

THI-SHOW TRANSCRIPT 2022-12-29

IT'S THE END OF THE WORLD AS WE KNOW IT Where do you start with covering this year? A year of unquestionable growth for so many, the group itself and much achieved and done. More on that in Part 2, as this show covers mainly the shows and in particular the Must listen to shows or the extra shows we have done this year. Many felt we couldn't top last years shows, speaking to many of you I guess I did it again. Just when you thought you had a grasp on things, our shows adds to more THInking, pondering, ruining and mind blowing pieces and shows. It is a sign to you all, of how so many of you grasped the sometimes cryptic content, undercurrent questioning style, subtle hints and then some overview pieces to being greater clarity. An epic year in so many ways, with so many ground breaking shows. I hope you enjoy this review before we go into Part 2 with what myself and many of the members have been doing this year. THI shows: People often say to me I have to listen to each show at least twice to grasp it. Yes, that is often the case, as even in the news section there can be intel pieces thrown in. We added a new must listen to section this year to the shows, called the Tiny series. A shorter shows on one specific topic, that seems to be popular with members. There has been two of those to date, The Lacerta Files and What the EI is that? The ordinary shows have undergone some changes this year as well, to mix things up a bit. Far less of the Covid material this year as forecasted, although we still do some Covid, it is a lot more positive this year, and that has expanded into a medical section. I brought in what I call society news, items and topics that affect us on a day to day basis. We still have the exposes, which provided deeper dot connecting in their world, involving many differing topics. The penultimate section has proven very popular this year, I call it the Other Pieces. That can range about science, astronomy, religion, ET's, philosophy, self-development pieces and much more. I have lost count of the amount of requests for the immediate transcripts of some of those pieces this year. Yet often the most popular section is the ending pieces we have done this year. Many rousing, inspirational and butt kicking pieces that also received many requests for the transcript after the show. All in all show wise it has been another extraordinary year. Tonight we will focus more on the extra shows we have done this year, known as two-fers by members in the chat. There was the same number this year as last year, surprising that in many ways given that so much else has been going on. BRING IT ON

Must Listen to shows: The extra shows we did despite a hiatus for a few months in the middle of the year, still numbered 11 shows plus 4 others. Here are some of the highlights of the Must Listen to shows.

Law show: Our first Must Listen to show in February this year was all done by our Law group, with a few added caveats by me. This involved small vocal pieces done by some of our members as well. It was a show that focused entirely on law, but what is law? have we defined it? or did it define us? The show was beneficial if you connect with the truth, and let go of the lie and the fiction. Unbeknown to most people we have not lived under real law for a long time, that show went some way to correcting that. They have been using all kinds of informed and implied consent practices, spell magic, word magic, mistranslations and outright fraud. Latin is the language of

legalese, and legalese means babble, which is incoherent baby speak and so, it is not meant to make sense. Any lawyer who says they understand law is talking, well babble. It is a law to protect the criminals, create legal fictions of us, patented everyone under their system of complete ownership of us all, and every asset of this planet. Your birth Certificate registering, means they own your child, registering your car, boat, yacht, bike, pet means they own that as well. Your Social Security or National Insurance number confirms that, they deemed us as cattle, and branded a number on us to use as they please. It explained about, and the history of, Draconian law, and why it is called Draconian. It explained the pure folly of going along with the Magna Carta, which is another agency led distraction program. How the word denizen means part of a franchise, an assembly is a church gathering connected to the Jewish synagogues. A warning about the use of Assemblies taking over the Government is false and can get you done for treason was given. We then set out on the true rule of law as put forward by Ucadia and Frank O'Collins. Redefined many of the words connected to law like government, parliament, democracy, common law, noble, villain, boy and environment. Words have power, words form through spelling. A spell is an utterance or something said. Magic is energized by our belief that something is possible. If we believe that words uttered as a curse can affect us, they have power over us. Of how the English language was created in the 16th Century as part of a mind influence system designed to affect, manipulate and change the mind of entire populations. We explained what are the control mechanisms? How and why do they claim we are dead?

The original and true meaning of the word bank or Ba-Ank(h) is the Soul of Lucifer, which became the seat for the soul of Lucifer. How the financial system is underwritten by indulgences, where does Baptism fit in? A mother's birth pains are for her sins and how the baby's weight is transferred into a Trust account. How grace or divine grace has been a powerful mind influence tool in promoting voluntary servitude, also known as slavery. The term was invented in the 17th Century, during the refinement of the voluntary system of servitude known as common law. Oops. Common law is a system of servitude, something other alt media need to understand. What happened in 1871 to subvert law, governance and the people were covered. We then laid out what is the true rule of law. This be the First Law of Truth: There is, there was, there has only ever been One Law. All law is equal that no one is above it, all law is measured that all may learn and know it, all law is standard that it may always be applied the same.

The Golden Rule of Law: No one is above the law and all are equal before it, and no one stands between you and the Divine, and no one may claim your body, mind and spirit, nor may they steal your energy.

The action of free will and choice are the greatest forces in the Universe, was discussed. It then touched on the lower, higher and divine mind, whilst delving into the ego and mind virus. We then read out the 144 true rules of law and what is true remedy of law. We ended with this: Law is not meant to be complexed, complexity just adds to the confusion. Confusion makes us unaware and then fear it, we have to reverse that complexity, confusion and fear model, with a very simple

model. Everyone knows right from wrong, it is not rocket science. The Golden rule and personal responsibility, it eliminates their laws, rules and statutes, and replaces it with the laws of personal responsibility. We have to, can and will change that, and it all starts with you. Let he who hath understanding become the change from the number of beast, to the number of the truth, break the chain.

EXPOSE 11 was called What in the name of science's portion: This was a deep dive into human experimentation done largely by US Military and their entourage. Numerous experiments which were performed on human test subjects in the United States that are considered unethical, because they were illegally performed or they were performed without the knowledge, consent or informed consent of the test subjects. Such tests were performed throughout American history, but most of them were performed during the 20th century. Some others were sponsored by government agencies or rogue elements thereof, including the CDC, the United States military, the Central Intelligence Agency, or they were sponsored by private corporations which were involved in military activities. That is describing the contractors or the NGO's affiliated with the Agencies and the Military. The human research programs were usually highly secretive and performed without the knowledge or authorization of Congress, and in many cases information about them was not released until many years after the studies had been performed. We cover decade after decade of experimentation all done on an unwitting public and secrecy, that makes a mockery of Government, Military, Agencies and Medical people. After that show no one should trust any of those entities again, but remember those same 4 are involved with more human experimentation currently with Covid. Experiment after experiment in all forms of germ warfare, including radiation and plutonium poisoning. Project name after project name, the most prominent being known as MK Ultra. People of all ages were used, but the most common was the children. We ended the show with this: This should horrify everyone whether American or not, because this stuff has gone on in many countries, in terms of perpetrator and victims. How many negative descriptive words are needed to describe all that list? Barbaric? Evil? Unsane? The list is endless. But this is so anti human that the thought process has to lead to these practices being in part or a bulk of, in terms of being an off-world program. Ran predictably in far too many cases by those who call themselves Jews, in essence they are Hebrew Anunnaki. So yes the same race involved again, the same groups and organizations, organ being the operative word in many cases. The same greed based companies profiting from evil and deeply disturbing practices. The same American Government, officials, Congress, Medical establishments, Agencies and yet again the US Military, all involved in heinous crimes against their own so called population. What it also reveals is, not only are American's the perennial cash cow for all rogue programs and entities, but also the world's guinea pigs for the sadistic amusement of psychopaths and the EL-ites. All that funded research it should be noted, having tortured, maimed and killed many people, we haven't heard of a single benefit to come from it. In terms of cures or treatments, not one, and that is indicative that it was all done for nefarious purposes. The victims didn't even get the benefit of their suffering helping others in the future. This show in its entirety reveals the Milgram Experiment and bowing to authority is just about the most stupid thing people can ever do. To the Military who are or were

involved in this, remember this quote from a person who dictates your policies, when he said; Military men are dumb stupid animals to be used as pawns in foreign policy. Are you a dumb stupid animal? Or will you step up for and by the people? Just following orders is no longer an excuse, you have an obligation. The infamous NWO puppet child Greta meme applies to these entities who have and are performing these heinous experiments, how dare you. How dare you treat us with such disdain, how dare treat us like a piece of meat, how dare the people who knew of this when it was ongoing and did and said nothing, your silence brought more pain, injury, harm and death. How dare the public tolerate this in our midst, and not fight back. Everyone has an obligation to stop these atrocities being played upon us, in a world of no internet ignorance was understandable. But in a world of 24/7 available information in all time zones, ignorance is not only a choice, but an abomination of what it means to be human.

FHSTOS PLUS 11 was called Fake gods, Ashteroth and Covid: This show brought in the connections via word magic, Kabbalah, Gematria and shows how the EL-ites abide by those codes. This brought in the NAA, which is the Negative Alien Agenda and the software programs they have ran on us. It brought up the alien machinery known as the Gravitron is a part of the Beast Machine, that acts as the electromagnetic harness field. This makes up the structure called the NET, which produces gravitational and astral corruption and this is also referred to as Leviathan. In the lower dimensional fields, there is a chaotic war struggle occurring in order to regain control over the dark matter, as this is a massive power source for the AI, as well as for the Black Magic Grids. How Ashtaroth created Omicron as a Soul Prison. David Bowie in Omicron: Nomad Soul Milton's Paradise Lost describes Ashtaroth as a gender fluid deity of Baalim and Ashtaroth those male, these Feminine. That brought in the Covid connection and their great Re-SET. Of how Omicron is a soul prison, imprisoning the soul, using graphene as a neural-interface suppressing neuro-transmitters, that creates an impossible condition to receive forgiveness of sin. By altering DNA using mRNA and mDNA alters god given DNA, creating a trans-human product with no rights on Earth or in Heaven. The lack of rights, may well be to do with the fact the vaccines are patented, but we know they are not vaccines but protein and DNA interference vials. Then we asked the typical THI style question: But, what if the vaccines are setting the stage for the wheat and the chaffe per se? In what ways could that be possibly beneficial? Was 2017 really the end for many people? Who or what is disappearing? and why? Externalization of the Hierarchy book, predicts the hierarchy will manifest physically in 2025, if so, the Great Tribulation will begin in 2022. If they manifest in 2025, it means the Great Tribulation started 7 years prior in 2018, hence the 2017 cut off. All will experience it, but in two very defined and separate ways and outcomes. Corona virus known as Crowned Serpent Venom and the Omicron Variant are literally a can of Worms. How the Rosicrucian's and Crypto Jews initiated the Reformation, Tribulation? what does it mean? a state of affliction or oppression, suffering, distress. The role of Blackrock and their funding of the vaccines aided and abetted by Trump and Kim Goguen, the Trustee. How it was all linked to the so called gods again via Astarte, Marduk, Ba'al, Nu, Baphomet, Lucifer and the Kali Ma, Ra, the ouroboros, the phoenix or the bennu bird. We covered the island capital of the Khazars, which brought in the Sarmation's or lizard people, Ukraine, Odessa and how the Sephardic Jews

were in Ukraine before going to Spain and eventually conquering and murdering the Americas under the banner of Conquistadors. We ended it with: Peace is the way forward, an adult based dialogue is the way forward, caring and sharing is the way forward, and above all cooperation is the way forward. The union of the soul, which became soul union but eventually leads to soul union. That requires integrating the self and the whole, time to escalate putting ourselves back together again, unless you wish to remain in the shadows? If 2022 is the great tribulation, 2023 becomes the one, 2024 becomes the one and so should 2025. Ashtaroth to Ashtaroth is dust to dust, if lizards don't, we humans must.

FHSTOS PLUS 12 through 15 and that series, that was all so powerful it will make up Volume 3 of our book, the Cosmic Genetics series: There were a few shows this year I was called upon to cover, which brought an even larger understanding of life, history, who are ET's, who are not gods, genetic skulduggery and the overpowering desire to be the one, one in the singular and not the collective. This has been the failing throughout the ages of man and also non-humans, an all too common failing, yet it is always repeated. We at THI have done most to correct that, as I repeatedly down play my role as any sort of leader, and more a case of teacher of which then you make your own informed free will choices. Sadly even with all that teaching and knowledge, some people still want to play the one game. This is sad for those people that they will still fail to heed the lessons learnt, and the desire to be the one becomes all too encompassing. A harsh lesson to learn for lesser mortals as even the gods fell for the same program of dark descent. Part 1 spoke of the many wars, the genetic splicing of races that all started with the 3 founder races of this Universe. The Emerald Covenant, Anunnaki, Lucifer, Melchizedeks, Maldek, Hibiru, Aryans, Lemuria, Atlantis Sirian's, the cloister groups, Maji Earth Angelic humans, Maji Grail-line Lineage and many more. How the Angelic Humans in those days were very tall, 6-9 feet tall was about the average. Other bodies unearthed here and hushed up were, 13, 15, 19.5, 23, 25.5 and 32 feet tall, that was found by Carthaginians sometime between 200 and 600BC. We learnt about the CDT plates that taught and revealed so much, and how Thoth and many others corrupted or stole them, but also revealed the people running the Emerald Covenant became far too trusting of people who had gone against them in the past. In came the Leviathan races, Leviathan the correct term, the Levi conflict it really means. The fallen Leviathan ones all came out of two places, aside from the Wezedak's, who were from a completely different Matrix. They were actually from a copy of our Eckasha, they created a parallel and then linked it to us. The Wezedak's are infiltrating from the parallel of the Cosmic Cluster, they call the Eckasha the Rusha cluster, that is a cluster of Universes or reality fields, and that is the pattern of all reality fields that have manifestation. What this means is, a group of Reptilian, Draco, Wezedak races have tried to pull us into a Phantom Matrix so they can siphon off our energy. Aside from the Wezedak there were 9 primary invader races, all of those 9 races came out of the Annu Elohim and the Anunnaki races, or the Seraphi/Seraphim fallen ones and their Draconian/Dragon moth lineage. Interesting it was nine races, one wonders are they the Council of Nine the Trustee claims to work with? The Fallen Seraphim were the Omicron Dragon Moth and Odedicron Reptilians. The Fallen Annu-Elohim became the Anunnaki, which then went into two separate groups, the Jehovian and Luciferian. The third group were made up of

Necromiton-Andromie, Centaur-Luciferians, Zeta-Rigelian and Zeta Reticuli Zephelium. Interesting name Necromiton and Omicron, because when we covered the Black Sufis in part 8B, they spoke of the Necronomicon, all part of the Black Sun cult. The Jewish connection was riddled all the way through it, with the Hyksos tribe, Enoch and many others. Of how the Pyramids and the Sphinx were built in 48500BC, not 6K years ago like the ridiculous scientists and archeologists try to convince us of. The water erosion at the bottom of the Sphinx reveals it was built a minimum of 25K years ago. The Human Race lineage: there were 3 Founders Anuhazi, Cerez and Inyu, that became the Angelic Hominid the Azurite, who I mentioned in FRWL Plus 10 show. The Anuhazi and Azurite formed the Angelic Human called the Oraphim. In Atlantis, you had these different branches of the fallen ones, one group is where we find out from where the Adam races came from. Yes, as we have said in our show, but the Adam is not a singular person, but whole races of them, all of which makes the biblical Adam and subsequently the Eve, as part of their Anunnaki races, oops. The Anunnaki races where the Nibirian Anunnaki, the Pleiadian Anunnaki who work together a lot, there are also in other systems but their the primary strongholds, they are the Luciferian Anunnaki and there is a reason for calling them that. The Luciferian formed the Thoth-Enki-Zephelium group which is the Nibirian's, that is the Avian race that includes Set. The Marduk-Dramin/Satain Annunaki. The Marduk-Luciferian-Anunnaki, they are the Draconian and Alpha-Centauri groups. The Enlil-Odedicron Anunnaki. The Pleiadian-Samjase-Luciferian Anunnaki from the Pleiades. They all formed to create a hybrid strain. Thoth ran this grouping and Enoch ran the Jehovian Anunnaki. The Enki, Enlil and Marduk groups where the primary ones of the Annu Seraphim. There were 4 groups, Omicron linked to Dramin, Pleiades Anu, Odedicron was Antu and Sirius A was Rayshonda. From Dramin the Dragon Queen came Enki, who spawned of Damkina and Ningirida, Damkina led to Marduk and Ningirida to Thoth. Antu spawned Enlil and Rayshonda spawned Ninhursag which is the Lulus-Neandrathal group, this appears to have been all completed around 25500. The Enki- Zephelium races that combined with the Marduk - Satain races, this is where we get the word Satan from, it is referring to one of the Draconian hybrids of the Annu Seraphim. They then combined with one of the more reptilian hybrid of the Annu Seraphim the Enki groups. The Thoth line was the Lucifer, Marduk line the Satan. The Alcyone's are the lovely and revered Pleiadeans from the alt media and New Age cult, they are the pretty blondes who present themselves to us. Presented as the Angelic blondes, Nordic looking who have pretty features because they stole them from the Procyone's, and their image they got genetically, when they invaded and genetically took over the Cerez Procyone race. The Procyone's were blondes but the Angelic Human type. So all of the Anunnaki came out of that with the core intention to eliminate humans, it is genetically installed within their coding to eliminate humans, and they are struggling to overcome that genetic default. They were programmed with the idea that they were superior, they are the elite and they should be the ones running the time Matrix, because they believe they are so much better than we are. There is an arrogance that goes with their pattern, that was what led to Thoth's downfall, and all they came from the dolphin with two feet. I guess that's where they found their porpoise then. The Maji Grail King Lines were in Bermuda and the UK. The first one took down most of the Continent leaving only the island nations, the island nations that are left, are what we today call England, Scotland, Ireland and Wales up in the North

of the Atlantean Continent, that was called Lohas. The Luciferian Conquest of 10500BC, Bermuda was known as Nohasa, and was taken over by the Sirius A Jehovian Anunnaki and the Annu-Melchizedek Enoch group. Nohasa is where the Noah and Abraham lines comes from. The Noah line was the line of Leviathans that came up from that particular region. The biblical people are not going to like that fact. The corners of the planet they were looking for is where the 12 tribes lived, because the 12 tribes are linked to the twelve Stargates and the 12 Templar cue sites that connect to the inner Earth. These were the Stargates locations: Gate 1. Antarctica 2. Sarasota Florida 3. Bermuda Island 4. Giza Egypt 5. Machu Picchu Peru 6. near Moscow Russia 7. Lake Titicaca Peru 8. Xian China 9. Bam tso Heiho Tibet 10. Abadan Iran 11. Vale of Pewsey S. England and 12. Montsegur France. The Montsegur is interesting as it brings in the Radomir and Mary Magdalene story from the Levashov material. Perhaps they thought they could open the gate back in the 1000's, and in not doing so enabled the Templar churchmen to kill Mary Magdalene. It appears though there has been more than one Mary Magdalene. The 12 Templar cue sites that go to Inner Earth are, 1. Cyprus Island Cyprus 2. Easter Island Chile 3. Johannesburg S. Africa 4. Aguascalientes Mexico 5. Vatican Italy 6. Thar Desert India 7. Paxoi Island Greece 8. Taklamakan Lop-Nor Tibet 9. Westbury England 10. Al Basrah Iraq 11. Eye Island Ireland and 12. Kauai Hawaii. They all connected in the Inner Earth Temples and they are the most sacred sites on the planet, because they are the control sites for the planetary grids. We then covered a load of different King lines and the various off world invasions of Marduk and many others, then came the Lucifer Rebellion or the rebel lion around 22500BC. That invasion brought in the religious dogma and program we still suffer from today. The Draconian Dragon Kings having their own plan of raiding, and this was part of the Luciferian Covenant of 9560BC, just two years after the flood. There was 6 groups: 1. The Pleiadian Niburian Samjase Luciferian Anunnaki known as the blondes. 2. The Sirius B Marduk-Anunnaki known as the Anunnaki and Omicron Dragon moths. 3. The Enlil Odedicron known as Anunnaki Reptile and Avian. 4. The Thoth-Enki Zephelium known as Anunnaki and Zeta. 5. The Marduk Necromitron Luciferian known as Anunnaki Alpha-Omega Centauri Blue Centaurs. Marduk connected with the Alpha and Omega, now where have we heard those two terms in the last two years? 6. The Galactic Federation and the Nohasa Atlantis Jehovian-Urantia and the Annu-Melchizedeks. Altogether they are the Anti Christos Luciferian One World Order agenda. We ended that groundbreaking show with: Despite all their chicanery we are still here and fighting, and we still hold the key and the keys, not them, the lock and key will appear in Part 2 next week. Only the Human and Angelic Human DNA that carries the keys, like I have said all along we are the treasure. The treasures are inside of you, not outside of you, once you develop the self. We are the envy of the rest of the Universe, in particular these dark force entities who think they can cheat not only life and death, but Source as well. Their time is short now, but our journey is just beginning. Everything was faded into the mist, the past was erased, the erasure forgotten and the lie became the truth said by George Orwell. That kind of sums up Part one of this series. Sun Tzu said, all war is based on deception, again that fits Part one. People talk about GMO and Genetically Modified Organisms, yet neglect how we have all been genetically modified, in the most staggering of ways. So it all started with a Jacob and a bi pedal dolphin who lost it's porpoise. In part 1 many things and names were left in ruins, the names of the 12 tribes

of Dan, Levis, Noah, Moses, Enoch all were part of the deception. The Melchizedek story ripped to shreds, who and what the Urantia really are. It laid to rest the nonsense in the Alt Media that between Enki and Enlil one was better than the other, nope two sides of the same coin game again. The Vikings and the Saxons both off world groups ran by Enoch and Thoth, oops. The Freemasons, the Templar's and the all so lovely anecdotes of Atlantis exposed. Another bout of sickly rhetoric posted in the Alt Media, the great savior program known as the Pleiadeans, that myth was laid to rest as well. The myth of the Pyramids and the Sphinx being 5500 years old, fell 43K years short. Time and truth was not kind this time for them all. King lines here and there, none of them were valid, whilst the one who was valid was renamed as a cup, the grail, holy or otherwise. It left no doubt about the Egyptian's being fake, rendered mute, just as we revealed in FHSTOS. It revealed the bible is their story, not ours, the scriptures also. WHO MADE WHO

Part 2: About 24-23BC when we start to see the Roman Invasion by the Hyksos and the Anunnaki Leviathan races, where they were going to come over and do the Olympian god stuff. There was one version of where the Omicron Dracs that were beginning the Olympian paradigm, because that particular group had made alliances with the Wezedaks. There were both Draconian and Anunnaki races that had made alliances with the Wezedaks, and this was the Metatronic coding. The Metatronic coding means you get an immortal body, not an eternal one, immortal means you don't go through the birth and death and rebirth cycle. Before the Pleiadian and Sirian 1992 agreements were broken, the story was very gently done without letting any of the history about the Anunnaki come to the fore. Because the Anunnaki at the time were trying to make agreements, and were supposedly going to enter the Emerald Covenant. Because part of their demands were, that we don't tell about them right way, of course we would have to tell later, but let them get used to us first, before they realized what they did here. In September 2000 when the Anunnaki broke the Pleiadian/Sirian agreement they joined the United Resistance, and the whole group of them, literally made an edict of war against the Founders. The great revelation that Jesus or the name of that entity was covered by three separate people, Jeshewah 9, Arahabi and Jesheua 12. From the blue flame Melchizedek's came Joehius and Jeudi, from the Templar Melchizedek's came Joseph and Mary. In 12BC from Joehius and Jeudi came Jesheua 12 who was the true Jesus. In 7BC from Joseph and Mary came Jeshewua 9 who was the bible Jesus. In 8AD we had the Ascension science on the Jesheua 12 side, and Templar Axion Seal on the Jeshewua 9 side. In 21AD we had the Amenti Hebrew on the Jesheua12 side. In 25AD on the Jeshewua 9 side the Arahabi which came from the Elohim in 27AD. In 27AD on Jesheua 12 side came the Ark of Covenant Ascension procession and Jesheua ascended at aged 39. So the real "Jesus" did not die at 33 or die in 33AD. In 47AD the Elohim went to Tibet with the HU-3 seeding. The Indigos that got involved with this experiment, which were of the Jesheua 12 line, where of the Melchizedek Essene lineage, in the Angelic Human Indigo lineage. There were to combine from Solomon and Bathsheba, Jesheua 12 came out of the Solomon line, he was the real "Jesus", he was the one who went around teaching ascension. The problem is Jesheua 12 was a Melchizedek, and so another group of the singular wannabes. Jesheua 12 had the 12 strand DNA, he was born in 12BC, and he finally ascended through the Arc of the Covenant in the Giza Pyramid in 27BC, that is because the mission got

blown. I wonder did he say Jesus Christ I am not doing this for a lark and got off! The mission wasn't supposed to get blown, but in the agreements that were made, there was another junior Avatar, that was allowed to come in on the bio-regenesis experiment. He was named Jeshewua, and it was originally spelt with a Y as the Hyksos alphabet didn't have a J in it, but the original Hebrew alphabet did. Neither 9 or 12 got crucified, they were actually working as a team, Jesheua 12 ordained Jeshewua 9 into the Melchizedek Cloister Priesthood. John the Baptist had ordained Jesheua 12 into the Priesthood, and these were the Maji lines. There was lots of flip flopping with the Emerald Covenant, groups in and out of it. The CDT plates being handed over to essentially dark forces and the consequences of that. Plus the dance of being in the Wesedak matrix or the Time Matrix, another blue and red pill moment, if you ask me. A whole new path of evolution that was going to be run through the biblical story, so they took pieces of the ancient Hyksos distortion, the stuff from the Dead Sea Scrolls and the Hebrew traditions, that went back into Atlantis and they began to weave tales, edit things out that anybody else had written down, anything that didn't fit into their tales. So the Metatronic agenda began being woven progressively into what has become Christianity on this planet, oh dear Christianity is the Metatronic coding of the Wesedak's. The main mantra of Christianity and the Roman church is fear, fear of living and the fear of death, so if you fear death you can accept the Metatronic coding and cheat death. So the Draconian mob over in Rome decided to take all of this new Christ period information, and make their own version of it, and they combined it with the Olympian god stuff. They then combined it and what used to be the Olympian gods, became the Saints instead. They renamed them and made them Saints, that means all the Saints that followed where all Dracs, oh dear. The book was called Constantine and the Council of Nicaea, they created what we call today the bible. Where the Draconian Leviathan races which became the Knights Knossos, the Knights of Malta, they became the push behind Catholicism. Then you had the Hyksos lines that came the push behind Protestantism, this is where you have the division between Cat-holic and Protestant. With Protestantism only God can forgive your sins and regular church members can make decisions. Whilst the Cat-holic religion, a Pope can forgive your sins and only clergy can make decisions in the church, the great duality choice again. So the Cat-holic and Protestant divide is actually Dracon and Anunnaki. So those that follow the Cat holic religion are actually following the Draconian agenda. Those that follow the Protestant religion are following the Jewish Hyksos lines and the Anunnaki. Protestants via the Hyksos and Freemasonic lines hold at the center of their creed a worship of Lucifer, which means they are Thothian. The Cat-holic religions have at their core connected to Satain, which is the Marduk Dramin line of Anunnaki Omicron, that this is where the Satan stuff comes from. We then relayed the story of Nibiru being dragged from our system to theirs, to become the death star in essence. As the celestial dance on matrices, our own, the phantom and the Wedesak one was being maneuvered for our destruction, well that failed. In 2002 they were running frequencies, the Beast wasn't due to raise its nasty head until 2011. That was originally if the Stellar Activation Cycle progressed the way it was intend to, and 2012 was supposed to be the opening of the full house of Amenti Stargates. In 2011 was to activate the Beast, there are already groups on the planet that are being conned into creating manual physical technologies, that are needed to help anchor these frequencies. There is a group of ET's pretending they are the nice ET's they call themselves the

Corteum, they have been working with the Wingmaker's group in New Mexico. They were getting this Labyrinth group of humans to help them build certain technologies. Except 2012 was not our ascension, but extinction. The Star Wars program instigated by Reagan and his clowns, was also a part of that as well, that got nixed and there is going to be certain things that are put in. We will probably see some advancement of, the need of or for some type of Star Wars type technology. Hence the recent Trump SSP program that is failing. The Space station stuff has all been part of this, because a bunch of the Illuminati head guys running around on planet, know we've been under invasion. The human race, before the so-called fall of man, volunteered for this experiment, to go through the trash, molecule by molecule. The agreement took place at the mass-mind level prior to full fragmentation and individuation of the civilization. The beings who were participators or onlookers in this dangerous experiment, which was recognized as one which could go wrong or at least result in extreme pain and suffering, were not unanimously in favor of it. Nevertheless, the fall of man was arranged, involving the Luciferic energies. All this would appear natural or accidental as though it was a mistake. Note that we are using Luciferic in a more general sense, depicting the distortions in consciousness arising from excess masculine energy. Hence the rise of feminism and the more masculine female. The problem was to bring man down from a higher-dimensional spectrum of frequencies to a third-dimensional spectrum, since the human experiment also was to include the development of independence, the Luciferic energies initially manifested as a positive intention. That of enticing the members of the human race away from, the security of perfect unity and benevolence the product of connectedness to Source. Experiment my ass, this was another seducement program done by the dark forces to trick man into getting into the pods. Man stayed in the pods for 10K years whilst they raped and pillaged us, our ideas, our technology, our planet and our codes. Why do you think the term "sleepers" was introduced into the Alt Media? We ended that show with this: I and we are on a journey of an undetermined time-space event, that is a process of progression, it is not a sprint but more a marathon on a rugged and lonely path, currently it is the few but maybe more can join us in and out of time. These star gates or spiritual doorways enable beings not only to go from Earth to many parts of the universe instantly, but also to move vertically into higher harmonic universes. Which brings in what I have said on the shows, about the Vertical no time axis, as linear is the loop. To be in control of this vital multi connected junction' complex Earth, would be covetously strategic to say the least. If, however, a critical mass of the population wakes up to what is occurring and becomes sufficiently informed, the alien's agenda will fail. That is underway and progressing nicely from an overview perspective, the personal perspective will only bring worry and fear, both of which reside of the lower vibration field. This awakening and consciousness expansion of man will place the human race, in a frequency spectrum sufficient to inhibit the frequency fence, the aliens plan for Earth forcing individuals to lock into their collective. That was the veil, which we know now is collapsing. In the meantime, the human race is endeavoring to ascend its consciousness to a fourth-dimensional spectrum, to resolve its duality into unity consciousness, and in turn resolve the universe duality as originally planned before the fall of man. This is in itself is considered unprecedented in the history of the universe. One usually evolves into a higher frequency body by dying to the one below, that is, through normal death and then taking on a different energy format. However, if we

go back far enough, we were set up with a 12-strand DNA, giving immortality to the body via a series of steps of evolution without discontinuities or changing bodies. Unfortunately, the aliens, the Anunnaki and Drakonians, in particular, engineered our existing DNA mutations and the subsequent death cycles. Immortality is the Metatronic coding, we need the birth and death cycle in an eternal body format, not an immortal. Immortal is a death sentence in essence and a devolution into the dark, it is cheating Source and then their egos make them believe they are the Source. The relatively small proportion of negativity we originally agreed to, was in fact to take on the DNA distortions of negative ET's. We will make man in our image, ring a ba'al? They wished to be rehabilitated with the purpose of realigning their DNA, but also realigning the corresponding planetary energies in the grid system. Which is part of the fulfillment of the Christos Realignment Mission in our time matrix, and the restoration of the Divine Blueprint. Does the new blueprint for humanity now have a greater meaning?

Part 3: Delved into providing a timeline for everything, little did many of us know it went back to 950B years. The Eieyani of the Khundaray Primal Sound Fields seeded a life wave into this matrix, creating the 3 Breneau Rishi Founders races in Density 5. And that went ok for 470B years and then the fun and games started, that still lingers and indeed echoes through to today. Densities and beings fell, groups started to break up into two or more, advanced technologies started to be used against everyone, wormholes and black holes were created, time distortions, star gate wars and destructions and the genetics power tripping game unfolded. 250BYA saw the fall of Lyra, from whence this vessel originated, started by the Anyu and they became the Annu Elohim. Angelic wars gave way to the Gaian Orion wars, Dragon Races began to fall and the Metatronic NET was unveiled. But the unveiled became the veiled and eventually as it is unfolding, unveiled again only from our perspective not theirs. The Annu Elohim then created the Anunnaki 568M years ago, that also still lingers and hampers to this day. Several attempts at re-seeding humans were undertaken, but as soon as they rose, they also fell, via wars or the splitting of the group. Divide and conquer has gone on a long time. Between 65-472M years ago there was a series of mass extinction events, I guess the term, the great reset is ancient as well. Seeding 1 of the Angelic Humans the Turaneusium-2 was seeded here on this Earth, known as the 12 Tribes. They were not the much vaunted 12 Hebrew tribes I might add, they are a poor copy version. The differing human races and where they were placed is; Earth is HU-1, Tara is HU-2 and Gaia is HU-3, HU 4 and 5 where the Lyran's. The Angelic Human Turaneusium-2 Seeding 1 on this Earth were destroyed by the Electric Wars, 5.5M years ago. More wars followed and more dangerous technology was introduced with pylons. 848,800 YA - The Nephilim invasion of Earth primarily done by the Archangel Michael collectives, I hope that puts an end to the Archangel Michael rubbish in the Alt Media and New Age circles. The Angelic Human Turanesium-2 Seeding 2 was destroyed in the Thousand Years War. 848,000 YA - The Planet Maldek explodes as a result of the Thousand Years War and becomes the asteroid belt. 250,000 BC - A Neanderthal slave race of Angelic Humans were created by Enki-Enlil-Marduke Pleiadian-Nibiruian Anunnaki. 246,000bc - The Leviathans emerge from an attempted bio-regeneration of the Thoth-Enki Anunnaki group. 208Kbc A major cataclysm destroys Temples of Urtite and the Cloister races. The five Cloister Races were: Ur-

Antrians who were brown skinned DNA Strand-2, Breanoua who were red skinned DNA Strand-3, Hibiru who were white skinned DNA Strand-4, Melchizedeks who were yellow skinned DNA Strand-5, Yunaseti who were black skinned DNA Strand-6. These cloistered races left no remains on earth, as they were here during an Anti-particle universe cycle. 75,000 BC - Dragon APIN created by Omikron Drakonians. What is an APIN and an LPIN? We are talking about ET-developed vast global networks utilizing crystalline microchip scalar technologies. They are referred to as PIN systems, Pylon Implant Networks, HAARP and GWEN towers the obvious examples. There is the APIN the Atlantis Pylon Implant Network, and the LPIN the Lemuria Pylon Implant Network. An Inner Earth Rebellion. 50,000 BC - Lemuria is destroyed in a massive explosion, resulting from a botched attempt to quarantine the Draco's in their underground caverns. 49,000 BC (estimated) - The Arc of the Covenant passageway moved from Northern Atlantis, modern day Ireland to Giza, Egypt. 28,000 BC - Atlantis begins to fall/shift to hibernation zone. The initial fall of the Atlantean continent, the continent then blows up into 3 Islands. 22KBC The Great Deception occurs on the land that is now known as Kauai. This was at the root of the Atlantean Conspiracy which included a memory wipe for the entire human race. Is it a coincidence that Kauai is actively erupting now? Mauna Loa, the silent voodoo god that means, voodoo is the remit of the Lucifer jet black race remember. The Eieyani Massacre led by Thoth. The Earth then becomes ensared in the Wesadak BeaST. 9558 BC - The final Fall of Atlantis due to the Atlantean Flood. What followed was lots of CD plate translations, which is essentially like an Akashic record and a blueprint. In came the Melchizedeks and the Hyksos, along with Solomon and his demons. In came the Zetas, 1903-1916 - The Zeta Drakonians uncapped the Falcon Wormhole. 1916 - The Zeta Surveillance, which just happens to coincide with WW1. 1926 - The Zeta Draco's travel back in time to 1926 after having successfully overtaken Earth, during what would have been the Organic Stellar Activation Cycle in 4230AD. 1930-1940 - The Zeta Treaties and the Majestic 12 or MJ12 created. Which is a decade before the MJ-12 was created, as told to the public. That version was 1947, the same year the CIA or the CIAkars was created. 1932 - Major contracts with the world governments and the Zeta Reticuli begin. Zeta Reticuli are greys, and are associated the most within alien movies, and was covered by Bob Lazar. They are part of 3 main grey groups, the Zeta are known as type A, the Orion Greys are type B and type C is more illusive. According to the Trustee she is working with them, indicative if you ask me, but how far do you go with naivety before it becomes a more obvious and concerning alliance? 1943 - The Philadelphia Experiment punches a hole in the Wall in Time between our Earth and the Phantom Earth. Between 2000 and onwards followed lots of technology wars, erecting and destroying. 2003 everything that was put in place for the good began to fail. The primary vortex's began to open for the ascension, only for them all to start collapsing. Humans have 12-senses of which 5 we are aware of. This is a reverse of the chakras 7 we are aware of, and 5 most are not. Another case of as above so below, as within so without. Also the Star Gates are Universal-Cosmoversal Chakras, and the chakras of life forms individualized Star Gates. The intrinsic Micro-Cosmic Chakra/Star Gates system of individualized life forms is intimately linked to the Macro-Cosmic Star Gate chakra system of the Planetary, Solar-Galactic, Meta-Galactic, Universal and Cosmoversal domains in which the life forms reside. Yet again as above, so below and we all think we are alone,

unconnected and not relevant. Our chakras tie into the Star Gates, that will allow at a later date, people to go or move to other places in the Universe. General traveling and also Ascension plans are tied into this, as well as our DNA coding. Which proves the folly of certain members and the Trustee now, talking of removing the chakras. I then went into great length of how and why I do not trust Merkaba's. The Merkaba, a twelve point system that is said to be a rising or ascension coding. But, that 12 point system is closed, where is the expansion? it is like the closed concentric solar system or galaxy, no flow of energy or frequency in or out. That to me is stagnation. The 12 is a closed loop system again, and something I have mentioned several times of is, the 12+1. The one is almost always hidden, or closed off given the way the whole Universe has been ran for billions of years. For a flourishing system of Source energy and frequencies, there has to be an inflow and out flow, be it for energies, frequencies or communication. Is this how they cut us off from Source directly, by installing us in Merkaba prison traps of time and illusion? Because one of them attempts at fixing or corrupting our Merkaba was, installing the Eye of Yahweh at D-11.5 with tragic consequences. We ended the show with; A sorry tale of history, riddled with failed experiments, dark intentions, power trips, egos running amok. And yet, so many to this day believe the gods or extra-terrestrial are more advanced than we are? that is another illusion. One could argue whether any one group did us any favors in the celestial technological dance with and of life? So called Source Warriors, like Thoth, Solomon, Melchizedek's, Enoch, Noah, Moses all danced with the dark forces due to the hidden hook, ego. They wanted to be the one, yet his story should have shown us all now, the one, the neo has never worked, none moreso than the great savior programs known as Jesus all three of them, Mohammad, Allah, Enki, Enlil, Yahweh, not one of them saved us. Why? because you are meant to be an adult and save yourselves is why. The common theme that has gone on for billions of years is? divide and conquer. Groups started as one, became two and even more as we have seen. The desire to be the one again, the controller, the ruler, the king or queen, does anyone ask whether they spotted that, not one of those systems worked for anyone? The minute anyone reaches the top, there always follows along someone or group coming along to knock you off your perch, moreso if you are an Avian! What are they all afraid of? so that they have to hide under a skin suit? the answer is us. They seek us out and hunt us down because we are different, because they envy who and what we are, and because they are terrified of our capabilities. If that wasn't true, why hide? why control largely by stealth? why be so devious? why have they stifled our history? Do you not recognize your own power from these last few sentences alone? We are the power, the force and potentially the leading species or race, providing we act, think and do right. All the previous experiments have failed due to hierarchical systems and the controlling aspect. Let's transmute and integrate things instead of fighting and killing each other, and the separate everything and everyone program like a cell in a petrie dish. All else has failed and not once has the in harmony path and lets all come together program been tried. CHILDREN OF THE SUN

Part 4: Part 4 started from 2005 onwards, and continued the vein of building and rebuilding, one step forward and one step back. More councils getting involved, more agreements and more canceled agreements. In 2008 on the dates May 22-27 - The Solar Bhardoah Ring Wave 1 took place. Bhardoah means backflow, it is backflow return of energy back into your own Ah-Jha body and into the Gha-Fa body. The Gha-Fa is part of our anatomy, part of the spirit body anatomy, our infrasound body. These solar ring waves went on for 15 years, and the final one was last May between the dates of the 22-27th. A ceremony was performed to complete the cycle, and end another long standing cycle of theirs. That has brought great change around the world since, there is a sense of calm, lightness, light-headedness, dizzying and an increase in energy, electric charge flow and everything looks brighter. The dateline went on up to 7532AD, documenting potential events of the future, although one maybe unfolding now. 4230-6443AD - The Zeta/Dracos successfully overtake Earth and time travel back to 1926. In my understanding outside of time the current date is around 12,000AD. We then went onto describing a number of different technologies like the; APIN and LPIN network grids, dragon, serpent and eagle networks. The Nibiru diodic crystal grid, The NET, the Nibiru Electrostatic Transduction field, adds a whole new meaning of the inter-net now doesn't it? The Four Faces of Man Lemuria Pylon Implant Network has been referred to as, the Guardians of the four corners and Angels of the four directions. Its four heads are anchored in by sound pillars, in recognition of the Founder's creation of the Four Faces of Man, the Easter Island heads were built by ancient Indigo Maji descendants. The Blue Oxen called the Sacred Cow was installed in 22,500 BC covering the whole of India, which was a specialized interplanetary network and runs on a D12 current. The Phoenix wormhole was created in 10,500 BC in the time wall by the Pleiadian-Niburian Anunnaki. It was anchored into Earth, with the White Eagle, the NDC-grid, and the NET, through stargate 4 at Giza, Egypt, and links to the phantom Nibiru in the Phantom Matrix. This would cause fallen portions of Earth to form an inhabitable moon around planet phantom Nibiru. The Guardians continue to attempt removal of the NET but with only partial success, ET factions have united to be more effective against the Guardians. Through treaties, the Anunnaki have permitted the Guardians minor use of limited frequency bands of the NET for communication purposes. The NET has enabled ET's to control science's progress, by subliminal inspiration communicated to appropriate Illuminati members to provide suitable technologies for the ET's agenda. Thus many electrical inventions have been inspired to enable the lowering of the NET into 3D, to interface with our electrical technology including the wiring cages in homes. One ponders whether the Israeli smart meters are part of that system? The Zeta-Rigelian and Niburian Anunnaki collaborated in preparation for lowering the NET to form the frequency fence in 3D. In 1998 the NET was interfaced with the Montauk facility. In 2014 it was found running plasma technology up to 8D, in late 2014 it the Montauk facility was outer faced and ended. Dimension 1 is 3D Sub Conscious and 3D data storage. Dimension 2 is 3D Instinct and 3D data relay, the realm of the bio-human bots. Dimension 3 is 3D Reasoning and 3D data assimilation, translation and manifestation. Dimensions 4-5-6 is 3D Super Consciousness, and 3D Creative Intelligence behind the experience templates and the manifestation of identities in HU-1 of Dimensions 1-2-3. Dimension 2 is 3D Instinct and 3D data relay, the realm of the bio-human bots, that line got me pondering, what if they are making us operate in a 2D format? Isn't

that how we view the celestial objects? Because when you apply 3D to it or depth, things becoming a whole heap clearer. The Metaverse is for 2D bots and a devolution, is that what the Covid DNA jabs are all about? Those that didn't dabble or fall for the Milgram Experiment, are going into and onto something else far better.

Harmonic Universe-1 HU-1 identities have free will, and can override impulses or signals sent to it by HU-2 Super Consciousness, which are for the HU-1 identity's greatest fulfillment. These are messages sent to your brain, often it can be disaster events, and it is up to the individual to accept or deny it. Not stating I do not consent, implies you are consenting to the action or events presented. The Stella Activation Cycle or the Ascension wave cycle. The Earth Tara grid to merge with ours in 3-4 generations after the year 2012. The 1st wave ascension is 2012-2072. The 2nd wave is scheduled for 4230AD. Humans who can assemble their 4th DNA strand can ascend in the 1st wave providing your chakras are intact. The chakras are linked to the Gate you will travel through to the higher dimensions, if not, you will be stuck in the re-incarnation cycle, until the 2nd wave scheduled in 4230AD. We then went onto detailing and describing the hybrid races, Illuminati Royal Blood Lines, Dragon Moth or Omicron Draconian's are one of the factions behind the Orion Group, one of the intruder groups of the Negative Alien Agenda. Rebel Drakonians aimed to defeat both the Guardians and the UIR in the 2000-2017 final battle, that failed badly for them. Which may well have involved the failed attempt to rip a wormhole from here to the Galactic Core, via the CERN program. That was stopped late August 2015. In late 2017 the "Machine" with 12 cords to here was cut off and returned to Source. We then described the Ascension path, as the Earth separates into higher and lower vibrating particle bases, Bridge Zone Earth and Phantom Earth each will be cleansed of the other. Populations of the Bridge Zone Earth will rise to face a new dawn of evolution within the new Fifth World of enlightenment, progress and achievement. Those on Phantom Earth will not make this transition, and will remain within the digressing Fourth World evolutionary cycle of a descending Planet in the D-3-time continuum. I suspect that event is one of the worlds disappearing I received in vision mode back in 2014. This separation is allowing for those ready to move forward and not being held back by the masses, who remain as children being parented by others. We ended that show with this: We can wipe the slate clean and do the advanced adult thing and work to not only correct the past, but all of our futures. What an opportunity for us all that is, a fresh and new start, fresh and new ideas based on cooperative efforts on behalf of us all. An end to the win-lose duality, to a win win with the win and triality, which leads us all back to the original blueprint of, one on one with the one. One as a singular entity, has never worked over time, one as a collective as never been tried, that can and will work eternally over time, and out of time like never before. Hierarchy never works for the collective, let's all learn to be equals and quit this demeaning and lowering of other sparks of the Creator himself. It's an abomination of what life truly was meant to be, a wondrous experience for us all, not an existence until you die and repeat the same loop based cycle of strife over and over again. To the ET's, NT's and the Councils are you advanced enough to listen and act on this proposal? or will you continue the same old hide and seek program of division, death and harvesting? What have you got to lose? your pride? your status? neither of those are important enough to not make this

opportunity work. To the people of Earth, time to stand in your own power and sovereignty and not only claim this planet, but develop it in an extraordinary way that is all inclusive. You won't do that in low vibration, seeking parents and Savior programs via Governments and Religions, you can only do this by growing up and becoming an adult thinking based species. I will leave you all with a reminder of some of the pieces within our show. The illiterate for this century will not be like the last century, for those who couldn't read or write, the illiterate for this century will be those who cannot unlearn the lies, they have devoured in this and all other centuries. This century will unravel and unveil the lies, deceit and perpetrators of crimes against humanity, ignorance will be a choice, and not a statute or a regulation. Law like common sense will return to Rta again, all done in a nature-al or natural way. Immigration of the future will not be country to country, but from their world into ours. And the last piece is from the EBE who crashed just three miles from where I am sitting in 1948. Just try to accept we are in paradise when we are seeing and understanding something new, our god should be change, our religion should be understanding, searching for truth is our greatest social challenge and purpose.

FHSTOS Plus 16 was called Rites are wrongs: A show that can bring up a range of emotions, rage being the obvious in some pieces, and deep triggers in others. We started off with the calendar of the Wiccan cult, which was a full on worship of fallen gods and in particular goddesses. The worship of demons, full on Egyptian, Roman, Celtic, Irish and Norse names of the past, most of which were invaders to this planet. Moon worship and Lilith came forth, Isis in particular and even the worshipping of the Kali Ma. Shiva worshipping, Pan and Paganism, Aztec gods, African voodoo gods and demon spirits, Osiris and Sumerian gods, Baphomet and Hades, Nut and Maat, Thoth days and feasts. Knights Templar and Is RA el days, all hallows eve, Sekmet, Saturn and Cronus. Never in all my born days have I heard such utter drivel, embarrassing limitation programs, nauseating idol worshiping of entities that harmed humanity at best, destroyed them at worst. A full on disempowering exercise. These people are beyond stupid, their stupidity is not limited to themselves though, as their invocations, incantations, spells and dark magic impacts us all so greatly. Riddled with fear based rituals in case the fake gods smite them. This is the realm of the low vibration and low self-worth people, not recognizing your own power and give it all away to dark forces entities that entraps us all. We then covered the Hieros Gamos described by some as sacred sexual intercourse, which brought in Inanna, Zeus and Hera, Tantric Buddhism, in India Maithuna is a Sanskrit term used in Tantra most often translated as sexual union in a ritual context. Since when has a sexual union been described as a ritual? That gives it away right there. In came alchemy, the chemist of the god, Jungian psychology, Jung was a CIA agent and Wiccan sex magic. In Wicca, the Great Rite is generally enacted symbolically by a dagger known as an athame being placed point first into a chalice, the action symbolizing the union of the male and female divine. So, it is a death ritual because if you plunge a dagger in the vagina of a woman, that leads to death. At best it renders the woman unable to reproduce, how is that beneficial? A premise posited by sex magicians is the concept that sexual energy is a potent force, that can be harnessed to transcend one's normally perceived reality. Tantric sex is part of this harvesting program as well, from the word tantra which means to loom or warp, think of that in terms of the serpent kundalini.

It brought in British Freemasonry, Occultism and the Hermetic Order of the Golden Dawn and the OTO. We then went into an interview that described the methods of deprogramming for all these practices. Monarch programming, sodomy, Sodomy is called The Key of David. It then said this; I don't believe anybody can become fully illuminated unless they have been sodomized at around three years of age. If they wait to touch that person until they're ten, twelve, fifteen years old, they will never be fully illuminated because you can't open the third eye after about five or six years of age. I don't think you can become powerful in the Society of Jesus, without being involved in sodomy at some point in time. That is the Jesuits who run the Cat-Holic church. The strong man spirit inserted into the sodomized victim comes from the Elohim, and was called the Legion mindset. The initiation for the Illuminati and Freemasonry is they have been illuminated or initiated into the illumination of Lucifer. The initiation into the light of Lucifer is achieved by sodomy of the three-year-old. It was uncovered that Joseph was the Strong Man, that he was Rothschild bloodline and they had used him as a male prostitute, sodomized him as a boy in rituals to get the power of the bloodline. Later it was taken up by Joseph Mengele and the SS, it also came in via Aleister Crowley from black magic Hinduism. We ended the show with this: The role of the dark is to trick or seduce you into and onto their path. They have used religion, spirituality, new age and cults with which to do so. The 5 plus one hidden hook plays a role also, all of them you should notice are external of you. The three main tools they use are, seducement which plays on ego and greed, divide and conquer, divided within and without, and their main tool now is, fear. Quit the fear. The sheer depth of the occultic practices rising out of India and Tibet if you have followed this series, should be a major cause of alarm for most people. Enlightenment is another tool they have used for their seduction, retreats, spiritual tours, ancient sites, unless you shielded properly, the majority of which has implanted you, conferences also, it is a minefield of darkness for those seeking the light. If you really seek the light, it is contained within, not spiritual gurus, shamans all done by the very peoples who were corrupted far more than we were. Ayahuasca, peyote another dance into the demon realms, which gurus and shamans are oblivious too, or part of the deception. Anything or anyone who puts a label on themselves and involved in this, is part of the deception, whether knowingly or not. Trusting the self and your own intuition is the key to it all. Whether that is Indian, Greek, Roman or Egyptian gods, whether it is Lucifer, Jesus or Jesheua, it matters not the name, what does matter is, you give your own power away to these entities. You see, those that follow these entities have been told to believe by the system, and yet no one has proof they exist. They call it blind faith for a reason, those people who do that need to learn to see. It is the lack of the self that puts people into these harvesting cults, your real god Source has never told you to worship anyone, even the Jesus narrative told you that. The greatest fear for most people is not war, poverty, starvation, but their own power. Accept it and use it for good under the rta or golden rule and you have just changed not only this world, but many others.

The song says: Leads me to your door, the door is your own inner portal or stargate located in the heart. Yes, it's a long and winding road, but ultimately the greatest goal of all.

FHSTOS Plus 17 was called SSp, Nazis and Aliens: This show involved the SS(p), Nazis, NASA and alien element, but also Luciferian Manchurian candidates and spaceships from a black community's perspective. It delves into the mind control aspect of MK Ultra, agency led programs of violence, division and race based programs. It brings in Tesla, free energy, treason, Operation paperclip and so much more. It also reveals the largely hidden faction fighting between the Rothschild's clan and the Black Sun. Of how Tesla was linked in some part to the SS, Wernher Von Braun and he had what I would describe as a handler, with GHW Bush's father George H Scherff. It delved into the Vrill energy and machines, MK Ultra tactics, Paperclip, NASA and the Lucifer Servant cult operating there. From the time of the Nazi defeat in Stalingrad in 1943, the SS had planned to move their secret rocket and weapons program to America paid for by U.S. Taxpayers. They intended to dominate and control it by whatever means necessary in exclusion to America's interest. All of which confirms the Nazis were not defeated, they just moved onto the 4th Reich, America. The Nazis that were clandestinely brought into this country under Operation Paperclip basically were legions of the SS that served 3 Masters, one more powerful than another; 1. The United States, their Sponsor and Benefactor. 2. The SS-Nazi Cult, Blood Covenant of Allegiance and Secrecy. 3. The Satanic Principle, Lucifer, the Great Deceiver and Light Bearer. The documents disclosed that the secret treaty employed and essentially placed Hitler's General at the head of forming the CIA and U.S. Foreign Intelligence Service for Eastern Europe. So, the OSS along with the SS, created the CIA with American patsies like Donovan, Bush and others. We then covered the astronauts, all of the SS Wernher von Braun's NASA astronauts were slight and little guys, rather short at 5' 5" and less to fit inside the limited space of his spacecraft cockpits. Something not considered by the researchers is, were these pilots actually human at all? Given the off world links with the Aldebaran's and the Vrill group. Given that I also know some of the smaller greys inhabited NASA's Kennedy Space Center in Florida. This then brings in the Aldebaran's from the Taurus the bull star system, who were working closely with the Nazi element and the subsequent Jewish EL-ites connected to and with it. We then went into the Aldebaran's and the Sumerian empire, the race of the Aldebaran's landed in Mesopotamia and formed the master caste of the Sumerians which were described as fair, white God people. Sounds like the Abraxans from Jupiter Ascending to me, or the Ori out of Stargate. The Vrill telepaths also found that the Sumerian language was not only identical with that of the German, and that the language frequently of German and Sumerian-Aldebaran were almost identical.

We then showed a series of spacecraft developed by the SS and The Blood Covenant Knights of the Black Sun, which is represented by the black eagle. We then went into MK Ultra and the use of black Manchurian candidates, doing mass killings of which they had no recollection of. It covered how the black community were not generally interested in aliens or UFO's outside of the movies or TV. Yet these MK Ultra people where all talking about them being involved. We then covered a tactic used on the public called The Strategy of Tension, is a theory that describes how to divide, manipulate and control public opinion using fear, propaganda, disinformation, psychological warfare, agents provocateurs and false flag terrorist actions. How the Muslim Brotherhood and Louis Farrakhan were involved in it, the leader of that group now is, Barack

Obama. It delved into a Dr. Valerie V. Hunt and Secret VRIL Electromagnetic Energy Fields, with more links to NASA. She was a serious student of VRIL forces which uses free scalar-electromagnetic fields, plus leading expert and pioneer in behavioral psychology and ELF electromagnetic wave brain entrainment or mind control at UCLA, one of the CIA's Secret MK-ULTRA handmaidens. How lots of the spaceship technology was connected to Wright-Patterson in Ohio. We ended that show with this: It should be noted despite all this in some parts sounding dire, we have made giant strides against all the dark forces in their various guises. They are doomed no matter what some of them think, technology will not be their escape route anymore and they await their date of destiny, and dare I say it, a non-atonement day. These groups and entities have plagued us all here for many lifetimes, loops and cycles and yet the populace at large just doesn't want to know. How the Milgram experiment people play into their game. The dark forces thrive on stealth, hidden, underground and secrecy, all of which was a mild excuse prior to the mid 1990's, but with the internet available to many by the 2000's, with the knowledge that can be attained from it, that excuse wears thin. In 2022 that excuse is no longer viable in any way shape or form, and leaves us all with one conclusion; these blind, deaf and heartless are so weak, they cannot handle the truth. It scares them shitless, like the frightened child after the clown and monster dreams. These types of events and incidents are coming to an end, you can be certain of that. Another 1006 years of playing in the light aspect with an increasing numbers of people seeing who they are. We the people have had enough of their Avian SET based rhetoric, whether with their bird politics of left and right wing, their bird social media of twitter and their mocking bird fake news platforms as well. As their bird policies fall, only then can the people learn to fly again, free of unbalanced levels of darkness, free of bird only flight and back to Higher Universal flight in terms of soul development. For many our flight has just begun, as we crawl out of the parenting nest and learn to fly ourselves. As we dance with others to the music of the spheres, no longer restrained by evil, attachments, cords and low self value. This is your own journey of discovery, a personal flight of the self, no one will or can do it for you, you either learn to grow and fly or plunge above or below and die. The latter is not the end, but a new beginning, albeit a vastly different beginning to those who develop and fly. I BELIEVE I CAN FLY

FHSTOS Plus 18 was called; The story of V's: This show had a lead up to it, with several pieces in the main shows all combining into this overview of the 2009 TV Series called V. Is TV short for The Visitors? What you watch are channels, which brings in channeling. If you don't get the right channel, you get static, which is like the background sounds of the Cosmos and also the now defunct Looking Glass technology. The world's greatest form of MK Ultra and mind control. The saying of how life imitates art conjures up vivid imaginations of how life manifests or creates art, and that can certainly be the case as this description shows. But I asked the same question several times during the show of, is art dictating life? The Visitors arrived in 29 crafts and their first venture off their craft was to the UN and New York, not a coincidence. The usual off world seduction programs of promising technology soon followed and in particular some medical technology. Offering med beds and some miracle cure called R-6, but R-6 held a great secret. R6 has a molecular compound that embeds itself into human DNA, it interacts with a human genome,

then emits a wavelength of sorts, like a transmission. Remember the series started in 2009, one year before Project Lockstep plan was unfolded. The series stated that Anna was tagging humans like animals in the wild. Does that cross-reference with the Covid vaccines? They then used a product called RN-3 to cure sickness and they were mixing it into flu jabs. Remember during Covid, flu disappeared. Is life mirroring art? Or is art dictating life? One of the most extraordinary things not in the show was, there was no Military, Agency or Government involvement, which is a case of what they don't reveal, becomes the revelation. V's then came concerned that some of them were becoming human like, not just in terms of looks, but the human emotions. This then raises concerns of the intent behind the de-humanizing the EL-ite children via the MK Ultra programs. Whereby they try to remove any compassion, love or empathy via what is known by our group as the Svali training. The V's have what is called the bliss, which is a new age style mind control program, designed to keep everyone in line. The line; we can't have our people showing empathy or bliss, because if they unify they become a threat. This plays into their greatest fear that pervades them every day of the year, the populace coming together, because if they do, it is all over for these entities and their minions. We spoke at length about the amount of use of symbiotes in several off world programs, in particular the Stargate and Marvel series. Next there was an incident in relation to medical tech help from the V's, whereby the governments and lead officials all blocked it, due to concern the economy was failing. Because V's provided it for free, art mirrors life it seems. The visitors then revealed they had infiltrated the police, FBI, the government and every aspect of human life. This echoes what I have said all along, they have run in every department of our health, governance, security and social services. The next section focuses on a regular household product that has become part of our staple diet per se, but should we trust it? Yes, I am about to ruin something else, that product is salt. The R-6 tracker it was said, masks itself in humans as? Saline. Which brings into question the alleged saline jabs instead of the Covid jabs does it not? Which may explain the overdosing of salt in our food, and how salt has become an addiction of sorts. I then went into a deep expose of salt, too much chagrin from certain members. But, the salt industry coughed up a list of names who desired it the most and indeed fought over it. Salt was prized by the ancient Hebrews, Greeks, Romans, Byzantines, Hittites, Egyptians and Indians. What a who's who that is, from our series From His story to our story, plus the Cosmic Genetics series. I then listed the conditions of excessive salt, and given saline was in some of the jabs and that list detailed all of the Covid jab side effects, one pondered is the saline solution the real issue? Is that the experiment? They then used RN-3 to cure sickness and was mixing it into flu jabs, again a Covid reference. The word salad and salary both derive from the root word of salt. We will use their own children to plot, seduce and destroy them, Anna said. This can be seen nowadays, whereby they are telling children to ignore their parents, and only follow and believe in your teacher. That tactic was used for the vaccines in schools last year, without the parent's consent. Scientists were working on, what seemingly worked against the V's, was a compound to reduce carbon emissions for global warming. Yes, the global warming cult was prevalent back then, it is called seeding the populace. Except, this compound had side effects on marine life and animals. Scientists in the show suddenly started to go missing, disappeared or turned up dead. Remember on the alt media several reports this century about scientists being

killed, disappearing or going missing in mysterious ways? But the virus side-effects were actually deadly to another species, reptiles. Remember our piece recently about lizards going extinct? I replayed the piece about a mass die-off of lizards globally, what if that includes the human looking ones as well, was the question you all should of asked yourselves. Also how the planet is getting considerably greener, with much more vegetation via increased CO2 in the lower atmosphere. Which destroyed the climate change fraud big time. We then went into an earlier expose of the Lacerta files, said to be a representative of a lizard species and how things unfolded here. We then highlighted of how the church supported the V's, and showed the connection between the two of them in 3D life. The next reference in the show spoke more of the bliss, which is eerily reminiscent of the City of Light pill in the 100 series, led by Cain, not a coincidence either. But the seducement of the bliss echoes our past history, when she said it would remove all pain and heartache. Now where have we heard that before? The sleeping pods they seduced the humans in the past to getting into. They to me resemble the med beds and also the machine they built for Jake to travel into the Avatar world. The links between what were called sleeper cells, and the sleeping pods that humans were stuck in for 10K years, that is cryogenics. Anna seized power from her mother Diana, based on lies and accusing each other of weakness, all of which proves again the folly of the one leader, whether male or female. She was working on another project of erasing human emotion, by interbreeding to create a generation of V's who had no human emotion and would only listen to her, egotistic much? That is what ultimate power brings to them all, human or otherwise. We then went into the IVF program and I asked the question of; Is the IVF program a or the hybrid program? The mention about depopulation? less humans has been mentioned as a fear tactic for most of our lives. Why then with all that rhetoric against more humans being born, would the authorities allow a program for more women to have babies? Does that make any sense whatsoever? No? then it is a program isn't it. The question is; was it an off world hybridization program? The next phase of the V's interbreeding IVF program, was about messing with the DNA and the X and Y chromosomes. All of which plays directly into the saying, we will make man in our image and likeness, indeed. The next phase of it describes how they do it, create an empty space in the DNA via gene extraction, think CrispR, then stealing the DNA, of which only the best DNA was used for the experiment and plan. Testing your DNA, think testing kits for Covid. The DNA ladder was stripped using technology down to half a ladder, and to replace it with something else, their DNA. It is all very mRNA is it not? The purpose of which was to accelerate their own species and evolution from something that would have taken 5K years down to 50 years, which is the second time they used the 50 years narrative. In essence it was to piggy back on our evolution to fast track their own, but also they revealed to create a master race and species, oh my. So, the V's next big sell was the blue energy devices and that was about to kick into overdrive. Sold as free clean energy, now where have we heard that recently? But given it was handed to us by the ET's and the color was blue, is this another reference to the off world color program? Despite the multiple protestations of we come of peace, they didn't. I mentioned this earlier; The mobius loop a popular New Age symbol said to be "of peace". We come of peace, always was a common saying by the Queen known as Anna, not in peace, but of it. Let's just shift the pronunciation of that shall we; We want a piece of it always, now makes more sense does it not. That is the role of the predator

and parasite, harvesting, hosting and spreading like a virus if left unchecked. Just like the Jewish EL-ites or the Hebrew Anunnaki, they have been allowed to prosper for far too long, and time it was put an end to once and for all. The biggest hurdle the humans faced in the show, and indeed what we overwhelmingly face here and now is; the issues of the fight against the enemy was hampered by humans turning on each other. People betraying each other, selling out, service to self only, played by love, seducements and ego, fighting to be the one, and betraying their friends, sound familiar? It should do. This is what humanities biggest failing is, and why clowns and EL-ites still rule by proxy, because we the people cannot work together for a common cause. Do you think all the clowns like each other? Hell no, but they work together for a common dark force's cause. A lesson some people even in THI have failed to fully learn, never mind the steaming masses of the blind and ignorant. A simple coming together by a few dedicated and committed people, like in the show, goes a long way to ending this upside down and backwards world for all who are left here. The human soul they found cannot be removed, and should be embraced according to Diana, but Anna would have none of it and continued her technological route of destruction. Diana warned that, that path would lead to the ending of the lizard species, all of which echoes the warnings within our show. I have warned repeatedly of the dangers of technology, and how if it is embraced too much, it will lead to our own downfall. The human/soul package is the most prized asset in the universe, if only people would recognize that as such. This plays into what was mentioned earlier about piggy-backing on our evolution, that failed. You know why it failed? Because they couldn't remove the soul. They had to remove the soul to then insert their own into the vessel and transition in the host bodies. You cannot have two souls in one vessel, which is why at the point of delivery the soul arrives into the newborn. The problem with the V's was, and like many other species off world is, their over-reliance on technology. Most of their technology like that on Earth was weaponized against the humans and their own kind. Over use of technology, breeds laziness. When the time saving use that technology brings could be used for soul development and improving life of the self and others. So they couldn't remove the soul, couldn't put two souls in one body and they used the third effort we exposed in a later show of potentially putting two bodies in the mother, given the high proportion of twins or more born in IVF programs. The fact 92% of IVF was done on whites, should not be lost on the listeners. We ended the show of the difference of being in the heart and not the head, but I wish to end this review with something said earlier in that show. Out with the old and in with the new, with a planet that is being terraformed with new vegetation, faster growing and larger plants. Is that the other developing Earth we have spoken about? or is it unfolding all here and now? Was Covid a convenient distraction for the disappearing people? Is earth now throwing off the inhabitants not suitable for its and our progression? Is a new Earth evolving before our eyes? Did we not say that this time it will be done for the first time ever, in body? What can you see? Or what are you not seeing? Go within. THE VISITORS

ENDING PIECE: Some truly epic shows this year in a variety of subjects that brought you all greater clarity. The shows this year were deeply interwoven as one show or topic rolled on into the next. Although not covered in this review I know you all liked many of the ending pieces this year

as well. Can we top it next year? I guess time will tell. An extraordinary year for THI in so many ways, with so many dot connecting shows, so many MSM proofs of our material as we march onto the next year whilst always exhibiting truth, honor and integrity. We end this show on a sad note in many ways, but also with a celebration of the time he spent with us. The saddest day this year for THI and the members was the passing of Glenn Connon aged just 48 years. As mentioned back in August, Glenn had suffered many maladies during his time with and before THI, and I guess they all caught up with him on that fateful Monday morning in August. The shock still resonates to this day, but not as much as his bereft girlfriend Angela Efken, who has had to endure her own poor health far too much this year as well. Glenn was a universally popular member in THI, with his songs, jokes, voice-overs and general humor, and yet when called to do so, he had a very serious and deep understanding side to him as well. He will always be missed by us all, especially me as he became in many ways the little brother I never had. Glenn maybe gone but his memory will always live on with me and THI. Till we meet again my friend. We end this show with a triple Glenn montage. STITCH COPY AND PASTE, SPY WAY TO HELL, WE ARE TPC
