

THI-SHOW TRANSCRIPT 2017-07-20

*NATO shot down Russian jet recently in an attempt to create war, led to some feisty exchanges inside the G20 meeting *G20 have threatened or attempt to bar the other countries outside of USA from exiting The Paris agreement, the fall out from that is not yet realized *clowns are now awaiting on delivery of money promised to them by ET's from another dimension, do these people A: really believe the currency will be same? B: if it is from a different dimension will they be able to see or feel it, each density up is only 10% density of the previous *keystone pipeline's only purpose was to deliver oil based assets and turn it into a new oil backed currency for America and it's cabal agents, like Iraq and it's dinars, all part of a giant fiat based currency scam again, so why are they doing this? because the rest of the world decided to no longer accept dollars petro or otherwise as legal currency, as it is not supported by any asset based method. What this also tells you is America is bankrupt and has been a long time, with no assets to support a currency, we ended up with monopoly money and they transferred their debts onto us. We have been used as the collateral since 1933, rolled into paying illegal income taxes, birth certificates traded and yet still even after all that we have some people who trade their bogus currency for fresh air currencies, now called crypto currency, more like tales of the crypt 0 currency to me, are we all that desperate and insane to allow all of the above to happen against us? Where is the collective outrage? how and why have we allowed ourselves to be raped of our homes, lifestyles, livelihoods, inheritance and still vote for the same system and same people who have done to us? enough of this insanity and time to take back our dignity and ultimately our own personal responsibility in this complete charade. *John McCain health issues are a smokescreen, was removed *Remember in last show we spoke of the clowns trying to empty Chase assets accounts in a desperate attempt to stay in the game? well they tried again today, Bank of America glitches were due to an attempt by rotten children to steal all the money out of there and try to get allocations against it in GBP and South African Rand.. Unsuccessful and we expect everything to be restored by noon EST today

*well I suppose you all would like to know what happened on vacation, 85% vacation and 15% show related business. all of which went well. I was followed very closely on various days a full on military jets fly over which went on for 5-10 minutes as numbers of jets streamed and screamed out of a base there, then coming back, more jets either side of the vehicle in 3 sets of 2 jets all good fun, but not just military flybys either there is an example of which will be posted during music break being approached by an other worldly craft, and visited a town which shall remain un named which was the most strangest experience ever, I was spoken to by mountains, visited by spirits, a woman appeared behind me who never entered the shop, the towns people are the most curious, I took 6-8 pics in that town and not one person in the picture was facing me, all walking away, which was odd enough, town littered with portals, both good and bad, a heaven and hell you like. Town is memory wiped every 4 months so they cant remember what goes on. Town is like a movie set, people are the actors in the scene and it feels like being in late 1800's early 1900's times

* Update: July 11th The “2013 anomaly” covered by both Randy Maugans and I is in full swing. All the players and actors are returning now to play out their final scenes in a failed movie, one hopes we “see” through their illusionary masks better this time than 4 years ago. Articles will be repeated, various narratives from that time also will be relayed in a manner like it is all new and relative to the now, it is not. With the passing of 2016 and a failure again of the clowns, wannabe’s and psychopaths, and their lunatic schemes of control, and a complete subjugation of all living souls on this planet, we and they now have a blank slate to create a new way. Yes the clowns will have to adapt to the new way also, they have no choice going forward, as they are stuck here whether they like it or not. Events that should have been played out in 2013, will play out now. Those not operating in the better and new way will be exposed and will also expose themselves, this should have happened in 2013. On January 1st 2013 or now January 1st 2017 this planet has the opportunity to create (if you remember who you are) a new and better way of living (not existing) for the betterment of all, the looking glass technology proved that fact. The screen went blank on January 1st co-coinciding with the end of the Mayan Calendar (not a co-incidence), the screen going blank does not mean the catastrophic end of days the fear porn programmers would have you believe, unless that is what WE choose it to be. You want all the drama, war, strife in your life? then carry on manifesting it, or do you want to see a real change? The changes you want are all there within you, we all fell for the illusion outside of us, now do we carry on in illusion or face reality and be the real change. The hero of the day was never governments, gurus, bloodlines, royalty, Neo or ET’s. The hero of the day was always you - remember it and learn to fly.

*UPDATE A lot of chatter on blue avians and the OPPT crew return, time to let it go people, Dani and her entourage are the old paradigm. They are stuck in the old time loop. They are in the holographic 4 year loop matrix and will stay there, we just have to cut the cord and cast them adrift. We, time, and the organic living souls here have moved on to a different world, currently we are in the transition phase as I see it, operating in two worlds. As we release the old ways and paradigms, more of the new world will be seen and felt. More of your own masks will reveal the illusion you have allowed to be part of the real, you may see different sides of people both good and bad revealed in it's truest and raw form. Operate from the heart in WE and US, not the I and MY, Be service OF the self to be able to then be of service towards others. The future is now, the future was us. *In a previous update I made this statement only you judge you and not as religious dogma has told you that some man sitting in a cloud or at pearly gates is awaiting to pass judgement upon you, and also unlike what Aug stated today, we are not in a tribunal, period. *Heather Ann Tucci, Tucci is an Italian name, Italian names ending in I signify Rome mafia lineage, Italian names ending in O is Sicilian mafia Heather is an attorney in Washington State but also has a shipping and cargo business registration, funny enough there is a ship called Al Jarraf, which is a dredger and yes Heather, Dani The F'ing Mckenny, Lisa Harrison, Brain Kelly, Caleb Paul Skinner and Hollis Randall Hillner all of you are like the ship names purpose, you are bottom dwellers dredging up bs'ery of the highest order, so you have here is a legal and maritime background, with an Italian name all sounds very reminiscent of the Vatican control system of birth certificates and maritime laws bs'ery to me, a new boss same as the old boss, but lets switch names around so public wont get

it. Tucci meaning You like to control everyone within your influence, to shape things to your own liking **The Public Trust does give Absolute Gratitude and Grace in Absolute Love and Peace to the BE'ings known as "Poof", "American Kabuki", "Kauilapele" and Brian add Stillness in the storm who was also promoting it** **hmm Justin Deschamp appears again it seems, for serving the highest good of The One in unconsciously revealing the point of origin of "the boots on the ground" attempting to implement these purported "INTERIM GOVERNMENTS", slavery systems reorganized under CODE of canceled ENTITY and its CONSTITUTION, UNITED STATES OF AMERICA unlawfully and illegally purporting to be NESARA, NESARA LAW, with authority to release prosperity funds, inclusive of those in St. Germaine's Trust.** Hence, the failure of official announcement of Boehner as the "INTERIM PRESIDENT"...The BE'ings known as Barrack Obama, St. Germaine and others, have known from the beginning what the Public Trust was and is DO'ing, and they had knowledge of the methods and means used by the Public Trust to secure, guard, preserve and protect The One....and **on December 24, 2012, the Public Trust did officially notify them that the Public Trust was ready to initiate the public announcement process to "unlock" the hidden value and law...by assisting The One to consciously know that they BE and to consciously choose by their free will how they want to DO. do be do be do song** * On January 21, 2013, if and when an OATH AND BOND is consciously made, it is known by the "Powers That Were" and those consciously involved in the Absolute Plan that this OATH AND BOND shall be duly secured and REGISTERED, and effectively lawfully and legally replace any and all that were executed for the sole purpose of guarding the one people. *In July of 2015 heather did an interview American Kabuki about the sphere alliance, connecting the dots now? *they promised via the St. germaine trust everyone on the planet would receive \$5B in gold, this was in the middle of an economic crisis, people will believe anything to escape from the poverty, low pay environment, but in reality how would that fix anything? Who would do the dirty jobs? where is the incentives? some who are in alignment in themselves would find a better path and lifestyle, but many would follow the programming and just spend into oblivion, sadly on the lower aspects of life drugs, alcohol and consumerism. *Injecting large funds into any financial system is not possible without the assets to support, I mentioned last year about some of the clowns asking for \$160T and then Wells Fargo asking for around \$70T to insert into the economy, except said economy would collapse, banks would close and freeze accounts to prevent public panic and emptying accounts out due to public concerns, and it is 1933 all over again, A large injection of funds into the system is only for their benefit, they will pay off the multi leveraged liens and loans, derivatives losses and pay off mercenary groups that are currently circling them due to non delivery of funds being paid in real money, fire up the black projects designed against the people and the financial cycle of bs'ery rinse and repeat rolls out again. *HEALTH apps frequency issues, deeper thinking required by all on how tech interacts with us and its capabilities, stop adding apps to the phones that are not required *rape allegations 1- 6 american freshmen experiencing rape, not being addressed, but wish to cover and make statement **fulford speaking of loops now, coming soon an full exclusive world first from gaia tv with corey and david explaining how we are in a 4 year loop, OPPT bs'ery, Swissindo, Solar flares and EMP's, strawman accounts, UCC, NESARA, Gesara from the one who is called the one who knows jackshit, St

Germaine trust, ascension, 4D, 5D, archangels etc etc and the bs'ery just keeps on rolling, rolling, rolling song
