THI does not do fear porn, or clickbait headlines of no validity, is not interested in how many likes, how popular it is, it is only interested in the family community it was created to be are doing, it is about learning and caring for each other, not service to self, so when warnings are put out, I ask all to please heed them. Tonight's show will be a roller coaster ride of emotions, it is important to stay in balance, please take time if you haven't done it already to shield up before listening to tonight's show. Enjoy the show. Are you ready. It is with great sadness and heavy heart for those of you in THI and CV who knew LunaLisa Dougherty, to announce she passed away Monday at 3.42pm PT from a stroke at the tender age of just 56. LunaLisa battled through a number of life's illnesses and also personal traumas over the last 3-4 years in particular, but always came back out fighting and soldiered on, fitting in some ways she died on Labor day, as Lunalisa labored on through many hardships and battles. This time her battle was too much, and her time and battles on the 3D plane came to an end, I know she will battle hard on the other planes and will no doubt meet many of us again in our "dreamtime". Condolences to Lunalisa's family, friends and associates, she will be missed by many here and at Cosmic Voice, spend a few minutes in remembrance of one of our more popular members and the memories she brought to you and us. As the focal point of the group these events hit me harder than most, THI was created to be like a family for us all, so if one goes, I feel a part of us all goes with them, it's unique and fantastic that a group of people who most us have never met each other, have gained those type of feelings for each other, and an example for the rest to follow. You should all be proud that you have contributed to that family spirit, I can only show the path, I cannot make you walk it. Lunalisa is now out of pain and out of suffering and for that aspect we must be grateful for, she will be missed by many of that I'm sure, but lets make sure her passing, plus Rodney, Pat and the young Jones lad is not in vain and we step up our efforts further to fill in the gaps left. RIP LunaLisa from all at THI

* A raft of ex agency guys are now in running for elections as Democrats in latest attempt to delay inevitable, Abigail Spanberger, Ellisa Slotkin, Patrick Ryan and Jeff Beals to name but 4.

*Hearing RV is now cancelled as of Saturday morning, this will set off a raft of activity, as minions supporting it have lost faith in it in large numbers, this included CIA and NSA and why servers went down, this was a rebellion in their own ranks as they haven't been paid, told ya the tide was turning.

*Portal people at division tactics again this time over Trump's response over Mc Cain funeral, ignoring that McCain said he didn't want him there, which is a classic divide and conquer tactic in and of itself, but Trump ignoring personal bric brats, knows full well the

real truth about McCain, he said his respects to the family and stepped back, but portal people would have turned on him and called him fake if he turned up at the funeral, he honored the family wishes and stayed away. Portal people will pay a heavy price in the coming weeks and months when public turn on them en masse for lying through their teeth. Good luck with that portal people.

* All major banks WILLINGLY allowed Hercules to siphon out funds on Tuesday with the promise they would get that and much more back by Friday. Hercules crashed there for Citi, Wellsfargo, BofA, JP Morgan are all at a negative liquidity, Not just a little negative... but in excess of 30% negative

One you take digital dollars out of the system you need an allocation number to bring "new money" into the system which is what it is considered

*At 5.04pm est today the clowns fired up a new system which they were trying to make out was a quantum system, it's not, was a rerun of old Hercules system, system 5.0 we watched we waited they failed and we boomed it at 5.12pm est This was another attempt at Quantum system from wright patterson which is controlled by SSp, I don't think will like too much the damage that was left after that attempt, consequences of actions in it's full glory.

*Gen'ral's gathered in their masses, Just like witches at black masses Evil minds that plot destruction, Sorcerer of death's construction In the fields the bodies burning, As the war machine keeps turning Death and hatred to mankind, Poisoning their brainwashed minds Oh Lord yeah

Politicians hide themselves away They only started the war Why should they go out to fight? They leave that role for the poor, yeah

Time will tell on their power minds, Making war just for fun Treating people just like pawns in chess, Wait 'till their judgement day comes, yeah

Now in darkness world stops turning, Ashes where the bodies burning No more War Pigs have the power, Hand of God has struck the hour Day of judgement, God is calling On their knees the war pigs crawling, Begging mercies for their sins Satan, laughing, spreads his wings

*Trump had to cancel schedule Monday due to significant threats. Urgent message to Trump that must be heeded, that General guy you are taking orders and advice from is leading you astray, he is SSp and another one of the head of the black dragon group. You

will fail badly if you continue to listen to that clown, take appropriate measures quickly or pay the price.

*Attacks on our group and members have increased rapidly over the past month or so, a range of viruses and other ailments, meddling with cars, psychic attacks and 2 members with strokes, 1 survived 1 didn't. Now some may think these are all co-incidences, I can assure you they are not. I rarely give warnings out on this show unless it is essential, we have all had enough of the fear porn riddled throughout the internet, and I don't wish to add to it, but I have warned in the past month of a ramp up of attacks, they don't just attack me you know, it's all of you. Sometimes they cant target their main point of attack, so they target those around them to try and create cracks and weaken the structure of the group, that makes you all vulnerable. They have a range of weaponry to attack that most think it science fiction and the future, but I kept warning you technologies are the past not the future, from inducing strokes to heart attacks to aneurysm's, I spoke recently about they have tailor made viruses to target specific groups and not just blacks either, too often ignorance allows much to carry on, whilst they carry on unhindered and blazing a trail of death and destruction. This is why I have given up much of my life as I will not sit back and rest and allow these fucking incestuous hybridized fake god worshipping psychopaths to continue operating for one day longer than it takes to bring them down. Our own ignorance has played a part, psychic attacks that cant happen to me, inducing strokes or heart attacks don't be silly that is all fiction in James Bond movies, that technology is years away, well we have paid a heavy price for that ignorance, and I hope this show and platform has given you all a chance to get the bigger picture and a grasp of what is, and has gone on here for thousands of years, and in many of your own lifetime memories here. Lets do a review of the psychic attacks, these are sharp unannounced pains that form into a small mass about the size of a quarter above either eye around the temple area, no it is not some random migraine or headache, it is what it is and you ignore it at your own peril, the split second it starts you have to go into action, don't sit around rubbing it and hoping it goes away, envision yourself putting a ring or box around the site and then envision you expelling that mass out of your body and with message return to sender x 10, no more than that is required, as controlling and expelling it takes away some of your life force energy, it must be used wisely, as it is not easily or always replenished, so no times 50, a 100 or more please, 10 is enough for sender to not repeat 95% of the time, if it returns repeat the same steps until it is gone. We did the grounding, centering and shielding documents available on files section on the FB page and also available on the thinkdifferent website to benefit you all and preparing yourselves for these times, I know many of you are using it and have gained a big value from it, the grounding and centering is important that you are anchored in the now, and centering is all about balance, we have mentioned many times of the 45/55 balance aspects that

should be applied in many aspects of your life, not just the adrenaline levels, but how you react to situations, if you are coming at something at 90/10 with over reaction, you end up off course and reacting in a wrong way, which most tend to regret at a later date, before you interact in any situation it is best to breathe and go 45/55, a 5% swing is easy to pull back to center, 90/10 is not. But the important aspect of that document is the shielding, it is where you get to use your own magic, but you must believe in it for it too hold and protect, 1/2 hearted attempts at it, leads to a half arsed shield that will be penetrated. Each will have their own shield and your own imagination and magic will decide what is best for, an oval shape around you that goes beneath your feet is a common one, a 1/2 moon dome over you will not cover what is below, so be careful many make the mistake of only going to the floor, dark spirits or entities with no physical form know no boundaries like floors, walls or ceilings. My own favorite is a cone shape wider at the bottom and narrowing over the head, but seal the floor first, I see a blue and white spiral coming up from the floor up to the head, word of warning if you see it and it stops or stalls somewhere on your body or the person you are helping, it means you or the other person is blocked at that energy center with this method of shielding, so it is not just a shield it is a scanner as well, you don't want to shield in an attachment do ya? remove obstacle with blast of energy from the feet up and through the crown, and continue with spiral, the outside of the spiral I use contains fire which consumes those who approach too close, like an early warning system, which is rather effective for the few who have witnessed it close at hand. What you choose to put as a warning or non invasive alert is your own choice, it is only limited by your own imagination or belief in it.

*I want people to ponder on the following questions as it needs to be pondered on 1. cabal step down and alt media party, what happens next? 2. mass arrest of politicians and they are dealt with suitably, what happens next? 3. Kim releases the funds, what happens next? 4. All false flags exposed as such, what happens next? 5. What happens if people just celebrate the above and carry on life as normal? what will have changed? are you just content that cabal lost, or you are not considered nuts or a conspiracy theorist anymore? will you go around saying I told you so? or will you step into a proactive, creative role with personal responsibility and be the change?

"Our Deepest Fear is Not That We're Inadequate, Our Deepest Fear is That We're Powerful Beyond Measure It is our light, not our darkness that most frightens us. Your playing small does not serve the world There is nothing enlightened about shrinking so that other people won't feel Insecure around you We were ALL meant to Shine as children do It's not just in some of us, it's in EVERYONE. And as We let our Own Light Shine, We unconsciously give other people permission to do the same As we are liberated from our own fear Our presence automatically Liberate Others -Marianne Williamson

*Something else to ponder, but what if and big if we are going towards a more crystalline based human, how will adding more carbon based products like C60 help that? just a pondering.

*A pact of five nation states dedicated to a global “collect it all” surveillance mission has issued a memo calling on their governments to demand tech companies build backdoor access to their users’ encrypted data — or face measures to force companies to comply. The international pact — the US, UK, Canada, Australia and New Zealand, known as the so-called “Five Eyes” group of nations — quietly issued the memo last week demanding that providers “create customized solutions, tailored to their individual system architectures that are capable of meeting lawful access requirements.” This kind of backdoor access would allow each government access to encrypted call and message data on their citizens. If the companies don’t voluntarily allow access, the nations threatened to push through new legislation that would compel their help. “Should governments continue to encounter impediments to lawful access to information necessary to aid the protection of the citizens of our countries, we may pursue technological, enforcement, legislative or other measures to achieve lawful access solutions,” read the memo, issued by the Australian government on behalf of the pact. Another proof of what we state in the show is not a load of made up nonsense, but actual facts ahead of the game.

*Kim and the trust arranged a number of transfers into America last week and was approved by The Treasury, DOJ and Homeland Security on August 31st for clearance into recipients accounts, in came clowns first Rothschilds threatened the banks involved and then clowns came in with a new bank directive to state no one is allowed over a certain amount in their account as from September 14th, except the amount was already cleared on August 31st for deposit into the accounts, these people are beyond stupid. Funds are still sitting there for release as they are unable to touch them. One bank was attended to by FBI and Treasury to enforce the deposits, they got the run around from that bank and left, but will return with heavy enforcement, paperwork, warrants and delve into that particular banks records, we know what is in there and so will they after it is finished, that bank and its top people will go down. The transfers have now all cleared and the banks involved have not credited the accounts, those banks have chosen to not work with The Trust, fair enough, those banks and every other bank will need to listen closely to the next piece, you will not be warned we will just act, your choice. So a meeting was arranged between Kim, I and the team and we decided more stringent actions needed to be taken and the following was unveiled, As of today The Federal Reserve under several banking acts including the fact their charter ran out 2012-2013 time period, and the trust who holds all allocation numbers for every single US dollar has decided to totally revoke their license, and that means they can no longer process, hold or transact in US dollars any more, given 85% of the world's trade is in US dollars it means they can no longer operate as bank within America, all processing, printing, holding and

trading has been handed over to The Treasury. Should any other bank block, delay or fail to credit the trust transfers you will also meet the same fate, no warning, just cancelled. Fed is confirmed down White House is aware, so is treasury

*now is the time for holding your nerve, a time to be the strength not the weakness, we are in the midst of change which frightens most, learn to embrace change, accept truth as your new religion, the truth does not just apply to the cabal, but your own truth as well, be yourself and if you don't like aspects of yourself, change it. We must stand tall now more than ever, personally I would sooner die fighting for change, than carry on in a pedo, greedy, service to self infested world, riddled with fear, cowering in a corner fearing this and that and fearing change, that has not served us well to date. This time we face our enemy in all it's hidden guises, this time we face our own pain, trauma and fears, this time the darkness fades and our own light shines brightly for all, you all have it in you, you just forgot. Time to re-member.
