Today the 26th of May the mandatory PCR scam test law is through the Dutch parliament and is implemented today! To take part in society like events, restaurants, hotels, traveling, schools and hospitals, etc, they mandate you to show a negative test results. "TWO weeeeeeks ago the parliament approved the introduction of a mandatory quarantine for people arriving from areas designated code orange or red by the Ministry of Foreign Affairs. Traveler must isolate at a location of their choosing, and may be released from quarantine after five days if they test negative for the corona virus infection." So what's the next step? Mandatory vaccination! Well, I never! Holland like the UK, Germany, America and Russia is plagued by the Hebrew Annunaki, and their people need to stand up and support all people and all countries. The people when left to their own devices, should not have enemies amongst them, only a common outside enemy that doesn't belong amongst us.

OSHA rules employers are liable for vaccine injury lawsuits: The federal Occupational Safety and Health Administration. (OSHA) is warning employers that they will be held liable for any adverse events, resulting from mandatory Wuhan corona virus (Covid-19) "vaccination" policies. If an employee who was forced to be injected with experimental mRNA gene therapy becomes paralyzed or dies, for instance, that injury or death will be considered "work-related," meaning the employer will be held responsible. In the "Frequently Asked Questions" section of a new OSHA guidance that was issued on April 20, the agency explains that all employers who mandate experimental Chinese Virus shots, are required to record any adverse events that result from the injections. In response to the question, "If I require my employees to take the COVID-19 vaccine as a condition of their employment, are adverse reactions to the vaccine recordable?" This is what OSHA says: "If you require your employees to be vaccinated as a condition of employment (i.e., for work-related reasons), then any adverse reaction to the COVID-19 vaccine is work-related. The adverse reaction is recordable if it is a new case under 29 CFR 1904.6 and meets one or more of the general recording criteria in 29 CFR 1904.7." What this means is that employers who try to force their employees to get injected are opening themselves up to lawsuits, worker's compensation claims and a negatively impacted safety record. Tread at your own risk, employers, vaccine-injured employees are already coming forward with lawsuits. This clarification from OSHA comes as an increasing number of employers seek to mandate Wuhan Flu shots on their employees. Such employers include Houston Methodist Hospital, GCI Communication Corp., the Boys & Girls Clubs of the Peninsula, JBS USA Holdings Inc., Lastique International Corp., and Delta Airlines. Some smaller, independently-owned restaurants and boutiques run by "woke" fascists are also hoping to force the employees, and possibly even their patrons, to get injected. Each one needs to be identified and targeted with lawsuits to prevent this disease of medical fascism from spreading. "The Houston Methodist Hospital network is mandating vaccines for both existing employees and new hires,

barring an exemption,” announced Chip Cutter from The Wall Street Journal about the scheme. “Those who fail to comply will at first be suspended without pay, and later terminated.” Our hope is that Houston Methodist Hospital will be among the first to be held liable for vaccine-injured employees, who will surely be entitled to large financial compensation for their company-caused injuries. Even though vaccine manufacturers themselves are not being held liable for injuring and killing people with their injections, companies like Houston Medical Hospital that try to force them certainly can, and will, be. The latest data from the U.S. Centers for Disease Control and Prevention (CDC) suggests that nearly 200,000 people in the United States have been injured by Chinese Virus injections so far. Nearly 4,000 people have died from the vaccines and nearly 20,000 have suffered what are considered “serious” injuries. Forcing Chinese Virus injections on employees may also be a violation of federal law, America’s Frontline Doctors (AFLDS) has warned. Because all of these injections are approved for emergency use only, they legally cannot be mandated by anyone. “The U.S. Food and Drug Administration’s emergency use authorization (EUA) specifically states that individuals must have the free ‘option to accept or refuse’ these vaccines,” LifeSiteNews explains, reiterating that Chinese Virus vaccine mandates are illegal. “Many argue the prospect of being terminated from one’s job by refusing such vaccines certainly undermines such necessary freedom.” This is something the law communal gathering could have undertook with larger numbers, it is an actionable event unlike taking on the Pope, Presidents or Prime Ministers for sensational effects, that yield no results whatsoever. Here is my issue of the common law groups going after let use the Pope for example, you can pontification on it, pardon the pun, write letters and pass judgement in your own courts settings, but what happens next? The Pope is convicted and that’s fine, but who arrests him? where will you place him for incarceration? so that then is not an actionable event. But imagine if you had a group of millions of people globally all demanding the old system, we want him arrested or we will disrupt peacefully your day to day operations, would that not change the dynamic and landscape of how this planet is run? That is what the TPC is for and about, we have no power as individuals, as collective we have all the power.

The Centers for Disease Control and Prevention is looking into reports that, a very small number of teenagers and young adults vaccinated against the corona virus may have experienced heart problems, according to the agency’s vaccine safety group. The group’s statement was sparse in details, saying only that there were “relatively few” cases and that they may be entirely unrelated to vaccination. A relatively few is not a cause for concern, if only they had that same thought process when it was a relatively few sick. But then the pandemic was a plan all along, from Event 201. The condition, called myocarditis, is an inflammation of the heart muscle, and can occur following certain infections. The C.D.C.’s review of the reports is in the early stages, and the agency has yet to determine whether there is any evidence that the vaccines caused the heart

condition. It has posted some guidance on its website for doctors and clinicians to be alert to unusual heart symptoms among young people who had just received their shots. "It may simply be a coincidence that some people are developing myocarditis after vaccination," said Dr. Celine Gounder, an infectious disease specialist at Bellevue Hospital Center in New York. In my opinion the CDC should be charged with criminal neglect, as they verified the vaccines were safe, when clearly now to all but the most stupid of bots, that was never the case.

This is a story written by a transsexual that speaks the truth and the real issues surrounding the transsexual agenda that has been ongoing a while now. The system are not interested in the well being of transsexuals, no more than are they interested in gay, lesbian or black people, all have been used in agenda based programs to divert public attention from the real issues, and promoting a non family non gender based humanity, with the long term goal of another trans word, transhumanism. This is the report written by a transsexual that outlines the real problems, and kudos to this person for seeing through the bs. Transsexuals like me look on in horror, as a whole industry springs up to provide paraphernalia for children 'identifying' as the opposite sex. In what sort of world does a parent buy a fake penis for their preschool-age daughter? Referrals of children to gender identity clinics have surged in recent years. The impact on teenage girls is well documented, but there is no lower age limit. Last week, parents Matthew and Klara announced on British TV that their daughter came out as transgender aged two, apparently telling the family, "I'm not a girl, I think I am a boy". They are not alone. In 2018- 2019, the Gender Identity Development Service - NHS England's national service aimed at under 18s - reported 31 referrals of children aged five and under. What must go through the minds of parents who diagnose their children as transsexual, and set in motion the ball of cross-sex identification, with potential mutilation and sterilization down the line? What it means for a two-year-old to be transsexual - the legally defined term for someone who identifies as the opposite sex - is unclear, but a whole industry has opened up to cater to their needs, or perhaps their parents' needs? TransKids - according to its website - is a space dedicated to providing young folks with "books and resources." While pre-pubescent girls may have no need for the chest binder on sale, the "Tuck Buddies" underwear is modelled on a very young boy who wants to be a girl. Transkids explains that "the inside 'hiding' layer is a few sizes smaller and not attached on the sides, only the front & back - so it offers a snug place for a kiddos package to be more contained." This company appears to be well established in peddling these disturbing garments, and worse. Four years ago, it came to the attention of the Daily Mirror with its "Teeny Tiny" silicone 'packers' for girls under the age of five, who believe they are boys. The attention to detail was sickening. Not only the range of colours, from "cashew" to "chocolate," but the style - circumcised or uncircumcised. Who buys a fake silicone penis for their pre-school daughter, and why? However, where there is a demand there will be people eager to sell into it. A social media storm erupted over the weekend when

Canadian journalist Anna Slatz, exposed a company selling knitted packers designed for very young children. Stitchbug Studio is marketing its Bitty Bug soft packer for \$6.00. According to the sales pitch, "Silicone prosthetics do not come in sizes appropriate for smaller bodies, and can create unsightly and age-inappropriate shape. The Bitty Bug is lightweight, comfortable, low maintenance, and can be tossed in the washing machine." Speaking to RT.com, Slatz said these items were indicative of everything that is wrong with contemporary gender ideology. "Children's bodies have, unfortunately, become battlegrounds in the culture war," she said. "Hormones, top surgeries, binders, puberty blockers, and now knitted penises - all offered in the name of alleviating some distress a child has about their body. Nobody is allowed to question the origin of this distress, or propose an alternative solution for it." This horrific situation arises, of course, from transgender ideology that demands we all have innate gender identity that alone determines whether we are men, women or members of some other category recently invented by the LGBTQ+ brigade. This movement is getting further and further away from the rights of lesbians and gays. Meanwhile, transsexuals like me look in horror at what looks like a recruitment drive among the very young. This is far more than a craze. Slatz added: "These prosthetics do nothing but uncritically reinforce a child's physical self-hatred, the fact they are made for bodies so tiny, the product was demonstrated on a teddy bear shows definitively that, gender ideology has become irredeemable in its delusion. "No toddler should have the physical awareness to have anxiety about their genitals, and if a toddler did - I can speak as someone with education in youth justice, that the anxiety should absolutely trigger alarm bells in the heads of caretakers." Since Slatz's tweet went viral - generating thousands of comments - the company appears to have engaged in a hasty damage limitation exercise. The teddy bear captured in Slatz's tweet is gone and we are now told that the Bitty Bug is no longer intended for infants and toddlers, but for transgender youth. I don't believe a word of that. I teach teenagers and the thought that youngsters of that age group would find any use for tiny knitted prosthetics is risible. Whatever Stitchbug might be trying to have us believe, the target group is preschool children, some perhaps still in diapers. For children whose parents have been caught up by the evangelistic zeal of this movement, the future may be grim. Never mind the claims of "astonishingly high suicide and suicidal ideation rates" that the manufacturers of these tiny knitted penises repeat. Children need to be free to be children, not some project of their parents. Children are victims of this ideology, and they are being irredeemably harmed. It is not good enough for politicians and policy-makers to sit on the fence and hope it goes away. This trans activist movement operates with a sense of entitlement and impunity, it needs to be stopped. The consequences of those of us standing in its way are profound. Our reputations have been attacked and careers have been blighted, but we speak up because we care about children. Five-year-old girls do not need knitted prosthetics in their pants; if these images of inch-long knitted penises do not bring the world to its senses, what will? Thirty years ago, the parents pushing for their child of two to five to be a different sex than born, would likely have lost their children

due to what would be described as mental abuse. Not nowadays though, far too many parents are ruining children with their banal and unsane ways, via materialistic ideals, overtly sexual ideals, propensity to fix everything with a pill, technological gadget or a food item, rather than teaching their children good values, morals and manners. Instead many parents are living their life and failures through their children, pushing them into things they never managed to achieve, not for one second thinking about whether the child has a choice of their own to make. These are helicopter parents, hovering around their child like a predator, destroying the child's own free will and personal responsibility, because the parents know better, when one look around you, tells a much different story. I don't know any child who would turn around at aged 2-5 and say I am a different sex, children of that age shouldn't be that aware they do have different genitals, never mind asking to swap them out. This is the reign of the half witted, drug addled liberal parents, and their propensity to allow all agendas and programs given to them. If the Pleiadians ever came down please take these people and their Hebrew Annunaki agenda makers as far away from this planet as possible, they are a blight on humanity and the precious children. We don't need no vaccinations, we don't need no thought control, no dark satanics on our planet, Hey liberals, leave those kids alone.

EXPOSES: This in part was sent in by one of the members, with additional research added by myself. East Germany was labeled a Communistic country? but were they? They had 11K private middle-sized Companies, while Walter Ulbricht was their leader, 1950 through 1971. That contributed to 40% of the Country's production, the biggest of which was in consumer products, which was also the biggest export sector. When the Bolshevik Soviets requested to Nationalize, Ulbricht point blank refused, as Ulbricht was a fan of Milton Friedman's economic policies. Erich Honecker made a coup and nationalised the country overnight. Aged 14 he entered the KJVD, the Young Communist League of Germany, for whom he later served the organisation's leader of Saarland from 1931. In 1928 he returned to Wiebelskirchen and began a traineeship as a roofer with his uncle, but quit to attend the International Lenin School in Moscow and Magnitogorsk after the KJVD hand-picked him for a course of study there. There, sharing a room with Anton Ackermann, he studied under the cover name "Fritz Malter". Ah the changed name syndrome rears its head again, clearly he had something to cover up by using a false name. It was said that the KJVD were against Jews, and described as downright anti-Semitic, yet one of the lead figures in that group was Ursula Maria Kuczynski, who was a Russian spy and also Jewish, funny that. Social Democrats in Sweden wanted to do the same, but slowly. The plan they used was to take over Companies by 5% per year, which stole the employee funds and was developed by a German socialist, Rudolf Meidner : Meidner was an economist and the developer of the employee funds plan proposed by the Swedish Trade Union Confederation in the 1970s. Rudolf Meiner was born in Germany but left for Sweden, and Rudolf to no surprise is born to. AEG ( = Allgemeine Elektrizitäts-Gesellschaft ), a big Company in E. Germany was founded by Emil

Rathenau. They were heavily involved with the "Nazis" and provided some funding. AEG donated 60,000 Reichsmarks to the Nazi party after the Secret Meeting of 20 February 1933 at which the twin goals of complete power and national rearmament were explained by Hitler. They joined with other large companies such as IG Farben, Thyssen and Krupp in their support of the Nazis, especially in promoting re-armament of the Wehrmacht, Luftwaffe, and Kriegsmarine. During the war itself, they were to use large numbers of forced labourers as well as concentration camp prisoners, under inhuman conditions of work. AEG worked extensively with the Nazi party in Poland. AEG was forced to relinquish Kabelwerk Krakow, a cable manufacturing plant, to the Nazi party. Kabelwerk Krakow was located in Krakow-Plaszow and used forced Jewish labor manufacturing cables from 1942–1944. In 1943, AEG began to relocate goods and evacuate workers, goods were relocated to various places, including Berlin and Sudetenland. When installing electric and lighting systems for the Waffen-SS training grounds in Dębica, AEG used forced labor from Jews placed in the Pustkow labor camp located in Southeastern Poland. During World War II, an AEG factory near Riga used female slave labour. AEG were also contracted for the production of electrical equipment at Auschwitz concentration camp. So AEG where German white Nazis it seems, wrong, Emil Rathenau the owner was Jewish. Emils son Walther Rathenau was the foreign minister for the German republic, and subsequently also Jewish, he was assassinated after doing a treaty with the Bolshevik Soviets in 1922. In West Germany the SPD, the Social Democrat Party dismissed Marxism and concluded that they would go with the Godesberg-agreement, and confessed themselves to market economy. The young SPD led by Wolfgang Roth wanted planned economy, but there has never been a communistic Country. In a socialistic Country there is no money, in a capitalistic Country the individual has nothing and equals a rent seeker economy. All these moves were planned 10 years in advance for when the wall would be taken down, and once again the people of Germany were stiffed. All isms are nothing but the elites faction games!

The first missiles for Sweden's new 103 Patriot anti-aircraft system have been delivered. It is one of the largest Swedish arms deals in modern times. "It is true that deliveries have been started by different parts of the Patriot system," says Joakim Lewin, who is responsible for the project at the Swedish Defence Materiel Administration (FMV). The anti-aircraft deal with the US and two of the world's largest arms manufacturers Lockheed Martin and Raytheon is worth at least SEK 10 billion in the first phase, according to previous data from FMV. The first PAC-3 missiles were delivered in April 2021, according to manufacturer Lockheed Martin. The missiles are supposed to protect against ballistic and cruise missile strikes and aircraft strikes. But here is the key part of this report, he said this. Robots are the most expensive part of the deal. We will receive deliveries in 2021, 2022 and 2023, says Joakim Lewin, who is responsible for planning future projects at the Swedish Defence Materiel Administration (FMV). A secret number of robots The United States has given, the option that Sweden can buy a total of 300 anti-

aircraft robots with a maximum value of \$3.2 billion. This corresponded to SEK 28 billion in August 2018 when Sweden formally decided to buy Patriot. The option also includes robots of the GEM-3 type, they have a heavier charge and longer range. The total cost is determined by how many robots Sweden buys, the robots are given the Swedish designation 103A / B. Can you say something about how many robots will be delivered? - That we buy the robots is open, but the number is secret, says Joakim Lewin at FMV. Air defenses from the 1960s Air defense 103 Patriot has a "medium" range, exact ranges are, however, protected by confidentiality, states FMV and the manufacturer. The air defense Sweden has previously developed in the 1960s and for the possible threats of that time, much has changed in terms of an opponent's ability to attack from the air. The goal is for both air defense battalions to be equipped by 2025. We also buy air defense sensors from Saab, we ordered them in December, says Joakim Lewin. The first vehicles for the Patriot air defense system have been delivered, FMV stated last week. In both air defense battalions there will be two fire units, each fire unit has a command post, a radar and three shovels. Russian robots In recent years, Russia has modernized its robot units in Kaliningrad on the Baltic Sea, the Russian Baltic Navy has also modernized its robots. The robots Iskander and Kalibr can be equipped with conventional warheads and nuclear warheads. So, what is the non intel behind this, as someone claimed we don't have intel, well this is a deal to stock NATO goons and their plans against Russia. Maybe the American/NATO withdrawal from Afghanistan ties into this as well? Clearly they are planning an attack on Russia, which will combine with Israel attacking Iran. But, we the people combined can stop their darkness and madness and prevent this possible future outcome. The Political activist group can get their teeth into that issue.

EXPOSE: The Defense Production Act of 1950 (Pub.L. 81-774) is a United States federal law enacted on September 8, 1950 in response to the start of the Korean War. It was part of a broad civil defense and war mobilization effort in the context of the Cold War. In reality land it was nothing to do with the Korean War, only the premise of it, and the Cold War didn't exist, it was an illusion to print money known as bonds, bonds are instruments of the word war, a mention of the word war creates the bonds. It was a license for defense contractors to collect money based on war machines and fear. Its implementing regulations, the Defense Priorities and Allocation System (DPAS), are located at 15 CFR §§700 to 700.93. Since 1950, the Act has been reauthorized over 50 times. It has been periodically amended and remains in force. Provisions: The Act contains three major sections. The first authorizes the president to require businesses to accept and prioritize contracts for materials deemed necessary for national defense, regardless of a loss incurred on business. These are the dark contractors, Lockheed Martin, Boeing, Halliburton, Bechtel, Northrop Grumman and NASA, and nothing to protect the peoples need for materials, food or water. The law also allows the president to designate materials to be prohibited from hoarding or price gouging. The law does not

state what would occur if a business refuses or is unable to complete a request on time. However, any person who performs any act prohibited or willfully fails to perform any act required by the Defense Production Act, may be charged with a felony that results in a fine up to \$10,000 or imprisonment for up to one year or both. In 1976, the non compete act modified this Act, by declaring all designated companies like those just mentioned and others as part of their harvesting system, would be able to buy all materials at 50% of cost. The second section authorizes the president to establish mechanisms (such as regulations, orders or agencies) to allocate materials, services and facilities to promote national defense. The third section authorizes the president to control the civilian economy, so that scarce and critical materials necessary to the national defense effort are available for defense needs. The Act also authorizes the President to requisition property, force industry to expand production and the supply of basic resources, settle labor disputes, control consumer and real estate credit, establish contractual priorities, and allocate raw materials towards national defense. The president's designation of products under the jurisdiction of the DPA is the authority of the Act most often used by the Department of Defense (DOD) since the 1970s. Most of the other functions of the Act are administered by the Office of Strategic Industries and Economic Security (SIES) in the Bureau of Industry and Security in the Department of Commerce. The Defense Priorities and Allocations System institutes a rating system for contracts and purchase orders. The highest priority is DX, which must be approved by the Secretary of Defense. The next level down is DO, and below that are unrated contracts.

USE: Korean War: The DPA, passed by the U.S. Congress in September 1950, was first used during the Korean War to establish a large defense mobilization infrastructure and bureaucracy. Under the authority of the Act, President Harry S. Truman eventually established the Office of Defense Mobilization, instituted wage and price controls, strictly regulated production in heavy industries such as steel and mining, prioritized and allocated industrial materials in short supply, and ordered the dispersal of wartime manufacturing plants across the nation.

Cold War: The Act also played a vital role in the establishment of the domestic aluminum and titanium industries in the 1950s. Using the Act, DOD provided capital and interest-free loans, and directed mining and manufacturing resources as well as skilled laborers to these two processing industries. The DPA was also used in the 1950s to ensure that government-funded industries were geographically dispersed across the United States to prevent the industrial base from being destroyed by a single nuclear attack. During the late 1960s and early 1970s, the DPA increasingly was used to diversify the US energy mix by funding the trans-Alaskan pipeline, the US synthetic fuels corporation, and research into liquefied natural gas.

Technological innovation: Beginning in the 1980s, the DOD began using the contracting and spending provisions of the DPA to provide seed money to develop new technologies. The DOD has used the act to help develop a number of new technologies and materials, including silicon carbide ceramics, indium phosphide and gallium arsenide semiconductors, microwave power tubes, radiation-hardened microelectronics, superconducting wire, metal composites and the mining and processing of rare earth minerals.

21st century: In 2011, President Barack Obama invoked the law to force telecommunications companies, under criminal penalties, to provide detailed information to the Commerce Department's Bureau of Industry and Security on the use of foreign-manufactured hardware and software in the companies' networks, as part of efforts to combat Chinese cyber-espionage. On June 13, 2017, President Donald Trump invoked the law to classify two sets of products as "critical to national defense". The first referenced "items affecting aerospace structures and fibers, radiation-hardened microelectronics, radiation test and qualification facilities, and satellite components and assemblies". The second referenced "items affecting adenovirus vaccine production capability; high strength, inherently fire and ballistic resistant, co-polymer aramid fibers industrial capability; secure hybrid composite shipping container industrial capability; and three-dimensional ultra-high density microelectronics for information protection industrial capability". Fibres smacks of chemtrails, and vaccine production smacks of Covid all done in 2017, under the savior program that it became, Donald Trump. Do you still think Cyrus was for and by the American people? or just the Is ra eli junta?

COVID-19 pandemic: On March 18, 2020, in response to the COVID-19 outbreak, President Trump issued an executive order that defined ventilators and protective equipment as "essential to the national defense", the standard required by the DPA. Later that day, he indicated that he would not make immediate use of DPA authority, writing, "Hopefully there will be no need"; he indicated that he would do so in a "worst-case scenario". Speaker of the House Nancy Pelosi called upon Trump to "immediately use the powers of the DPA" to produce and distribute critically needed hospital equipment. On March 20, Trump said that he will use the DPA. The next day General Motors (GM) CEO Mary Barra spoke to Trump administration officials about how GM could support production of ventilators without the use of DPA. General Motors are one of the original clown based companies. On March 23, Trump issued an executive order classifying "health and medical resources necessary to respond to the spread of COVID-19" as subject to the authority granted by DPA to prohibit hoarding and price gouging. Trump's initial reluctance to use the act's authorities prompted criticism. On March 27, 2020, after negotiations with GM had broken down over costs, estimated at over \$1 billion, but primarily due to GM's inability to commit delivering the number of ventilators required speedily, Trump ordered HHS Secretary Alex Azar to use the DPA to require GM to

accept and prioritize contracts for as many ventilators as Azar determines to be appropriate. Trump also named Peter Navarro national policy coordinator for the DPA. On April 2, Trump said he was invoking the DPA to require 3M, General Electric, and Medtronic to increase its production of protective masks (N-95 respirators). That was after I told Kim of the Kushner/FEMA plan to block all American production of PPE's. Kim rang up agencies to find if true and upon discovering it she contacted Trump. We asked for Trump to fire Kushner on the spot, instead 13 days later he gave him a higher position and authority. Again I am asking the Trump followers, what does that tell you? On April 28, Trump announced that he intended to issue an executive order under the Defense Production Act mandating that plants producing beef, pork, poultry and eggs stay open, a move which also prompted criticism. White House General Counsel Pat Cipollone consulted with various companies "to design a federal mandate to keep the plants open and to provide them additional virus testing capacity as well as protective gear," according to Bloomberg News. Trump mentioned to the press that the order is intended to "solve any liability problems" by workers and local authorities to close meat-processing plants for cleaning. The order gave USDA extraordinary powers to have firms maintain production. What they don't tell you is, to maintain production at what levels? because the meat industry since that day has collapsed, one look in the supermarket meat shelves reveals that. The order does not allow companies to ignore safety rules (except for keeping the plants opened), however, and OSHA / CDC guidance remains in force. In September 2020, OSHA fined Smithfield and JBS for failing to take the necessary actions to prevent the spread of corona virus. On December 8, 2020, more than a month after losing the 2020 presidential election, then-president Trump said that he would invoke the Defense Production Act to produce vaccine doses, but he did not do so before the end of his term. He didn't need to, he got the funds from the Omega system from the Trustee, and the very same afternoon launched the vaccine directive on the American people. On January 21, 2021, President Joe Biden invoked the Defense Production act on his second day in office to increase production of supplies related to the pandemic, such as protective equipment, yes, all coming from China and India as Kushner had arranged, all of which had microchips in them, which is why there is a shortage of chips we mentioned in a story last week. On March 2, President Biden invoked the DPA again to supply equipment to Merck facilities needed to safely manufacture Johnson & Johnson vaccines.

Every now and again documents come up with details of astounding clarity of how the old system thinks of us, or perhaps how little they think of us is the more apt terminology. This is what Jacques Attali wrote in 1981, who was then an advisor to François Mitterrand: The future will be about finding a way to reduce the population. We start with the old, because as soon as they exceed 60-65 years, people live longer than they produce and that costs society dearly. Then the weak, then the useless that do not help society because there will always be more of them, and above all, ultimately, the stupid. Euthanasia targeting these groups; Euthanasia will have to be an essential tool in

our future societies, in all cases. Of course we will not be able to execute people or build camps. We get rid of them by making them believe that it is for their own good. Overpopulation, and mostly useless, is something that is too costly economically. Socially, too, it is much better when the human machine comes to an abrupt standstill, than when it gradually deteriorates. Neither will we be able to test millions upon millions of people for their intelligence, you bet that! We will find or cause something a pandemic targeting certain people, a real economic crisis or not, a virus affecting the old or the fat, it doesn't matter, the weak will succumb to it, the fearful and stupid will believe in it and seek treatment. We will have made sure that treatment is in place, treatment that will be the solution. The selection of idiots then takes care of itself: You go to the slaughter by yourself." Attali was President of the European Bank for Reconstruction and Development between 1991-1993 in a position that was created for him or them, it did not exist previously. Jacques Attali was born to, yet another example of the top positions being filled in other countries by these Jewish elites. Attali has twin brother who is also involved as a political adviser, their father was a Rabbi who made a fortune in the fragrance industry, hence the term Eau de toilette, which means toilet water. He is a major French Deep-State Jacques Attali: Only a pandemic can give us one-world government; He said Israeli boasts the Protocols are true, "we Jews started WWII, and we run the world". Here is another quote they may surprise some people in the group, but way more outside of it. "We brilliant, cunning Jews got it all figured out. We can run mental circles around any goy — except maybe that Hitler guy, but we got the goyim to reject and kill the one man who could have saved them, for us." That is called the art of pro pagan da, a tactic they use so often as it works on the non thinking people. It is the reverse psychology again, in their world what is good is bad, what is bad is good, fact is fiction and fiction is fact. Attali was mentor for Mitterand, and so was likely involved in the Russian asset rape done by Mitterand, Reagan and Leo Wanta, at the behest of or in support of the CIA entourage, of which the Bush group were also heavily involved.

The current French President Emmanuel Macron is also involved in and partially born to as well, the Jewish conspiracy. In August 2007, Macron was appointed deputy rapporteur for Jacques Attali's "Commission to Unleash French Growth". In 2008, Macron paid €50,000 to buy himself out of his government contract. He then became an investment banker in a highly-paid position at Rothschild & Cie Banque. In March 2010, he was appointed to the Attali Commission as a member. Macron formed a relationship with Alain Minc, a businessman on the supervisory board of Le Monde. In 2010, Macron was promoted to partner with the bank after working on the recapitalization of Le Monde, and the acquisition by Atos of Siemens IT Solutions and Services. In the same year, Macron was appointed as managing director and put in charge of Nestlé's acquisition of one of Pfizer's largest subsidiaries based around baby drinks. So, there is Macron's link to Pfizer, but what should alarm people is, Pfizer managed baby drinks, the implications of that is enormous and may not be felt until the next decade, without being alarmist, where those

drinks sterilizing? His share of the fees on this €9 billion deal made Macron a millionaire. In February 2012, he advised businessman Philippe Tillous-Borde, the CEO of the Avril Group. Macron reported that he had earned €2 million between December 2010 and May 2012. Official documents show that between 2009 and 2013, Macron had earned almost €3 million. He left Rothschild & Cie in 2012. Macron stated his political agenda was to rule as a “Jupiterian” president. Jupiter was recognized as the supreme deity of Rome, Lord of Light, ruler of the daytime, head of the Roman pantheon, and the fifth planet from the Sun. According to theosophy occultist Helena Blavatsky Jupiter is much more evolved than our Earth. "Jupiter is far superior to the Terrestrial Spirit, it is not because Jupiter is so many times larger than our earth, but because its substance and texture are so much finer than, and superior to, that of the earth." Another renowned occultist Eliphas Levi: “In theological symbolism Jupiter [the Sun] is the risen and glorious Savior, and Saturn, God the Father, or the Jehovah of Moses.” Helena Blavatsky further emphasizes the fact that Son and Father, Jupiter and Saturn, “are thus one. What they are talking about is, not the planets, but who represents the planets, and indeed owns them, Jupiter is Zeus, hence the play on words Hey Zeus for Jesus, and Saturn was represented by Set, which is Setan, Saturn and Satan. Satan is a title not a single being.

Macron's background was and is a life of privilege, educated at a private Jesuit school, with ties to elites and power brokers. Worked as investment banker at Rothschild, revered by Israel as a supporter of the Jewish nation state. Yes like we revealed in the show have the gods returned with Macron and Trump, which is Macron same name and Cyrus of the past. Here's where it gets interesting, French President Emmanuel Macron was born on December 21st. The same day of "The Great Conjunction" between Jupiter and Saturn. On Monday December 21st, the two biggest planets in our solar system will be only one tenth of a degree apart, giving the pair the look of one elongated star. The 2020 merging of Jupiter and Saturn will be the closest since 1226. So, it's been almost 800 years since Jupiter and Saturn have been this closely aligned. From an esoteric spiritual view point does December 21st point to the birth of the anti-christ system, which will follow in the close footsteps of the Great Reset? As one member this week put it and I agree with his insight, is the anti christ a bad or a good thing? Have we determined what is the christ or whether it is benevolent? their books tell you it is benevolent, but their books are filled with lies and their story, not ours. Could the anti christ be the return of the organic source? that is a question not a statement. The Great Conjunction will also occur on one of the eight holiest Satanic Holidays, the Winter solstice at 6:12 a.m. EST on Friday, December 21st. The sun will reach a point where it will appear to shine farthest to the south of the equator, over the Tropic of Capricorn, thus marking the moment of the winter solstice. Adding another layer to this occultic mix is Saturn, the other planet in "The Great Conjunction." Known as the old sun and dark lord, symbolized as an eye, bull, owl, and Moloch. The eye of Ra, the papal bull, the Bohemian owl, owl in Egyptian is Molech, which is Moloch, the human child sacrificer. In the esoteric Luciferian religion, Saturn's

crescent ring is believed to be held up by the twin pillars of Freemasonry, Boaz and Jachin. Saturnism is Satanism, Lucifer is one with Saturn, here is the rest of the Satanic family tree. Cronos the Nephilim, was the son of Uranus and Gaia, Father of Poseidon and Hades Greek god of Saturn, father time/grim reaper/ sun of death/the black one. Saturn is also known as the purple planet, represents Kali, the Hindu Goddess of death and time. That is a major revelation to my own story Saturn was the purple planet, oh my. Red and Blue are the alchemical primary colors. In the occult, Jubilees celebrates the resurrected Saturn, ushering in the Prince of Darkness and the Age of Aquarius/New Atlantis. So, the new age promoted Age of Aquarius is a dark Satanic age, with their fabled Atlantis representing not light, but as I had portrayed it, as dark. Remember when I said back in December I will be going back to the hidden war and certain things were prevented, there is one of your things prevented that month.

Abraham Levy about WW2. It was only a big kosher slaughterhouse for goyim in order to give more money to us, then more power. The state of Israel was born coincidentally after the war, thanks to Rothschild's money and the decisive vote by Stalin at the UN assembly, is the proof of what I say. We gave weapons even to Hitler in order to prolong the war, and the money for us too, via IG Farben. Hitler was not able to refuse our weapons, because he was fighting a war against other goyim nations influenced by the Jews. A war that we pushed against Germany. Emil Ludwig Cohn said "Hitler will have no war, he does not want war, but we will force it on him, not this year but soon. You goyim are a very good investment when properly squeezed. We are god, you see, even Hitler didn't defeat us, what do you think to do? We are genius in the opposite camp, it would still struggle against us, but even so, a newcomer is no match for the old established settler. The struggle would be merciless between us, such a fight as the world has never seen. Aye, and the genius on their side would have arrived too late. All the wheels of the machinery of all States, go by the force of the engine, which is in our hands, and that engine of the machinery of States is - gold. The science of political economy invented by our learned elders has for long past been giving royal prestige to capital.

Theodore Herzl, one of the Jewish founders of Zionism, on the Judeo-FASCIST question: The Jews control the world, in our hands lies the fate of governments and nations. The Jews set governments one against the other. When the Jews play, the nations and the rulers dance, one way or the other, the Jewish Race gets rich.

This was said by the Prime Minister of Malaysia, Mahathir Mohamad, October 17, 2003. He was removed from his position the same month, funny how that happens isn't it? The CIA and the usual dark forces were involved in that, Madeleine Albright, Al Gore and the Bushes. He did returned as PM in 2018, and was welcomed back by another deep state clown, Mike Pompeo, but that only lasted until March 2020, he said. "The Jews have

always ruled the world and murdered millions by proxy, they get others to fight and die for them. Which is why they are called soul SOUL diers, so they harvest the souls, and prepare the vessel for another of their ilk. Jews invented Socialism, Zionism, human rights and Democracy which is Communism, to avoid persecution and gain control of the most powerful countries.”

David Spangler a Jew said in 1945 American spiritual philosopher, author, considered one of the founding figures of the modern New Age movement. So, that is 3 dark intention references to the New Age cult, time everyone sees it for what it is, New Age is the New World Order program. No one will enter the New World Order unless he or she will make a pledge to worship Lucifer. No one will enter the New Age unless he will take a Luciferian Initiation.

Here is another quote from M.A. Levy, a Jew and Secretary of the World League of Liberal Jews, in a speech in Los Angeles, California, August, 1949. “Today the Gentile Christians who claim of holy right have been led in the wrong path. We, of the Jewish Faith have tried for centuries to teach the Gentiles, in the near future, when the Jewish people take over the rule of the United States, legally under our god [Lucifer, the Serpent of Genesis 3:14,15] we will create a new education system, providing that our god is the only one to follow, Christianity will be abolished. Christianity was created by them in the past to create division amongst the people, keep dividing and conquering and you end up with one left, the religion of Lucifer and the Dark overlords.

We mentioned an Israeli company called Elbit last week, and I was going to do a piece on them but ran out of time. El means god, so you are left with bit, I searched for Hebrew meaning as they always hide it in plain sight, but in code, and once you accept they write in code, a good researcher will reveal the code. Bit comes from the word Bite and perhaps the revealing of the meaning of bite will reveal what Stargate the series was telling you about the Serpent Race of Ra, Apophis, Hathor, Horus and others revealed as the goa'uld, which broken down is gold au, au is the symbol of gold, perhaps gold broken down mean god L? But the ancient story of the tablets revealed they came here seeking gold for their own atmosphere. So lets look at the description, bit means to bite, and also means lend upon usury. A primitive root; to strike with a sting (as a serpent); their words not mine, strike as a serpent oh my. Figuratively, to oppress with interest on a loan -- bite, lend upon usury. Who created the usury system? the Hebrew Annunaki masquerading as Jewish El-ites. Have no fear of the dark, for they are the beasts of numbers gematria and they who must run to the hills of Zion, and be in fear of us.

People are seeking out who to attach with these days, speak your truth and you will find out who belongs alongside you and who doesn't. As we enter the time train and see the light in the tunnel, one has to ask who or what is that light? Does the tunnel really exist?

or is that tunnel you? your own version of the Matryoska the Russian doll, symbolizing the entrapment of the White Race. Boxes or dolls they created for you, all of which we followed, like a latter day sleeping pod. The time for slumber is over for some on this planet, we awaken in sync with the Day of the Svarog, and our time has come. Sadly, many will remain in their slumber as their waking dream illusions keeps them in stasis, and there they will remain until they learn to pass the test of life. This brings in the vortex as above so below and in the middle there is the void, the singularity, the darkness, the realm of the dark they say where nothing exists. But they lied, the void is only dark because you stepped into it and never turned on your beacon of light, perhaps turning on your beacons perhaps makes more sense now. As you emerge out of the vortex or the Matryoska you will see the light at the end of the tunnel was you all along, as above so below, as within so without. Those at the east and west gates have a choice to make, do you go to the light or do you create your own by turning on your light? you are the light, you are the beacon, you are the savior. From there you are tasked with another test, to use your creator given creativity powers, to create something better than what has gone before. I often hear a yearning for the good old days, that is non thinking, as the past and ideas and ideals of a better past is an illusion, a magic trick, mirror magic all rolled into one. The past was never better here, it was all an illusion and ranking the severity of enslavement in certain degrees of uncomfortable, 1% of slavery is still as bad as 100%, because from that ensconsment, you are still a slave. The key is to step out of your enslavement, your boxes, your dolls and your limitations and go forward, not back, with creativity of new, not a rehash of the old illusionary world.
