

THI-SHOW TRANSCRIPT 2021-08-26

A fairly breathless week for myself and the final show of this month, of what has been a whirlwind epic of a month for THI/TPC and also in my private life. It has been a busy month for me, and an even busier time expected next month also. Update on the land and homes on the village, 3 of the 6 land deals are closed with the remaining 3 being signed off on next week. Two of the homes for the land is now closed and so now things are taking shape for an exciting venture. This of course attracted more attention from others in my town and they decided to interfere in my private life again, and that's ok, I will overcome that in the same way I always have. I took a two day trip of 1100 miles this week to see what looks likely to be the first home placed in the village, only hold up currently is the land is not ready, otherwise we are good to go. Received a bit of sad news today, although a blessing in a way, as he is now free of pain and illness. He like his son in Australia he followed our shows regularly until his illness took a cruel turn, rest in peace Benjamin James Dreier.

NEWS: The enemy of NATO is not Russia, but international terrorism. That's according to Czech President Milos Zeman, who spoke about the failure of the American-led military bloc to defeat Taliban militants in Afghanistan. Zeman's comments, echo remarks given by French President Emmanuel Macron in November last year, when he urged NATO leaders to shift focus away from Russia and China, noting that terrorism is a common enemy for all nations. The Czech leader also slammed NATO for failing dramatically in Afghanistan, but noted that he supported the war and the mission to beat Islamic terrorism. He claimed he told both US Presidents Donald Trump and Joe Biden during NATO summits that troop withdrawal was cowardice, the legitimacy of the bloc's existence is now in question. It is funny not one of these leaders have spotted who the real terrorists really are, namely the five eyes, Mossad and various other agencies yet. Not one of them will mention that fact with any conviction, when it is clear now from our show, they are the main problem on this planet. All wars, resource and land stripping, subversion, coups and overthrows of Government are done by them. The very fact many leaders are now not pointing fingers at Russia and China, tells me something is afoot.

Here is one leader who gets it to a point, but it is less about Washington DC, and more about Virginia and Tel Aviv. The capture of Afghanistan by the Taliban is another American scam against Muslims. That's according to Ramzan Kadyrov, the leader of Russia's Chechnya region, who suggested that the terrorist group is controlled by Washington. Kadyrov urged everyone to be on guard. America has come up with another scam against Muslims, they said they would never get out of Afghanistan, and now they've abandoned everyone and run away. Imagine, for decades, people have been dying there, five years ago, there were already more than two million civilians killed. Interesting figures not reported by the corrupt media, yet they still insist about over

population? According to the Chechen leader, the Taliban is an American project and is not to be trusted. He compared the group to Bin Laden, the former leader of Al-Qaeda, who Washington funded in the war against the Soviet Union in the 1980s.

As the US limps out of Afghanistan with its tail between its legs, and millions suffer and die under the most brutal of American-induced maladies from Syria to Palestine to Yemen and across the Middle East, fear not, as Captain America is now on the case. Chris Evans, the movie star best known for playing the patriotic leader of the Avengers, Steve Rogers and Marvel characters, is out to solve the world's problems and has set his dazzling blue eyes, and decidedly empty head on the mess that is the Middle East. In 2017, Evans founded a civic media organization called A Starting Point, which, he claims without irony, is non-partisan. Thankfully for humanity, on August 31, A Starting Point will air a new six-part series titled Influence and Power in the Middle East in which experts will discuss Yemen, Saudi Arabia, Syria, Iran and Palestine. It features a cavalcade of archaic establishment asses such as George W. Bush's National Security Advisor Stephen Hadley, Council on Foreign Relations president Richard Haass, former Secretary of Defense and CIA director Leon Panetta, and everybody's favorite raving lunatic and former Trump National Security Advisor John Bolton. This is a murderers' row of Washington warmongers, nefarious neo-cons and CIA criminals who have raped and pillaged the Middle East for the entirety of their kiss-up-kick-down careers. Apparently, former CIA operative Will Hurd is going to host these discussions. The reality is that Evans isn't just an imbecile but also a shameless establishment shill. I have no doubt Evans will not be mentioning IS RA EL in any bad light, Hollywood is ran by Jewish El-ites and they only do pro pagan da. Following on from Jennifer Aniston, it seems these vacuous cretins known as stars will do anything for publicity, some shekels and public approval, all of them should be shunned by the public. None of their lives have been affected by Covid, yet millions of people follow their bs on various platforms, and for what? To bow down to fake celebrities? we have to be more adult than that.

CNN has been hit with a wave of anti-war sentiment after publishing a curious piece highlighting the \$1 trillion worth of minerals in Afghanistan being left behind that the world desperately needs. When the US finishes its exit from the country after 20 years, it will be leaving behind valuable, untapped mineral deposits worth a \$1 trillion, according to US military officials. Minerals such as iron, copper, gold and lithium are found in huge quantities there, and have remained mostly untouched due to the unstable state of the nation, something that doesn't look to be changing as the US continues its chaotic exit from the country amid a Taliban takeover. Rod Schoonover, a scientist and security expert who founded the Ecological Futures Group, told the outlet about the deposits: Afghanistan is certainly one of the regions richest in traditional precious metals, but also the metals needed for the emerging economy of the 21st century. The argument is resources like lithium are rare and heavily used in renewable batteries and electric car

production. CNN reporter Julia Horowitz briefly floated the idea that countries like China may find a way to negotiate with the Taliban for these resources, but acknowledged this was highly unlikely considering the continued security and stability risks in the country. The piece and its brash headline were quickly torn to pieces on social media, instigating accusations that the network was essentially making an argument for a continued military presence, or even reinvasion of a country the US has occupied for two decades. All in the name of taking resources the network claims we desperately need. Ok, let me think, yes batteries, we need to liberate the oppressed lithium for our rechargeable batteries, would no one think of the poor tech companies? activist Asfandyar Bhattani commented. Call me cynical but it's almost as if CNN are trying to justify an invasion and exploitation of Afghanistan to extract said rare minerals. Resources looting - check, fear of China - check, so now you know who is involved in this article, CIA - check. Given the Greenland story last week a pattern begins to emerge, the need for electric car batteries, is suddenly deemed a high priority, does that make sense? well, it's a program then.

About a month ago, Afghanistan's ministry of defense posted on social media photographs of seven brand new helicopters arriving in Kabul delivered by the United States. They'll continue to see a steady drumbeat of that kind of support, going forward, said U.S. Defense Secretary Lloyd Austin told reporters at the Pentagon. In a matter of weeks, however, the Taliban had seized most of the country, as well as any weapons and equipment left behind by fleeing Afghan forces. Video showed the advancing insurgents inspecting long lines of vehicles and opening crates of new firearms, communications gear and even military drones. Another official said that while there are no definitive numbers yet, the current intelligence assessment was that the Taliban are believed to control more than 2,000 armored vehicles, including U.S. Humvees, and up to 40 aircraft potentially including UH-60 Black Hawks, scout attack helicopters, and ScanEagle military drones. It has been revealed that the alleged American military left behind 19 Black hawk helicopters, which depending on which type, they range from \$6-21M each. Who sanctioned that? who allowed that to unfold? as all involved in it should lose their jobs immediately. Yet again a further example of the waste land of finances known as the US Military, care not for how they spend or use the public's money.

You want proof who is involved in all of this? check this out. The head of the US Central Intelligence Agency (CIA) secretly met the leader of the Taliban in Kabul in Monday, sources have told US media. Neither the Taliban nor the CIA would confirm the reported meeting between William Burns and Mullah Baradar. US President Joe Biden has set a deadline of 31 August for American forces to leave Afghanistan, allies including the UK want an extension. US forces have been in Afghanistan since 2001, following the 9/11 attacks. Sources have told US news outlets, including the New York Times, the Washington Post, the Associated Press and broadcaster NPR about the CIA-Taliban meeting. Why? because they are one and the same group, as we have said all along.

The common sense questions arising from this is. How did the Taliban survive 18 months without masks, social distancing, PCR testing, mandatory vaccines and even managed to capture Kabul and now rule over Afghanistan during a pandemic? All remarkable stuff, I wonder if CNN or the BBC will do a documentary on that? Why haven't alleged terrorists been given mandatory jabs?

What is the cost of this war? what did it actually achieve? more is the question what was the purpose? There are several reasons for it, but the primary objective by rogue CIA groups was, to reverse the shutting down of the poppy fields, because that is a major source of their income. So, American lives were jeopardized and American tax payer dollars to fund a war designed to line the pockets of the CIA and their counterparts involved in black budget projects. Those are the facts and that is the reality of this whole deal, at which point will people see through the illusion of it all. Lives lost, lives ruined and for what? freedoms, do me a favor! stop terrorism, do me a favor! these people who started this are the damn terrorists for source sakes. American service members killed in Afghanistan through April: 2,448, U.S. contractors: 3,846, Afghan national military and police: 66,000, Other allied service members, including from other NATO member states: 1,144, Afghan civilians: 47,245, Taliban and other opposition fighters: 51,191, Aid workers: 444, Journalists: 72. Other reports state 2M lives were lost. Date Congress authorized U.S. forces to go after culprits in Sept. 11, 2001, attacks: Sept. 18, 2001, all who signed it should be tried for war crimes based on faulty evidence from so called Intelligence people. Yet I see little to no intelligence from them to believe they are nothing but a deranged criminal organization, please come forward and show me differently, I would welcome it. Number of times U.S. lawmakers have voted to declare war in Afghanistan: 0. Amount President Harry Truman temporarily raised top tax rates to pay for Korean War: 92%. Amount President Lyndon Johnson temporarily raised top tax rates to pay for Vietnam War: 77%. Amount President George W. Bush cut tax rates for the wealthiest, rather than raise them, at outset of Afghanistan and Iraq wars: At least 8%. Estimated amount of direct Afghanistan and Iraq war costs that the United States has debt-financed as of 2020: \$2 trillion. Estimated interest costs by 2050: Up to \$6.5 trillion. Amount Bilmes estimates the United States has committed to pay in health care, disability, burial and other costs for roughly 4 million Afghanistan and Iraq veterans: more than \$2 trillion. Period those costs will peak: after 2048.

As the totalitarian creep of technology increases, one school in Washington DC decided to test the waters of compliance with ankle monitors for children playing sports, under the banner of social distancing. The common sense questions are: how can you play sports and social distance? what is the purpose of putting children in criminal attire? those that initiated this need to be fired, period. The shameful tactics being used now borders on disbelief, at least one mother spoke up, but all mothers and fathers need to

speak up and stop this abuse of us and our children on a daily basis. Delta charging their unvaccinated staff \$200 a month until they are jabbed, is beyond outrageous, and people should boycott the airline out of existence, for crimes against humanity, perhaps they are the variant. Compliance went to greater levels this week as a video from a packed hall in Mexico and Australia of two people keeling over after receiving the jab, and those waiting for their jab, all sat there like lemmings. These people can't be helped, they are beyond stupid at this point.

U.S. officials have declared the first-ever water shortage from a river that serves 40 million people in the West, triggering cuts to some Arizona farmers next year amid a gripping drought. Water levels at the largest reservoir on the Colorado River Lake Mead has fallen to record lows. Along its perimeter, a white bathtub ring of minerals outlines where the high water line once stood, underscoring the acute water challenges for a region facing a growing population and a drought that is being worsened by hotter, drier weather brought on by climate change. Ah the mention of the climate change again. States, cities, farmers and others have diversified their water sources over the years, helping soften the blow of the upcoming cuts. But federal officials said Monday's declaration makes clear that conditions have intensified faster than scientists predicted in 2019, when some states in the Colorado River basin agreed to give up shares of water to maintain levels at Lake Mead. The announcement today is a recognition that the hydrology that was planned for years ago, but we hoped we would never see is here, said Bureau of Reclamation Commissioner Camille Touton. But we hoped we would never see is here? seriously that person said that, that is the consequences of zero planning, zero investment and a general will in this country to not fix anything. The latest infrastructure bill, will no doubt again go to cronies and the actual benefits of that \$1T will be minimal, as it is more about greed than fixing anything. The solution to this is simple with a desire to actually fix anything. Build water pipelines across the country, so the states with excess water and flooding zones can be pumped directly to regions of droughts. Billions spent on oil pipelines to line the pockets of the greed merchants, yet little to zero spending on a resource we all need for life, says it all really. The harsh reality of lack of investment was brought home in Tennessee this week, where 22 people lost their lives and up to 50 are missing, all council workers should be fired for this. They have had two previous flood events and did nothing, saying they can't deal with the creek because of some crawfish in there, what utter bullshit that is. What is the new woke banner Crawfish lives matter? are crawfish now considered more important than human lives? Does that make sense? no? it's a program then.

Over 323,000 borrowers who have a total and permanent disability will receive more than \$5.8 billion in automatic student loan discharges, due to a new regulation announced today by the U.S. Department of Education. The change will apply to borrowers who are identified through an existing data match with the Social Security Administration. It will

begin with the September quarterly match with SSA. The Department is also announcing two other policy items related to TPD today. First, the Department will indefinitely extend the policy announced in March to stop asking these borrowers to provide information on their earnings, a process that results in the reinstatement of loans if and when borrowers do not respond, beyond the end of the national emergency. Second, the Department will then pursue the elimination of the three-year monitoring period required under current regulations, during the negotiated rulemaking that will begin in October. With this TPD action, the Biden-Harris Administration has now approved approximately \$8.7 billion in student loan discharges for roughly 455,000 borrowers. In late March, the Department restored \$1.3 billion in loan discharges for 41,000 borrowers who had seen their loans reinstated, after not responding to requests for earnings information. Yet we were told several times by the Trustee, she had deleted all student loans, clearly that has and was not the case. Although it could be seen as grandstanding by the current administration on processes and ideas put forward by the previous administration, and Biden is taking advantage of proposals put forward by the Trustee and the team. Since March 2021, the Department has also approved more than \$1.5 billion in discharges, through the borrower defense to repayment process, for nearly 92,000 borrowers whose institutions took advantage of them. In addition, the Department has extended the pause on student loan repayment, interest, and collections, to January 31, 2022, which helps 41 million borrowers save billions of dollars a month. This was a ridiculous and uncivilized program to begin with, and Americans should never have gone along with it, charging students for learning bs, is a shameful practice that has ruined many peoples lives.

Soon to be ex-governor of New York Andrew Cuomo has officially filed for retirement, which the Office of the State Comptroller says will go into effect on Sept 1. According to current New York law, the disgraced governor will be eligible to receive a state pension of as much as \$50,000 annually. Some state lawmakers are attempting to enact legislation that removes pension benefits of individuals convicted of impeachment charges, though Cuomo avoided impeachment proceedings by resigning last week. He is set to leave office by next week. Slimy slithering snake that, the point is he should be in jail for murder of the elderly, not some piffling and debatable claims of sexual harassment. The reason I say piffling is due to the length of time and timing of those who came forward, if it was more serious it should have been brought up at the time of the event.

President Joe Biden's administration has approved a significant and permanent increase in the levels of food aid available to needy families, the largest single increase in the program's history. Starting in October, average benefits for food stamps officially known as the Supplemental Nutrition Assistance Program, or SNAP, will rise more than 25 percent above pre-pandemic levels. The increased assistance will be available indefinitely to all 42 million SNAP beneficiaries. The increase coincides with the end of a 15 percent boost in SNAP benefits that was ordered as a pandemic protection measure. That benefit

expires at the end of September. Agriculture Secretary Tom Vilsack said that with the change, the U.S. will do a better job of providing healthy food for low-income families. The aid boost is being packaged a major revision to the USDA's Thrifty Food Plan, which estimates the cost to purchase groceries for a family of four and guides the way the government calculates benefits. In practical terms, the average monthly per-person benefits for qualified recipients will rise from \$121 to \$157. The increase is projected to cost an additional \$20 billion per year, but it won't have to be approved by Congress. A farm law passed in 2018 by the then-GOP led Congress and signed by former President Donald Trump, already directed the department to reassess the Thrifty Food Plan. "Whether you're a Republican or a Democrat, I think there's a shared understanding of the importance of this program," Vilsack said. The increase is part of a multi-pronged Biden administration effort to strengthen the country's social safety net. Poverty and food security activists maintain that longstanding inadequacies were laid bare by the COVID-19 pandemic, presenting an opportunity to make generational improvements that reach beyond the current public health crisis. Activists say the previous levels of pre-pandemic SNAP assistance simply weren't enough, forcing many households to choose cheaper, less nutritious options or simply go hungry as the funds ran low toward the end of the month. I will applaud this move regardless who implemented it, but great questions remain on this, what is being done to prevent further expenditures on this program? so the future eliminates the need for such programs. One of the solutions is the income tax bill, and have a sales tax only, so the more you have the more you spend on taxes. But there is another problem in this country, too many greed based people who harvest far more than they need, and becomes a greed based program. There are 18.5M millionaires, yes you heard that right 18.5M millionaires, yet 46M go without basic food, shelter, water, energy and clothing, it is just wrong to need that amount. That level of thinking needs to be changed, the argument is I worked for that, why give it to people who haven't? It is a valid argument, but what happens if you lose all those earnings like most people in Western countries who have done well, only to have it harvested from them by the system? Because those people will be in the same boat as the poor people one day, so give back to society to prevent a system whereby you end up at the bottom, lets elevate the bottom so then there is no dramatic fall.

COVID BS: As an argument rages on whether the FDA has approved the Pfizer vaccine or not, whether vaccine is approved or just approved for continued emergency usage, one has to ponder on the role of the FDA. One also has to ask is, does the FDA stand for Federal Draco Administration? ponder on that.

The 'Stew Peters Show' has obtained footage and slides of multiple patients' blood that was examined after being inoculated with the shots being called 'vaccines' for COVID-19. Red blood cells clamping together due to the vaccines, hence the term clotshot.

Just days after the start of their academic year, over 20,000 pupils from 800 Mississippi schools have been told to quarantine due to Covid exposure. Some 4,500 children became sick with Covid during this first week of school. Across the US, states like Mississippi with low vaccination rates and relaxed mask rules have asked thousands of students and staff to quarantine. The Delta variant, the dominant strain in the US, has been affecting younger people at a higher rate. The US has recorded about 4.4m child infections, out of a total of 37m since the pandemic began. Fewer than 2% of child Covid-19 cases require hospital admission, and no more than 0.03% of all such cases in the US have resulted in death. Children under 12 are not yet approved to be vaccinated in the US, putting them at a higher risk of catching the highly contagious variant. Infections and hospital admissions are on the rise among the young in a way not seen earlier in the pandemic, when the virus was mostly affecting the elderly and people with pre-existing health conditions. This is classic ouroboros programming and reacting to events playing out, on the one hand it lets keep people in fear and under control, on the other lets get the children back in school because many of them are learning more outside of school than in it. Plus many of the youth are not buying the Covid bs, so lets put them back in school for more indoctrination. The very fact they put children back in school proves this pandemic is all bs, if it was all so dangerous as they say, then no child would be going to school until lockdown and masks are ended for good.

An Australian politician told parents that 24,000 children would be ushered into a stadium to receive the experimental COVID-19 shot without their presence. New South Wales Minister for Health and Medical Research Brad Hazzard made the disturbing announcement, calling the students' conditional vaccine requirement to get jabbed to participate in school in the fall as a golden opportunity. Your mum or dad, or one of your family drop you, make sure they stay outside the arena, because we don't want too many people obviously milling around inside the arena, Hazzard said. Make some arrangements for after you've got your access to that golden opportunity of the vaccination, to wait outside for you. Just shameful, using snake oil advertisement tactics to lure kids into taking a vaccine that you don't need, whilst leaving concerned parents out of the mix. What type of society is that Australia? are you going to tolerate them making decisions for your children. Golden opportunity, all sounds like you are about to win the lottery or a free round the world trip, not putting children's lives in danger. Since then it came to light that at least 2 children died from this "golden opportunity".

79% of eligible Puerto Ricans who have gotten at least one vaccine shot protecting them against the COVID-19 infection, giving this low-income, Democratic-leaning U.S. territory in the Caribbean one of the best vaccination rates in the country. Nationally, the rate for partial vaccination is about 70%. As of Thursday, Puerto Rico hit 68.5% for full vaccination of eligible people, dramatically higher than the approximately 51% national rate. Island officials attribute their success to a combination of clear public health

messaging and a near-absence of conspiracy theorists and the political divide that has marked the pandemic elsewhere within the United States.

Here is an on the ground piece on Puerto Rico by one of our members, things are real bad there, but hearing Cuba is doing way worse. They don't even have oxygen, meds, supplies, etc. or even doctors to care of anyone, so they are just letting people die. Almost my entire family lives there and they have all be jabbed. Vaccination in Puerto Rico has become a painful staple. About 85% of the population has received the first dose, around 65% has been jabbed with the second dose, and approximately 90% of the schools have been vaccinated. On July 29th the governor introduced an executive order that requires vaccination of all government employees effective August 16th. Employees who due to medical or religious reasons cannot be inoculated must provide the required and approved documentation. They are obligated to wear masks, practice social distancing, and must have a negative PCR test on a weekly basis. The national guard has been going door to door inquiring about the vaccination status of all residents. If not jabbed, the medical team that accompanies them jabs the residents even if they do not consent. They pull their guns and intimidation tactics to give people no choice. Currently, people cannot enter a store, shopping center, school, bank, work place, or even visit the doctor if they have not been vaccinated. The police patrol the streets to find the non-jabbed. Consequently, those of us who refuse to be inoculated have to take trails to go anywhere instead of the streets. We had to hide at someone else's residence the day the national guard came to ours. In order to buy food, we have to ask our vaccinated family members to buy it for us and we pay them cash. My doctor, who I have to see on a regular basis due to my heart condition, has declined my visit because I am not jabbed. Many die instantly when they receive the injection, others die sometime after and or experience severe side effects. The death toll continues to rise and some have begun to question it, but most consent to it. Those of us who refuse to fall in the hands of death and fear are labelled conspiracy theorists while the rest wear their vaccination dog tags with pride. Literally! A very harrowing and different narrative to what the press want bots to believe, they will use places like these as testers for public opinion, and one must always be wary of it becoming widespread.

U.S. experts are expected to recommend COVID-19 vaccine boosters for all Americans, regardless of age, eight months after they received their second dose of the shot, to ensure lasting protection against the corona virus as the delta variant spreads across the country. US experts now that is funny for a start, the two are not congruent in my eyes, like called Intelligence agencies intelligent, does not compute, does it. Federal health officials have been actively looking at whether extra shots for the vaccinated would be needed as early as this fall, reviewing case numbers in the U.S. as well as the situation in other countries such as Israel, where preliminary studies suggest the vaccine's protection against serious illness dropped among those vaccinated in January. No it never more media lies.

Canada's Minister of Intergovernmental Affairs Dominic LeBlanc and Minister of Transport Omar Alghabra announced, Federal government will require all federal public service employees to be fully vaccinated as early as the end of September. In addition, all employees in federally regulated air, rail, and marine transportation sectors should be vaccinated no later than the end of October. The government says the requirement is extended to all commercial air travelers, passengers on interprovincial trains, and passengers on large marine vessels with overnight accommodations, such as cruise ships. The Government of Canada is leading by example in requiring vaccinations for public service employees, and we are asking all federally regulated employers to develop vaccine plans to ensure their employees and workplaces are safe, said Alghabra. This is the right thing to do and will ensure Canada continues to build back better from the global COVID-19 pandemic. Minister Dominic LeBlanc said vaccination will be a requirement for working for the government of Canada, and those who are not vaccinated will risk losing their jobs, unless they have valid reasons for not receiving vaccines. The government has not released details on how this requirement will be implemented. Canada is also expecting all Crown corporations like Canada Post and other employers in the federally regulated sector to have vaccination policies for their employees.

OMG common sense is running rampant in this group, one member who is clearly afflicted by it said this in the chat. How about SNAP provide each family a plot with seeds to plant a garden? Clearly that member is too radical and needs an anti common sense pill. Talking common sense oh my. **POSITIVE ACTIONS:** The debate over what American children are taught has taken a new twist, with an increasingly vocal Virginia parents' group fighting to have more influence over school boards. It aims to set a blueprint for the whole country. Loudoun County, Virginia, is not the most obvious site for a flashpoint to erupt that could have repercussions across America. Close to the seat of power, Washington, DC, it's an affluent area with a median household income of \$142,299. Since 2010, its population has risen by 34% and crucially 28% of residents are under 18. Many parents work in government and are adept at campaigning and organizing, which has spawned the birth of a vocal and increasingly prominent organization, Fight For Schools. As the name suggests, it is a parents' group that wants to have more say in what goes on in schools. Formed in April by just eight people, it has since been catapulted into the living rooms of millions of Americans with coverage on influential platforms such as Fox News. The founders were spurred into action when made aware of a Facebook group, Anti-Racist Parents of Loudoun County. A school board member had posted a message among the group encouraging others to confront parents who were opposed to Critical Race Theory (CRT) being taught in local schools. There was also a simultaneous debate about when to open up schools post-lockdown. Fight For Schools Executive Director Ian Prior said, these individuals in the Facebook group started listing over 60 parents they wanted to plot against. There was a post on there that talked about infiltrating parents' groups, publicly exposing them and even

hacking their websites. Sounds like an agency tactic and program to me. Fight For Schools is focused on several issues, but they revolve around a similar theme, and that is overreach that undermines parents' constitutional rights. Prior explained, they refuse to hear any other side of the argument, that's really one of the reasons we're seeing the toxicity that we are. You have a group of individuals that are, in my opinion, extremely radical in their beliefs, which is fine. But what is not fine is that they refuse to accept that there is always another side of the ledger that needs to be heard as well. In the case of Loudoun County, that other side of the ledger is a vast majority of people. Everyone is entitled to their opinion but when you're a government actor, you have to hold yourself to a higher standard and you also have to respect the laws and people's constitutional rights. What we've seen from our school board, but school boards all over really is that, they just don't have a solid, fundamental grasp of constitutional law or the constitutional guardrails that exist, they do not respect them and they are more than willing to pass legislation that, quite frankly, is unconstitutional, and does not reflect the will of the majority of their constituents. Yet when people voice their concern or displeasure, they immediately go you're a bigot, racist or fascist. This is what we need to see from more people, people taking an active concern in all matters and stop allowing jackasses to run everything, it is the only way to go to get your country back. We have allowed idiots to run the asylum unhindered because people were too lazy or content to let others run their lives for them, that has to stop. This is how change is made, you challenge the system on all levels, it is about taking personal responsibility again for your lives, your family and neighbors. So kudos to Fight for schools for raising awareness, and I hope it encourages more to stand up and fight a system that quite frankly has never worked for we the people.

Oklahoma City, Hundreds of people gathered at the state Capitol on Saturday to protest mask and COVID-19 vaccine mandates while fighting for their freedom to choose. A line of people waited outside the Capitol while hundreds filled the rotunda chanting USA, singing America the Beautiful and reciting the pledge of allegiance. Sadly it is the belief in the USA is part of the problem here, the US is nothing to do with America. Some also held signs saying, no vaccine mandate, protect our freedom and mandate medical freedom. I do not want to see us be mandated for masks or vaccines because that is our right to choose what's best for us, one rallygoer said. So, that's why I'm here to support for freedom, to choose. We appreciate that the vaccine was made, that it's offered to us, it's offered to us for free, but I don't want to be forced to take it, another rallygoer said. Daniel Navejas, one of the speakers at the Oklahoma Freedom Rally event, said he thinks mandates are a way of communism taking over the nation. It's more of a plan-demic and a scam-demic, Navejas said. The many people in the large crowd that gathered inside the Capitol chanted, sang and made their choice known while not wearing masks. Good stuff and more needs to support it and spread it out further, people need platforms to feel safe otherwise they just go along with the control systems narrative and requests.

Danish parliament recently decided in Copenhagen that all Corona measures should be ended from October 1. There will therefore no longer be a mask requirement and the test regime will be abolished. The Danes will then no longer have to provide evidence of whether they are vaccinated or unvaccinated, or whether they have tested positive or negative.

EXPOSE 1: FROM: <https://forbiddenknowledgetv.net/rabbi-marvin-antelman-on-the-sabbatean-frankists/> I had never heard the word Sabbatean until last Fall, when I was editing a foundational booklet, The Right to Issue about the Central Banking System, written by William Calder. He'd told me that he'd personally met a few of the top members of the Committee who control the Bank of International Settlements in Basel, Switzerland, considered to be the Central Bank of Central Banks. Calder said that all members at the top of the hierarchical structure of the Committee were Sabbateans, and that they were very preoccupied with their bloodlines. These individuals were not free to marry without the approval of the entire Committee. He has told me that Jared Kushner is a direct relation of top members of the Committee. The fundamental principle of the Sabbatean-Frankists was/is the belief that, the Messiah would return either when all people had become good or when all people had become bad. It was the reasoning of the Sabbateans that it would be easier to hasten the arrival of the Messiah by pursuing the dark path, so they set about inverting the practices of their own faith, with the ostensible purpose of precipitating the return of the Messiah. They didn't just pretend to be Muslims or Christians, they pretended to be Jews as well. They were the forebears of the Illuminati and Communism. In 1756, the Frankists, successors of the Sabbateans were excommunicated by establishment rabbis for their heretical and frankly Satanic practices, but they re-emerged under numerous stealthy guises, as the leaders of both the Reform and Conservative Hasidic Jewish movements. The largest Hasidic sect today is called Satmar and it is based in Williamsburg, Brooklyn. It is known for its ultra-Orthodoxy and its opposition to Zionism, many Reform Jews share the latter view. Satmar is a Hasidic group originating from Hungary, now Satu Mare, Romania, where it was founded in 1905 by Rabbi Yoel Teitelbaum. Following World War II, it was re-established in New York, becoming one of the largest Hasidic movements in the world. Following Rabbi Moshe's death in 2006, both groups of followers announced that their candidate was named successor in his will, and declared them Rebbes. Rabbi Zalman and Rabbi Aaron were engaged in prolonged judicial disputes as to who should control the Congregation's assets in Brooklyn. The sect has effectively split into two independent ones. At the time of Reb Moshe Teitelbaum's death, sources within the sect estimated it had 119,000 members worldwide, making it the world's largest Hasidic group. A similar figure of 120,000 was cited by sociologist Samuel Heilman. However, anthropologist Jacques Gutwirth estimated in 2004 that Satmar numbered about 50,000. As of 2006, the dynasty controlled assets worth \$1 billion in the United States. The two largest Satmar communities are in

Williamsburg, Brooklyn, and Kiryas Yoel, New York. There are also significant Satmar communities in Borough Park, Brooklyn, Monsey, and Bloomingburg, New York. Smaller communities can be found in other North American cities such as Los Angeles, Lakewood, New Jersey, and Montreal; in some European cities such as Antwerp, London, and Manchester; and in Argentina, Australia, and Israel. Aaron said that he wants to establish a community in Romania too. Predictably it gains numbers in New York, numbers in terms of followers and numbers in terms of shekels. Does anyone ask how, why and where the \$1B assets came from, this religious business is quite a profit maker it seems. Yet meanwhile whole Jewish communities are left in abject poverty.

KUSHNER: An interesting aside here, is that Donald Trump's son-in-law and his family, despite dressing like typical rich people, they are members of the Chabad-Lubavitch Hasidic movement, which, similarly to the Sabbateans, claim to have been led by "the Messiah" (Moshiach), one Menachem Mendel Schneerson, who although deceased since 1994, is still revered by many as the leader of the Chabad movement. Kushner is being modeled and handled by the 100 plus year old Kissinger. There is a vociferous group in Israel who do not consider Chabad's ideology to be Jewish. They consider Chabad to be a white collar criminal organization, who engage in financial fraud, tax evasion, money-laundering, as well as being linked to several child abuse cases. They would be correct, and they are the cause of much angst against the ordinary Jewish people. Those that say they are Jews, but they are not springs to mind. Quote here from Henry Makow: Communist defector Bella Dodd revealed that during the 1930's the Communist Party had 1,100 members join the Catholic Priesthood, they became Bishops, Cardinals and Popes. Remember, according to Makow, Communism is an invention of the Sabbateans. Thereby confirming the Catholic church is ran by one and the same as we stated in FRWL series. Jewish researcher Clifford Shack: Through infiltration, stealth and cunning, this invisible network has come to rule us all. Forty-one years after Shabbatai Zevi's death in 1717, 1758 they would infiltrate Masonry guilds in England and establish Freemasonry. Zevi's successor, Jacob Frank would have a great impact on the inner core of Freemasonry known as the Illuminati, formed in 1776. Freemasonry would become the hidden force behind events like the American, French and Russian revolutions, the creations of the UN and Israel, both World Wars including the Holocaust, and the assassinations of the Kennedy brothers who, together with their father, tried to thwart the efforts of the network on American soil. Except the Kennedys were not doing it to favor the people, just the Order of the Black Sun and their fight for world domination over the Rothschild's. That is why Trump and Q were referencing JFK and or JFK Jr still being alive, they were Black Sun also and supported heavily by the Life Force group, remember the promise of Q drops and White House passes?

FROM: <https://forbiddenknowledgetv.net/fall-of-the-cabal-the-sequel-ep-02-the-wrath-of-the-jesuit-council/> Dutch researcher, Janet Ossebaard is back with a 17-episode sequel to her earlier 12-part 'Fall of the Cabal' documentary series, released last year. I didn't

publish any episodes of the previous Q-focused series, because I found a few glaring inaccuracies and her voiceover kind of drove me nuts. However, this video is an easy-to-absorb, bare-bones rendition of this topic-of-topics; to wit, the influence of secret societies throughout our history and in our current malaise. This is Episode 2 of her new series and it covers Adam Weishaupt's founding of the Order of the Illuminati in 1776, three years after Clement XIV's papal bull suppressed the Jesuits, and how this was the lynchpin moment when the financial empire of the Rothschild's converged with the wealth and power of the then-disenfranchised military order of the Jesuits, with the goal of dominating the planet with a One World Government. Ossebaard says Adam Weishaupt based the Order of the Illuminati on ancient documents, one of which was a letter given to him by Mayer Rothschild. This letter, referred to as the Constantinople Letter was written in 1489 by Nasi, the Chairman of the Jewish Council in Constantinople, The Grand Sanhedrin, as a response to an outcry for help by the head of the Ashkenazi Jews in France. As for what you say that the King of France obliges you to become Christians: do it, as you cannot do otherwise. But let the law of Moses be kept in your hearts. As for what you say about the demand to despoil you of your goods, make your sons merchants, that little by little, they may despoil the Christians of theirs. As for what you say about their making attempts on your lives, make your sons doctors and apothecaries, that they may take away Christian lives. As for what you say about their destroying your synagogues, make your sons canons and clerics in order that they may destroy their churches. As for the many other vexations you complain of, arrange that your sons become advocates and lawyers and see that they always mix themselves with the affairs of state, in order that by putting Christians under your yoke, you may dominate the world and be avenged on them. Do not swerve on this order we give you for you will find by experience that, as humiliated as you are now, you will reach the actuality of power. In other words, the Sanhedrin in Constantinople Ottoman Empire told the Khazars in France, to fake their conversions to Christianity and to infiltrate every aspect of society. Commerce, medicine, religion and legislation, with the sole purpose of revenge and destruction. As I listened to Ossebaard, I was struck by the similarity between her words and those of Canadian Jewish author, Henry Makow, when describing how the Communists infiltrated the Catholic hierarchy during the 20th Century. Communist defector Bella Dodd revealed that during the 1930's the Communist Party had 1,100 members join the Catholic Priesthood. They became Bishops, Cardinals and Popes, by adopting this chameleon strategy, this Satanic cult infiltrated and subverted most governments and religions, and established an invisible tyranny without drawing much attention. In the words of the gifted Jewish researcher Clifford Shack: Through infiltration, stealth and cunning, this invisible network has come to rule us all. It becomes crystal clear how Satanism is the spiritual underpinning of the New World Order. Ossebaard recaps this episode with the following words: Three years after the Papal Bull that suppressed the Jesuit Order, Adam Weishaupt and Lord Rothschild founded the Order of the Illuminati. Based on their sacred ancient documents,

the illustrious and well-documented plan to conquer the world and all of humanity was put into action. The Jesuit revenge scorched the earth, and Europe paid the ultimate price for betraying the Jesuit Order. War after war raged, killing millions and leaving nothing but despair and fear among the masses. Each and every war further enriched the Cabal, making the gap between them and the people bigger and bigger. Germany was bankrupt and destroyed by the time WWI ended, why not Austro-Hungary, that had started the war? Because of the domination of the elite Jesuit Cabal in the Empire. Protestant Germany was taken down but the Cabal had only just started, they proceeded with their destructive plan to subjugate the entire world. By manipulating the stock market worldwide starting in the US, Germany was to bleed even more, the events that sprang forth led to WWII. As we have stated all along, Germany, it's people and potentially it's leader were all duped by this group. Yet curiously Hitler was not Black Eagle which is the SS, Hitler killed many of the SS in 1933 when he found out they were building a private German army and air force in Russia of all places. Hitler banned the Teutonic knights (not plates) and also banned Freemasonry, whilst attempting to throw out all Rothschild's banks. You don't believe those facts then fine, but check them out for yourselves, but what it may well suggest that, his story about Germany and Hitler was a complete conspiracy theory.

EXPOSE 2: Given we are approaching the twentieth anniversary of this event, and the media will run out the predictable lies and distortion about that fateful day, perhaps this piece that I have held back for other more prevalent pieces recently, is timely. Approximately two weeks prior to the September 11, 2001 attacks on New York City and Washington, DC a dispute emerged between the CBS network, and heads of two Islamic organizations in the U.S. regarding the motivation of suicide bombers in Israel. The dispute was forgotten following the attacks, but in their aftermath, another look at it is warranted: The Translation Dispute: On August 19, 2001, CBS's 60 Minutes aired a report on the Palestinian Islamist organization Hamas. Reporter Bob Simon interviewed Hamas operative Muhammad Abu Wardeh, who recruited terrorists for suicide bombings in Israel. Abu Wardeh's words were translated into English by CBS as follows: I described to him how God would compensate the martyr for sacrificing his life for his land. If you become a martyr, God will give you 72 virgins, 72 wives and everlasting happiness. Not entirely sure of how 72 females creates everlasting happiness, when two adult females in one house rarely works, never mind 72. Some Muslim leaders contended that the English translation did not match the Arabic and accused CBS of fabricating the quote. Leaders of the Muslim Public Affairs Council (MPAC), a U.S. organization, wrote to 60 Minutes and demanded a retraction, an apology, and time on the show for Islamic scholars to explain the religion's true teachings regarding violence and martyrdom. CBS News admitted that the English voiceover did not match the Arabic quote, but played an unaired portion of the interview for a Knight Ridder editor who speaks Arabic and for two native Arabic speakers. After viewing the tapes, Hafez Al-Mirazi Osman,

Washington bureau chief of the Al-Jazeera television network, stated that in the portion that did not air the interviewee said: Paradise has many things, it is said it has everything a man would wish for, it has 72 angels or wives, it has the eternal blessing that people would receive there. CBS translated the Arabic term hur 'ayn as virgins. According to Osman and the other native Arabic speaker, Dr. Maher Hathout, a scholar at the Islamic Center of Southern California, the Arabic word has no sexual connotation or gender. Hathout said that a more appropriate translation would be angel or heavenly being. CBS said its Arabic expert insisted on CBS's translations. MPAC's Executive Director in Los Angeles, Salaam Al-Maryati, said, For Palestinians, this is about fighting aggression and occupation, not about opportunities for sexual fantasies. He added that the issue is important to the estimated 7 to 10 million Muslims who he claims live in the U.S., because it confirms their fears that media organizations are intent on defaming their faith. In a published report, Hathout added, there is nothing in the Koran or in Islamic teachings about 72 virgins or sex in Paradise. This is ridiculous, and every true Muslim knows that. Quite often the authorities and agencies use distorted sexual connotations to denigrate a group or people, so this is no surprise. According to Hathout, the worst-case scenario is that there is a deliberate spinning of the news. It is very fashionable now to present the Muslims as particularly susceptible to being crazy or blowing themselves up. The Martyr's Reward in Islamic Tradition Maryati's and Hathout's claims aroused the ire of Sheikh Abd Al-Hadi Palazzi, head of the Cultural Institute of the Italian Islamic Community. Sheikh Palazzi wrote: the only ridiculous thing is that someone who claims to be an Islamic scholar, Hathout makes public statements which prove beyond any possible doubt, that he has never read the Tafsir Koranic commentary of Ibn Kathir and the Sunan religious rulings based on the customs of the Prophet of Imam Al-Tirmidhi, which are basic books for the knowledge of Islam. Unfortunately, this attribution of chairs to ignoramuses seems to be the rule in American Islamic Centers, controlled by the fundamentalist network of the Muslim Brotherhood. The Muslim Brotherhood was founded in Egypt, which is no surprise to our listeners, it gained international popularity with the Nation of Islam group that was fronted by Malcolm X. Its current leader is none other than Barack Obama, connected to various agencies to cause disruption, division and fulfill establishment agendas. According to Islamic tradition, Sheikh Palazzi states there are 72 wives for every believer who is admitted to Paradise, not only for a martyr. The proof is in a Hadith (Islamic tradition) collected by Al-Tirmidhi in the Book of Sunan. Sheikh Palazzi added that it is also quoted by Ibn Kathir in his Tafsir of Surah Al-Rahman (55), verse 72: It was mentioned by Daraj Ibn Abi Hatim that Abu-al-Haytham Abdullah Ibn Wahb narrated from Abu Sa'id Al-Khudri, who heard the Prophet Muhammad saying: The smallest reward for the people of Paradise is an abode where there are 80,000 servants and 72 wives, over which stands a dome decorated with pearls, aquamarine, and ruby, as wide as the distance from Al-Jabiyyah, a Damascus suburb to Sana'a. Sheikh Palazzi cites verse 74 of the same Surah, the chastity of the black-eyed was not violated by man nor jinn to prove that that they are virgins. Nor djinn? what that

comment confirms is, astral rape, why would you even reference djinns as having sex with a female otherwise? In addition, the black-eyed are mentioned in three other Surahs in the Koran: Al-Dukhan 54, Al-Tur 20, and Al-Waqi'a 20. Women with downcast eyes, that is, chaste women, are mentioned in three Surahs: Al-Rahman 56-8, Al-Safat 48, and S, 52. Al-Azhar University in Egypt, the main authority for Sunni Islamic rulings, also takes the black-eyed seriously. Al-Azhar's unofficial website features a religious ruling section, in which the institution's clerics answer questions by readers from all over the world. An Australian Muslim asked the following: If men in Paradise get the black-eyed, what do the women get? The answer, provided by the deputy director of Al-Azhar's Center for Islamic Studies, Sheikh Abd Al-Fattah Gam'an, read: The Koran tells us that in Paradise believers get the black-eyed, as Allah has said, and we will marry them to the black-eyed. The black-eyed are white and delicate, and the black of their eyes is blacker than black and the white of their eyes is whiter than white. To describe their beauty and their great number, the Koran says that they are like sapphire and pearls (Al-Rahman 58) in their value, in their color, and in their purity. And it is said of them: They are like well-protected pearls in shells (Al-Waqi'a 23), that is, they are as pure as pearls in oysters and are not perforated, no hands have touched them, no dust or dirt adheres to them, and they are undamaged. It is further said: They are like well-protected eggs (Al-Safat 49), that is, their delicacy is as the delicacy of the membrane beneath the shell of an egg. Allah also said: The black-eyed are confined to pavilions (Al-Rahman 70), that is, they are hidden within, saved for their husbands.

Most of the black-eyed were first created in Paradise, but some of them are women who came to Paradise from this world, and are obedient Muslims who observe the words of Allah: We created them especially, and have made them virgins, loving, and equal in age. This means that when the women of this world are old and worn out, Allah creates them anew after their old age into virgins who are amiable to their husbands; equal in age means equal to one another in age. At the side of the Muslim in Paradise are his wives from this world, if they are among the dwellers in Paradise, along with the black-eyed of Paradise. If a woman is of the dwellers in Paradise but her husband in this world is not of the dwellers in Paradise, as in the case of Asia the wife of Pharaoh, she is given to one of the dwellers in Paradise who is of the same status. Regarding the woman who was married during her life to more than one man in this world, and all her husbands are dwellers in Paradise, she may choose among them, and she chooses the best of them. It is said that Umm Salmah asked the Prophet: Oh Prophet of Allah, a woman marries one, two, or four husbands in this world and later she dies and enters Paradise, and they enter with her. Which of them will be her husband? The Prophet answered: She chooses the best of them, saying, Oh Allah, this is the best of them that was with me in this world, marry me to him. Thus it is known that the women of Paradise also have husbands, every woman has a husband. If her husband in this world is of the dwellers in Paradise he becomes her husband in Paradise, and if her husband in this world is an infidel, she is

given to one of the dwellers in Paradise who is suited to her in status and in the strength of his belief.

A Question of Belief: Dr. Hathout described the Koran passages as nothing more than folklore, saying that such descriptions of Paradise aren't meant to be taken literally, just as many Christians do not really believe heaven has streets paved with gold. But the question is whether every true Muslim knows that there is nothing in the Koran or in Islamic teachings about 70 virgins or sex in Paradise, or parasitic as Dr. Hathout said. Do Muslims living in areas where Jihad has been declared for example, the West Bank and Gaza Strip, where political correctness is less a factor as it is where Hathout lives, in Southern California, also maintain that such descriptions of Paradise aren't meant to be taken literally? Moreover, the more important question is, what do the clerics say? The death announcements of martyrs in the Palestinian press often take the form of wedding, not funeral, announcements. Blessings will be accepted immediately after the burial and until 10 p.m. at the home of the martyr's uncle, read one suicide bomber's death notice. With great pride, the Palestinian Islamic Jihad marries the member of its military wing, the martyr and hero Yasser Al-Adhami, to the black-eyed, read another. Al Risala, the Hamas mouthpiece, published the will of Sa'id Al-Hutari, who carried out the June 1, 2001 suicide bombing outside the disco near the Dolphinarium in Tel Aviv that killed 23, mostly teenage girls. I will turn my body into bombs that will hunt the sons of Zion, blast them, and burn their remains, Al-Hutari wrote. Call out in joy, oh my mother; distribute sweets, oh my father and brothers; a wedding with the black-eyed awaits your son in Paradise. The same view is also evident in news reports in the Palestinian press. Thus, for example, the reporter Nufuz Al-Bakri reported the death of Wail Awad as follows: The mother of Wail Awad, from Deir El-Balah, did not plan on holding a second wedding for her eldest son, after his marriage on August 10, 2001 to his fiancée in a simple ceremony attended only by the family. But yesterday was Wail's real wedding day, and the angels of the Merciful married him, together with the other martyrs, to the black-eyed, as all around them rose the cries of joy that his mother dreamed of on the day of his wedding to his fiancée. Hamas official Ashraf Sawaftah told of a ceremony honoring Izz Al-Din Al-Masri, who carried out the suicide bombing of the Sbarro pizzeria in central Jerusalem on August 9, 2001: His relatives distributed sweets and accepted their son as a bridegroom married to the black-eyed, not as someone who had been killed and was being laid in the ground. The uncle of Nassim Abu 'Aasi, who died while he was attempting to carry out an attack, said that when the deceased was asked why he was not married, he would always reply, Why should I relinquish the black-eyed to marry women of clay i.e. flesh and blood? This is part of the Islamic belief, Hamas leader Isma'il Abu Shanab once explained to AFP. Anyone who dies a martyr's death has a reward, if the martyr dreams of the black-eyed, he'll get her. The Hamas movement educates the children in its schools, beginning in kindergarten, to believe that a martyr is given virgins in Paradise. Jack Kelley of USA Today visited Hamas schools in Gaza City, where he saw an 11-

year-old boy speak to his class: I will make my body a bomb that will blast the flesh of Zionists, the sons of pigs and monkeys. I will tear their bodies into little pieces and will cause them more pain than they will ever know. His classmates shouted in response, Allah Akhbar, and his teacher shouted, May the virgins give you pleasure. A 16-year-old Hamas youth leader in a Gaza refugee camp told Kelley, most boys can't stop thinking about the virgins. Along with the media, Palestinian Muslim clerics also help instill this belief. In an interview with the Egyptian daily Al-Ahram Al-Arabi, Palestinian Authority Mufti Sheikh Ikrima Sabri was asked what he felt when he prayed for the soul of a martyr. He answered: I feel that the martyr is lucky, because angels bring him to his wedding in Paradise. I spoke with one young man, who told me: I want to marry the black-eyed women in Paradise. The next day, he died a martyr's death. I am certain that his mother was filled with joy over his heavenly wedding, such a son is worthy of such a mother. Sheikh Abd Al-Salam Abu Shukheydem, Chief Mufti of the Palestinian Authority police force, mentioned the black-eyed as one of the rewards of martyrs: From the moment the first drop of his blood is spilled, he does not feel the pain of his wounds and he is forgiven for all his sins; he sees his seat in Paradise; he is saved from the torment of the grave; he is saved from the great horror of Judgment Day; he marries the black-eyed; he vouches for 70 of his family members; he gains the crown of honor, the precious stone of which is better than this entire world and everything in it. In a Friday sermon broadcast on Palestinian television, Sheikh Ismail Al-Radwan declared: He is given 72 'black-eyed. The Americans and the eunuchs at their sides i.e. the rulers of Arab and Islamic countries, think that if they kill us, they will win, wrote Dr. Yunis Al-Astal, a lecturer in the Islamic Law Department at Gaza Islamic University, they do not know that with their weapons they only expedite our arrival in Paradise. We yearn to reach Paradise; it is our abode, and in it are the black-eyed, confined to pavilions, and also there are women with downcast eyes whose chastity has not been violated before us by either man or jinn. In contrast, the value of this world in which we live, which they i.e. the Americans and the Arab rulers think that they have attained, is in our eyes not worth the wing of a mosquito. In an interview with the Israeli daily Ha'aretz, Sheikh Raid Salah, the leader of the Islamic Movement in Israel, and the most important political and religious leader of Israel's Arab population was asked Do 70 virgins await a shahid (a martyr) in paradise? Sheikh Salah replied: On this matter, we have proof. It is written in the Koran and in the Sunna the traditions about the life of Mohammed, this matter is clear. The shahid receives from Allah six special things, including 70 virgins, no torment in the grave, and the choice of 70 members of his family and his confidants to enter paradise with him. The suicide attackers who carried out the September 11 attacks also believed that the black-eyed were one of the rewards awaiting them in Paradise. The letter of instructions found in Nawwaf Al-Hamzi's car mentioned the black-eyed twice: Don't show signs of uneasiness and tension; be joyful and happy, set your mind at ease, and be confident and rest assured that you are carrying out an action that Allah likes and that pleases Him. Therefore, a day will come, Allah willing, that you will spend with the

black-eyed in Paradise. Know that the gardens i.e. Paradise have been decorated for you with the most beautiful ornaments and that the black-eyed will call to you: Come, faithful of Allah, after having donned their finest garments.

The Black-Eyed and Sexual Relations Are the black-eyed available for sex? Some evidently think they are. The Israeli media reported on a suicide bomber caught before he managed to carry out his mission; he was wearing a towel as a loincloth to protect his genitals for use in Paradise. The question of sexual relations was also brought up in an interview that Sheikh of Al-Azhar, Muhammad Sayyed Tantawi gave to the Egyptian weekly Aakher Sa'a. To the question What is the meaning of the Koranic verse And we will marry them to the black-eyed? Tantawi replied, This verse heralds to faithful believers that in the world to come, Allah will set the black-eyed to serve them, so that they will have wives, along with the righteous women from this world. Getting straight to the point, the interviewer asked, Do people in Paradise have sexual relations? This issue is known only to Allah, said Tantawi. It is enough that we know that Paradise offers everything to satisfy the soul and gladden the eye. Regarding other, private matters, only Allah knows. It is enough for us that the Koran says, It has everything to satisfy the soul and gladden the eye, and in it you have life everlasting. In a review of the Egyptian press in the London daily Al-Quds Al-Arabi, the veteran Egyptian journalist Hasanain Kurum explained that Sheikh Tantawi knowingly gave a vague answer to the question, so as to avoid a scandal like the one created a few years previously by the late author and journalist Muhammad Galal Al-Kushk. Al-Kushk wrote, The men in Paradise have sexual relations not only with the women who come from this world and with the black-eyed, but also with the serving boys. According to Kurum, Al-Kushk also stated, In Paradise, a believer's penis is eternally erect, Common sense question is why would you want an eternally erect penis? perhaps their Paradise realm is another pharmaceutical club called the viagra realm. A fascinating insight into the world of Islam/Muslim, where yet again the deception and seducement program of religion, is teaching children from a young age to murder people in exchange for sex and wives. This is just wrong on many levels, does anyone ask why you have to be a martyr to get wives, sex and alleged Paradise? What happened to just being nice and caring people? The eternal promise of something better is just on the other side, bit like 5D people really, but how can you assume that is the case if no one knows where it is? The issue is if Paradise or 5D is all so much better, what makes you think or assume you will be going in the first place, is that not a tad presumptuous or arrogant. The issue is, you haven't fixed yourself here first, before you consider yourself ready for some fabled place known as Paradise or 5D. But, too few look at the real issue, how is a religious organization telling people to commit murder in exchange for sex of any sort of soul value, is it righteous? holy? divine? or just an evil seducement game generating karma for themselves, whilst the evil ones hide in the shadows laughing hysterically.

5 VERSIONS OF BOTS We have mentioned about bots several times in this show and thought a piece on it explaining how it is all possible. Bot 1: Mechanical entities, that was covered in the movie Extinction, did they know they were not humans? no. How could anybody possibly know? How can it be achieved? Can you give birth to one? Well you cannot give birth to one that is a certainty, but they can be grown with organic body parts, or even 3D printer technology that is way more advanced than most think possible. What is rarely known amongst the populace although it has been referenced in this show is, the numbers of babies that are switched in hospitals. It is an uncomfortable truth, and happens on a wider scale than has been reported. No one can prove you came from your parents, yes they say scientific data or DNA can prove it, but we have found out in the past 18 months just how corrupt the establishments scientific data is. Are you saying Thomas I may not be born by my parents? that is a question not one of us can answer, we only assume we are, assumption like logic is not borne in fact though is it? These are essentially skin suits with mechanical parts to animate the vessel, is there precedence for this? yes, one or more versions of the greys, meddled too much with their genetics and could no longer produce their own live off spring. So they became uploaded consciousness into created vessels, just to keep their species going. This was referenced by the P45 and P52 races, warning us not to meddle too much with genetics, clown EL-ites know this all too well. This was also covered in the Stargate series as well. Bot 2: Clones, not much has been written by many in this field, although Donald Marshall has covered it quite a bit, some of his material leaves much truth out in my opinion, and so you are left picking through the bones of it. Cloning centers are real though and some have been removed due to exposure, and much was reduced since the Peace Treaty of 2016. Much of this technology if not all came from our engagement with other beings from afar, although some have been here for a long time. Like all technology it is long in the past, future technology is only released when it can be weaponised. After billions of years of development, there is no new technology, only ways to do things better. Cloning is a product of collecting your DNA, and then growing "people" in their likeness, does that sound familiar? we will make them in our own image springs to mind, nobody asked who is our? These clones are grown in vast underground labs, attended to by the rogue Military, CIA and SSP. For two examples see the movie Fire in the Sky and the series The Event. But there is another more common known aspect to this, that has been in the publics eye for at least 40 years, yet we never connected the dots to it, well we will now, they are test tube babies. It is the same concept, but several questions arise from it, and there is little to know follow up studies on this topic, which is curious and perhaps sinister in and of itself But one of the few who is studying IVF children, Carmen Sapienza, a geneticist at Temple University School of Medicine in Philadelphia, is attempting to identify epigenetic differences among them. Epigenetic are changes in gene expression caused by molecular mechanisms other than mutations in the DNA sequence itself. He is particularly interested in a chromosomal modification called DNA methylation. We found that 5 to 10 percent of these chromosome modifications were

different in children born through assisted reproduction, and this altered the expression of nearby genes, Sapienza says. Several of the genes whose expression differed between the two groups have been implicated in chronic metabolic disorders, such as obesity and type 2 diabetes. Sound familiar? it should be, one suspects those IVF studies played some part in the techno jabs of today. Where is the range of follow up studies on this subject? why and what are they hiding? Are these soulless entities? Can test tube babies have a soul? Why would Source send a soul into what is essentially an inorganic creation? Bot 3: Synthetics, which can also use clones that have defects. Part of our problem is we don't "see" enough or generate enough data to process of what we are actually seeing, and resort to thought type provided by the system for us to understand or make sense of things. Most anomalies are dismissed and we create ridiculous excuses to avoid the unexpected or unexplained details of what we have seen, heard or felt. A synthetic is a skin suit that can cover the head and neck, head and chest for females, or a full body suit that to all intents and purposes is the person they are representing, but there will be subtle differences, and that is where people miss things or notice the difference and dismiss it. Synthetics are likely created using a 3D printing machine, remember when we were promised those machines, and like all others said to be beneficial it is denied, but not for rogue purposes it seems. Remember again, all technology is not new, and all technology will not be released to the public unless they can weaponise it. Once you grasp those realities, things then make much more sense and you can save time on the internet waiting for med beds (which resemble sleeping pods of the past), healing machines (when you are the healing machine), 3D printers will never be given to the public whilst the shekel people are around. Plus the 3D printer is anti creativity and humanity will lose it's key ability, to be creative. The 3D printer would enhance a bad human trait of laziness also. Laziness is not just in terms of work, although there are many who refuse that, but laziness to learn, think, act, deal with inner and shadow work, all aspects of why humanity always asks for the savior programs, by being too lazy to do for themselves. We at THI and TPC are changing that past failure, it is a key component for true soul development., which leads us into our next category. Bot 4: Hive minded bots, this is borne out of indoctrination, repeat after me, don't question anything and we are your authority or new parents to tell you what to do, how to think and how to live your life. Essentially these are organic people operating like an insect, which maybe indicative from where it was taught from, after all they do call the internet a web. Inter means between, among, in the midst, and so internet means between, amongst or in the midst of the net, like a trapped fish. But inter when pronounced differently as in ter, means to deposit a dead body in the earth or in a tomb. Remember we are all classed as dead because of our capital letters for our trade name, so the dead people still living although not recognizing as such are placed into the net, the net was to be your tomb. Now the internet has not worked as planned for the old system, as creative people used it against them, and like the children they are, they try to censor or ban content not approved by the overlords. Far too many people have adopted this bot level based on a bad trait of

humanity, the ability to be lazy. Lazy working, but worse lazy minded, it has been along with seducement our biggest downfall over time. Working and thinking are sub consciously food for the soul and development, without work and creativity, you become a sub version of a bot, allowing others to do and or think for you. This version of the bot, is a complete waste of a life cycle, zero development, service to self only, service to authority, which is essentially a savior program, and essentially born to remain a child, no matter what age they are. Bot 5: The hybrids, again this is a sensitive topic and brings up many questions, often personal of could I be a hybrid? The answer is yes, that is always a possibility, could be a slim possibility, but nonetheless it is a possibility. How is that possible? well the ET from the Aztec crash told the story of him dropping off children to this planet, when asked are they human? his answer was depends on your definition of human. How many of these children were dropped off? where are they? are they amongst us or used as lab rats? what was the purpose of it? is it genetic seeding of a different race of beings, as part of a claim system on humanity or this planet? Tesla was one of them, and we know little of how many more who came here. Having been the first show to reveal in detail the partial details made available from the Majestic 12 document, I am requesting full access here and now into the aether, to the remaining portions of the interviews that took place with that ET over a period of 8 months back in 1948. Humanity has the right to know, and I hereby request access to that information to disperse to humanity. We are entitled to know, just who or what we are, where we came from, why we are here now to be able to grasp, understand, process and heal the wounded parts to go forward with greater clarity, and from a position of full knowledge, grant me the opportunity to do that for us all. Whether you are a hybrid it doesn't matter what you are, organic human, Draco, Abraxan, raptor, crocodile race, it is how you conduct yourself, act yourself, are you service to self or others, do you have balance, are you being the best version of you? Are you being cooperative? are you being nice, caring, sharing and loving? are you operating with personal responsibility under the golden rule? because at the end of the day that is really all what counts. Ask yourself, are you all those things to the best of your ability? if not, correct it should you desire, that then is your own goal and improvements. Should you not desire them, you always have the option to fit in with Category 4, the hive minded bots. Recently there has been much talk of booster jabs, what is it boosting? too few ask. The hive minded bots assume they are boosting their immune system, yet taking the first jab eroded your immune system by 15%, the second jab eroded it by 35%, how much further will it compromise your immune system by adding a booster. Lets look at the word boost shall we, boOSt, if you take out the 3rd and 4th letters you are left with bot. An OS means an operating system, which is exactly what Be ill Gates told us this delivery system known as an MRNA is an operating system. We exposed the gain of function last year, and that was their money maker also, Gain-of-function is the euphemism for biological research aimed at increasing the virulence and lethality of pathogens and viruses. GoF research is government funded; its focus is on enhancing the pathogens' ability to infect different species and to increase their deadly

impact as airborne pathogens and viruses. Its focus is on enhancing the pathogens' ability to infect different species and to increase their deadly impact, infect different species? make more sense now? infect different species - oh my. So a boost is an operating system for Bot(s). At the end of the day, it is not who or what you are, whether human, humanoid, reptile, ant, mantid, if you are of a species capable of intelligence, the issue is how you be, and how you act. We will always have differences but the key to it now is, it is how you and we can come together and correct difference, and develop a world, a solar system, a galaxy one by one in a better way for us all. Real leaders don't force people to follow, they invite them on a journey, our journey is going well, never forget that in a world of madness and unsanity.
