

THI-SHOW TRANSCRIPT 2022-03-10

TPC Positive Action Monthly Recap February 2022 TPC Positive Actions decided to adopt a cooperative self-management structure. Team leaders will rotate according to the task at hand, as the group is eager to fulfill the TPC ideals through actioning a cooperative team model. The group co-wrote an 11-point meeting guideline. The PA Social Media team was given a presentation on typography in graphic design, by a member who is a professional graphic designer. The team is learning how to create visually impactful and professional designs. The team is creating content for social media and working to streamline branding for The Peoples Club, to assist in overall improvements to the website visuals. Promo Editing Team is making progress, and has completed one segment of promo video which can be combined with others or used on its own. The PA group is making progress with their new strategy. They are forming relationships with other groups, as numbers give more strength-and have seen mandates removed in schools in several states. If anyone has some time to help the team research for this strategy please consider joining us. The PA group would like to thank the FRWL gathering and the Self-Help gathering for their mission statements. If you have not yet done so, please submit your gathering's description/mission statement to the Mission Statement folder on the Positive Action CG page.

TPC Women's Groups Update: We have been discussing how to think from the heart and our next topic will be Defining Divine. While the number of members has gone down, the intensity and depth of the content has increased. We are bonding across the world.

The self help and support communal Gathering continues to address each individual members questions, issues and concerns as they arise. One member reported a disturbing dream from about 10 years ago involving a family member, rewrote the dream in a positive way, and now that family member has had a significant attitude shift. The group also addressed concerns about doing group meditations, that were obviously looshing and draining the meditators' energies. The issue of invoking a universal law that, there is no free will choice or real consent without that person having all of the information and full disclosure at the level, to be able to make a conscious, fully informed, free will choice was discussed. Another member discussed how in meditation, they saw black clamps on their DNA, and realized that it was an inorganic, antenna-type of ancient technology placed on all of Humanity's DNA, to pull in lower vibrational waves in order to keep us dumbed down. They then shared the revocation they did to remove those black interference clamps, and how they saw their DNA straighten up and then looked pristine and clear.

The Law Group was pleased to present the Intro to Cognitive Law presentation to the members, the first in their teaching series. Zoom was recorded and added to the self-study

curriculum. The Law Group added a few new members, and has joyfully prepared their next segment in the teaching series called the Fundamentals of Natural Law Part 1. Other than that, it was a quiet month as members are hard at work within their own communities and self-guided study.

The TPC Gardening and Non GMO Food Communal Gathering has welcomed a few new faces, and we are very thankful for the additional support in our ongoing production of the Gardening Guide. A lot of work has been completed this month. Through zoom discussions, we have formulated our mandate and it has been submitted to the Website team. The Vision/Mission Statement for the TPC Gardening and Non GMO Communal Gathering is: We are dedicated to restoring the earth to its former abundance and balance, by teaching communities to reconnect with nature and become food secure. The Vegetable Section of the Garden Guide is in the final editing stage. The Fruit and Nuts section is nearing completion and the Herb Section is making good progress. Since we now have a cohesive strategy for the gardening guide with everyone working on elements of the task, we have decided to go back to bi-weekly meetings. The zoom link can be found in the Community Gatherings Forum under the Gardening CG Zoom Link Topic. Whether you are new to gardening or an experienced grower, everyone is welcome to come learn together and share ideas.

Server Plan Summary: The purpose of the move is to provide for a better experience for the users and potential members of the TPC. To accomplish this, we want to have a large server that can manage the different resources that are currently provided by many servers. By doing so, we can have more storage, a faster server, faster internet speed and management tools that allow us to maintain the various programs we need, in an easier way than what is currently being done. In addition, this will allow us to create templates that can be used by others for future sites, and will allow for faster development of content for our websites and applications. The server will allow us to have room to expand the TPC community. Members involved in the project to date: Karl, David, Mike, Michael, Nick and Kellie. Launch Plan: March: Migrate Existing Sites, Design New Branding Material. This will involve the Thinkdifferent site and the THI-show.com In the Spring/Summer will involve the overhaul of The Peoples club.org site There will be Community features such as TPC video hosting and delivery. A TPC marketplace for the sales of goods by individuals and companies wishing to showcase their wares with a small donation to the TPC included. We are looking at hosting other sites with the TPC field as well at a later date, that way the TPC site is being paid back some of the costs to set this up, by hosting other sites approved by the TPC. A TPC chat forum is being planned and delivered as well. Also a TPC Document hosting center which will allow people to upload documents in a much easier fashion. A back up server is also being formulated. Once we have enough people to form separate groups, we can create a custom template and site for each of the categories, so that people can learn and group

within each of these communities. This is for the communal gatherings, the current crop of gatherings are law, gardening, positive action, grant writing & fundraising, teaching & learning, charter school curriculum, tax & finance, self help and the feminine action group, more will follow as we unfold. Things will be added to the THI-show.com site like indexing of all the shows to find the piece of the show you wish to read from the transcripts or to relisten to that show. Debating on whether we also host our own Patreon per se, whereby all the transcripts will be posted in a private section of the website and you make your donation through there, instead of the Patreon site which takes 11% of my funds from your donations. Debating at a later point the possibility of removing our connection to Spreaker as well, as there is the possibility we can do shows from our own platform on the THI-show.com site.

MEDICAL RELATED: The wealthy Sackler family, owners of Purdue Pharma, is set to pay \$6bn (£4.5bn) for its role in America's opioid epidemic under a new deal. The sum is nearly \$1.7bn more than a previous settlement. Purdue, which filed for bankruptcy in 2019 amid thousands of lawsuits, made drugs like OxyContin, and is blamed for fuelling the opioid crisis. Addiction to both legal and illegal opioid painkillers has been a serious, ongoing problem in the US. The country saw nearly half a million deaths from overdoses between 1999 and 2019, according to the US Centers for Disease Control and Prevention. Where is the indictments for the "government bodies" that approved these drugs?

Humorous watching the media trying to spin the death of a former world leading cricketer called Shane Warne at 52. He died of a heart attack they said, yes courtesy of the double jabs he had.

The messenger RNA from Pfizer's COVID-19 vaccine reportedly can enter human liver cells and be converted into DNA, contrary to what the CDC has said. A study by Swedish scientists finds that when the vaccine's mRNA enters human liver cells, it triggers a number of reactions that yield a reverse transcription that turns the mRNA into spike DNA. The scientists, in their study published in the journal Current Issues of Molecular Biology, state that they have found evidence that Covid-19 mRNA vaccine BNT162b2 is able to enter the human liver cell line Huh7 in vitro. They write that BNT162b2 (the Pfizer vaccine), is reverse transcribed inside human liver cells as quickly as six hours after injection. The Centers for Disease Control and Prevention said that the reverse transcription process is something that would not happen. The CDC like the FDA are liars and are committing high treason on we the people.

Florida Surgeon General Joseph Ladapo called the idea that masks saved any lives during the covid-19 pandemic a lie, and it needs to stop and people need to unbelieve it. Ladapo, who runs the state Department of Health, also said the vast majority of the medical community that supports masks are zombies. The manufacturers of the masks don't

believe it either, stating on the box not for use for Covid or viral diseases. I confronted a waitress a week or so ago for wearing a mask, and asked did the company force her to use it? Her reply was staggering and indicative, she said no, but she wears it for comforting purposes. Oh dear the levels of stupidity is rising it seems.

NEWS: Parents and citizens in multiple states around the country have taken to filing complaints against their local school boards, through Surety bonds and other insurance policies in order to see changes in masking, Critical Race Theory (CRT) and other school materials policies. Despite mainstream media attempts to label the strategy with propaganda buzz such as paper terrorism, sham legal claims and baseless, parents are winning. In October, 2021, Steve Socha in Ohio told the Indian Creek school board he intended to file a claim against their bonds, unless they lifted their mask mandate for students. Either stand down or I personally assure you I'm going to take action, Socha said according to the Herald Star. The wheels of justice will be brought before you, many of you could be in violation under the laws and statutes, this ends tonight. At its next meeting in November, the Indian Creek board dropped the mask policy. On Jan. 27, 2022 all 10 members of the school board in Scottsdale, Arizona, were served with 10 Notices of Intent each for practicing medicine without a license, child abuse, and inappropriate sexual material in school libraries. Each claim has a liability value of up to \$100,000. In Alaska, the Anchorage School Board is facing similar actions. Recently, parents in North Carolina have taken notice of the bond complaint strategy. School boards in some districts have been served with complaints, including Catawba, Dare, Iredell, Johnston and Wake counties. Of those districts, only Wake County has resisted changing to a mask-optional policy. Notices of Intent were filed against Wake County School Board members in January, with a main demand that, the district remove all enforcement of policies that require universal masking/masking without parental consent. More parents across the country are planning to file similar measures against their school boards, especially those facing elections. Iredell's school board was served at the conclusion of its meeting on Feb. 7 demanding an end to masking, quarantining exclusion rules, and pornographic materials in the district's schools. On Feb. 14, the board voted to make masks optional on the recommendation of their superintendent. In Dare County, the school board was served at its Feb. 8 meeting with 28 Notices of Intent against the district's Linebacker Errors & Omissions liability policy by the Dare County Citizens for Constitutional Rights (DCCR). At that same meeting, the Dare Board voted six to one to make masks optional effective immediately. Facing complaints to be filed by citizens, the Johnston County School board voted 6-1 on Feb. 8 to make masks optional, that happened on Feb. 14. What are Surety bonds? Surety Bonds are financial guarantees that bondholders will uphold terms of contracts specified in the bond agreement. All elected officials are required to be bonded, and the idea behind these bonds is to protect the public from malpractice or fraud by the officials covered by the bond. Some states have statutory requirements that local boards of education members must have a Surety bond.

Other states allow local boards of education to hold liability insurance, and therefore waive its governmental immunity, to cover damages caused by certain actions of agents or employees of the local board. A website called Bonds for the Win outlines the Surety process, including state codes and violations that can be used in complaints. There are three parties involved in a Surety Bond: 1. The principal—the organization or person purchasing the bond and accepting the obligation to adhere to the terms. If the principal fails to adhere to the terms, the Surety can be held contractually liable. 2. The company offering the bond, and 3. The obligee—the person or entity covered by the bond. In most cases, the obligee is a local, state or public official, but it can also be companies or their officials, unions and even contractors. To file a Surety bond complaint, a Notice of Intent to file a complaint which includes specific violation claims is sent to the bondholder. Typically, the notice gives a short timeframe for a response. If the entity served with the notice doesn't correct the violations within the specified response time, the next step can be filing a Color of Law violation notice. The federal Color of Law statute Title 42, U.S.C., Section 14141 is designed to defend the civil rights of citizens and to keep any authority from, using its power to willfully deprive a person of their constitutionally protected rights and privileges. It comes under two laws. 18 USC §241 Conspiracy against rights: If two or more persons conspire to injure, oppress, threaten, or intimidate any person in any State, Territory, Commonwealth, Possession, or District in the free exercise or enjoyment of any right or privilege secured to him by the Constitution or laws of the United States, or because of his having so exercised the same; or If two or more persons go in disguise on the highway, or on the premises of another, with intent to prevent or hinder his free exercise or enjoyment of any right or privilege so secured. They shall be fined under this title or imprisoned not more than ten years, or both; and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse or an attempt to commit aggravated sexual abuse, or an attempt to kill, they shall be fined under this title or imprisoned for any term of years or for life, or both, or may be sentenced to death.

18 U.S. Code § 242 - Deprivation of rights under color of law: Whoever, under color of any law, statute, ordinance, regulation, or custom, willfully subjects any person in any State, Territory, Commonwealth, Possession, or District to the deprivation of any rights, privileges, or immunities secured or protected by the Constitution or laws of the United States, or to different punishments, pains, or penalties, on account of such person being an alien, or by reason of his color, or race, than are prescribed for the punishment of citizens, shall be fined under this title or imprisoned not more than one year, or both; and if bodily injury results from the acts committed in violation of this section or if such acts include the use, attempted use, or threatened use of a dangerous weapon, explosives, or fire, shall be fined under this title or imprisoned not more than ten years, or both; and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse, or an attempt to commit

aggravated sexual abuse, or an attempt to kill, shall be fined under this title, or imprisoned for any term of years or for life, or both, or may be sentenced to death. We at THI were aware of this sometime back and decided to hold off on it, to prevent infiltration and or harassment of those involved in it. Maybe we can get Steve to be a part of the TPC law group and eventually become part of a team to take us forward.

Preparations are underway for the Holloman Air Force Base Legacy of Liberty Air Show and Open House planned for May 7 and May 8. Legacy of Liberty, which equals lol, fitting if you ask me. All the American achievements, and yet all they celebrate and speak of the country about is, war.

Israel's official Holocaust museum is imploring the US to exclude Russian-Israeli billionaire Roman Abramovich from sanctions, because it's worried it will hurt donations. Abramovich, who's among Russia's best-known oligarchs, and was born to a Jewish family, just last week made a generous, eight-figure donation to Yad Vashem, a spokesman said. Although the extent of his long-term contributions isn't known, Abramovich who immigrated to Israel in 2018 has given more than \$500 million to Israeli and Jewish causes in recent years, the Times of Israel reported. All about the money with them people, this is a shameless and shameful action, and says everything about the wealthy Jewish EL-ites. Forget the suffering that is caused, just show us the shekels.

I have been sent several videos this past week alone, not had time to watch them, but all depicting one thing. Jews supporting Ukraine. Is that indicative? if you have read or listened to the FRWL series, you bet it is.

The perverts at go ogle are at it again, using the classic tool of convenience for the consumer. Convenience supercedes common sense in far too many people it seems. Google has unveiled technology that can read people's body movements, to let devices 'understand the social context around them and make decisions. Developed by Google's Advanced Technology and Products division in San Francisco, the technology consists of chips built into TVs, phones and computers. But rather than using cameras, the tech uses radar radio waves that are reflected to determine the distance or angle of objects in the vicinity. If built into future devices, the technology could turn down the TV if you nod off, or automatically pause Netflix when you leave the sofa. Such devices would be powered by Soli, a small chip that sends out radar waves to detect human motions, from a heartbeat to the movements of the body. Assisted by machine learning algorithms, it would also generally allow devices to know that someone is approaching or entering their personal space. Ooh the security and safety line they keep rolling out, no it is another level of spying, just like the home security systems.

The Justice Department is launching a new initiative aimed at, identifying companies that exploit supply chain disruptions in the U.S. to make increased profits in violation of federal antitrust laws. The program, being unveiled Thursday by the Justice Department's antitrust division and the FBI, comes amid ongoing supply chain struggles and labor shortages in the U.S, that have plagued retailers since the corona virus pandemic began. Justice Department lawyers worry that companies may seek to exploit supply chain disruptions for their own illicit gain, the department said. And, if that's the case, the Justice Department and the FBI will prosecute antitrust violations they uncover, the department says. Those violations could include agreements between individuals and businesses to fix prices or wages or to rig bids, prosecutors say. The U.S. government also has formed a working group focused on supply chain collusion, meant to share intelligence and detect global schemes, with officials in several other countries, including the United Kingdom, Australia, New Zealand and Canada. All very 5 eyes that to me. Temporary supply chain disruptions should not be allowed to conceal illegal conduct, said Assistant Attorney General Jonathan Kanter, who runs the Justice Department's antitrust division. The Antitrust Division will not allow companies to collude, in order to overcharge consumers under the guise of supply chain disruptions. Whilst I applaud this move, the great question is why they allow oil companies to overcharge? all of which adds inflation, increased production and sales costs.

Credit Suisse has hit out after a massive data leak has brought to light the hidden wealth of several clients of the bank. Data on more than 18,000 bank accounts, holding more than \$100bn (£73.6bn), was leaked to German newspaper Süddeutsche Zeitung by a whistleblower. It includes personal, shared and corporate accounts, as well as those opened as far back as the 1940s. Nearly 50 media organizations have spent months pouring over the data. In their investigations, they suggest they have found evidence Credit Suisse accounts, had been used by clients involved in serious crimes such as money laundering or drug trafficking. But the Swiss bank rejected the allegations in a statement, saying it strongly rejected the allegations and insinuations about the bank's alleged business practices or lack of due diligence carried out. The matters presented are predominantly historical, in some cases dating back as far as the 1940s, and the accounts of these matters are based on partial, inaccurate, or selective information taken out of context, it said. In reports published by media organizations such as The Guardian and the New York Times, it has been claimed the bank opened or maintained accounts for high-risk clients, including criminals and individuals involved in human trafficking. Holding a Swiss account is not illegal and the leak also reportedly contained data of clients who had done nothing wrong. The data was shared with more than 40 media organizations around the world by non-profit journalism group, the Organized Crime and Corruption Reporting Project. In a statement published by German newspaper Süddeutsche Zeitung, the anonymous source explained their motivation for leaking the records more than a year ago. I believe that Swiss banking secrecy laws are immoral. The

pretext of protecting financial privacy is merely a fig leaf covering the shameful role of Swiss banks as collaborators of tax evaders, they wrote. No surprise there then, most are Rothschild's banks.

The GM of BIS owned by Central banks explains they cannot control the use of cash, but they can control how, when and who uses digital currency. It's the new game in town for government and bank total citizen control, and they love it. Still think the finger of the fake god, digit-al currency is the way forward?

Thankfully Texas was not subject to another burning Bush that talks last week. After George P Bush was not elected as the Attorney General for Texas. He is the son of Jeb Bush, I think this country has had about enough of the Bush crime syndicate in office. He was in a runoff against Republican Attorney General Ken Paxton, who despite a felony indictment and FBI investigation into accusations of corruption, yet still won, another of the two sides of the same coin game.

As CNN works to debunk misinformation about the war in Ukraine, some social media accounts are working to spread misinformation about CNN's own coverage of the war. A series of phony screenshots screen shots supposedly depicting CNN's reporting but that are actually fabrications that aren't from CNN at all, have spread widely on social media platforms over the past week. Haha nice try at debunking your own bunk of information, but you have done it many times CNN. The internet is littered with old pictures of the 2014 war in Ukraine, being passed off as the latest news. Put there by MSM and Agency clowns to form opinions, this version is just more extreme and co-ordinated than previously is all. All this is to bring in something else, likely the money program I mentioned in the review show. Stay focused and always watch for the hidden hand move.

BBC did a 55 second video showing allegedly the Russian convoy, perhaps they were protesting about Covid restrictions? BBC said Sections of a 40-mile Russian military convoy have been modeled in a 3D video using satellite imagery. Modeled in a video, what about the live footage? no references, no time date stamp or place markers proving where this convoy was situated, just embarrassing.

UKRAINE: Chinese rights holders have told the Premier League they will not broadcast English top-flight matches this weekend, because of the league's planned shows of support for Ukraine. It was not planned it went ahead immediately in all games, moreso at my own team due to having a Ukrainian player. The staggering acceptance is alarming, but not surprising as the bots following the media like children. But what happens next is the key? What are the possible scenarios? well here is one that would be all too predictable. What if the Ukraine deal is a total set up? Get the world to believe Russia is

bad, then the Israelis and US mercenaries invade Iran? Is this what the global EL-ite clowns were waiting for?

President Obama's Executive Order dated March 6, 2014 is very clear. Any person or organization that threatens the territorial integrity of Ukraine, or questions the legitimacy of the governing junta in Kiev, constitutes a threat to U.S. national security and foreign policy and will be placed under sanctions. That right there proves Ukraine is a proxy state connected to the Military junta in the US, Israel and NATO. The UN also came to a similarly clear position. It passed a resolution that affirms commitment to the sovereignty, political independence, unity and territorial integrity of Ukraine within its internationally recognized borders. Where this becomes a problem is that, according to a statement from UN Secretary General Ban ki-Moon, Ukraine is missing borders. Experts operating under the aegis of the UN Security Council came to the following conclusion about Ukraine's borders. Within the framework of international law, it turns out that, since the collapse of the Soviet Union, Ukraine has not been properly registered as a state, according to the UN demarcation of its borders. According to the accepted contractual framework of the Russian Commonwealth, or Commonwealth of Independent States (CIS), the country remains on the limits of the administrative boundaries of the USSR, over which the UN has no legal jurisdiction. The EU currently backs this position, the only established borders are on the European side. Is the U.S. going to sanction Ban ki-Moon? Will they drone the UN? When the USSR broke up and Ukraine was preparing to declare its independence, Russia set the terms for that independence based on Ukraine's membership within the CIS Treaty. On the whole, Yeltsin has been quite careful to avoid making statements which could evoke negative reaction in Kiev, but it is quite obvious that he has not welcomed Ukraine's independence. Yeltsin has been quoted as saying that, Russia reserves the right to review the borders with those republics that declared themselves independent. At the time, Russia's treaty rights to review the borders of Ukraine applied to areas that were largely populated by ethnic Russians, including Crimea, Donbass, and northern Kazakhstan. There has been interference in Kazakhstan and that is what caused the Russian's to act now. In addition, Russia claimed the right to protect its Diaspora population, no matter where they were located in the world. The CIS Treaty language reads as follows: The high contracting parties recognize and respect one another's territorial integrity, and the inviolability of existing borders within the commonwealth. This made Russia's recognition of Ukraine's borders conditional upon Ukraine's full membership in the CIS . Promulgated in 1991, it was the best guarantee of independence that Ukraine has received from Russia. Following this, the borders were further cemented by the 1997 Friendship Treaty. Fixed borders are a required standard for Ukraine's recognition by the international community and for any consideration of NATO membership. According to Dale B. Stewart, meeting this standard meant that all questions relating to the establishment of borders needed to first be completely resolved. Articles 2 and 3 of the Friendship Treaty were the most important for establishing fixed

borders between Ukraine and Russia. Lately, however, Article 2 has become a bit of a problem. It reads: The High Contracting Parties, in accordance with the provisions of the UN Charter, and obligations under the Final Act of the Council for Security and Collaboration in Europe, shall respect each other's territorial integrity, and confirm the inviolability of the borders existing between them. Understanding Borders: The process of establishing international borders starts with the treaties that bind the countries involved to their mutual recognition. In the case of Ukraine and Russia, those treaties include the original CIS Treaty and the Friendship Treaty. Creation of the borders begins with the surveying and mathematical work needed to establish approximate locations. The next step is demarcation, which determines the locations of border markers and crossings. To be recognized internationally, the borders need to be registered and demarcated at the UN, in accordance with internationally accepted standards and procedures. Lastly, the borders must be delineated, specified in the way you would see them on a map. Inherent Problems: With respect to Ukraine's borders, Ukraine borders with seven countries: Poland, Slovakia, Hungary, Romania, Moldova, Russia, and Belarus. The total stretch of the Ukrainian border consists of 4,345.24 miles. In reality Ukraine does not have real established and ratified borders with Russia, Belarus, and Moldova, all republics of the former Soviet Union. The borders with other countries were inherited from the Soviet border patrol service, which was recreated as the Ukrainian border patrol service after the fall of the Soviet Union. Ukrainian border patrol are not by and large Ukrainians, they are NATO, CIA and other paid mercenaries. The ambiguity inherent in Ukraine's borders can be illustrated by its border agreement with Belarus, signed on May 13, 1997. In its section on International Disputes, the CIA World Factbook states that, as of 2014, Russia's 1997 boundary delimitation treaty with Belarus remains unratified, due to unresolved financial claims that have stalled demarcation and reduced border security. At the same time, the delimitation of the land boundary with Russia is complete, and preparations for demarcation are underway. Nevertheless, because of twenty years of negligence in establishing and demarcating borders, Belarus is still disputing its boundary with Russia and the issue remains a subject of negotiation. The CIA factbook further notes that, the dispute over the boundary between Russia and Ukraine through the Kerch Strait and Sea of Azov remains unresolved, despite a December 2003 framework agreement and ongoing expert-level discussions. CIA factbook? factbook or facebook or factcheckers, all of which are bullshit. His story written in their own special juvenile way. Does anyone ask, why does the CIA have a say in another countries matters? Are they not acting like a proxy Government? How and why is this even allowed? Please send a postcard to the performing happy clapping seals that attended the State of the Onion, Union my ass, just onion because it stings peoples eyes and makes many families cry. What this means is, that the Ukraine is a proxy state set up by EL-ites particularly of a Jewish flavor, with a subset of ideologies that is eerily in common with the clowns that run the US and others Deep States, a deep hatred of all things Russian. Now why is that? consider this fact,

Russia has never attacked America once, yet Russia sent supplies to American fighters in the two main wars in the 1800's, without that support many more Americans would have died. This is an excerpt from a news site April 14th 2014. Lately, we have been treated to stories about Russia's non-stop military buildup at the Ukrainian border. We have been told that an estimated 40,000 to 150,000 Russian troops, are chomping at the bit to cross the border and wreak havoc across Ukraine. CNN, the Daily Mail, and every news outlet from the Guardian to the Wall Street Journal, and even Yahoo, have all reported the threat of such aggression by the Russian military. With every outlet peeping in unison, these reports make a great story, until someone looks at the border. When NBC looked at the border, it could come to no other conclusion than that Russian troops must be invisible. Sound familiar? 8 loop years later his story repeats itself. Ukraine is developing into another mass pity event and you all know what comes next, the begging bowl for the poor Ukrainians, except not a penny reaches the Ukrainians, only the shekel people. FB shamelessly posting for donations, let Zuckerberg pay for the damage to the Ukrainians given it is his ilk that created it.

In 2004 The US plus George Soros sponsored the Orange Revolution in Ukraine, orange being the operative word as in the House of Orange. In 2010 in a election, Viktor Janukovytyj came to power, Ukraine by then had become the biggest borrower to the IMF. IMF had its demands, but then the Russian Federation came to the rescue of Ukraine. In February 2014 Janukovytyj was disposed in the Madjan Coup, now the far rightist and the Svoboda Party was in charge, and terror reigned. Journalist were shot on the streets, TV-stations were closed, war on the Russian citizens, and 15k are killed. The IMF was now happy and did give a loan of 15 billion USD. On 13 November, 2019 a new law was passed, Nr. 2178-10 which gave the right to foreign Companies, to buy up 7 million farmers land that previously had been protected. All done by Monsanto, Dupont, Cargill, John Deere, Dow, Bayer, Weatherford, Schlumberger, Halliburton (Dick Cheney) Baker Hughes and Burisma (Hunter Biden). In 2022 at he security meeting in Munich Prime Minister Zelensky said: Time for Ukraine to have nuclear weapons, the man behind it was Ander Åslund from the think tank Atlantic Council plus the Carnegie Fund. His mission was to make Governments understand that they really need investments from foreign Companies. He is known as an advisor to Boris Yeltsin, also to former Ukrainian lawmakers and to the gas-company Burisma, which is where the Biden's comes in.

It is said that WW2 ended in 1945, actually no, it went on 3 more years in Ukraine against the Fascists that today dominate Ukraine. Even Adolf Hitler was in fear of them, they killed Jews, Rus, Poles, Germans, Ukrainians, everyone. During WW2 through today the CIA give the fascists in Ukraine weapons, money and their special version of education. Many of the owners of the multinational Companies that dominate Ukraine together with fascists, have their DNA from the Khazars that once controlled Ukraine a

long time ago. Evidence they are not who we think they are, Ukrainians or off world meddlers? It is said they want their Country back, which echoes what I warned about back in 2014, the flow of Jewish money and equipment that into Ukraine. The Khazarian's once dominated the Silk Road as we have mentioned in the FRWL Series, through road taxes and usury, plus protection racketeering, road killings and the use of mercenaries, just like the modern Khazarian Mafia is doing today. This also brings in the Sarmatians which was mentioned recently, annexing what is now known as Crimea, Snake Island and Odessa. Their territory, which was known as Sarmatia corresponded to the western part of greater Scythia, it included today's Central Ukraine, South-Eastern Ukraine, Southern Russia, Russian Volga, and South-Ural regions, also to a smaller extent northeastern Balkans and around Moldova. Another name they had was Sauromatians, Sauro means dragon or reptile. These are the people that are immune to all plagues and pandemics remember. They hate the Rus that once destroyed their Empire.

A group of more than 40 human rights activists have filed a petition with the High Court of Justice, demanding the cessation of Israeli arms exports to Ukraine. They argue that these weapons serve forces that openly espouse a neo-Nazi ideology and cite evidence that the right-wing Azov militia, whose members are part of Ukraine's armed forces, and are supported by the country's ministry of internal affairs, is using these weapons. An earlier appeal to the Defense Ministry was met with no response. The ministry's considerations in granting export licenses for armaments are not disclosed to the public, but it appears that the appearance of Israeli weapons in the hands of avowed neo-Nazis, should be a consideration used in opposing the granting of such a license. Nevertheless, this is not the first time in which the defense establishment is arming forces that embrace a national socialist ideology. In the past, Israel has armed anti-Semitic regimes, such as the generals' regime in Argentina, which murdered thousands of Jews in camps while its soldiers stood in watchtowers guarding the abducted prisoners with their Uzi submachine guns. Like I have said all along, these types of Israelis care nothing for the Jewish people, and will exterminate them in due course, unless they join with us to defeat this common enemy. According to a freedom of information petition to Israel's defense ministry from last January, Israel also armed Bolivia's military regimes, knowing that Nazi war criminal Klaus Barbie was part of the regime. Legal documents used to convict the head of the junta also showed that Barbie's death squads used Israeli Uzis. In the case of Ukraine, forces using Israeli weapons are openly stating their support for racist and anti-Semitic ideas in various publications. The Azov militia was established in Ukraine following the Russian invasion of the Crimean peninsula in 2014. The militia's emblems are well-known national socialist ones, its members use the Nazi salute and carry swastikas and SS insignias. Moreover, some of them openly admit they have neo-Nazi sentiments and that they are Holocaust deniers. One militia member said in an interview that he was fighting Russia since Putin was a Jew. Sound familiar? that article was from 2018.

After Ukrainian President Volodymyr Zelensky claimed that Russia had attacked the Babi Yar Holocaust memorial in Kiev in an attempt to erase our history, but an Israeli journalist visited the site to discover that it was in fact unscathed. Legacy media outlets breathlessly reported on Monday that the memorial had been deliberately attacked by an air strike, amplifying Zelensky's claim that the destruction was beyond humanity. The Russians have orders to erase our history, our country and all of us, Zelensky said, you killed Holocaust victims for the second time. Nice rewriting of his story by the CIA comedian puppet based clown. However, the attack had actually targeted the nearby television tower and the memorial was not damaged. The memorial was not harmed and no bomb, missile or artillery shell hit the site itself, it was reported.

The Expose series proven in this 12 line piece. Just two days after GreatGameIndia reported that secret US Biolabs in Ukraine could be a targeted by Russians, now the US Embassy has removed all evidence of bio-weapons labs in Ukraine from their website. As Russia begins to assault military sites in Ukraine, there is suspicion that the US Bio-labs, which were built in Ukraine for the purpose of research and defense, would be targeted as well. Under the Biological Threat Reduction Program, the US has six such facilities in Ukraine. This has led to several people wondering if Russia is actually targeting the secret US bio-weapons labs in Ukraine. Now, the official US embassy website has removed all evidence of bio-labs in Ukraine. These bio-labs are funded and jointly operated by the US Department of Defense (DOD). This comes at a time when the world population is waking up to the reality of gain-of-function bio-weapons research, lab leaks and predatory vaccine and diagnostics development. These bio-labs generate pathogens of pandemic potential, that exploit human immune systems and are the foundation on which medical fraud, malpractice, vaccine-induced death and genocide originates. Biological threat reduction, are these people taking the piss, they are a biological and or mechanical threat to everybody at this point. What Covid and this war has shown is, more and more of who are the players for the rest of the world to wake up and see. US Military exposed, US and 5 Eyes Agencies exposed, Media exposed, Government exposed, Hospitals and Clinics exposed, Fake Government Contractors exposed, Israeli junta exposed, Jews operating as Fake Russians exposed, Pharma companies exposed, NATO exposed, bio labs exposed, gene therapy exposed, the Trustee and bloodline families exposed, gouging Corpirates exposed and the true levels of evil exposed. For the Alt Media and those joining us it is been confirmation after confirmation. The next step is, what actions do we take to tip this abomination out of the game altogether?

EXPOSE: According to people who spent their careers working for the Defense Finance and Accounting Service, the books are cooked as Standard Operating Procedure, there are thousands of transaction per month without any supporting documentation and money is

spent without Congressional allocation. Defense Secretary Jim Mattis was a driving force behind the audit. He has suddenly resigned and his new replacement is Patrick Shannahan, who spent 30-years working for Boeing, the Pentagon's second largest beneficiary of our tax dollars. Having Shannahan in charge of military spending and ongoing audits is an egregious conflict of interest. It is therefore not surprising that the audit has been delayed and de-prioritized. Shannahan was working with the Trustee at one point, oh my. The Washington Post reported, The audit effort is complicated by a leadership transition at the highest levels of the Pentagon. The first audit was spearheaded by David Norquist, an accountant and longtime official who serves as comptroller and Chief Financial Officer. But after Shanahan was elevated, Norquist is now performing the duties of the Deputy Defense Secretary. Lawmakers said they are concerned that Norquist's dual roles, could draw his attention away from audit activities as the Pentagon functions without a permanent secretary. A Defense Department official speaking on the condition of anonymity said, Norquist is still driving the audit even as he takes on new duties. In addition, John Gibson, the Pentagon's first-ever Chief Management Officer, who was specifically focused on finding missing money, abruptly resigned in September. The Wall Street Journal reported that he was relieved of his duties by Defense Secretary Mattis for lack of performance. Accounting Fraud Legalized: Thus far, the only significant change to come out of the Pentagon Audit was the scandalous new accounting law SFFAS 56, which legalizes accounting fraud by allowing unaccounted for money to be classified and redacted from public budget reports. If that is not evidence of fraud I don't know what is, yet again using the classified bullshit, when it all should be transparent for the public paying for it. In fact, the most recent DoD IG audit report from the series of reports, that were revealing trillions in unaccounted for spending had all the accounting numbers redacted. The Intelligence Community, led by the CIA, in fear of being held accountable for the first time ever, was able to get this shocking wavier inserted into government accounting practices. What a surprise the Ciakars did that. The National Security Act needs to be revoked, and a new transparent one written up and passed, that does not allow any organization to cover up criminality. SFFAS 56 now gives them wide-ranging legal cover to conceal how much money they are actually spending. Simple solution is, cut their budget by 2/3's until they comply with a full audit and transparency, problem solved. The DoD IG reported, The guidance appears to allow entities to misrepresent their public financial statements, this conflicts with the AICPA requirement that an auditor assess whether an entity's financial statements can be considered a fair representation of its use of Federal resources. In a report featured in Forbes, Laurence Kotlikoff and Mark Skidmore summed up the situation, several months after beginning the Pentagon audit, the Federal Accounting Standards Advisory Board (FASAB) posted a new document, which recommended that the government be allowed to misstate and move funds in order to hide expenditures if it is deemed necessary for national security purposes. Also troubling is the fact that Standard 56, can include publicly traded corporations with significant funding and/or federal government control.

With the change in accounting guidelines, which is a full departure from Generally Accepted Accounting Principles (GAAP), only a few people with high level security clearances have the authority to determine, what is deemed to be an issue of national security and these same people will now be allowed to restate financial statements, in order to conceal actual expenditures without any disclosure. Simple solution to that is, remove the security clearances, and then make it all available for discourse, another thing the Trustee could have done, and didn't listen. No one but those few people would know that such modifications were made, thus making evaluation of government financial statements impossible. From this point forward, the federal government will keep two sets of books, one modified and useless book for the public, and one true book that is hidden. The FASAB recommendation effectively institutionalizes opacity in federal financial reporting. Up till now, many aspects of federal finances have been non-transparent, because the government has failed to comply with existing financial reporting laws. However, at least citizens had the laws working in their favor. Now citizens have no recourse, opacity is now the law of the land, controlled by executive branch authority and policy. Accounting rules are often thought of as boring and unimportant, in this case, it's not the case, the new FASAB ruling has enormous and highly dangerous implications for our nation. Seventeen years after 9/11 and we still can't get out from under the it's for national security, don't worry about it rubber-stamping of too much data and information that shouldn't, and otherwise wouldn't, qualify as needing to be classified," says Mackenzie Eaglen, a defense analyst at the American Enterprise Institute. As several prominent senators have repeatedly said, information is often classified to cover-up corruption. Senator Grassley (R-IA), Chairman of the Judiciary Committee, and Senator Wyden (D- Ore.), who is on the Senate Select Committee on Intelligence, have consistently expressed deep concerns over how information is often classified to cover-up corruption. Grassley and Wyden are senior Senators who have been in pivotal positions to know about classified matters for an extended period of time. 6. Fixable Pentagon Accounting Problems Ignored, Well-Proven, Long-Established Systemic Failure to Address Known Critical Issues: A Reuters investigation revealed, which is interesting given Reuters is CIA news, evidence of faction fighting? you bet. A review of multiple reports from oversight agencies in recent years shows that, the Pentagon also has systematically ignored warnings about its accounting practices. These types of adjustments, made without supporting documentation, mask much larger problems in the original accounting data, the Government Accountability Office, the investigative arm of Congress, said. Plugs also are symptomatic of one very large problem, the Pentagon's chronic failure to keep track of its money, how much it has, how much it pays out and how much is wasted or stolen. As Reuters summed it up, an organization that fields the most sophisticated technology in the world to fight wars and spy on enemies, has come to rely on an accounting system of antiquated, error-prone computers. These thousands of duplicative and inefficient systems cost billions of dollars to staff and maintain, and efforts to replace these systems with better ones have ended in

costly failures. Of course they have as, they made sure the systems would not work to cover up their theft, fraud and criminality, if that was not the case, why cover it up? It all adds up to billions of taxpayer dollars a year in losses to mismanagement, theft and fraud. Two previous Defense Secretaries have publicly acknowledged shocking fraud throughout military spending. Donald Rumsfeld summed up the Pentagon as a black hole, where tax dollars disappear by the trillions and called the accounting problems terrifying. Remember it was Rumsfeld on September 10th 2001 who reveal the Pentagon has "lost" \$2.3T. Robert Gates said he couldn't even get answers to questions such as, how much money are you spending? let alone what it was being spent on. Gates summed up the crisis by saying that there are unaccountable fiefdoms operating throughout the Pentagon. No one knows how many secret financing and accounting systems there are. In an interview with Reuters, former Deputy Secretary of Defense Gordon England said, there are thousands and thousands of systems. I'm not sure anybody knows how many systems there are. The Pentagon once estimated that there were 2200 of them, however, a little-noticed 2012 report by the Defense Business Board estimated that there at least 5000. There was near 900 foreign US bases and no one knows the true figure of that either. Subcommittee Chairman on Federal Spending Oversight Senator Rand Paul (R-KY) recently expressed his frustration with the Pentagon's accounting crisis by saying, the department charged with carrying out our greatest Constitutional responsibility, has set the lowest possible standard for accountability. William Hartung, director of the Arms and Security Project at the Center for International Policy, summed up the accountability crisis at the Pentagon by saying, call it irony or call it symptomatic of the department's way of life, but an analysis by the Project on Government Oversight notes, the Pentagon has so far spent roughly \$6 billion on fixing the audit problem with no solution in sight. If anything, the Defense Department's accounting practices have been getting worse. While the Pentagon has been able to ignore the law requiring full-scope department-wide audits, the DoD IG has conducted audits of military spending where corruption has been detected. As we have seen in the reports on trillions of dollars in unaccounted spending year after year. Here are a few highlights summarizing DoD IG Audit Findings. The financial management systems the DOD has put in place to control and monitor the money flow, don't facilitate but actually prevent the DOD from collecting and reporting financial information that is accurate, reliable, and timely. DOD managers do not know how much money is in their accounts at the Treasury, or when they spend more than Congress appropriates to them, nor does the DOD record, report, collect, and reconcile' funds received from other agencies or the public. That is a staggering indictment and statement to make, it seems the DOD is like a license to print and use money at our expense. The DOD tracks neither buyer nor seller amounts when conducting transactions with other agencies. The DOD frequently enters unsupported, in other words imaginary amounts in its books and uses those figures to make the books balance. The DOD does not know who owes it money, nor how much, audit trails are not kept in sufficient detail, which means no one can track the money. The DOD's Internal Controls, intended to track

the money, are inoperative. Thus, the DOD cost reports and financial statements are inaccurate, and the size, even the direction in plus or minus values of the errors cannot be identified. The DOD does not observe many of the laws that govern all this. Winslow Wheeler, who worked on national security issues for the U.S. Senate and Government Accountability Office, summed it up. If you have a system that does not accurately know what its spending history is, and does not know what it is now, and does not care to redress the matter, how can you expect it to make a competent, honest estimate of future costs? It is self-evident that an operation that tolerates inaccurate, unverifiable data cannot be soundly managed, it exempts itself from any reasonable standard of efficiency. It is as if the accountability and appropriations clauses of the U.S. Constitution were just window dressing, behind which this mind-numbing malfeasance thrives. Technically, this is a violation of the Anti-Deficiency Act, a statute carrying felony sanctions of fines and imprisonment. A staggering report of which Part 3 will be in next weeks show. You wish to solve the American debt and money flow crisis, then this group should be the first to be dealt with. The simplest solution is, cut their budget by 2/3 at the next round of budgeting, and tell them they have 12 months to account for every penny, or the next budget will be zero. People may say but we will have no defense, in reality land these people have never defended America the country, or more importantly it's people. That is the unpalatable harsh truth, can they provide evidence to the contrary? I wouldn't hold your breathe awaiting on it.

A word I have used a few times recently Pathocracy, how does it describe today events, groups and peoples? The first phase of macrosocial disease, i.e. social hysterization, is the opening through which pathocracy manifests. Such a period of societal spiritual crisis is associated with the exhausting of the ideational, moral, and religious values heretofore nourishing the society in question. Individuals and groups grow increasingly self-serving, and the links of moral duty and social networks loosen. People become concerned with trifling things, ignoring more important issues such as commitment to the future, or involvement in public matters. The most characteristic feature of such a period is widespread hysteria, like that of the quarter century in Europe preceding WWI. The happy times of peace are necessarily dependant on social injustice, and children of the privileged class learn early to repress ideas that, they and their families are benefiting from the injustice of others. Such unconscious defense mechanisms cause these individuals, to disparage the values of those whose work they exploit. These processes lead to an hysterical state of inhibited logic and reasoning. This rigidity of thought then gets passed on to the next generation to an even greater degree. The hysterical patterns finally get passed from the ruling class to the less privileged classes. This characteristic contempt for factual criticism, for normal thought patterns and nations, obviates the need for media censorship. A pathologically hypersensitive censor lives within each citizen. This has been repeatedly demonstrated by the American media in relation to the omissions and distortions of the Kean-Zelikow 911 Commission Report, the propaganda

leading to the Iraq war, the death toll of Iraqi citizens, the reality in Palestine. When the three egos govern, egoism, egotism, and egocentrism, the feeling of social links and responsibility toward others disappear, and the society in question splinters into groups ever more hostile to each other. When a hysterical environment stops differentiating the opinions of limited, not-quite-normal people from those of normal, reasonable persons, this opens the door for activation of the pathological factors of a various nature to enter in. This hysteroidal phase is often followed by a period of war, revolution, genocide, and the fall of empires. That is pathocracy, well we are in a period of war and have been for some time, the war of the mind. Revolution is underway across the world, and they use genocide to suppress it. The fall of empires is unfolding as well, country empires, banking empires, conglomerate empires, resource based empires are all unraveling now. The age of the off world Empire is being dismantled as we speak, and eventually will lead to a much happier, fairer and peaceful planetary environment.

OTHER PIECES: Some years back I mentioned about the planet going back on it's axis, was that possible or something made up? Perhaps this latest piece is another confirmation, interesting that we have had a few of these types of pieces confirming varying pieces I have put out over the duration of the shows. Is science catching up or the Apocalypse increasing? This spurred the magnetic north pole to slip closer and closer to Siberia, where the magnetic intensity was stronger. Earth's magnetic north pole went from shifting nine miles at most each year. As of 2021, the pole was projected to have moved beyond the Canadian Arctic. It has been drifting at an average speed of 27.3 miles per year since 2020, according to the latest World Magnetic Model report. Apocalypse means to reveal, not some doomsday dystopian future.

An interesting story on Sott.net got me thinking, especially after show a week last Tuesday. It covered the story of a Nazi is how it was labeled, that was brought over to America under Section 8 of the CIA Act around 1949, by the CIA. This act allowed the CIA to bring 100 people in per year and not reveal them under the National Security Act. How convenient. Turns out the "Nazi" was a Ukrainian citizen, who had tortured people mercilessly in camps, mainly Poles and Jews. He Mykola Lebed was stated to have been involved in torture at camps, as this piece states. At sundown, Kruger, Rosenbaum, Lebed and a few students would go to Zakopane, enter some Jewish home on the way, grab a Jew, and bring him to the Unit. One evening, late in November or early in December 1939, they returned with a young Jew. In the presence of Ukrainian seniors, including myself, Kruger and Rosenbaum, fortified with alcohol, proceeded with their demonstration of the proper methods of interrogation. Kruger, Lebed and Rosenbaum are all Jewish names, which supports FRWL that, the so called people of the Jewish religion where killing their own people in camps, prisons and science centers. Now whilst the focus will be on what was done to Jews, lets look behind the mirror and what do we see? Lebed who it is said was a Nazi, and so under the official narrative that means you love

everything white, and hate non whites and in particular Jews. Yet Lebed was killing Poles in the war, fought against Germany and then Russia according to the article. Why would a so called white supremacist fight white Russians, Germans and Poles? Does this make any sense? no, then it is a program then. So, what is the program? well, I believe the "Ukrainians" in particular their forces are, mercenaries bought and paid for by the Jewish El-ites to deliberately destabilize the region. I have heard many reports of these "Ukrainians" committing murder and other atrocities against the Polish people. Now lets look at the fact that Ukraine doesn't officially exist as a country or region, as per the UN Charter, now why is that? One strong possibility is, those in Ukraine may not be of our world at all. The very fact the CIA are prominent there adds to the possibility, maybe the term CIAkars was right all along. The Draconian's are a very large reptilian race, otherwise known as the Dracs. Remember the Dracs ran Rome during the so called Roman Empire, another lot that went through Europe killing loads of the white race. There is royal line of the reptilian race called the Ciakar. They are arrogant, aggressive and don't care for any life form except their own. They are for the most part Service-to-Self and do not care for the human race, because when they were dumped here they were told that this universe was theirs to command. Does that description fit the CIA? arrogant, aggressive, their own ends, service to self and don't care for the human race? Remember the CIA torture techniques that was hushed up? with this Lebed guy they brought in also taking part in torture, and the fact the CIA appointed as their head another torture based interrogator, that was also covered up I might add, with Avril Haines, who was born to. Then the startling conclusion is, the CIA are at the top at least an off world terror group, set up to destroy many countries and it's people around the world. Their levels of evil don't make sense, unless of course you add in the off world connection.

I posted a picture of the Queen greatest hits album cover the other day, full of symbolism we have all come to understand better. But what struck me was the shape of the letter Q was like the Eye of Ra. Perhaps the QR code has more meaning now as well.

We reported recently about the letter Z on military vehicles and also the letter V was reported. Now Ukrainian athletes are wearing the Z on their shirts. Given the recent shows, it is Z for Zionism? Z for Zeta's or Z for victory some say. Z for victory brings in the goddess we have mention often recently, Nike. Given some Ukrainian people and I use that loosely have used certain symbols like the swastika, which was turned 90 degrees from the original use of that symbol. Turn the Z 90 degrees and you have the letter N, are they taking the left hand path of Set? Which is all part of the Great reSET?

This was sent by a member and said maybe the old Welsh language helps with your analogy. The Welsh word for grass is glaswellt or blue straw, hence the term blue grass? The Scottish city of Glasgow is actually a Welsh word from when southern Scotland was Welsh meaning green hollow.

In the mind control psychology game, that creates divide and conquer, it is often the use of colors that delivers the message. Yes they use coloring to deliver the mind virus, just ask Disney for that proof, all part of the subtle MK Ultra we have all been bombarded with. We have spoken about green recently and all the connotations of that color, even though technically it is not a real color, but like the Matrix movie an overlay. Think of it in terms of an extra in the movie, just there in the background as a filler for the scene. The media is ran on green screen technology that masks stuff out they don't wish you to see, does anyone ask why they would do that? Clearly they have something to hide. But two other colors have crept into the mind virus program, it is on buses, pharma labels, Covid stuff, many adverts, and now football stadiums, buildings, posters and banners. Those colors are blue and yellow, which when mixed as a paint makes "green", is it a coincidence that is the color of the Ukrainian flag. Not in a cat in hell's chance. Now that is another of the throw away lines we use, but never taken the time to understand it's origins. Cat in hell's chance is actually, a shortening of the more explicit no more chance than a cat in hell without claws. Although cats are remarkably well-adapted for survival nine lives and all that, are they immortal? and have they taken the Metatronic coding? haha. Their claws are formidable weapons in that context. In an earlier age where cats were largely expected to feed themselves by catching mice, etc., a cat would have a hard time surviving anywhere without its claws, it certainly wouldn't be expected to thrive in Hell. But here is the kicker, cats couldn't be in hell because? In ancient times cats were the Guardians of the Underworld.

Lets go back to an earlier show piece October 2019. This is a comment from one of the members, "Let it go" is a term we use frequently in my practice, open the mind to all possibility, mind is infinite, there are no limitations only those self-imposed. That is at the essence of Aikido, let go, become one with source, have vision, become the kind of human you choose to be, and build the life and society you choose, based on a foundation of love and protect all creation, help all things grow and develop, got my work cut out lol. The key is to put that practice to work and gain mastery, it always disturbs me that they called the doctors work center a practice, a practice is for the non learned is it not? all in the words. We are all still learning, that is called progression, the old learning ways was stagnation, it was designed that way. If you stagnate on linear time, you go backwards, on vertical time you stand still, most people currently operate on linear time, but like the see saw analogy the key is to climb, not stagnate. Very soon in fact in some aspects it is already underway, humanity will face their very own D Day and their version of the Dunkirk landing, were we come out of the sea, having been declared dead at sea under the maritime law. The sea with all it's fury surrounded by a mist of fog, so no one could even see the beach, never mind landing on it, that fog is now clearing rapidly for many, and the beach is in sight and reach. Once you have achieved that and are now out of the sea and away from all the sloshing about of the waves, endlessly tossing and turning,

frothing at the beach edge, undecided whether to land or go back into the sea of illusion with the masses, you will run a new gauntlet up the beach, will you avoid that by putting your head in the sand and subsequently be washed out to sea again? Or plough forward regardless, but running up the steep and hazardous beach with people firing at you, not with guns or bombs, but with words, lies and projections thrown at you, all designed to pull you back into the swirling frothing mass of the sea. Once at the top of the beach or the fulcrum, you then have another test, do you sail down the other side and join the hidden hand of darkness in the pit? or do you become the non hidden hand and reach out and pull others out of the sea of discontent? Some will say you can't reach the people from the top of the beach, I will say not on your own you can't, but if you use your imagination, you will join hands with others on the beach and form a chain to reach your goal. Whether you are on the land or the sea we are creating a new blueprint of what it means to be human, all other attempts failed, because they repeated the same process. When the we becomes the I on the internal, and the I becomes the we on the external, the path of the sword is forged, we all fell for the sickness - that is why the word is called ILL usion, because we all became sick on it. Another way of thinking on it is, U Zion are ill and we are the antidote.

Tuesday's show brought it all home in many ways, a cathartic clearing of the decks so to speak. If that show did not impact you in a big way, you are either lying to yourself, hiding from the truth or part of the problem. Was it brutal? in some ways yes, but there is nothing more brutal than living the lie. Living and playing the illusion game has not served us well, only the system they created for us. It also put all who listened to that show on notice, there are no excuses now to not do anything. It was your own version of Judgement Day, the day of at one ment and or atonement. Part of our collective laziness is why this world is in a mess, infighting, arguing, ego issues all contributed to the situation we now face. But, the sheer scale and depth of the deception was so wide ranging it beggars belief. So called Source warriors, emissaries, Ascended Masters and such, all falling for the same two tricks of the dark. The seducement or dangling carrot, and the hidden hook ego, and one by one they all fell. The bible is now declared a semi fictional story based on their perspective, and hardly any of it is connected to us. Religion has to go off this planet, and the churches and their dark forces minions, be it priests, popes, bishops or pastors, knowingly or not, need to tell their parishioners the truth. Church encourages child level people wanting the comfort of a savior, like mom and dad putting an extra blanket over you in the winter when tucking you in bed. But the savior has never arrived has it? Not once did their savior come, and yet billions carry on generation after generation believing the same illusion at best, outright lies at worst. Do you know why the savior never arrived? because the savior was actually you all along. We need our people to raise up their frequency, and to do that, church and religion has to go, it is time for adult pants, not diapers.

It is clear to all by now we need change, not change for the sake of it, but real change for the better. To do that we had to lay the foundation for such, and that is what the Peoples Club is for and has done. To do that we also have to take personal and collective responsibility for ourselves, others and the planet. We have individually and collectively neglected that duty to date, and whilst there are some excuses, overall they fall short on an overview level. We have gone some way to rewriting our history with the FRWL series, and in some ways the whole of the Must Listen to section, which now stands around 60 extra shows, detailing a whole gamut of revealings. But, we at THI can't just sit back and complain, we have to come up with solutions to fix the problems, and a show will detail that soon, that will then facilitate a larger project planned. But, we need to bring truth and clarity as well as honor and integrity, as they have to be the premise of any future guardianship under our stewardship. That being said, we have invaders in our midst, these are the entities behind the wars, drugs, vaccines, child trafficking, banking, Governments and corporate conglomerates. The same ones who took over our natural resources of all varieties, and hold us hostage via prices that creates a society of scarcity and have not's mainly. Look at the Covid slide away narrative, Ukraine, that has sent gas prices here surging 80 cents in one day. Now why is that? because the market people, which is them again, got spooked over war as it is told to the public, when these are the very same people who created it. It is all the same practice of harvesting the people, over and over again. Lockdowns came with a triple price, thanks to Trump and the Trustee, the cost during the lockdowns and the increase in taxes to cover the cost of the lockdowns following it. So, the pathetic \$230B the people got out of a \$2.2T budget plan, is swallowed by a fake tax called inflation, and then they put the State and County taxes up to cover "their" losses. Meanwhile the debt ceiling went up, which will enable them to charge the public more extra costs, a triple whammy. Follow the money in all cases, leads to who is the problem. Last week I mentioned about the off world unmasking themselves, which got me thinking. Upon pondering, I decided we would do a revocation against the off world entities operating here under masks of illusion. This is against Cosmic Law as they have to tell us what they are doing, and reveal who they are. It is clear now there has been invaders here for a long time, and we the people who are the Guardians here, have to be able to guard and run our own planet, in our way and our image. If you agree say out loud I consent or by text/chat message yes. We the people demand you remove your masks and show the real versions of you, you are not us you are a poor imitation of us. We the people demand that you step down from your fake lofty positions and control over us, and come and work with us, The Peoples Club, to ensure a smooth transition as best as possible. We the people demand a full global exposure of the truth to be delivered to all countries simultaneously, at a venue that is safe to do so. We the people demand an exit strategy for your end, and we will do a phased in strategy of how to restore this planet and all it's people. We the people demand you hand over a large portion ill gotten gains over to The Peoples Club in order for us to rebuild the people and the planet in our image, not yours. We the people demand to hand over the Trust to The Peoples Club for

better and fairer distribution of our energy, all previous incumbents have failed due to agendas, the last incumbent can carry on in some capacity if she drastically changes her ways. It is the Day of Svarog and your time here is short, time to work off some karma and come and help us rebuild the damage you caused.

What is unfolding now on a global scale should not come as a shock to our members. The clowns have now launched a new war, I will call it the Global National Security Act. An attempt via the media to erase history, facts, truth as well as covering up the act of criminals, of which the media are apart of. The Global conspiracy theory known as Covid, has well and truly disappeared into the media green screen mist, that green screen is the equivalent of an new veil, that spread like a blanket around the world. Have you noticed yet? there are plenty of media scripts talking about the war, yet curiously although predictably no actions other than financial penalties? The great war machine America stands there watching it, the great Rothschild's private army called NATO stands there watching it, the great world's police the US Military stands there watching it. Does that make any sense? Two reasons for that, one NATO and the US military only attacks weakened countries, and two, they somehow are letting this unfold for other agendas. The other agendas are, the war for your mind, secondly to cover up the expanding criminality of the pharma conspiracy, third slow down the business because monetary supply for them is low, fourth introduce more Fascist measures on the control of the internet, five make Russia the pariah nation, and six the biggest factor we covered on Tuesday, increase negativity and fear to lower the vibration of the planet. As a side issue that impacts us at THI and TPC is the FRWL book, how will that be received now? With the treasonous media, they are public enemy number one now, writing shit on an unprecedented scale and people who were beginning to question Covid, the media and their Governments maybe now will be distracted by these other events. Already the media have started the fear and threat of nuclear war, based on what? nothing. You see the problem? they have been allowed to write and say what they want, mostly to create fear. Fear is their new currency, but fear is the last resort of those who are fearful for themselves. That must be remembered at this juncture, they are creating a fear factory which is a mirror of themselves. With some of the sanctions playing out now, which is a pathetic and weak response to a so called global threat, business will grind to a halt again, countries will go bankrupt, jobs and businesses will disappear in record numbers, not to dissimilar to what happened during Covid, and we survived that remember. This provides an opportunity for countries to become sovereign in terms of trade, countries not trading means they have to develop those commodities themselves, this will lead to an increase in jobs and economies for many. Most of the trade deals is to enable the war machines to harvest everything, be it Military or Agency clowns. So, this can be a good thing. Like the credit card transactions, the Pentagon, Federal Reserve and others are taking a percentage of every credit card transaction, with a new system align with cooperative in house businesses, we can cut out that theft altogether and make everything cheaper,

create more sustainable jobs and more thriving businesses. All kept in our own house called The Peoples Club. The Peoples club needs more funds for us to build what we are doing, and no I am not asking for extra from just the 130 people who do put in each month, I am asking for the thousands of other members to put there hand in their pockets for once. 130 people contributing to the clockwise venture is a poor effort on our part, for those new no one gets paid out of The Peoples Club for services rendered, including me even though I run most of it. So unlike others we could mention, we are not doing it for personal gain, this is for us all to develop. So, get your hands in your pockets and come and help us achieve the unthinkable, and build a global community in a better way. Come up with your own solutions of how to collect funds in your own communities, not ask me of what I think. Don't bring me your personal problems I have far too much to do now, bring your time, effort and solutions to the Communal Gatherings. We don't need their trades, businesses, vampiric harvesting machines, all we need is people coming together, working together, building together in harmony. Their world is falling apart, reduced to pathetic attempts to distract the people, reduced to lying on an unprecedented scale, reduced to using fear and mind virus color coded tactics on the people, reduced to creating events to cover up other failures. They have always been failures, and we allowed it, they only succeeded by and large by producing fear and scarcity on the public. Pathetic attempts at rewriting history, including all of our real history, is the sign of a weak and pathetic group of individuals to feed their darkened souls. They know no better, it is what they do, it is all they can do remember that. Why do they do it? because they fear us far more than we fear them once our people know the truth, never forget that. They are terrified of us coming together, terrified of us knowing who and what we are, terrified of us standing in our power, terrified of us standing in the light and shining, and terrified of us knowing the truth. Whether they like it or not, the frequencies of truth and love are returning, that is the antithesis of how they operate now and long into the past. The Day of the Svarog is unfolding rapidly now, we revealed it started on March 21st 2020 and look at what has unfolded since. In the Night of the Svarog the darkness can hide, but in the Day they can still play, but can be seen in the full daylight and exposed more readily. I said in 2015 in 2020 we would see, and boy have we seen, all the dot connecting since, all the information converging in an extraordinary way, all what we have built since, watching all who have fell since, all of it has been exposed now. We have big plans coming up soon, and all of you need to get off your backsides and work to support that. Put aside your ridiculous grievances with others and focus on the task at hand, become an adult and work for the greater good and quit being a child waiting for others to do and save them. That greater good was put into stark terms on Tuesday, it should have rattled you to the core, particularly the ending part. It laid out what we have to do in stark terms, and you can hide, cower, back off like the remnants of the control system EL-ite groups, or do something for once outside of yourself. That not only helps you and us, but the planet, the solar system, the galaxy and the Universe. Out has to go the little me in you, the fear factor, the limitation programs you and they run, your

problems, the pettiness, the service to self and bring in your full powers, bring in your ideas, bring in your essence, bring in your solutions. Each and every one of you now has a task, a role and a future of working for the greater good, that goes beyond time and indeed understanding, but you have all been given enough to understand it by now. The key now is, what are you going to do about it? We are not going to fight them or each other, we are going to fight for us, we are not going to fight their system, we are going to build our own. In the background there are two things unfolding, neither of which the dark forces can handle or stop. That is truth and love, both are frequencies they can't handle, both are frequencies designed to help us on our way. The word Hallelujah, springs to mind the thinking at last, but their hidden meaning of glory to Yahweh, Jehovah, the Lord is now rendered mute following FRWL Plus 12 and 13. Like everything else they bastardized it for their own spell casting purposes. We will use the original alleluia which means an expression of thanksgiving, joy, and triumph. They say it is darkest before the dawn, the dawn is our time to prepare for the day, our day lasts 1008 years, lets get marching, for the truth and love is marching on.
