

## THI-SHOW TRANSCRIPT 2022-03-17

Whilst this show will reveal the truth, and there are many words ongoing about Ukraine, the big faction war of disinformation and lies is well underway, and we will report things as they are. Whilst I live in the west, I will not support the regimes that run it, only the people. There has been countless shows to prove the west has lied through their teeth, with 5 eyes fictions the order of the day, every day. The east atrocities are no better, fuelled by Jewish EL-ite money, to stifle both sides after the ritual sacrifice they love to see. But put the politics aside and have sympathy for the Ukrainian and Russian people involved in this battle, as yet again people are put in the firing line due to rogue Governments, Agencies, bankers and think tanks. Take a moment each day to spare a thought for each of those people. Why are there several videos in Kiev depicting no war? now Kiev maybe a big city and it may only be taking place on one side, but the videos look fairly clear to me. The press creating stage managed chaos, providing the illusion game yet again, waiting for problem, reaction and their solution again. A pure theater production whether it is the press, the government or the Military, all theater of operations to create an illusion. This is to provide hidden hand solutions again to me, what is the hidden hand? ending Poland looks the obvious to me, as yet again another exodus happens. I said back in June 2019 in the Clowns in panic show, the great monetary harvesting would unfold. Out would go millionaires and even low billionaires, and they would be taken over by the multi billionaires. 440K millionaires left New York since, protecting their finances? or advanced warning of something unfolding in New York? time will tell. But, the recent sanctions on alleged Russian businessmen, when most are Jewish is raising eyebrows. Suddenly, they are all being investigated, suddenly they are under the microscope and suddenly the press are reporting on it, all in the name of faction fighting mainly. The backlash will provide the alt media with much more material to expand on, much of which our show has uncovered previously. The questions arising in this is: why did it take a war to reveal such money based shenanigans? why haven't the banks been sanctioned also for housing such funds and deals? why are the media not called out on this as well, because you cannot say they are not aware of it? But, the great truth revealing is now gaining pace, as the old world is collapsing at an alarming rate, just as I forecasted. Is it scary? to some yes, it is the old worn jacket syndrome, frightened to replace it as it won't be the same. The old, the same, the non changing has never served us well. Sentimentally has not served us well either, they all encourage the same and stagnation. What is unfolding now, and this show will reveal more of it is, the Apocalypse. Which does not mean catastrophe or Armageddon as espoused in their fake scripture based books. It means to reveal the hidden, it means disclosure, the disclosure is ramping up heavily now and many of us can turn around and say, well we told you. But that is not our role or remit here at THI or TPC, we have had a treasure trove of Apocalypses, we don't need that anymore, we need to build a replacement on an unprecedented scale. Their world is done, ours is just beginning.. Message to the minions

who propped up their system, come and join us in the rebuild. It will not be built in an hierarchical way, will not be built on egos running amok, will not be built on division or agendas, will not be built on greed, empirical, complexed, harvesting or Satanic ways. It will be built on need, compassion, understanding, cooperative and balance.

NEWS: Heir to the Rothschild family Nathan Rothschild wrote to members of the British Government, giving his view that Vladimir Putin is the most dangerous man since the defeat of Hitler, with Xi Jinping a close second. This in essence confirms it's a faction war. He explained that, Ukraine is an essential piece we can't afford to lose on the political chessboard. All about the money, the silk road, the new energy pipelines from Israel going through Turkey and Ukraine/Crimea. He argued that, Russia must be excised from the international banking and economic system. We must bring Russia to it's knees through any means possible, to send a strong signal to the Chinese and protect our global system of norms and liberal values. Norms? what death and destruction? starvation? poverty? those norms Nathan? seriously. Liberal values? you don't have any values, none of your family ilk do. We must be under no illusions, if we allow Putin to seize Ukraine, it will send a signal to our enemies, Iran, China and North Korea especially, that we will do nothing when faced with an onslaught of force. Create war, fund both sides, collect shekels. In effect our current path, lack of military action, means our global order is dead on it's knees, oops. I urge you to deploy more force against Russia and it's proxies, step up information warfare to correct opinion, especially online, and send weaponry to our friends in Ukraine. In other words spread disinformation and start a war to rescue their banking empire. Without Ukraine the global order may not survive. We the people don't want your order Nathan, we have had enough of your psychotic ilk spoiling this planet and the varying peoples. Do us all a favor Nathan gather all your breed and piss off back to Alpha Draconis with your 6 pointed star, you don't belong here, you never belonged here.

The United States has condemned reports that Moscow may seize the assets of businesses, which have stopped operating in Russia over the invasion of Ukraine. White House press secretary Jen Psaki warned that such a move will result in more economic pain. Her comments come as the US Congress passed a spending bill, which includes almost \$14bn (£10.7bn) of emergency aid for Ukraine. Funny that, they took over 6 months arguing over relief for Americans, but not their business related countries. Yet the people by and large say nothing, therein lies the problem. If you are going to send money to help "Ukrainians" then you would have sent it to Poland, given every Ukrainian is fleeing there. President Biden is expected to announce new measures against Russia on Friday. Russia seizing the assets of foreign companies would be a lawless decision, Ms Psaki said. It will compound the clear message to the global business community, that Russia is not a safe place to invest and do business, she added. Yet more juvenile responses from Psaki, what did she and they expect? Russia to just roll over? Ok for one

side to impose sanctions, but not the other, it literally defies belief the levels of thinking in so called top positions. We can take our ball away, but you can't take yours, because we need the shekels, absolutely pathetic behavior.

The Times sued the State Dept. in January after it allegedly slow-walked a records request. A lawyer for the Times said the State Department will start handing over records in April. The US Department of State said it'll hand over email records mentioning Hunter Biden to the New York Times, after the publication sued the federal agency. The Times sued the State Department in January, alleging the agency failed to respond in a timely manner to two FOIA requests. Kenneth Vogel, a journalist for the Times, requested copies of email correspondence between August 2015 and December 2019, between officials in the US embassy in Romania that mentioned Hunter Biden, the son of President Joe Biden. Vogel also asked for records mentioning Tony Bobulinski, a former business associate of Hunter Biden; Louis Freeh, the former FBI director who reportedly gave Biden a \$100,000 gift, Rudy Giuliani, who then-President Donald Trump tasked with digging up dirt on Biden in Europe, Devin Archer, another former friend of the president's son who was recently sentenced to a year in prison on a fraud scheme, and more than a dozen other people. The criminality runs deep, yet again all about the shekels with these people. Tick tock for the father.

Prior to the invasion of Ukraine by Russia and the levying of numerous sanctions on Russia by the U.S., members of Congress purchased defense and energy stocks. Here's a look at the trades. A report from Unusual Whales highlights that numerous members of Congress purchased stocks in the defense and energy sectors prior to sanctions being placed on Russia. Many are on committees privy to private information, including defense and energy. Many had not purchased energy plays before. Here is a look at the trades: Rep. Marjorie Taylor Greene: Chevron Inc, Lockheed Martin, NextEra Energy Inc. Rep. Robert Wittman: SPDR Select Energy Fund Rep. Mark Green: Energy Transfer LP, EnLink Midstream LLC Rep. Virginia Foxx: Plains All American Pipeline LP, PPL Corp, Philips 66. Snakes the lot of them, making money off other peoples misery.

A North Carolina Representative Madison Cawthorn is under fire for disparaging Ukraine's president, for calling Zelensky a thug. Then went one step further and said that House Speaker Nancy Pelosi is an alcoholic despite the leading Democrat's previous statements that she does not drink. This goes back to a video in summer 2020, showing Pelosi blowed out of her mind that surfaced online. But in factchecker world it was debunked by Snopes (M) Snopes a CIA agent responsible for cover ups online and doing their famous National Security Act play card.

This application seeks relief from a preliminary injunction that usurps the Navy's authority, to decide which service members should be deployed to execute some of the military's most sensitive and dangerous missions, Solicitor General Elizabeth Prelogar told the justices in the administration's application on Monday. She is not challenging a portion of the injunction, that protected the SEALs and other personnel from discipline or discharge for remaining unvaccinated. But she is asking that the ruling forcing the Navy, to assign and deploy 35 unvaccinated members of special operations forces, be blocked while the appeals process plays out. The challengers, including more than two dozen Navy SEALs say they have religious objections to the requirement and are seeking an exemption. This is how they treat the soldiers, like a piece of meat to be picked up and used where and when they feel like. Time for all the soldiers to down tools, and tell the psychopath Generals to shove wars up their own jacksies.

The Biden administration filed an emergency application with the Supreme Court on Monday, asking it to freeze a lower-court opinion requiring the Navy to deploy special operations forces, even though they have refused to get vaccinated for Covid-19. The erosion and eventual elimination of the US Military as I warned.

Whilst the world is distracted the Israel junta plays on in the background. Iranian state media announced on Monday that Tehran has foiled an attempted sabotage plot linked to Israel at a key underground nuclear plant, detaining several suspected spies. The IRNA news agency said suspected members of an Israeli-linked spy network planned on sabotaging the Fordo facility and were arrested by the intelligence services of the Revolutionary Guards. The state media outlet did not reveal the names of the suspect or how many were detained. Fordo is an underground uranium enrichment facility that is based roughly 112 miles south of Tehran. The Israeli government has previously accused Iran of using the plant as part of its plan to develop nuclear weapons, something that Tehran denies. The alleged Israeli intelligence officials had attempted to approach a Fordo employee after having recruited one of his neighbors, in a bid to gain inside information about the advanced centrifuges used at the facility. The detained individuals were reportedly paid in the form of cash and digital currency, so that no trace of it remains. The suspected spies allegedly used the guise of a Hong Kong company during their communication with the Fordo employee, but their efforts were foiled by the nuclear command of the Iranian Revolutionary Guards and the intelligence services command.

The fact that this story is getting downplayed by the Americans and Israelis, and not receiving very much media, says a lot. Iran's Islamic Revolutionary Guards Corps (IRGC) have claimed responsibility for a rocket attack that targeted the northern Iraqi city of Irbil. A dozen ballistic missiles struck Irbil early on March 13, targeting the U.S. consulate's new building and the neighboring residential area, but caused only material damage and one civilian was injured, the Kurdish Interior Ministry said. The IRGC

released a statement taking responsibility for the missile attack against Israeli strategic centers in Irbil, Iran's state media reported. Any repetition of attacks by Israel will be met with a harsh, decisive and destructive response," the IRGC said in the statement. A U.S. official blamed Iran for the attack earlier on March 13 but did not give further details. A Kurdish spokesperson for the regional authorities said that the attack only targeted civilian residential areas, not a foreign base and called on the international community to carry out an investigation. That was a response to Israel for attacking Syria that killed two members of Iran's Revolutionary Guard.

Former Empire actor Jussie Smollett has been sentenced to 150 days in county jail on Thursday for fabricating a 2019 hate crime attack on himself. Smollett was also ordered to pay \$120,000 in restitution to the city of Chicago, fined \$25,000 and must serve 30 months of felony probation. At least some justice is done, but his penalty should have been the same as the hate crime charge. Same as people claiming false rape, it is incomprehensible, nasty and disgusting making fake claims like this. In my opinion he did this as part of a wider agenda to cause racial division between people, and that is something that should not be tolerated in any walks of life. Persons violating this law face a fine or imprisonment of up to one year, or both. If bodily injury results or if such acts of intimidation involve the use of firearms, explosives or fire, individuals can receive prison terms of up to 10 years, while crimes involving kidnapping, sexual assault, or murder can be punishable by life in prison or the death penalty. In my opinion he should have got 7-10 years based on the Hate crimes laws, to prevent this deliberate agenda of division continuing. The media are mainly responsible for this for promoting the division agendas, like the Critical Race Theory bs.

In recent times, critical race theory has come under increasing scrutiny. If there is a silver lining in the COVID-19 crisis over the past two years, it's that American parents have seen firsthand, via their children's online classes, how public schools have pushed a radical agenda that includes CRT, whether it's actually called that by schools or not. Now, a new documentary *Whose Children Are They?* indeed, reveals the issue in detail. It exposes the hidden agenda in America's schools, and shines a light on the need to return to the original intent of education, not indoctrination. Perhaps one of our members could contact them and tell them what education really means, maybe our school curriculum Communal Gathering can work with them to create a better teaching for the children? The documentary opened in select theaters on March 14, for one night only. It calls on parents, teachers and others to partner together for the innocence and well-being of our children. The so-called teacher unions and their political allies, are heavily pushing CRT in our K-12 schools, colleges and universities. I'd like parents to understand that the root problem in our schools is the so-called teachers' unions and their radical agenda, not good teachers, said Rebecca Friedrichs, a producer on the project and a cast member. The mother of two grown boys, Friedrichs is co-founder of For Kids and Country, a national

movement of parents, teachers and citizens who want to restore the culture in public schools. Friedrichs also said, The education establishment wants teachers to weave CRT into every subject. But good teachers reject CRT because it teaches children to judge their peers, based on the color of their skin instead of the content of their character. Exactly it is a divide and conquer program, that is not even factual. Don't believe me, go and watch Dane Calloway on YT then, he is black and calls it as it is. The release of the new documentary comes as public school enrollment in the U.S. is declining. It needs to collapse and start again afresh, that system is part of the old world, not the better one. Kudos for the parents for finally fighting back, but do not make it a color issue, it's a program.

More good news. Figures from Ireland's telecoms regulator show that fewer than one in 15 people are buying 5G mobile services in Ireland, putting the technology in danger of being an expensive flop. This despite a reduction in prices, people over there are not buying it.

This was something I mentioned some time back on a show, now being revealed again, and something that can fix America in the short term to give lasting sovereignty and reduce the criminality and gangster world as well, if it is operated right. About 6 months ago, there was a news program on oil and one of The Forbes Bros. was the guest. The host said to Forbes, I am going to ask you a direct question and I would like a direct answer, how much oil does the U.S. have in the ground? Forbes did not miss a beat, he said, more than all the Middle East combined. The U.S. Geological Service issued a report in April 2008, that only Scientists and oil men knew was coming, but man was it big. It was a revised report that hadn't been updated since 1995, on how much oil was in this area of the western 2/3 of North Dakota, western South Dakota, and extreme eastern Montana. The Bakken is the largest domestic oil discovery since Alaska's Prudhoe Bay, and has the potential to eliminate all American dependence on foreign oil. The Energy Information Administration (EIA) estimates it at 503 billion barrels. Even if just 10% of the oil is recoverable 5 Billion barrels, at \$107 a barrel, we're looking at a resource base worth more than \$5.3 trillion. When I first briefed legislators on this, you could practically see their jaws hit the floor. They had no idea, says Terry Johnson, the Montana Legislature's financial analyzer. This sizable find is now the highest-producing onshore oil field found in the past 56 years, reports The Pittsburgh Post Gazette. It's a formation known as the Williston Basin but is more commonly referred to as the Bakken. It stretches from Northern Montana, through North Dakota and into Canada. For years, U.S. Oil exploration has been considered a dead end, even the Big Oil companies gave up searching for major oil wells decades ago. However, a recent technological breakthrough has opened up the Bakken's Massive reserves, and we now have access of up to 500 billion barrels. Because this is the light, sweet oil, those billions of barrels will cost Americans just \$16 per barrel. That's enough crude to fully fuel the American economy

for 2041 years straight. If that didn't throw you on the floor, then this next one should, this is from 2006. U.S. Oil Discovery the largest reserve in the world Stansberry Report Online dated 4/20/2006. Hidden 1,000 feet beneath the surface of the Rocky Mountains lies the largest untapped oil reserve in the world. It is more than 2 trillion barrels. On August 8, 2005 President Bush mandated its extraction, yet in many recent years of high oil prices none has been extracted. Another example of what they think is Empire building, make all the other countries run out of oil, whilst we keep all ours in storage, and then hold the world to hostage over it. This is the way they think, oblivious to the fact oil is abiotic, it is not fossil fuel, which is a ridiculous conspiracy borne out of the scarcity program, which creates fears and bumps up the price. With this mother lode of oil why are we still fighting over off-shore drilling? They reported this stunning news, we have more oil inside our borders, than all the other proven reserves on Earth. Here are the official estimates, 8 times as much oil as Saudi Arabia, 18 times as much oil as Iraq, 21 times as much oil as Kuwait, 22 times as much oil as Iran, 500 times as much oil as Yemen, and it's all here in the United States. The author said how can this be? how can we not be extracting this? then uses a typical media based response of shifting blame. Because the Environmentalists and others have blocked all efforts to help America become Independent of foreign oil. Again, we are letting a small group of people dictate our lives and our economy, why? How naive is this guy? does he or she seriously think that Environmentalists are stopping that? does he really think the global EL-ites care what a few people think? what utter delusion that is. James Bartis, lead researcher with the study says we've got more oil in this very compact area than the entire Middle East, more than 2 trillion barrels untapped, that's more than all the proven oil reserves of crude oil in the World today. Don't think OPEC will drop its price even with this find? Think again, it's all about the competitive marketplace, it has to. Again this is naive thinking, it is a cartel they do what they like and set the prices they like. Think OPEC just might be funding the environmentalists? Got your attention yet? If you don't take a little time to reveal this, then you should stifle yourself the next time you complain about gas prices, by doing nothing, you forfeit your right to complain. Wouldn't this alone make us a huge target? Our resources, our land, and everything this nation has to offer have been on the auction block for far too long. How can we be 30 trillion in debt while sitting on this huge reserve? Why are we buying oil from the enemy? We could literally provide all of the world's oil and gas needs for the next 100 years with this reserve. I don't know about the rest of you, but I've pretty well reached my limit on the destruction of this beautiful nation at the hands of those morons on capital hill, past and present. Enough already! This with clever thinking and a moving out of the vulture capitalists, greed based EL-ites it can be used in a fantastic way that helps the all. It would only be a short term project, to clear out debts, provide for infrastructure developments and provide for humanitarian projects. It would be a major boom for oil companies, all of which should be shared amongst them all, with the knowledge it has a limited time span to reduce our dependency on oil.

**MEDICAL RELATED:** The plandemic of the fully vaccinated rages on as the latest data shows, that the vast majority of hospitalizations and deaths from the Covid-19 are occurring in people who took the jabs. Public Health Scotland (PHS) is reporting that an astounding four out of every five Covid hospitalizations and deaths are jabbed, meaning only 20 percent of hospitalizations and deaths blamed on Covid are occurring in the unvaccinated. According to the figures, cases were down overall in February compared to January. However, the bulk is still comprised of fully vaccinated individuals, including the triple-vaccinated. The data shows that the latest wave of negative health outcomes is occurring in three jabbed people, a demographic in which the death rate soared by 495 percent in the month of January. Overall cases have dropped in the last month in all demographics significantly compared to the number of cases recorded between 11th Dec and 7th Jan 22, but in both months the vaccinated have accounted for the vast majority of cases, reported the Daily Exposé. The main difference between the two months is that the double vaccinated accounted for the majority of cases between 11th Dec and 8th Jan 22; recording 145,890 cases, but the triple vaccinated accounted for the majority of cases between 8th Jan and 4th Feb 22; recording 46,951 cases. The plandemic would already be over were it not for the vaccines. It turns out that the case rate is dropping substantially among the unvaccinated, while it continues to rise among the fully vaccinated, and especially among the fully-fully vaccinated who are getting three shots or more. Between December 11 and January 7, the non-jabbed population accounted for just 15 percent of all new cases of the Fauci Flu. One month later from January 8 through February 4, that percentage dropped to less than 13 percent. Meanwhile, the vaccinated population accounted for 85 percent of all new cases between December 11 and January 7, with just 9 percent of those cases occurring in the one-dose vaccinated.

Cases of Covid among the fully vaccinated in Taiwan are also way, way up. Thirty-two percent of all new cases in the vaccinated category occurred in the triple vaccinated, while 59 percent occurred in the double vaccinated. But fast forward one month and we find that the vaccinated accounted for 87% of cases, with the one-dose vaccinated accounting for 4% of those cases, the double vaccinated accounting for 33% of those cases, and the triple vaccinated accounting for 63% of those cases. This means that despite cases falling among all demographics they actually fell the most among the not vaccinated, single vaccinated, and double vaccinated, with the lowest drop coming in the triple vaccinated. This doesn't make sense if the Covid-19 vaccines are effective. Clearly they are not, at least when it comes to preventing infection. As for hospitalizations, the unvaccinated are doing better and better overall while the fully vaccinated are doing worse and worse overall. The PHS data shows that hospitalizations, among the unvaccinated fell by -24 percent in January compared to in December. Hospitalizations among the triple vaccinated, meanwhile, increased by an astounding 88 percent. The vaccinated population accounted for 75% of hospitalizations between 11th Dec and 7th

Jan 22, with 7% of those hospitalizations among the one-dose vaccinated, 46% of those hospitalizations among the triple vaccinated, and 47% of those hospitalizations among the double vaccinated. But fast forward one month and we find that the vaccinated accounted for 80.5% of hospitalizations, with the one-dose vaccinated accounting for 6% of those hospitalizations, the double vaccinated accounting for 26% of those hospitalizations, and the triple vaccinated accounting for 68% of those hospitalizations.

The latest data published by the UK Health Security Agency confirms deaths are rising dramatically among the triple vaccinated population whilst declining steadily among the not-vaccinated population in England. With the most recent figures showing the fully vaccinated accounted for 9 in every 10 Covid-19 deaths over the past month; and the triple vaccinated accounted for 4 in every 5 of them. Table 10, found on page 41 of the latest report shows the number of Covid-19 cases by vaccination status in England between 24th Jan and 20th Feb 22, and it confirms the vast majority were recorded among the triple vaccinated population. It's getting ugly out there in relation to the Covid, whilst the media are intent on carpet bombing the airwaves with their lies on Ukraine.

As of last weekend almost all of the employees at the CDC know that the vaccines causes VAIDS, known as vaccine induced auto immune disease syndrome or the new HIV crisis, has been 100% scientifically confirmed. They are demanding that the CDC leadership makes a major public news conference by March 10th, or the employees will whistleblow to the news agencies everywhere by March 11th. The CDC did report the detection of an HIV cluster response, the AIDS started popping up everywhere again following the vaccine. Guess who was involved in HIV research? Dr. Anthony Fauci. Dr. Anthony Fauci's National Institutes of Health (NIH) approved drug trial experiments on hundreds of AIDS orphans in New York City. Over 200 of the orphans died during or after the experiments, according to Liam Scheff, the investigative reporter who broke the story. The Incarnation Children's Center (ICC) began testing drugs on its orphan population in 1992, the same year they became a subsidiary of Columbia University's Pediatric AIDS Clinical Trial Unit, under Dr. Anne Gershon. In 2003, Scheff went undercover inside the facility and saw the effects of the drugs on the children himself. Gershon just happens to be one of the family names that came out of the Jacob line in Part 1 of Cosmic Genetics.

An Indian study they are trying to shut down as the article was suggesting that COVID-19 was created, by inserting the particular glycoprotein 120 (GP120) from the HIV-1 disease that involve patents held by or applied for by Fauci. What was even more upsetting was the suggestion that, the insertion of these 4 HIV-1 inserts into a SARS virus is not likely to occur in nature. To be clear, science demonstrated that COVID-19 was laboratory-created, possibly as a bio-weapon, and that the creator of the virus used GP120 to do so, a glycoprotein from the HIV-1 1990s era that tied back to Fauci.

This statement is the most damning: We found 4 insertions in the spike glycoprotein (S) which are unique to the 2019-nCoV and are not present in other corona viruses. Importantly, amino acid residues in all the 4 inserts have identity or similarity to those in the HIV-1 GP120 or HIV-1 Gag. The Glycoprotein 120 is the Spike Protein and the viral mRNA sequence inside the vaccines, and therefore codes for Glycoprotein 120. Simply put, when HIV triggers infection and inflammation in the body, it's Glycoprotein 120 found on it's outer membrane has to bind to proteins on human cells Alpha4 Beta7 integrin proteins, which results in the immune system attacking healthy cells. The mRNA vaccines themselves carry the HIV-1 genes. If these mRNA vaccines are comparable to the Hepatitis B vaccines administered in 1978, the side effects gradually manifest themselves within 3 years. All of what was revealed in our Expose series, most of which was done in 2020. Lazy free will choices, comes at a price these days. Everyone has an obligation to investigate and research everything that affects their day to day lives, that is learning. Acceptance of the narrative which we all know is part of the great lie, that is being parented like a child, but that comes with great consequences these days. I said a few years back that, consequences of actions would unfold, it has and it is and it will do into the future.

UKRAINE: In 6 days The Russian federation have hit 1.502 objects of Ukraine military infrastructure, 51 command and communications posts, 38 S-300, Buk M-1 and Osa anti-aircraft missile systems, 51 radar stations, 47 aircraft on the ground 11 in the air, 472 tanks, 62 rocket launchers, 206 artillery pieces, 366 special military vehicles and 46 UAV's. SS72 psychological operations unit hit a high precision strike on the Kyiv TV tower, hardware disabled, SS? The Russian federation forces targeted military infrastructure, the Ukrainian forces did not distain to use human shields.

The BBC attempting again to sway the narrative on Ukraine and many other things. This an impressive attempt to deflect the truth on the bio labs, it failed. Additionally, the US set up its Biological Threat Reduction Program in the 1990s following the fall of the Soviet Union, to reduce the risk from biological weapons that had been left behind in countries including Ukraine. (M) Seriously do they think we are all as stupid as them? If that was the case, why didn't Ukrainians do that work? Are they saying they are not capable of looking after it themselves? Are they saying only Americans have the expertise to deal with it? because that is blatantly a lie. Under this programme certain labs receive funding from the US for modernization and equipment, but are managed locally, not by the US. Why would US fund it at all then? Where is the modernization and support for the American people who pay for this shit? The US Department of Defense has been working in partnership with Ukraine's Ministry of Health since 2005 to improve the country's public health laboratories. The US provides technical support and, according to the US Embassy in Ukraine, works with partner countries to counter the threat of outbreaks, intentional, accidental or natural of the world's most dangerous

infectious diseases. There is no evidence that they work to produce biological weapons. Moscow's claims about the Ukrainian labs were echoed by China this week, with foreign ministry spokesperson Zhao Lijian accusing the US of using the facilities to conduct bio-military plans. Similar accusations have also been made by Iranian and Syrian officials. Maybe the BBC would like and indeed would be best served listening to the Expose episode, where a US bio lab was shifted from Egypt to Italy just prior to the outbreak there. Or is that just another of those coincidences?

Seized documents confirm covert preparation by the Kiev regime of an offensive operation in the Donbass in March 2022, and the secret orders of Colonel General Nikolai Bala dated Jan 22 2022. The 4th brigade tactical group to perform combat special psyops propaganda tasks, air assault troops have been trained by American and British instructors under the NATO standard.

Regarding the western Nuclear propaganda the military personnel of Ukrainian national guard who were guarding the plant, even before the arrival of the Russian units, had left the facility and disappeared in an unknown direction. The stations facilities and the adjacent territory were taken under guard by Russian military. Over the five days personnel of Zaporizhzhya NPP continued the planned work on maintenance of facilities, and control of the radioactive situation in the usual mode. However at 2 am on March 4, on the territory adjacent to the power plant, the Ukraine regime, attempted to implement a provocation, while patrolling a protected area adjacent to the Zaporozhye nuclear power plant. A mobile patrol of Rosgvardiya was attacked by a Ukrainian sabotage group, they were suppressed by return fire of the Russian patrol with small arms. Leaving the building a Ukrainian sabotage group set fire to the training building, the fire brigade that arrived put out the fire at the premises, currently the staff of Zaporizhzhya NPP continues to work as usual, and background radiation is normal. Leave no doubt the purpose of the provocation of the Ukraine regime, is an attempt to accuse Russia of creating a source of radioactive contamination. All this testifies to the criminal intent of the this regime or the complete loss of control over the actions of, Ukrainian sabotage groups with the participation of foreign mercenaries. All western-sent assistance to the socialist mercenaries under international humanitarian law are non combatants, they do not have prisoner of war status best sharing what awaits foreign mercenaries during detention is criminal liability. Foreign mercenaries are urged to think 7 times before travelling.

U.S. Ambassador to the UN Linda Thomas-Greenfield protested to her Israeli counterpart, over Israel's refusal to join 87 countries in backing a U.S.-led resolution to condemn Russia's invasion of Ukraine, at the UN Security Council on Friday. Israel has attempted to maintain good relations with both Russia and Ukraine during the crisis, and has even offered to serve as a mediator. But that fence-sitting has resulted in criticism

from both sides and now from the U.S. It is not fencing sitting they are actively participating in it, and indeed in a large part created it.

Don't believe Israel is involved in Ukraine, try this. Turkish premier Erdogan told a news conference, I believe this historic visit will be a new turning point in Turkey-Israel relations. Our mutual goal is to revive the political dialogue on the basis of mutual interests. I think this is an opportunity to revive the cooperation on the topic of energy that began before, he added, referring to the activities of Turkey's drilling and seismic ships in the Mediterranean and Black Sea. Erdogan has said previously the two countries could work together to carry Israeli natural gas to Europe, reviving an idea first discussed more than 20 years ago. Israel and clowns just taking Russia out of the energy market.

Russian MOD has released evidence on the Ukrainian Biological Labs funded by US DOD department. The first claims are these lab were collecting Slavic DNA to work on pathogens and other bio-agents to target specific people mostly Slavic people. The second claim is that Ukrainian & Georgian Bio-labs are carrying out experiments, where these deadly pathogens are transferred to bats to make them vectors or carriers to transmit these deadly diseases. The third claim is the US and the Ukraine is carrying out the very same experiments, that were carried out by the Japanese Unit 731 or Detachment 731 during the WW2. The fourth claim is that the Pentagon is also interested in insect borne vectors, and that research was ongoing at multiple Bio-labs in Ukraine. But, when Russia started it's military operation more than 140 containers with Ecto-parasites of Flees & ticks, were transferred to an undisclosed locations or country. I suspect this along with the incursion in Kazakhstan appears to be the main issue here. It is no surprise after our Expose series revealed the bat issue and the US moving bio lab into Europe. Expose 7 exposed the Slavic DNA shenanigans that was a year ago this week. I have had the start of an Expose 11 since May of last year, but haven't got around to it, that was on mycoplasma which you will begin to hear about soon.

Under Obama and Biden they sanctioned the last democratic government in 2014, then there was a coup, people protested and were shot dead on the streets. The bilateral Ukraine US trade deal included funding a science facility with diplomatic status. We know now what they were doing UP 4 bio weapons via the CDC, to spread through migrating birds highly pathogenic H5N1 influenza, with a mortality rate of 50 %. 145 species were studied and two species of migratory birds were identified, the migration routes of which pass through the territory Russia. The birds are coming it's like some old Hitchcock movie, but then they do call it the theater of operations. The Ministry of Defense said, that the obtained documents confirmed the transfer of many biological samples taken from Ukrainian people abroad. For example, Germany is funding project No. 68727 EN to study the pathogens of Crimean-Congo hemorrhagic fever and hantaviruses. As part of the project, hundreds of samples of blood serum taken from

residents of various regions of Ukraine, were transferred to the Institute of Tropical Medicine in Hamburg. The samples belonged only to the Slavic ethnic group. On March 10, it was also reported that biological laboratories in Ukraine were conducting experiments with corona virus strains. The bio-labs were built and funded by the United States. Maybe this "war" is not what many people think?

As part of its UP-4 project with the participation of laboratories in Kyiv, Kharkiv and Odessa, the United States was working to create a powerful biological weapon. Is it just a coincidence they are the regions the Russians are attacking? Is that the reason there is a blanket banning of Russian news sites, in case they reveal the so called West's involvement in this? The United States has denied Russian claims that Washington is operating bio-warfare laboratories in Ukraine, calling the allegations preposterous, and then warning that Moscow might seek to use chemical or biological weapons during its ongoing offensive on its neighboring country. What a child like and embarrassing quote that is. So, what is the truth and who is lying? Well, on Tuesday, Undersecretary of State Victoria Nuland who is born in and born to, stated before a Senate hearing that biological research facilities have been operating in Ukraine, in response to a question from Senator Marco Rubio about the presence of chemical or biological weapons in the country. Ukraine has biological research facilities, which in fact we are now quite concerned that Russian troops, Russian forces, may be seeking to gain control of, she stated to the US lawmakers on March 8. Yes, so they don't expose you and your ilk is why, not that they will use them. However, in the face of the outcry from China in particular, US Under Secretary of State Victoria Nuland declared in a tweet on Tuesday, that Washington was working with Ukraine to prevent the biological research facilities from falling into Russian hands. She thus confirms all the conspiracy theories about the existence of these labs. In its March 4 edition, Le Courier des Stratèges reveals that there are 11 bio-laboratories in Ukraine linked to the United States, that work with very dangerous pathogens. So, the US and the "West" have lied, they were lets not forget it, undermined by a Jewish person Nuland, perhaps that is your pointer as to why you all look so stupid and weak, the enemy is not Russia, it is from within.

President Joe Biden's executive order prohibiting the importation of Russian oil, prompted by Russia's invasion of Ukraine, appears to exempt the U.S. federal government, its agencies and its contractors from the ban. Under Section 1. (a) of Biden's executive order, the following are prohibited: the importation into the United States of the following products of Russian Federation origin: crude oil; petroleum; petroleum fuels, oils, and products of their distillation; liquefied natural gas; coal; and coal product, new investment in the energy sector in the Russian Federation by a United States person, wherever located. Sec. 3. Nothing in this order shall prohibit transactions for the conduct of the official business of the Federal Government or the United Nations (including its specialized agencies, programs, funds, and related organizations) by employees, grantees,

or contractors thereof. Biden's Russian Oil Ban Executive Order Appears to Exempt U.S. Federal Government, Agencies, Contractors. All of which reveals they are separate to the Government and over ride all rules of the Government. Everything Fed, Agencies and contractors which are connected to Agencies as well, need to be closed down. What this also reveals is, this whole Russia/Ukraine deal is a sham.

Reports I am hearing is the "west" is preparing a false flag after 80 tons of Ammonia was shipped from Poland. All to be blamed on Russia.

EXPOSE: Part 3 This is the 3rd and final part of an expose we have done over the last two shows, detailing the incredible fraud, corruption and criminality within the DOD of, misappropriating the public's money on a massive and unprecedented scale. 7. Many Critical Cyber Vulnerabilities Ignored at Pentagon & U.S. Treasury, An Open Invitation For Criminals Worldwide: The Treasury Department's financial reporting system has significant security gaps that, leave the door open for online bad actors to tamper with the government's spending data. The Government Accountability Office discovered eight different flaws in the system, used by the department's Bureau of the Fiscal Service, to check the accuracy of the annual financial reports it publishes for every government agency. These security gaps, in addition to unresolved issues GAO previously identified within the bureau, increase the risk of unauthorized access to, modification of, or disclosure of sensitive data and programs and disruption of critical operations. The Fiscal Service Bureau is responsible for keeping tabs on the government's debt, and monitoring agencies' revenue, spending, obligations and other fiscal behavior, auditors said future inaccuracies could go undetected. Of the eight flaws revealed in the audit, four could be exploited to illegally access and change financial data and resources, three could potentially allow for unauthorized changes to hardware and software security, and one involved the bureau's risk management system. They collectively represent a significant deficiency in the bureau's internal controls, GAO said. Investigators also found the bureau had yet to fully correct 15 different deficiencies GAO identified in previous audits, including some the bureau said had already been addressed. A DoD IG audit recently reported that the Pentagon had yet to correct 266 cyber vulnerabilities, highlighted in numerous watchdog reports between July 2017 and June 2018. Some of the issues were identified long ago, two dated back to 2008. This level of incompetence as well as the fraud is a damnation of the Government's responsibility to we the people. Last week I said to cut the budget 2/3, I think 3/4 is better suited and save costs by deducting 10-25% off the heads of all departments for their failure to operate said departments in an efficient manner. Auditors specifically found many shortcomings related to cyber governance, or the policies and practices that help officials monitor risk. Without proper governance, the DoD cannot ensure that it effectively identifies and manages cybersecurity risk, as it continues to face a growing variety of cyber threats, the IG wrote in the annual report on the Pentagon's cyber posture. In the redacted report,

auditors detailed a myriad of issues that had gone unaddressed over the previous year. The department, for instance, has not yet taken steps to comply with the cyber security framework developed by the National Institute of Standards and Technology. Auditors also reiterated the need to put in place more controls to limit user access, and monitor activity across Pentagon networks. The IG published a separate report detailing how inadequate controls, left billions of dollars in annual payments potentially vulnerable to bad actors. The astounding lack of accountability and oversight concerning military spending, and the hundreds of cyber vulnerabilities that remain unfixed year after year, amount to an open invitation for every criminal element worldwide. Clearly, global intelligence agencies, military contractors and hackers have ample opportunity to exploit this system. Is it because of the 5 eyes system, where they are essentially all working together, plus Mossad and the KGB. Yes, US Intelligence Agencies have been working with the KGB since the 1940's.

8. Known Solutions that can save tens of Billions of tax dollars annually not implemented, as key Gov Accountability Offices drastically underfunded and understaffed. Solutions to known problems that could save U.S. taxpayers at least \$87 billion have not been implemented. Congress is increasingly trying to force federal departments, especially the Pentagon, to quit disregarding audit recommendations on how to get more bang for billions of dollars in taxpayer bucks. Agencies have not implemented more than 15,000 proposals from their inspectors general that could save \$87 billion, some 38 percent of that money at the Pentagon. Then why is Congress continually passing their bill then? Clearly people at the Pentagon like how their system work currently, why? lots of people are getting a tidy cut out of the funding. 15K proposals and not one implemented, reveals they like the status quo, well enough is enough in these testing financial times, heads must rolls, lots of them, a systematic overview then can take place and a real budgetary figure implemented that would save a lot more than \$87B. This will not affect security or safety, it will remove the criminal payments and kickbacks. The Defense Department has more unheeded audit recommendations than any other agency, according to the Government Accountability Office. The Pentagon has failed to implement more than half the 1,122 recommendations that GAO has put forth, to improve defense programs since fiscal 2014. It's unacceptable that federal agencies ignore thousands of recommendations, on how to become more efficient and save taxpayer dollars, Rep. Mark Walker said. In addition to the GAO recommendations, for the second year in a row, the Defense Department's inspector general has released what it calls a compendium of open recommendations. The document details all of the recommendations the DOD IG has issued to the Pentagon, that have been awaiting management attention for at least a year, it now includes 1,558 separate matters, up from 1,298 in the 2017 version. Fifty-six have been open for at least five years, seven have been open for eight years or more. The DOD IG reported a number of open and unimplemented recommendations that appear straightforward and easy to

implement, yet have remained outstanding for years. For instance, in 2010, the DOD OIG issued a report concerning the Air Force's time and materials contracts, the OIG reported, this unimplemented recommendation represents a potential cost savings of over \$24 million. Although the DoD OIG made the recommendation nearly six years ago, it has remained unimplemented and the cost savings for taxpayers remains unrealized. The Pentagon is also a significant offender when it comes to improper payments, another large-scale government-wide scandal, which accounted for \$144 billion in misspending in just one fiscal year, FY 2016. A major portion of wasteful government spending is a broad category known as improper payments, which are payments made in the wrong amount including both overpayments and underpayments, to the wrong people, or for the wrong reason. An estimate from fiscal year 2016 showed \$144 billion in misspending that year, an all-time high. \$144B is the equivalent of costing every man, woman and child \$435, and that is just the misspending. Or the equivalent of giving every state an extra \$2.9B for spending on infrastructure and services. These improper payments result from insufficient financial accountability, and divert dollars from where they are needed. Even with all this incredible corruption being uncovered, the work of Inspector Generals, the Government Accountability Office (GAO) and Congressional Investigations Committees have been significantly undermined in many ways. They are drastically underfunded and understaffed, too often, the IGs suffer from inadequate or inconsistent budgets. Resource constraints can directly affect the ability of IGs to conduct effective and consistent oversight, Congress needs to recognize the importance of proportionally funding IG oversight. Due to the record-breaking corruption presently taking place, the return on investment (ROI) when it comes to funding accountability mechanisms within our government is outstanding. It has been proven to be the best bang for our buck that we can get, yet, this is where big cuts in funding are occurring. For an effective budgeting metric, in fiscal year 2017, the GAO uncovered over \$73.9 billion in fraud and wasteful spending, for every \$1 they get, they give a return of \$128 dollars. Meanwhile, where the most corruption is taking place, where we get the least bang for our buck, that's where funding is increasing, namely, in DoD agencies where huge sums of taxpayer money have gone unaccounted for. With budget management like that, it is no wonder we have an all-time record-breaking national debt of over \$29 trillion, not to mention the additional \$21 trillion in unaccounted for military spending. That is now near \$30T and \$23.5T unaccounted for in military spending. Another significant issue undermining Inspector Generals is the lack of congressionally approved leadership. POGO firmly believes that the effectiveness of an IG office, can be diminished when that office does not have permanent leadership, especially when the vacancy exists for an extended period of time, as many of the current vacancies have. There are presently 12 vacancies in head IG positions. Permanent IGs undergo significant review, especially the IGs that require Senate confirmation before taking their position. That vetting process helps instill confidence among Congress, agency officials, whistleblowers, and the public that the office of the IG is truly independent, and that its investigations and audits are accurate

and credible. In addition, a permanent IG has the ability to set a long-term strategic plan for the office, including establishing investigative and audit priorities. An acting official is known by all OIG staff to be temporary, which one former IG has argued can have a debilitating effect on an OIG, particularly over a lengthy period. Addressing the DoD IG's deep cultural problems, all of which predate Principal Deputy IG Fine requires permanent leadership. The last confirmed head DoD IG resigned shortly before an audit report revealed \$6.5 trillion was unaccounted for in one fiscal year, FY 2015. Since that audit, the DoD IG office has not had a congressionally approved Inspector General, that position has been unfilled since January 2016. In addition, the CIA has not had a congressionally approved IG since 2015.

One thing that intrigued me from the last part was, DOD sales and monies that comes into their coffers. Why has no one questioned the legitimacy of that, given the public paid for all the staff, labor and materials, surely any sales should go back to the public coffers?

9. Since 1998, \$21 Trillion unaccounted for, \$2.6 Billion in bribes and 12,727 Government officials through global Military revolving door. Since 1998, the Office of the Inspector General has reported over \$21 trillion in unaccounted for money. Over this same timeframe, Global Military companies have spent at least \$2.6 billion in known campaign contributions and lobbying activity. That to me is outright corruption of behalf of not only the DOD, but the politicians taking those donations, which is essentially the public's money. Beyond this shocking amount of money spent influencing politicians, the revolving door between Global Military companies and government officials, has been a significant source of scandalously corrupt behavior. Since 1998, a stunning 12,727 government officials have gone through the revolving door with Global Military companies. As shocking as those political corruption statistics are, given the loosening of campaign finance laws regarding dark money and PACs, and numerous military-intelligence-related shell companies and aligned interests, that is their private contractors sham and scam scheme, mainly ran through the CIA. It is impossible to account for all the money they have spent influencing legislation and the actual overall number of government officials, who have gone through the revolving door to companies that benefit from the Pentagon's lack of accountability.

10. Classifying corruption under the guise of National Security, U.S. Treasury looted and Constitution rendered null and void. Other than the corruptly implemented legalized bribery schemes referenced above, after an extensive analysis, it is evident that the National Security Act, and corresponding agencies and laws derived therefrom. Finally someone else sees that act for what it is, a systematic free pass for fraud, corruption and illicit and illegal acts. With the power of secrecy that it provides, it has been the primary enabler of the greatest theft of taxpayer wealth in history. The National Security Act set several precedents that have severely undermined the U.S. Constitution. The National

Security Act created the National Military Establishment, the National Security Council and the Central Intelligence Agency, thereby codifying institutional secrecy. Corresponding laws, such as the State Secrets Privilege, Classified Information Procedures Act, Foreign Intelligence Surveillance Act, the PATRIOT Act, the Totten Rule, The Espionage Act and the recent Executive Order 13526, which defines rules for the classification of information, have all played a pivotal role in concealing unprecedented criminal activity.

Based on the extensive evidence provided throughout this series of reports, it is evident that we are obligated to confront an extremely disturbing reality, under the guise of National Security. An outrageously corrupt culture of unaccountable War Profiteering has taken over the United States government. The U.S. Treasury is being looted and the Constitution has been effectively rendered null and void. The fact that these issues have not been covered in the mainstream media, the subject of significant congressional investigations, and a primary focus of political representatives, calls into serious question the integrity and legitimacy of all leadership and responsible parties. In light of the information contained within this investigative series, a Congressional Investigation Committee needs to take immediate action. As a top National Security priority, Congress must urgently begin wide-scale investigations into the epidemic of systemic corruption throughout the Pentagon. Ponerogenic groups are those with a statistically high number of pathological individuals, to the point that the group as a whole exercises egotistical and pathological behavior. Hence the pathocracy piece we did last week. Deviants function as leaders and ideological spellbinders, and while normal people may act as members, they have typically accumulated various psychological deficiencies. Those not susceptible to such influence are excluded from the group. These groups can either infiltrate existing governments or exert their influence from behind the scenes. Which is exactly what they have done.

**OTHER PIECES:** The website updates and improvements are gathering pace and going very well, this is to allow for much expansion. The Communal Gatherings are going well and perhaps make sure you are all organized into specific roles, this will be needed in the near future. I have been blocked and Holly also from Facebook, my last log in was 9 days ago. I will be closing down my personal FB page, and on April 17th I will be closing the THI FB as well. Exploring the possibility it will remain in place, but there will be no postings, no new members and no participation on the page after April 17th. Asking all those in THI State or Country groups that have THI pages to delete them and build a new one on Mewe for now. The alternative has been in place for 3 years now, join Mewe the links are on the show post every week. We are exploring our own platform to not need any of their social media. Thanks for the extra donations to the TPC and also my paypal or Patreon it is more than appreciated. The village now has two homes on it, with 4 more expected within the next 6 to 8 weeks.

This was raised by one member of the possibility that the known chakra system might be an artificial overlay of the inorganic, Matrix-world that serves as ports and plug-ins to facilitate the looshing of energy was also discussed. A cautious experiment was offered with full supports in place. A mention earlier about the possibility of the chakra system being an overlay, is a complete misunderstanding of the situation on a wider scale. As above and so below, as within and so without applies here. The overlay is the kundalini, the serpent that runs down the spine in New Age circles. The Kundalini is a serpent portal that runs from the coccyx across the chakra system up the spine to the reptilian cortex region, which then influences the brain. Developing the heart mind counteracts that intention, mind control and programming of you. This is why the evil ones bugger children under the age of 3, as it corrupts them. It was stated in the Cosmic Genetics show of how the Ancients taught about how the bodies chakras matched the Earth chakras. Add in the mapping of the brain which is identical to a map of the Universe, add in the information that are DNA matches the planet to use the Stargates. Chakras then become like your own energy and a version of the planetary grids, with no flow through them you get blockages. Many are blocked at the base/sex chakra due to past issues, but the majority are blocked at the 3rd level which coincides with the astral level of the 7 planes. There is a reason they tell you to go with the gut, not the heart. So, removing, attempting to remove or setting the intention to remove the chakras is not a good thing to be involved in, and will not be supported within our group.

More details on the Hallelujah which is praise to Yahweh, another of the fallen Seraphim. Further on, immediately after the Cherubic anthem above noticed, there is the following beautiful invocation before the Consecration, the Priest, the Cohen said this. PRIEST: Let all mortal flesh keep silence and stand with fear and trembling and ponder naught of itself earthly, for the King of Kings and Lord of Lords, Christ our God, cometh forward to be sacrificed and to be given for food to the faithful, and He is preceded by the Choirs of His Angels with every Dominion and Power, by the many-eyed Cherubim and the six-winged Seraphim who covering their faces sing aloud the Hymn: Alleluia, Alleluia, Alleluia! Cherubim is not raising god, they raise the imposters, they are the Seraphim. Covering their faces? the masks game again. The angels they describe, are all the fallen ones as well, like Michael and many others. Yet more reference to sacrifice, which was us. Keep silence and stand with fear, what god would tell his creations that? Dominion, power and his are all hierarchical egotistical domains, that is not a god, that is an abomination of life.

In the narrative of I Maccabees, after Antiochus issued his decrees forbidding Jewish religious practice, a rural Jewish priest from Modiin, Mattathias the Hasmonean, sparked the revolt against the Seleucid Empire by refusing to worship the Greek gods. Mattathias killed a Hellenistic Jew who stepped forward to offer a sacrifice to an idol in Mattathias'

place, he and his five sons fled to the wilderness of Judah. After Mattathias' death about one year later in 166 BCE, his son Judah Maccabee led an army of Jewish dissidents to victory over the Seleucid dynasty in guerrilla warfare, which at first was directed against Hellenizing Jews, of whom there were many. The Maccabees destroyed pagan altars in the villages, circumcised boys and forced Jews into outlawry. As a result, one explanation of the name Maccabees is based on the Aramaic word for hammer, because they strike hammer blows against their enemies. The revolt involved many battles, in which the Maccabean forces gained notoriety among the Seleucid army for their use of guerrilla tactics. After the victory, the Maccabees entered Jerusalem in triumph and ritually cleansed the Temple, reestablishing traditional Jewish worship there and installing Jonathan Maccabee as high priest. A large Seleucid army was sent to quash the revolt, but returned to Syria on the death of Antiochus IV. Its commander Lysias, preoccupied with internal Seleucid affairs, agreed to a political compromise that restored religious freedom. The Jewish festival of Hanukkah celebrates the re-dedication of the Temple following Judah Maccabee's victory over the Seleucids. According to rabbinic tradition, the victorious Maccabees could only find a small jug of oil that had remained uncontaminated by virtue of a seal, and although it only contained enough oil to sustain the Menorah for one day, it miraculously lasted for eight days, by which time further oil could be procured. What that just describes is, two groups neither of which belong to us or even belong here fighting for power. Hellenic was the Dracos, Maccabees the Hyksos group. Yet more his story now becomes our story. I have just said that because it is now unlikely we can call the THI book From Russia with Love due to the clowns and their fake copyright bs, plus the clown media meme now of everything to do with Russia is evil or bad. I am thinking at this point it should be called THI Presents, From His story to Our story. In essence that is a transition statement, old world to the new one, in our image and our likeness. Open to more suggestions, but I think that fits in nicely with what we are doing.

This is a letter from Anna Von Reitz, whilst I have had issues with her in the past, she and Frank O'Collins know more about law than any of us. Anna backs it up with some, not all history that is of interest to us all, me included. No doubt, if you have been hanging around long enough, you have heard of Kim Goguen and her claim to be the inheritor of the known world, and also the organization that she and her supporters have fronted as Life Force International, albeit a rapidly dwindling one. May the fourth (force) was with me it seems, sadly not for her. Though, so far as I know, Kim has not published her relationship with the CIA, I have photos that show her with a core group of Operation Officers based in North Carolina. Other people who initially approached me to try to involve me in some kind of sting, that would have given the CIA access to large amounts of money through physical asset off ledger accounts. Her two security team members were CIA and also Black Sun, one of which became her boyfriend. It was a complex, multi-layered con game and even I fell for it, to an extent, at first; but not to the degree

and in the way that would ultimately allow their plan to succeed. In the course of that contact, I learned various things, like the fact that Kim Goguen has been set up to act as an heir to the Romanovs. This claim, like many others she has made, isn't true, it's just more fluff and nonsense from The Liars Club Internationale, aimed at laying claim to physical assets for their unjust enrichment. The past several weeks of investigation have disclosed, as why anyone would want to claim that they were heirs of the ill-fated Romanov Dynasty? Maybe because as Kim revealed to me, she has an inheritance within the Trust accounts to the tune of \$880B and rising with interest, as part of a family legacy. Those engaged in making such claims have been assuming, that gold left on deposit with the Bank of England by Tsar Nicholas belonged to the Romanov family. Benjamin Fulford is also connected to the Romanov's, hence Ms. Goguen's recent interview with Fulford. They are busily trying to cobble together false claims based on purported familial relationship to the martyred Royal Family, so they can justify a claim on ten billion metric tons of gold otherwise presumed to be abandoned. These guys are great at making presumptions that benefit themselves, and also handy at making claims on abandonment, usually when assets are not in fact abandoned, and when the actual heirs simply haven't been given full disclosure. Unfortunately for Kim and the CIA Black Ops she is implicated in, there are records and there are receipts, and memos adequately demonstrating that, the gold Tsar Nicholas left on deposit with the Bank of England is a combined stash of gold reserves, actually belonging in part to the Russian government and in part to the still-existent Prussian government. Oops, Prussia still exists, all of which means Poland and the surrounding countries are in essence fake names. As a sidebar, it turns out that technically, Kaiser Wilhelm II couldn't abdicate the Office of the King of Prussia, because he had already abdicated it. Thus, the Crown Prince was the King of Prussia already, and his administration was not invalidated by his Father's second and permanent abdication of the Office. Thus, none of that gold is abandoned, not a gram of it. The Russian government under Vladimir Putin still exists, the Prussian government under Georg Friedrich von Hohenzollern still exists. Only one problem with that going into Hohenzollern hands again, is they were part of the problem to begin with, claiming all kinds of lands and titles they stole from the people. The House of Hohenzollern was a German royal and from 1871 to 1918, an imperial dynasty whose members were variously princes, electors, kings and emperors of Hohenzollern, Brandenburg, Prussia, the German Empire (respectively), and Romania. The family came from the area around the town of Hechingen in Swabia during the late 11th century, and took their name from Hohenzollern Castle. The classic name change again to hide their real names. The first ancestors of the Hohenzollerns were mentioned in 1061. The Hohenzollerns were overthrown after WW1 and the Weimar Republic was established, thus bringing an end to the German monarchy and Prussian monarchy. They founded the Franconian branch of the House of Hohenzollern. Members of the Franconian line eventually became the Brandenburg-Prussia branch and later converted to Protestantism. The senior Franconian branch of the House of Hohenzollern was founded by Conrad I, Burgrave of

Nuremberg (1186–1261). The family supported the Hohenstaufen and Habsburg rulers of the Holy Roman Empire during the 12th to 15th centuries, being rewarded with several territorial grants. So, this is Anna Von Reitz's slant, the Hohenzollerns funded the Hapsburg Empire, of which she is one of them. Those families of the past stole everything from the people, and we should not be entrusting them with any funds going forward, they all used it to fund their own lavish and extensive lifestyles at the expense of we the people. They simply didn't know about the gold and in the case of Prussia, they didn't know that their battered Kingdom stumbled through by the Hand of God, and their gold reserves were preserved by the ill-fated Tsar Nicholas in what would appear to be the least-likely bank on Earth. Getting back to Kim and her bizarre claims, she is a CIA player with a criminal record for fraud, no matter what Ben Fulford says, and no matter why he would give her a bully pulpit to spread more manure. I understand that there are many groups and many interests that quail and quake at the thought of Prussia coming back on the world stage, and others who react similarly to the prospect of Russia being further empowered by receiving their inheritance from the Tsar. I don't fear these outcomes and I want to explain why I don't fear these outcomes to the American People. The actual American Government has a Treaty with the Russian Government which the Russians have always honored. While the pack of liars infesting the U.S. Government would have you believe in the Russian threat and the Chinese threat, the fact is that the Russians have repeatedly saved our ungrateful bacon and waited for us to wake up and smell the java. The further truth is that in over 5,000 years of recorded history, the Chinese have proven to be in-the-main far more interested in making love and products to sell their neighbors, than in making war. The only time the Chinese are a threat to our world is when they have been: (1) misinformed (2) commandeered by foreign interests seeking to employ them as mercenaries; (3) or when they have been forced to be aggressive out of sheer desperation. The real threat to peace is vested in the hypocrites in Washington, DC, who have pretended to represent us, while lying to, misinforming, and racketeering against us. So if you are going to be afraid of anything, or fear any Evil Empire, don't look at Russia, don't look at China, look in your own backyard and see what is lurking there under its own foreign flag. Don't believe it? Look up the flag of the Municipality of Washington, DC purportedly an independent international city-state, though it has no permission from us to act as such on our shores, and its' actual Special Use perpetual lease with Maryland and Virginia is voided because of it. Those who fear empowering Russia and Prussia by simply returning their own assets to them, need their heads and sense of justice examined. The gold on deposit with the Bank of England is an inheritance owed to the people of Russia and the people of Prussia, not Kim Goguen, not Ben Fulford, not the CIA, not Joe Biden, not you, not me, it's theirs. How would you feel if you were the heir of a beautiful estate and all the money you needed to take care of it, and someone cheated you out of it? for no better reason than that they were afraid of what you were going to do with your money? Who made them the arbiter of what you do with your money, right? Maybe Westminster and the United States are afraid because of their

own guilt, the lies they have told, the crimes they have committed. Maybe they think that if the Russians and the Prussians are allowed to have control of their own inheritance, it will be payback time. God knows, with all the lies they have told and all the crimes they have committed, including crimes against their own people, the cretins of Westminster and the US deserve payback, and they know it, too. This next part I agree with 100%, she said. But there is a radically different pathway open for all of us, one of truth, fairness, mutual respect, and trust. We don't have to let the past dictate the future, we don't have to be driven like cattle by lies spewed from mouthpieces like Kim Goguen. We can do the right thing, the same thing that we would all want, if it were us and our inheritance as a nation was sitting in the Bank of England vaults appearing to be unclaimed. It's their gold, give it back to the Prussian government that survived, give it back to the Russian government of today. Let everybody know that we, the actual Americans have been at peace since 1814, and we prefer it to be that way. We all have more than enough resources of all kinds to make the Earth bloom again, and make the biome healthy again and make it safe for our children again. Hear, hear. My issue is with Anna is, how far has she been played by the same crew she says Kim is involved in? Everybody has been lied to on a massive scale, it is not their fault, it was the way the system designed it to be. It encouraged seducement and ego imbalance programs, the latter of which Ms. Goguen fell badly for. Her naivety was her downfall, ego did the rest. But, it is not her fault totally either, it is the way the planet was set up by evil invaders and imposters. Anna like Kim is bloodline family, potentially cousins at some point, but what have the families ever done that is best for we the people? House of this and House of that all stealing rampant from our Trust to build their mini empires, not once considering the very people who contributed to the Trust and the taxes by the way, the average people on the street. They were part of the overall problem, borne out of the fact that, we have never had the full knowledge, none of us did. Anna is the fiduciary to certain bloodline families, when asked to reveal the names to check the validity, none was proffered up. Anna, please denounce all connections to bloodline families, none of them have served us well, lets build a new version based not on the past, but the future. A brand new start, a brand new system and brand new world, that is not engaged in, part of, connected to anything the former world had. It failed us all in the most incomprehensible ways. Kim and Anna are people who can help us rebuild, Anna in particular has deep knowledge, Kim on a much lesser scale. But here is an idea, how about handing the Trust over to people who are not born of a privileged background? people not enamored with money like it is the new god, people with some knowledge, being supported by people who have the pieces of the inside knowledge? and by people who care. I have no desire to be the leader, but I do want to lead side by side with others. With people who will be frugal with the Trust, people who will make balanced decisions, devoid of insider trading deals, inheritance deals, hereditary deals, power and corruption deals. I told Kim I had no desire to be the Trust leader and that is still the case, unlike her former Black Sun General puppet Tank, but in the current situation I would be a reluctant leader to step forward, side by side with

the right people. I have the knowledge, I am not ego unbalanced, I exude fairness, understanding and willing to work with even the so called bad guys in correcting all of our past mistakes, mine included. I wish to be the horizontal line leader with us all on the same line, marching forward on a vertical path. We are assembling a team, which the dwindling Life Force group have copied, and failing at, we are spreading the message on a wider scale. All I ask people joining us is, accept the truth, be a better person tomorrow than today and adopt the TPC principals of, need not greed, caring and sharing, cooperative not comparative or competitive. If we want real change, these are the types of changes that have to be made to go forward. Dispense with the old failed world lies, it's narrative, it's dangling carrots game, it's egotistical games and lets all step forward and upwards upon a world of which we can be proud of. A world rebuilt in a better way, new ways, innovation, advancements of improvements, built upon compassion, caring, sharing, cooperation and love. All that went before was none of them traits. Time to get rolling with the changes required.

ENDING PIECE: People who mock us state, don't you feel lonely living in your own little world, the reply is, don't you feel powerless living in other peoples world's. In their world the bankers will ensure we stay in debt, the pharmaceuticals companies will ensure we stay sick, the weapons manufacturers will ensure we keep going to war. The media will ensure we are prevented from knowing the truth and the government will ensure it is all done legally. Once you understand that, you understand everything. It's all about the mind or heart set, have the courage to break the patterns within yourself that no longer serve you. The NWO out of chaos creates problem reaction and solution, lets bring in our own order, our own inner peace, our own version of sanity and your own version of betterment. Did Thomas just say he would lead the Trust with others? yes I did should I be asked. This is not to be seen as a power move, Thomas against Kim, should she get her act together she has a role to play, currently she is void. But she like the previous Trustee has failed the people and is not suitable to be running that role anymore, and that has nothing to do with me, only her. The last 24 months in that role has been an embarrassment for we the people, but they keep appointing people who are A: bloodline families B: linked to off world or are off world and C: people who ignore the people and the bigger picture, enough is enough. Repeating the same things over and over and expecting different results, is beyond madness. The one failed, the one as a singular entity has always failed, the Cosmic Genetics 1 & 2 revealed that in stark measures, it has always been about the one person and it failed every time. So, lets do something different and have the one as a collective not a singular. A horizontal line leader with all on the same level, marching forward vertically into a new timeline and humanity. An open zoom call for all members with Anna and Kim is hereby proposed, should they request it, both of you know how to contact me. Do not come with your excuses, your past connections or titles, come with proper solutions for all of humanity. Now is the time for new ways, and we, have developed already with new ways. If asked it would be the

perfect choice, just an ordinary man of the people, a reluctant leader with a heap of knowledge on a wide range of topics, a range of solutions that includes the all should they behave. I am not connected to any high falutin, hierarchical structures, governments, families, titles, agencies or secret societies or what has gone before, they all failed. It will be done in the TPC principals of ways, that will not be connected with anything of the past, and it will be equally shared amongst us all. Done with people with a desire to build a new way, not fighting or accommodating the old way or ways, in any way shape of form. The old ways are like the Black Sun Hydra, cut off one head and another emerges, no cut off all their heads figuratively, although literally can be arranged as a last resort should they not play fair, and we develop our own new thinking heads and hearts into a better way of operating. We have had enough of the same old song and dance my friend, they were not our friends, some of them were not even from here, lets not forget that. We have to let that go, step over the threshold boundary, that Beast approached the threshold boundary and is no more, and move forward with our adult pants for our future. The best weight you will ever lose is the weight of other peoples expectations. All the answers have been in the shows, once you connect them. Why is the TPC important? and how do I play a part in it? is your question to answer. Why have things been done in a pattern? can you see the pattern? Does it connect to certain shows and the timing of them? What has it revealed? have you taken the opportunity? or have you sat back and waited for others? The answers are for you all. The final song is for you all to ask yourselves as well.
