*Ann droid still hiding out in the UK and being heavily protected by Knights of Malta, but never one to miss an opportunity, Ann and the house of lords are trying to takeover the UK all designed to keep the Rothschilds in the game.

UK media and propaganda unit now staging a play of how the Rothschilds came to power from rags to riches, I hope people block the screening of this bs'ery, everywhere it is screened. One giant piss take on the people, Rothschilds are usurpers, they are not royalty or bloodline, but a group of incestuous parasites, made big on the back of a \$20M loan from reptillian dragon families group in China back in 1500's. Then stole britain when they had advanced warning of who won the war between britain and france in 1815, they told govt and stock market that britain lost the war, shares all collapsed and they bought them all up and then the real decision came through that britain had won the war and they had control of large swathes of assets and then used them to leverage against the country and ultimately gain control of it. remember the quote? by mayer amschel rothschilds Permit me to issue and control the money of a nation, and I care not who makes its laws! So they hope to achieve a faction power play and take over the UK along with international terrorist group Knights of Malta. MI6 also involved in it as well, threatening anyone that doesn't support unsanity or have psychopathic tendencies. House of Anu's erm lords role in it is playing up to the Chinese elders with plenty of ass kissing, how many times due chinese elders have to tell these goons they have no money, no assets and no power to run or implement anything. Rothschilds in reality are in big trouble, ya see if someone doesnt keep paying their bills, sometimes people will react badly to that scenario.
